GAVDS1 1 49052

The following table shows the results of the analysis of variance for the effect of the different factors on the response variables. The results are presented in the form of a table with the following columns: Factor, Response Variable, and F-value. The F-value is a statistical measure that indicates the significance of the effect of the factor on the response variable. The higher the F-value, the more significant the effect.
