

Opposition to: ZON-34775; SUP-34776: SDR-34777

Dear Las Vegas Planning Commissioners:

Our neighborhood association is opposed to Clark County and UMC creating further traffic gridlock on Charleston Blvd. by their planned creation of a 275 car parking lot, operated 24/7. And possibly, 600 people per day may be forced to cross Charleston without a crosswalk, increasing chances of pedestrian/auto accidents. There has been no impact analysis of this project on traffic or surrounding neighborhoods.

On September 24th, we ask the Las Vegas Planning Commission to deny Zoning changes and Special Use Permits to create parking lots designed to disrupt traffic, as well as economically impact on surrounding neighborhoods.

Re: **ZON-34775**, SUP-34776, SDR-34777

Dear Las Vegas Planning Commission Members:

The city of Las Vegas Historic Preservation Commission (HPC) is writing this letter to express opposition to ZON-34775, SUP-34776, SDR-34777 which involves the demolition of a single family home located at 1128 Shadow Lane, and allowing a re-zoning from R-E (Residential Estates) to P-R (Professional Office and Parking) for a parking lot to be operated 24 hours per day, seven days per week. The building is in the Scotch Eighties, a historic residential neighborhood.

The HPC feels that the demolition of 1128 Shadow Lane and resulting traffic impacts will have a negative impact on the historic integrity and potential eligibility of the neighborhood for designation on the National Register of Historic Places. Further, the city's Master Plan 2020 Goals give high priority to the preservation of single family neighborhoods.

1128 Shadow Lane has been determined to be over 50 years and falls within the HPC's interest in preserving such homes. The home acts as a buffer between commercial and residential. The Scotch Eighties Neighborhood in which this application is proposed is well known for its 1950's-60's style of single story ranch architecture on large lots. More specifically the neighborhood has historic character as to the present and former owners, many of whom are and were of major importance in the city's early growth heritage.

The Historic Preservation Commission opposes approval of the demolition of this home and construction of a parking lot for its impact on a potentially historic neighborhood.

Sincerely,

Robert Stoldal
Chairman
City of Las Vegas Historic Preservation Commission

Comments: I AM VERY CONCERNED ABOUT
THIS DEVELOPMENT PROPOSAL

CC: Councilwoman Lois Tarkanian (Ward 1) FAX: 382-8558

RECEIVED
JUL 28 2009

developers continue to encroach into our historic single family residential neighborhood. We are concerned that this re-zoning of *residence estates* to *commercial* is only a symptom of a larger more destructive malaise against quality urban family lifestyles. We can easily foresee on the horizon the movement of 'business medical offices' into former family housing units due to the apathy of the Planning Commission and City officials.

We respectfully seek a postponement of the above referenced Commission rezoning items on July 23rd. We are more than willing to work with Clark County (UMC) to see if there is any resolve to our concerns.

Very truly yours,

Stephen Grogan, President

Scotch Eighties Home Owners Association

Protest

Re: **OPPOSITION TO AGENDA ITEMS 17, 18 and 19**
July 23, 2009 Commission Meeting
ZON-34775, SUP-34776, SDR-34777

Dear Hon. Chairman and Hon. Commissioners:

I am opposed to the passage of the three referenced subject items, and would like my statement to be read aloud at the Commission Meeting to be held July 23, 2009 and entered into the record.

I am the owner of property located at 1120 Shadow Lane. My property and its occupants will be very substantially impacted by the proposed zoning variances sought. These zoning deviations effectively will result in surrounding my property with a paved parking lot, where now there are houses and house lots with trees and green space. My commitment to the Scotch Eighties neighborhood and to maintaining its serene environment compel me to oppose this proposed encroachment.

In particular, the entire south and west boundaries of my property are common with the property where the zoning changes are sought. The residence house at 1128 Shadow Lane borders my south boundary in its entirety. The proposed zoning variances would destroy that residential home and turn it into a parking lot, with an automobile opening into and from Shadow Lane which, at that location, is now a residential street. That house at 1128 Shadow Lane is an essential buffer to the surrounding neighborhood, providing important residential trees and green space esthetics which now affords quiet enjoyment to the neighborhood, buffered from traffic on Charleston Boulevard.

