Attention: Planning and Development Department

SUBJECT: CONTRACT NO. C1232 – CENTENNIAL 2635 ZONE RESERVOIR AND
2745 ZONE PUMPING STATION, EXTENSION OF TIME REQUEST FOR
SPECIAL USE PERMIT SUP-29206 (JUSTIFICATION)

On November 5, 2008, the City Council approved the above-referenced Special Use Permit submitted by the Las Vegas Valley Water District (District) for the construction of a 100-foot tall radio communication tower, located at the intersection of Centennial Parkway and Fort Apache Road. The Notice of Final Action was filed with the Las Vegas City Clerk on November 6, 2008. This Special Use Permit is in conjunction with the Site Development Plan Review (SDR-27508) approved by City Council on June 4, 2008 in which the Notice of Final Action was filed with the Las Vegas City Clerk on June 5, 2008. The District has proceeded to design the facility and has placed the project on hold. As of this date, the design is approximately 100 percent complete.

The District respectfully requests a three-year extension of time for the proposed site improvements associated with previously approved SUP-29206. The following points are offered as justification:

- Due to current economic conditions and budget concerns, this project has been placed on hold.
- The associated facility consists of specialized components (pumps, surge tank, electrical equipment, fabricated piping, etc.) that require custom fabrication and, subsequently, a prolonged construction period.

If you have any questions, or require additional information, you may contact Joseph Lin, P.E., Engineering Project Manager, at (702) 875-7062.

Sincerely,

Peter J. Jauch, P.E.
