Re: SUP 36297 SPECIAL USE PERMIT

50 FOOT WIRELESS COMMUNICATION

TOWER, BUILDING MOUNTED.

Dear: Planning and Development Members:

We strongly object to this SPECIAL USE PERMIT for the above mentioned communication tower to be built on an administrative building. This tower would be constructed next to a day care center, directly in the path of a fall zone. I assume there are alternative sites. I questioned why this location would be the first option? I am concerned about the electromagnetic energy concentrated above and beyond this building including the day care center my grandchild attends.

My residence at 2053 Glenview Drive Las Vegas is directly behind this building .A tower would reduce my property value and the view of Mount Charleston.

What benefit does the community as a whole received from this communication tower being built at this location. What are the demographics of potential customer base does Clear wireless think of achieving by putting the tower at this location. What if this applicant goes out of business?

I ask that this application be denied and an alternative site be considered that is in the best interest of the community and a safer place then next door to a child day care center and a middle and elementary school across the street.

I also would respectfully request this hearing be re-scheduled at a later date since giving us only a 10 day notice is not enough time to canvas the neighborhood and review all documents that have been submitted to this agency.

Thank you for any consideration you give this matter,

Sincerely,