RECEIVED
JUL 21 2009

Submitted after final agenda

Date **7-23-09** Item **17-19**

The proposed new zoning and construction calls for the utter and complete elimination of that residential house, and replacing it with a paved, 24-hour parking lot. The ingress and egress opening for that proposed parking lot calls for heavy commercial traffic encroaching a very substantial distance further into what is now the interior of the Scotch 80s neighborhood.

Yet further, there will be pedestrian traffic across the entrance into my parking area where now there is none. I am concerned for the safety of those pedestrians as well as the safety of patients coming into and leaving my property.

I, along with others in the neighborhood, are distressed that there has been no environmental impact study detailing and quantifying the obvious impact of increased commercial traffic, both automobile and pedestrian, within what is now a quiet, desirable residential neighborhood. Further, there appears to have been no consideration for the elimination of an historic single-family house. If any zoning variation is to be made, at the least additional time should be afforded to make these important investigations.

I would be responsive to some kind of compromise that would consider parking north of current residential homes, with ingress and egress only to Charleston. However, the present application is otherwise, and seeks to have me surrounded by 24-hour paved parking. I oppose the present application in its present form.

Respectfully submitted,

Thomas A. Turner, Jr.

cc: Hon. Lois Tarkanian,
Councilwoman, Ward 1

Protest

The Las Vegas Planning Commission
City Hall, 1st Floor
400 Stewart Avenue
Las Vegas, Nevada 89101

Dear Mr. Chairman and fellow Commissioners:

It is with utmost urgency and concern that we write you this letter, to strongly protest and voice our opposition to a application that Clark County and University Medical Center (UMC) is submitting to the commission, seeking to change a residential zoning to a commercial zoning and in order to construct a 270 space parking lot in my residential community. We are herewith referencing ZON-34775, SUP-34776 and SDR-34777 as indicated in the public records. Our opposition is not to suggest that UMC/Clark County need for a 270 space parking lot is without merit; and as we do not have any information regarding this proposed public expenditure. However, it is our belief that a 270 space parking facility at the proposed location is not in the best interest of residents of our historic residential community; this is not to suggest that our community standards take precedence over any other community. As a matter of fact, the issues of safety and security should be paramount in any decision to allow for a facility referenced in the above zoning that the petitioners seek. The current traffic conditions going North on Shadow Lane towards Charleston is difficult and extremely challenging for most of the residents of our community; one can only anticipate the compounding traffic horrors if ingress and egress into Charleston and shadow Lane are ever allowed. Most of the residents in our community are progressive and professional individuals that subscribe to the development of our institutions, and the culture in which they operate. However, this does not mean that we will or should subrogate our rights as citizens. However, it would be totally irresponsible if we as a community allow this proposed project by the petitioners to go forward without challenge at the highest levels possible. It is our hope that you reject the petitioners request for a change in zoning from residential to commercial, and deny the application for a parking for a parking lot. Please feel free to contact us if you need further information regarding this matter.

Respectfully,

Meichu Carter

Clyde A. Carter

SUBJECT: ZON-34775; SUP-34776; SDR-34777

I recently faxed in my postcard opposing the conversion of a sizeable chunk of my neighborhood into a 24-hour parking lot for UMC. It seems that very little consideration was given to the ramifications of such a project to the long-term viability of the Scotch Eighties, and I felt the need to amplify upon my opposition.

For me, personally, there is a triple whammy associated with this project.

First, the amount of traffic that will be generated by a 270 unit parking lot exiting into The Scotch Eighties will convert the road my home abuts, Waldman Ave., from a quiet neighborhood lane into a major thoroughfare. We have already experienced a degree of this, and I was one of the people supporting the gating initiative in order to keep the Walden/Rancho intersection from becoming the primary shortcut for people "in a big hurry" to avoid traffic on Charleston Ave.

