VAR-35528 / SDR-35186

Members of the Planning Commission

As a concerned forty-nine year resident of this neighborhood, I oppose the construction of a 79-foot tower that would be producing noise until 10 p.m.

My children have grown up here, gone to school here, played here, and attended Church in this area. (We have five churches on St. Louis Ave., just a block from where this proposed structure is to be built.)

I sincerely urge the City Council to oppose such a structure in the midst of a residential area.

There is abundant desert land for this proposed structure. Please consider the residents of this area. We will appreciate it very much.

Sincerely,

Phyllis M. Silvestri

Protest

September 17, 2009

Las Vegas Planning Commission
731 S. 4th St.
Las Vegas, NV 89101

On Thursday, September 24, there is a Planning Commission hearing on **VAR-35528** (SDR-35186). BodyFlying US is requesting variances to install an indoor skydiving venue on the vacant lot right next to our business on Sahara Avenue and must get variances in order to build such an operation where it is currently not allowed. Either this or a similar company tried to get the variances last year but, when it was obvious that there was a lot of opposition to the plan, they withdrew their request. The only difference between the one last year and this one is that they previously proposed building a tower of more than 90 feet and currently they are proposing one of 79 feet. We are opposed to the approval of these variances.

- Noise from this operation would affect existing businesses --- Republic Services, The Tiger Lily Flower Shop, Marie Callender, Tony Roma's, doctors' offices and others. The noise problem would discourage future businesses from locating nearby.
- Parking issues would be created by the amount of visitors and inadequate parking available.
- It does not fit with the Master Plan of the area.
- It abuts a residential neighborhood.
- The requested setback and landscaping variances would make an unattractive building which looks like a grain silo a prominent feature on Sahara Avenue.

This is an amusement type of operation which attracts not just individuals, but large groups who come to either participate or just to watch the action. These groups are quite large at times, even arriving in buses. Where exactly are these buses supposed to hang out for a couple of hours while waiting for the event to finish? Zoning requires 69 parking spaces for this type of operation and they want to reduce it to 59 because they are trying to put it on a lot with is only slightly larger than a residential building lot. They are also requesting a waiver of the setback requirements and landscape buffers to accommodate a nearly 10,000 square foot building on this tiny lot.

The central feature of this type of operation is a vertical wind tunnel. It uses a 16-ft airplane propeller to generate hurricane-force winds of 105 mph to 150 mph in order to create the

6P

wind necessary to keep a person in the air. This creates a tremendous amount of noise. It cannot be contained with soundproofing because it requires moving huge amounts of air and the sound can be deafening. The fact that they are requesting a shorter tower this time actually increases the noise level as the exhaust air comes out at a lower altitude than with the higher tower. Our business is just 75 feet away from the site and the noise would affect the quiet enjoyment of our property.

There is currently an indoor skydiving operation on Convention Center Drive called Vegas Indoor Skydiving. The owner of the business is Keith Fields. I have spoken to him in the past regarding the problems associated with a business of this type in the midst of a quiet residential neighborhood like ours. If you have any technical questions regarding this kind of operation, he can answer those questions. His cell number is 813-5790 and his email address is IndoorSkydiving@aol.com.

We realize that there are currently many vacancies in the commercial buildings in our neighborhood, but allowing this business would discourage future businesses from locating here and would create a permanent dead zone around the property. Once it is approved, it can not be undone, and it is not worth the risk to future development.

If you go online and research these types of operation, they are usually located far away from urban areas and are nearly always in industrial parks. This type of amusement is a lot of fun. I have done the indoor skydiving experience on Convention Center Drive and recommend it as a great experience. However, it does not belong in our neighborhood. Highland Drive or Western Ave. would be a more appropriate location for it.

If you have any questions, please feel free to call.

Planning Commission Member

Re: BodyFlying US, LLC SDR-35186 **VAR-35528**

Dear Gentlemen,

I am the owner of Medical Rehabilitation Associates of Las Vegas. I have been in business for over 20 years and at this location for the past 5 years.

The co-owner of The Tiger Lily Flower Shop has done extensive research in this project and I agree with the following:

- The proposed venture does not fit in with the existing neighborhood
- The tower they propose to build would stick out far above any other nearby structure
- No study has been done as to the noise that would be generated by the applicant's wind tunnel and its effect on neighbors
- The maximum number of people using the facility has been misstated by the applicant in hopes of getting a waiver for the parking and traffic requirements

This is a quiet residential neighborhood with small businesses, i.e. retail shops, barber shops, restaurants and office buildings. The proposed venue for indoor skydiving does not fit in with the existing businesses and property use.

In the neighborhood meeting hosted by the applicant's attorneys on October 7, their representative indicated that the height of their proposed wind tunnel tower, at 79 feet, is not much taller than the Republic Services building, which she claimed stands at 62 feet high. If any part of the Republic Services building is 62 feet, it would only be the air conditioning ducts on top of the building. The main part of the building can't be more than about 50 feet and the skydiving tower would be approximately 30 feet higher than that. This would make it stand out as the most prominent feature of the neighborhood. Good for the applicant, bad for the neighborhood.

By the applicant's own admission, this facility is vertical industrial wind tunnel which uses airplane propellers to generate winds up to 150 miles per hour. No study has been presented

6P

RECEIVED

OCT 23 2009

which would predict the noise level at various distances from the tower. The Nevada Coin Mart building is only a few feet from the proposed tower location.

The applicant indicated that the proposed commercial recreation/amusement facility will be utilized by no more than 26 people at any given time, consisting of 6 staff members and 20 guests. The applicant compared their facility with a racquetball court. This is completely disingenuous. Indoor skydiving is becoming a very popular competitive sport and the applicant owns other facilities around the world. Most of them are in rural areas and not in dense urban areas. The events they sponsor can attract hundreds of competitors, spectators, and media members. When the number of staff members required to handle such events is added, the number of people at the facility can reach into the hundreds.

The following quote was found at the website: www.WorldChallenge.info

"The 2008 competition is now over. The weekend was jam-packed with excitement as 39 4-way teams and 13 Free Fly teams battled it out to claim the medals and prize money"

That adds up to 169 competitors. Staff requirements could easily be 20 or more people. If you add television and media crew and the spectators such an event would generate, we are easily up to 250 to 300 people, not to mention enormous traffic problems. The photo enclosed is from a similar event. <http://www.bodyflight.co.uk/gallery/?&page=2>

These facilities often try to land contracts with the military for skydiving training. We just happen to have an air force base in the area.

The street off Sahara Avenue which would serve as the access to all of the applicant's parking is in fact, not a public street but a narrow private drive. The parking spots along the east side of the private drive belong to our property and we use them every day of the year. When we have vehicles parked along that drive, it leaves only about 20 feet of clearance, not enough for tour buses and limousines to easily enter and exit the facility. If just one vehicle parks on the east side of the drive at the same time one is parked on the west side of the drive, the remaining space is just enough to allow one vehicle through. If vehicles are trying to enter and others are trying to exit at the same time, a traffic jam is the result.

The indoor skydiving venue is an excellent proposition, but this is not the right location for it and it is patently unfair for the existing business and property owners to suffer because of it. I earnestly beseech you to oppose the waivers requested.

I would be happy to discuss this with you at your convenience. You can reach me on my cell phone at (702) 785-7766.

Sincerely,

Firooz Mashhood, M.D.
