ZONING/LAND USE CONFLICT EVALUATION:

- 7,738 parcels with inconsistent Land Use and Zoning designations
- Three types:
 - Mapping errors
 - Undeveloped parcels
 - Developed parcels

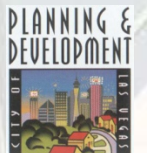

MAPPING ERRORS

- Example: a General Plan designation inadvertently applied to right-of-way; errors can be corrected administratively

UNDEVELOPED PARCELS

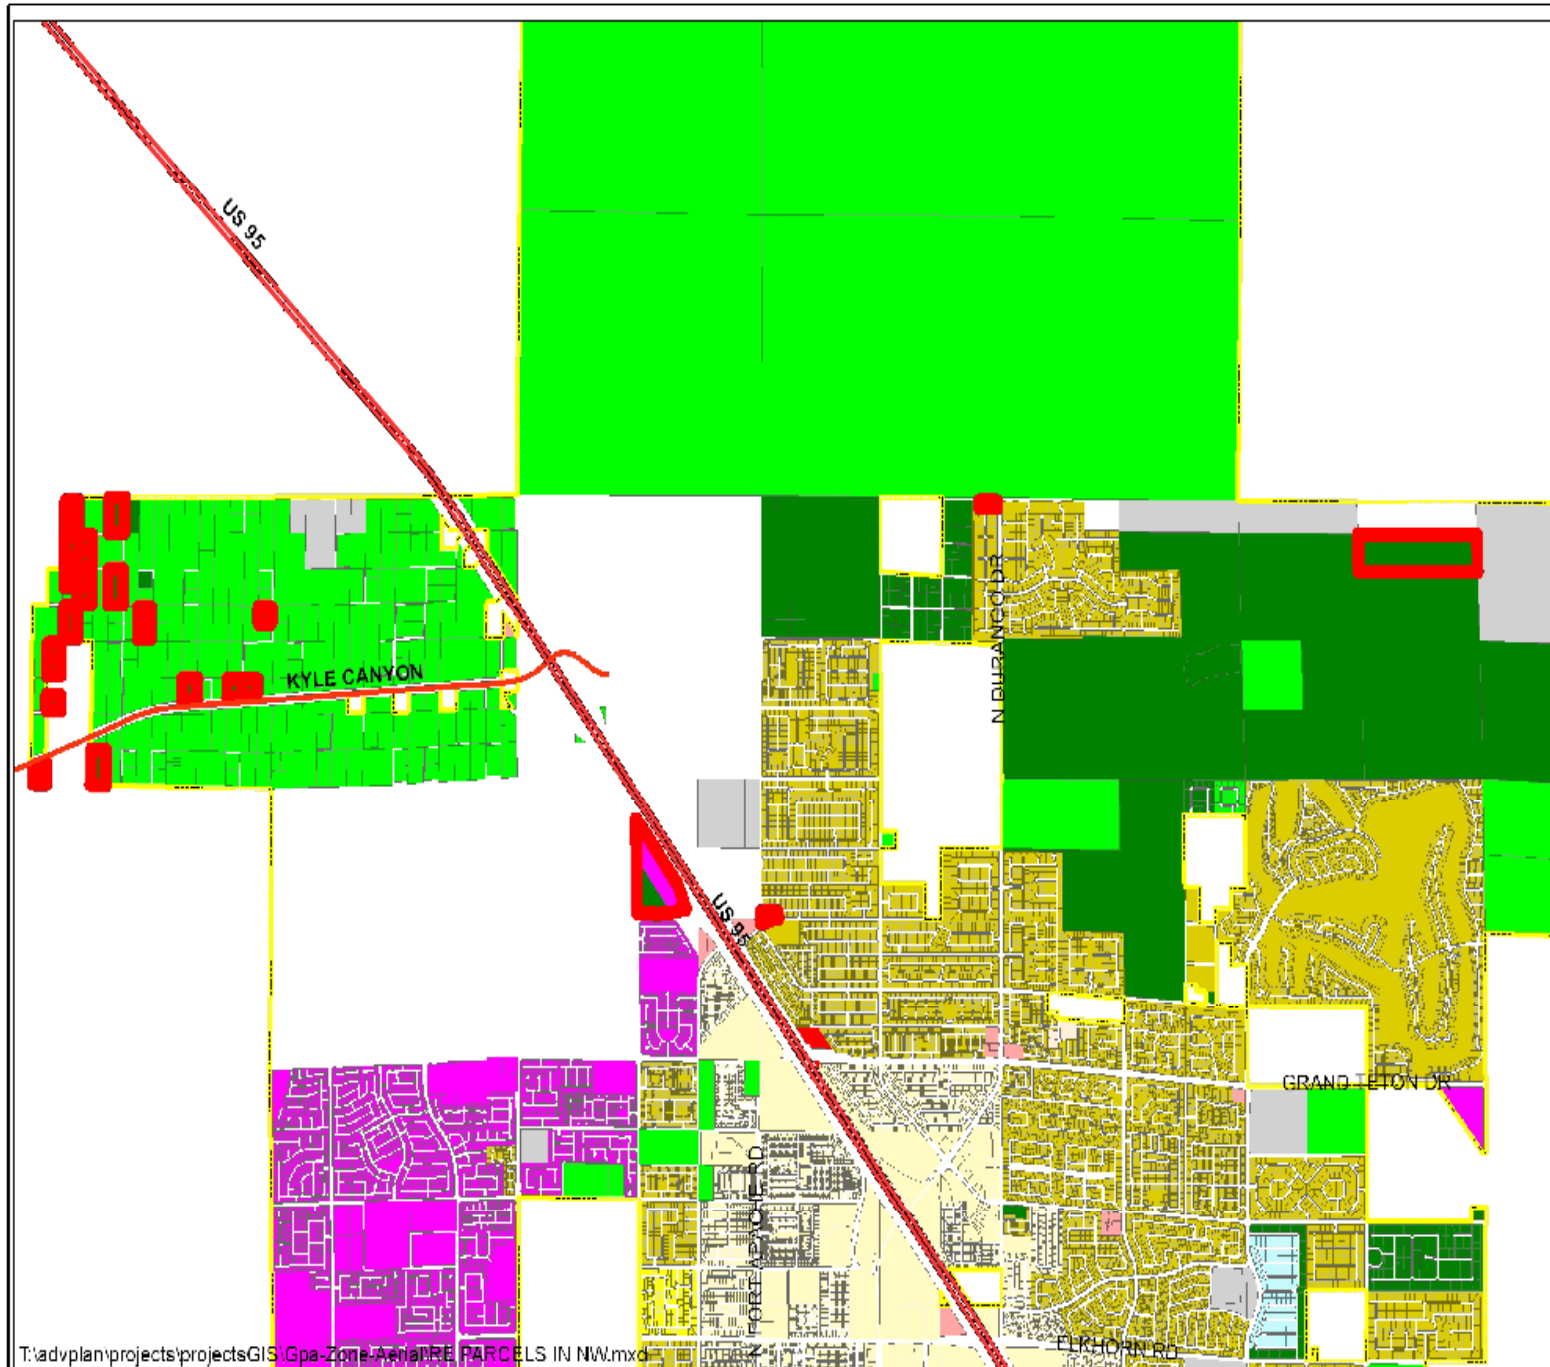

- Majority of these parcels are:
 - Have a General Plan designation of PCD
 - Are currently zoned R-E (Residence Estates)
- R-E zoning is being used as a temporary classification
- No action presently

DEVELOPED PARCELS

- Received zoning entitlement prior to 1992 General Plan
- Prior to that Plan, non-conforming zone changes were accepted
- Approach:
 - Identify all developed parcels where this situation exists
 - Prepare General Plan Amendment/Rezoning applications as necessary for consideration in early 2010