Second, it recently came to my attention, through the good offices of our neighborhood association, that the developer of this parking lot, either directly or through affiliated business entities, has acquired five single-family residential homes on Westwood Drive that abut the subject property. Is there any question that these properties will soon be demolished to become a commercial project and possibly additional ingress/egress for the proposed parking lot? I assume that the same fate awaits the rather nice home that is part of the subject property on Shadow Lane. Surely it's not the goal of the Planning Commission to convert our historic single-family residential neighborhood into more strip centers/parking lots/doctor's offices. If this project is approved (with the concomitant Westwood Drive properties soon to follow), there is little question that the people owning homes on the adjacent Park Circle (beginning with myself) will be looking to move away from resulting commercial/residential mess. Can the rest of the Scotch Eighties be far behind?

Finally, as a regular recipient (along with my neighbors) of the kind attentions of the vandals and thieves who have regularly victimized our properties in recent months/years, I am loathe to further our exposure to these elements with increased traffic across Charleston Avenue into the Scotch Eighties. Also, while I have sympathy for the homeless people who seem to get their medical attention from the facilities on the North side of Charleston, we already have permanent representation of this population in the commercial parking lot(s) on Shadow Lane between Ellis & Charleston and would prefer to not have them move deeper into the Scotch Eighties with this new project.

There are numerous other issues that concern me regarding this project; such as how are people going to get from the lot across Charleston without regular fatalities, how can we adjacent homeowners tolerate the noise & light of a 24 hour parking operation, why is this being pushed through the zoning process on such as expedited basis, etc.? I keep coming back, though, to how my county government could *even consider* approving such a potentially damaging, "blockbusting" debacle without considering what will happen to the surrounding neighborhood. I have seen the already "approved" elements on your website and have to wonder: what's going on here? I can only hope that our Councilwoman, Lois Tarkanian, will intercede on behalf of the Scotch Eighties.

Sincerely,

Herman Fox

Re: ZON-34775; SUP-34776; SDR-34777 (Meeting 7/23/09)

Dear City Planning Commission:

I want to respectfully voice my opposition to the proposed rezoning of the above-mentioned property.

I live on the corner lot diagonally opposite from the mentioned property and stand to suffer greatly from the proposed changes to the zoning.

I moved to this neighborhood because of its strict zoning (R-E and R-1) and large lots, quiet streets and residential community with historic old houses. Now I am being faced with having a large concrete parking lot across from my house and massively increased vehicle traffic 24/7. I never would have purchased my home here if I thought this would ever be a possibility. I felt I was pretty secure in the preservation of this neighborhood, as there are quite a few Las Vegas personalities in the neighborhood who would also be concerned about keeping the quality of the neighborhood intact.

The idea of tearing down Mrs. Ellis's house to create a parking lot is tragic. The street is actually named after her family! She lived in that house until recently, when she died – well into her 90's. Doesn't that seem like something to preserve at least as a house that other families can enjoy and live in and not to become a parking lot? I believe it has been here since about 1954 and the property and grounds are lovely with a beautiful large old tree on the front lawn. And that characterizes this whole neighborhood.

I would ask (actually I would beg) that there be a very careful examination of this action before taking such drastic steps that will affect so many residents in such a negative way. Please do a full and thorough study of the following:

1). Is the additional parking even necessary? Are there any other vacant lots attached to the UMC project not in use that could be used for this purpose? I believe there is a very large piece of land devoted to the UMC master plan, and that does not include property on the other side of Charleston. Just the thought of all those workers crossing such a major street at all hours of the day and night has to pose some safety concerns.

2). A careful analysis of the traffic impact on the Scotch Eighties neighborhood. Also noise /crime/trash and any other issues that result from a 24/7 parking lot that is not secured with a large complex.

