STATEMENT OF NEED

Historically, the City of Las Vegas has been one of the fastest growing communities in the country and most of this growth has occurred in the northwest sector of the City. Even though growth and development have dramatically decreased in the valley, it is imperative that the city plan for the future in order to provide parks and recreational facilities in areas of future growth.

It is also imperative for the City of Las Vegas to plan, acquire and develop recreation facilities in a timely manner, and to ensure that these services will be available when needed. Due to revenue reform at the state and federal levels and the budget constraints of a growing community, the City finds it necessary to minimize the cost of park site acquisition.

It is intended that this project will provide a location where individual recreational needs will be possible. The park will be geared to all ages and abilities. The facility will include both group and single table picnic shelters, a dog park, a children's splash pad play area, a shaded children's play area, meandering interpretive walking path/trail, parking, restrooms and open space.

3. To develop and manage the land in accordance with the approved program of utilization submitted with this application.
4. To secure the approval of the Secretary of the Interior or his delegate on all plans of construction prior to commencing actual construction.
5. To maintain in satisfactory condition the facilities on this land.
