Budget Funds Available

Amount: \$3,324,000

Funding Source: General CPE

Dept./Division: Public Works

PURPOSE/BACKGROUND:

Services to be provided under this contract include the purchase of approximately 6,600 energy efficient fixtures and installation of approximately 4,500 of these fixtures. The City estimates a 40% per fixture reduction in energy usage. This technology sets a new City standard for operational requirements to reduce the City's carbon footprint. These fixtures also are in line with the nationwide Dark Sky Initiative which reduces light pollution by shining more light downward where it is needed and not upward to the sky where it is wasted. Funding for this project is provided by the sale of Qualified Energy Conservation Bonds.