3). Is it standard to reverse the strictest residential zoning of R-E just because there is a request for a parking lot? It seems that this kind of request should only be undertaken in cases of extreme emergency, otherwise, what kind of protection does a homeowner have? I was under the impression that it was very difficult to change zoning and it was only done in very dire circumstances. I don't think a parking lot qualifies.

4). This kind of rezoning will destroy any remaining market value of our home at a time when homeowners are under extreme duress. Is that fair? Is it necessary just so others can make more money by selling a piece of property that would otherwise sell for less as residential use? What impact will it have on my other neighbors? I believe it may bring some of them right to their knees. We moved to this neighborhood because we thought it would be protected, since it is old and historic. This re-zoning will erode the quality of the neighborhood and perhaps lead to its eventual complete decline.

I strongly oppose all three above measures and am available for questions at any time.

JUL 21 2009

LAS VEGAS
JULY, 18, 09

ZON-34775; SUP-34776; SDR-34777

I strongly oppose the request for rezoning the P-R zoned land in ZON-34775; SUP-34776; SDR-34777, Planning Commission Agenda Items: #17,18,19.

Has a study been made to assess the traffic and safety impact such an extreme rezoning would have on this historic old neighborhood? UMC appears to have plenty of land available on the other side of Charleston for parking, offices, etc. I believe it is factored into the master plan that was developed for the area. New spaces for UMC parking were just completed opposite the property in question.

This entire area is being turned into one large parking lot and is ruining any property value remaining for its owners and encroaching and eating up the residential nature of the neighborhood.

The mall adjacent to the proposed application has a large parking lot.

Del Taco has parking.

Wendy's has a very large parking lot.

From Shadow Lane to MLK, there is excessive parking, including the church, on the side along Ellis Avenue, there is even a two level parking.

What is the justification for additional parking?

Furthermore, Charleston already has heavy traffic going east towards MLK. It would seem there would be a lot of the people exiting the proposed parking area that would attempt to use Ellis and Shadow Lane as exits, which are residential roads, in a residential area.

The house which stands on the current lot, was owned by Ms Ellis until she recently died and John Bielinski purchased the property from her estate. The street is named after her and that should imply that it might be a little historic. I have heard that Mrs. Ellis and her husband were the first people to settle here on the west part of town in 1953 or 1954.

This (Scotch Eighties) is one of the oldest Las Vegas neighborhoods, it is residential and needs to be protected from further encroachment. This is the border line between Charleston and the entrance to Scotch Eighties -it is a residential area, we don't need additional parking or office, it should stay the way it is as there is no evident need for additional parking. The current zoning of the land under question clearly indicates the intent that this remain a neighborhood area with large lots. R-E is the most restrictive zoning available in this area and to take that property and turn it into a parking lot is a travesty.

Planning Commission Meeting Agenda Items Numbered 17, 18 and 19

To Whom It May Concern:

Please be advised that the undersigned are the owners of the property located at 1125 Shadow Lane, Las Vegas, NV 89102. This parcel is directly opposite the property referenced above.

We have owned this building since February, 1991. We made subtle changes to the building when converting it to office space, taking care to preserve the external appearance of the building and property as well as the character of the neighborhood. Our office is a small law office that brings very little traffic into the semi-gated Scotch Eighties neighborhood. We have enjoyed a cordial relationship with the residents of the area for nearly twenty years because we have been respectful of the serene and domestic nature of the area.

We are disturbed at the prospect of dramatic encroachment of the immediate area by the continuous movement of hundreds of cars on this residential street. Without further development, northbound traffic on Shadow Lane already stacks up at the intersection of Shadow Lane and Charleston.

Specifically, we are opposed to the following:

- the re-zoning of the subject single-family property at 1128 Shadow Lane from Residence Estates to Professional Office and Parkings and
- the issuance of a Special-Use Permit for a Proposed Parking Lot, Commercial and a Waiver to Allow 24 Hour Parking

Finally, we have not been served with any notice of this plan or hearing with the exception of viewing the signs posted recently on the face of the fence surrounding the property.

