

BOCA PARK MARKET PLACE

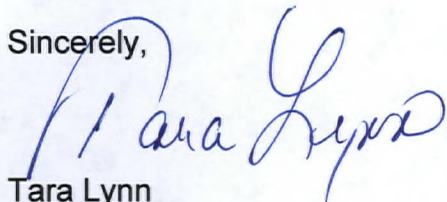

Architectural Review Committee

RE: Special Use Permit and Design review for the yeshiva Day School

The Boca Park Architectural review Committee has reviewed the application for the Yeshiva Day school at Boca Park and are in support of the project. We believe this will not negatively impact the existing tenants in the center.

The school will be located on this site on a temporary basis during the fundraising period for a permanent structure (to be located else where). Boca Park Market Place landscaping exceeds the City of Las Vegas standards. With the existence of the burn with intense landscaping to the east, we are in support of the waiver of the landscaping required by the Boca Park Market Place Master Development Plan and Development Standards dated January 10, 2000.

Sincerely,

Tara Lynn
Manager
