

Title 19.06.090 H Historic Designation - Summaries of principal concerns as expressed by Westleigh Neighborhood residents:

E. Historic Preservation Commission - Qualifications

The membership of the HPC shall be as follows:

7. Five members must be citizens at-large. When one or more areas have been designated as "Historic Districts" pursuant to this Subchapter, one of the "at-large" positions shall pertain to each such Historic District. For any Historic District, the corresponding "at large" position shall be filled by a person who owns real property and resides within the Historic District, if a person so qualified is available to serve. If no such person is available, a person who owns real property within the Historic District may fill that position. If more than five Historic Districts have been designated as such pursuant to this Subchapter, the City Council shall determine which five of the Historic Districts are to be represented on the HPC.

Summary:

Currently there are five citizen at-large positions on the HPC. A property owner or resident of the historic district shall fill one of the citizen at-large positions as available. Currently one citizen at-large position is filled by a property owner and resident of the John S. Park Historic District.

I. Designation of Landmarks, Historic Properties and Historic Districts

7. Effect of Designation:
 - b. After the designation of an Historic District, and in order to preserve and enhance the distinctive character of that District, the HPC shall, after opportunity for input from property owners within the District, recommend for adoption by the City Council Design Guidelines to apply to alterations of contributing properties and to all new construction within the District.
 - (i) Design Guidelines are intended to address exterior features and characteristics only, such as building materials, massing, scale and proportion of openings and other features, orientation and relative position of buildings and landscape character, as well as specific aspects such as roof forms, textures, color theme, character of signage, window and door types, and other details relative to architectural styles evident in the District.

Summary:

If City Council approves the nomination for historic district designation of the Westleigh Neighborhood, the HPC shall work with property owners within the district to create design guidelines for alteration and new construction for adoption by the HPC and City Council. These guidelines will be address exterior features only.

Submitted at Planning Commission

Date 11/5/09 Item 54

K. Guidelines, Standards and Process for Review of Alteration or New Construction

- (1) Whenever it is proposed to alter, remodel, build, or otherwise develop or landscape property that is designated as a Landmark or Historic Property, or that is located within a designated Historic District, and a building permit or other development or zoning permit is required for such work, the applicant must first obtain the approval of the HPC in accordance with this Subchapter. In the case of proposed work which, in the HPO's judgment, is minor in nature and impact, the HPO shall be the approval authority. Approval pursuant to this Section indicates conformance with the provisions and intent of this Subchapter only and does not constitute or imply approval by any City department or other approval authority having jurisdiction.

Summary:

Whenever a property owner proposes work that requires a building permit, it is subject to review by the HPC. The HPC does not review that work that does not require a building permit, such as exterior painting and landscaping (the exception being walls, fencing, retaining walls).

K. Guidelines, Standards and Process for Review of Alteration or New Construction

- (4) The approval authority shall consider the application with reference to the objectives of this Subchapter. The approval authority may deny an application upon determining any of the following:
 - (a) That proposed work on any portion of a Landmark or Historic Property will not be compatible with the recognized distinctive character of the overall property.
 - (b) That proposed work on any portion of a contributing property within an Historic District will not be compatible with the recognized distinctive character of the property itself, with the character of the entire District, or with the Design Guidelines that have been adopted for the District.
 - (c) That major new construction proposed for non-contributing properties within an Historic District will not be compatible with the recognized distinctive character of the entire District or with the Design Guidelines that have been adopted for the District. For purposes of this Paragraph, new construction is "major" if such construction, including general landscape character, equals or exceeds twenty-five (25%) percent of the land area of a parcel without a building or of the building ground floor area of a parcel with a building, at the time of the property's identification as non-contributing.

Summary:

There are two standards of HPC review of applications for alterations or new construction based on whether the property/resource is considered "contributing" or "non-contributing." Proposed work for contributing properties will be reviewed for compatibility with the existing historic architectural character of the entire district, as well as the historic architectural character of the contributing resource itself. Proposed

work for non-contributing properties will be reviewed for compatibility with the historic character of the district only.

M. Appeal and Review

1. The applicant for an approval under Section (K) or Section (L) of this Subchapter may appeal any decision of the HPC to the City Council by filing written notice of appeal with the City Clerk within ten (10) working days after the date of the HPC's action. The appeal must be accompanied by the fee, if any, which has been established by the City Council.

O. Incentives

It is the intent of the City that Landmarks, Historic Properties and properties within an Historic District be beneficial to their respective owners, as well as to the community. In addition to the intangible benefits of owning a property recognized as an important community resource, other potential benefits can be made available by the City. The HPO and the HPC are authorized, when possible and appropriate, to provide such owners with the following:

1. Assistance in locating potential sources of financial assistance and tax credits;
2. Assistance in preparing grant applications and seeking potential third party sponsorship;
3. Technical information and referrals;
4. Assistance in locating buyers and sellers;
5. Assistance, through the Neighborhood Services Department, in the formulation and operation of a neighborhood association;
6. Assistance in obtaining other benefits as may become available through the City or other sources.

John S. Park Historic District Results of HPC review:

Since the John S. Park Historic District was designated in 2003, there have only been six applications for a Certificate of Appropriateness for alterations or new construction within the district, not counting administrative approvals. Administrative approvals are for applications that don't require Historic Preservation Commission review, such as a fence, or replacement of a building material or element with like materials.

The most common request is for window replacement. The HPC has approved all of those requests with conditions. I've attached two examples below:

1254 S. 9th St. 12/10/2008 APPROVAL WITH CONDITIONS:

1. All windows visible from the street must be replaced with divided light window (snap-in muntins/grid ok).
2. All new windows visible from the street must match as close as possible to existing frame opening(s).
3. All new window frames must match as close as possible the look of the original windows in thickness.

1249 S. 9th Street 3/28/2007 APPROVAL WITH CONDITIONS:

1. Construct 14 x 24 garage adjacent to south side of house.
2. Expand existing bedroom [at rear of house] by 12 x 12 addition.
3. Add 12 x 14 utility room to back of garage [at rear of house].
4. Landscaping per attached plan.

WESTLEIGH NEIGHBORHOOD