Sincerely,
CAL J. POTTER, III

We believe there will be a major traffic disruption to our neighborhood as the parking patrons exit onto Shadow Lane then to Waldman or to Ellis. Edgewood Ave is Not a Thru Street and we see at least half dozen cars try to bypass Charleston Blvd every day. If approved there will be many more vehicles entering and u-turning jeopardizing the families that live on this road. Waldman already has its form of traffic; we don't need additional people using Waldman as if it were Charleston Blvd.

Edgewood Ave is Not a Thru Street and we see at least half dozen cars try to bypass Charleston Blvd every day. If approved, there will be many more vehicles entering and u-turning when they realize that there is no exit at the end of Edgewood. These people will drive fast and dangerously trying to make up for the loss of time further jeopardizing the families that live on this road.

Every once in a while we have someone who speeds down Waldman Ave. in the hopes of beating the traffic. Currently those are few, and far between, but if approved Waldman would become a nightmare of speeding vehicles, trying to enter Rancho; many of who will illegally turn left onto Rancho, further endangering lives and property. We don't need additional people using Waldman as if it were Charleston Blvd.

Additionally, there are only three (3) access/exits from Charleston into our neighborhood and one (1) exit only onto Rancho. Traffic congestion already makes it difficult for those of us who live here to get to or from our homes; additional vehicles introduced to our community will only impede our travel times, and endanger our families to fast moving vehicles leaving the parking lot, anxious to leave this area.

On Westwood Ave, one of the exit/entrances to our neighborhood there is a small example of what will happen if the parking lot is approved. The dentist office complex on the corner of Westwood and Charleston has their entrance/exit on Westwood. There are many instances of vehicles coming out of the Dentist's office almost colliding with vehicles entering or leaving Westwood Ave.

Once again we request that this project be denied do to the dangers to the community.

Dear Planning Commission Members,

Please accept this fax/letter as **OUR OPPOSITION** to:

Agenda Items # 17, # 18, #19
ZON-34775; SUP-34776; SDR-34777

Opposition to the encroachment of Commercial Parking and Traffic disruption into single family zoned neighborhood.

Ileana Drobkin

Thomas Ross

2201 Waldman Ave.
2212 Edgewood Ave

Las Vegas, 89102

We own two (2) major properties in this neighborhood, one on Waldman Ave. and the second on Edgewood Ave. As such we are very aware of the current and potential future situation of those streets if the parking lot is approved.

We believe there will be a major traffic disruption to our neighborhood as the parking patrons exit onto Shadow Lane then to Waldman or to Ellis.

Page 2

The proposed new zoning and construction calls for the utter and complete elimination of that residential house, and replacing it with a paved, 24-hour parking lot. The ingress and egress opening for that proposed parking lot calls for heavy commercial traffic encroaching a very substantial distance further into what is now the interior of the Scotch 80s neighborhood.

Yet further, there will be pedestrian traffic across the entrance into my parking area where now there is none. I am concerned for the safety of those pedestrians as well as the safety of patients coming into and leaving my property.

I, along with others in the neighborhood, are distressed that there has been no environmental impact study detailing and quantifying the obvious impact of increased commercial traffic, both automobile and pedestrian, within what is now a quiet, desirable residential neighborhood. Further, there appears to have been no consideration for the elimination of an historic single-family house. If any zoning variation is to be made, at the least additional time should be afforded to make these important investigations.

I would be responsive to some kind of compromise that would consider parking north of current residential homes, with ingress and egress only to Charleston. However, the present application is otherwise, and seeks to have me surrounded by 24-hour paved parking. I oppose the present application in its present form.

Respectfully submitted,

Thomas A. Turner, Jr.

