PURPOSE/BACKGROUND:

This Resolution will confirm that the City Manager or a designee is authorized to approve and execute interconnection agreements for net metering of renewable energy generating facilities. As a customer-generator of renewable energy under State law and regulations, the City of Las Vegas is eligible for rebates under Nevada SolarGenerations program. In order to be (and to remain) eligible for those rebates, the City must be able to execute interconnection agreements under strict time lines. This Resolution will help ensure the City's ability to participate.

RECOMMENDATION:

Approve this Resolution and authorize its execution on behalf of the City