The Honorable
Oscar Goodman, Mayor of Las Vegas
Lois Tarkanian, Councilwoman, Ward 1

Thursday, July 16, 2009

Chairman, Las Vegas Planning Commission

**Reference: 270 unit parking lot proposed in single
family residential neighborhood
ZON-34775; SUP-34776; SDR-34777**

The Scotch Eighties Home Owners Association is seeking the postponement of the above referenced items to be brought before the Planning Commission on the July 23rd meeting.

Residents feel there has been a behind-the-scene effort to railroad this re-zoning through the system with an action hearing before the Planning Commission to be held only a week from the initial public notification meeting, and accomplished with little neighborhood input, or valid questions answered. The Association is particularly incensed that various city departments signed off on 'approvals' of this project without one iota of data as to neighborhood impacts.

The Association further points out the following issues as yet unresolved:

- I. The City delegate at the public informational meeting informed the attendees that a traffic impact study was not required in this re-zoning; however, it is apparent that a 24/7 parking lot consisting of 270 parking lots will:
 - a.) dump sizable amounts of traffic out into a residential neighborhood;
 - b.) that parking lot patrons in excess of an estimated 300-400 people daily will be required to cross Charleston Blvd, at a mid point traffic signal which will cause major delays to State Highway traffic flows (and the State Highway Dept. has not been notified as to these ramifications).

City of Las Vegas Zoning Board and City Council:

The Saratoga Meadows Neighborhood Association requests the following mitigation if the UMC parking lot in our neighborhood is approved.

No ingress or egress be allowed into our neighborhood

Our neighborhood is already challenged with people using it to cut-through as well as people getting lost in our neighborhood. While we live near the freeway and the busy Charleston, we are a community with families with children. The current layout of Ellis is a very wide and wide-open road that narrows at Shadow. This design is an invitation to speed down this road. As neighbors, we constantly ask people to slow down and re-direct them out of our neighborhood. Many people, AMR employees and children walk in this corridor every day, and the current design places them in danger of being hit by cars. We must control this traffic and the speed of the traffic as much as possible.

There is an existing parking lot in the northeast corner of Shadow and Ellis. This parking lot has walls separating it from the adjoining neighborhood. It has very nice landscaping. When people exit this lot onto shadow, a median makes it undesirable, inconvenient, and illegal to make a left turn from that parking lot into our neighborhood. The small UMC parking currently across from this lot also makes it undesirable and illegal to make a right turn into our neighborhood. If any ingress or egress is allowed onto Shadow, a similar barrier or traffic control device must be installed and maintained to protect our residents.

UMC provide ongoing public information to employees regarding the use of the lot and its proximity to residents

The proposed lot will be directly adjacent to residents. It is imperative that employees using this lot understand this, turn off car alarms, and do not make excessive noise when they are using the lot. Furthermore, employees should be courteous to neighbors when coming and going.

The Saratoga Meadows Neighborhood Association recently dealt with a matter regarding AMR vehicles and employees. AMR employees were previously oblivious to the fact that they were in the middle of a residential area. They sped down Ellis, littered, loitered, blocked the streets and did not carry professional attitudes. In the past 6 months, AMR has made a commitment to being good neighbors. Now, they park in an organized fashion, walk to and from work in uniform, keep the area clean, do not block traffic and even wave to and smile at the neighbors when passing. This has been a tremendous benefit to our neighborhood, and we love having these types of neighbors.

UMC commit to additional security in the area

UMC has stated that they will provide security for the parking lot and surrounding areas. The Saratoga Meadows Neighborhood Association requests that the take this commitment seriously for the protection of their employees as well as the neighborhood.

Most of the neighborhood association of Saratoga Meadows does not oppose this re-zoning if these accommodations can be made. All of the neighbors strongly oppose additional traffic being directed into your neighborhood.

Additionally, resident Alan Stone (1209 Mercedes Cir) provided the following comments and would like them included in your decision-making process.

“My 10 year old daughter & I ride our bikes in the neighborhood and between already dodging the ambulances, medicar’s and now the huge increase in potential traffic on Ellis I view this as a significant problem for our safety, especially at the corner of Shadow & Ellis.

Re-zoning residential to commercial for a parking lot is one thing, but what happens if the county does not get anyone to use the

lot because it is too inconvenient to cross the street or whatever the reasons, and in a year or two they either sell it off or turn it into some other commercial venture that we find even more offensive! I see a huge risk on our part because once the property is zoned commercial, they can put anything they want on it; like an adult oriented establishment, or worse yet some kind of facility which would attract criminal elements or even more homeless people that we already have roaming around that we have to dodge or chase away from our garbage cans on trash days!

I moved in here two years ago and for the most part we like it here, but I believe that the added traffic this proposed deal would bring poses an unnecessary risk for us who Border Ellis, and that the safety of my family and the other families in the immediate area will be adversely effected."

Do not hesitate to contact me with any questions.

Sincerely,

A handwritten signature in cursive script that reads "Christina Gibson".

Re: ZON-34775; SUP-34776; SDR-34777

Dear Councilwoman Tarkanian:

It has been brought to my attention that there is a meeting coming up regarding the addition of a 270 space parking lot in our area. This used to be a trailer park and apparently was vacated sometime ago and is now available. We understand that UMC is going to buy it and use it for parking.

Additionally, they want to acquire the property on the north side of Ellis and West of Shadow Lane which may or may not be part of the parking lot, but it is our understanding that it will be part of the parking. This will absolutely impact the Scotch 80's along Shadow Lane, Ellis, Waldman and all the way over to Rancho. The problem at this point in time is that there is a stop light at Westwood and Charleston so that people can cross from UMC to the bus stop. In my estimation, it is impossible to install another one so people will exit out of the new proposed parking lot onto Charleston; therefore, people will find it easier to go to Ellis, north on Shadow Lane to Charleston or south on Shadow Lane to Waldman then west to exit onto Rancho, thereby again causing traffic impacts on the entire neighborhood. It is a bad set up and will do damage to the value of the homes in this area.

The people on Charmast and Ellis Avenue are organizing to sell out to NDOT Eminent Domain project. How deep that goes, I do not know. They evidently have no concern for the neighborhood anymore, thereby agreeing to allow this parking lot in the neighborhood, and we were willing to give them passes so they could enter and exit our gates, should we have been allowed to gate our community.

It might be noted that we tried to close our neighborhood and privatize these streets and the people on Charmast were up in arms although they are not part of our neighborhood.

If you can insure that the parking lot, which holds a lot of cars, can go out to Charleston then it would not be so difficult to swallow. The way the plans appear, the parking lot backing up

Page 2

to the homes on Westwood will negatively affect those homes and their values and because of all the traffic that will no doubt be directed to Shadow Lane, going north to Charleston or south to Waldman, it will negatively impact the residents south of Ellis. Councilwoman Lois Tarkanian

of the properties just south of the parking lot and south of Ellis and on the south side of the additional parking lot. It will affect a number of the homes on Westwood.

We have, for a number of years, tried to get the City to stop this type of thing and I have had discussions with you concerning the matter. There is a rule that in order to privatize, you had to have 100% approval. As we all know, with the number of people we have in our area, you cannot get a 100% approval rate on anything.

My point is that since we cannot gate the area under these requirements, there still is no need to ruin or over burden our neighborhood where people are restoring their homes, etc., in order to make it a nicer area of Las Vegas.

UMC does need parking and I am well aware they have a lot of backing but it has now come to the point where they are encroaching on a very nice old neighborhood. We already have enough problems with property values without having this occur.

Again, if you have a way to let the traffic flow out through the parking lot onto Charleston, it is not totally ideal, but that may be one way to solve it.

Sincerely,

REX BELL

Ms. M. Margo Wheeler, Director
Planning and Development Department
Development Services Center
731 South Fourth Street
Las Vegas, NV 89101

Faxed & Mailed: 474-7463

Attention: Director Wheeler,

RE: Zoning Change Application: ZON-34775, 1823 W. Charleston Blvd., 1128 Shadow Lane (APN: 162-04-111-018 and 162-112-005).

We would formally like to request a review by you and your senior office managers to determine why certain members of your Planning Staff gave 'Approval' for the rezoning of Residential Estates to Office-Parking that will result in the destruction of a historic (older than 50 years) single family home that, along with pioneer-planted trees and landscape, acts as a gateway to a stable, quality single family neighborhood. And, that in such re-zoning commercial development would be placed directly against viable single family housing.

After such review we would respectfully request that the Planning Department withdraw their approval to this re-zoning, based on the flawed methodology in their Planning Staff Report which applied incorrect findings, as such :

- a.) did not ascertain the true 'surrounding property' aspects;
- b.) ignored "Special District/Zones" which are impacted and involved;
- c.) that because of "b", this re-zoning does not conform to the General Plan;
- d.) incorrect that "approving zoning will be compatible with surrounding land uses".
- e.) failed to supply evidentiary methodology to support "growth and development factors indicate need for appropriateness of the rezoning."
- f.) supplied no data to support assumption that street or highway facilities are adequate.
- c.) ignored the "Regional Significance" aspects.

Because of such a broad sweep in the findings within the Staff Report, which by contrary evidence are so against these findings, we have to raise a valid concern that certain Staff members may have acted in concert with the property owner, knowing full well that the property owner: (a) has in the recent past torn down single family homes in residential areas with the desire to gain commercial rezoning; and (b) the developer owns (next to the current zoning application) adjacent single family homes which would only benefit by the rezoning, thus to substantiate neighborhood deterioration (change of circumstances), towards future re-zoning of single family homes into medical type offices. Any lay person can see that there is a greater plan

P 12-14
193

to commercialize the neighborhood by the applicant. We must ask at what time did the Planning Staff become aware of the possible additional plans by the selling developer to deteriorate neighborhood quality? We believe the Planning Staff forgot *Goal 2 of Neighborhood Revitalization of the Las Vegas Master Plan 2020: Mature neighborhoods will be sustained and improved through appropriate and selective high quality redevelopment and preservation.*

Further, we are amazed that the Planning Staff would so arbitrarily give "Approval" to the application without a comprehensive knowledge of the impact by a 24/7 two hundred seventy (270) car stall general medical parking lot, turned over at least 3 times a day, and what such activity would do with traffic impact both dumped into a single family neighborhood off Shadow Lane, as well as impede traffic flow at signals and cause dangerous pedestrian crossings on Charleston. One of your own Planning Staff members said publicly, 'A traffic study is not required for this approval.' And yet, after Planning Staff finds streets are adequate (Finding #4) that the applicant feels it now essential to seek such a traffic study. Traffic flows do have bearing in this issue. In our mind, to ignore the need for related data to support Finding #4, thereby ignoring potential safety and visual impacts speaks of poor planning expertise.

Finally, it is our position the City, Clark County and UMC, if this re-zoning were to pass, would be in violation of City of Las Vegas ordinances in regards to an unwarranted expansion outside the boundaries of the **Las Vegas Medical District Plan**, amended August 1, 2007; Resolution R-57-2007, and as such Plan is promulgated within the Las Vegas Master Plan 2020.

Such expansion would require a public hearing by both Planning Commission and City Council to change the boundaries of the Las Vegas Medical District as to the entire district towards the inclusion of these two parcels within the District. Such a hearing must occur **first and separate from the above listed proposed rezoning**. Our neighborhood association is adamantly opposed to the expansion of the Las Vegas Medical District Plan south of Charleston, and believe that should have been the position of the Planning Department, to obey existing statutes.

Thus by all these flaws we question Planning Staff conclusions in reaching their *Findings for Approval*, even to believe there is more behind this application approval than meets the eye.

I, and members of our Association, would be more than happy to visit with you and your staff members to discover true facts and to discuss other factual information which was omitted or overlooked in your analysis.

Very truly yours,
