**** STAFF REPORT ****

PROJECT DESCRIPTION

The subject site is currently undeveloped and abuts the north side of the Las Vegas Beltway right-of-way. A 6,126 square-foot Auto Repair Garage (Minor) is proposed to be located on a 0.35-acre triangular-shaped lot on the south side of Rome Boulevard, approximately 640 feet west of Riley Street, with a portion of the adjacent lot to the east to be used for access. A parking variance is requested to allow 25 parking spaces where 36 spaces are required on the building site. Because the building as proposed is too large to be placed on the site in accordance with Title 19 and Town Center setback and build-to-line standards, staff recommends denial. If denied, the use and the site as proposed cannot be approved.

ISSUES

- A Petition to Vacate (VAC-37100) unused rights-of-way adjacent to the site is necessary to allow for the proposed parking design, as 21 of the 25 parking spaces are proposed to be located within the existing Rome Boulevard and Juliano Road rights-of-way.
- Modification (MOD-36955) of the Centennial Hills Town Center Land Use Plan to change the Special Land Use Designation from UC-TC (Urban Center Mixed-Use – Town Center) to SC-TC (Service Commercial – Town Center) is required to allow the use on the subject site.
- Rezoning from U (Undeveloped) [TC (Town Center) General Plan Designation] to T-C (Town Center) prior to development of the site is required. ZON-36949 has been submitted for this request.

BACKGROUND INFORMATION

<i>Related Relevant City Actions by P&D, Fire, Bldg., etc.</i>	
07/03/96	The City Council approved the Annexation (A-0002-96) of approximately 115.72 acres generally located south of Deer Springs Way between El Capitan Way and Durango Drive, including current APN 125-20-801-005. The Planning Commission and staff recommended approval. The annexation became effective 07/12/96.
02/05/03	The City Council approved the Annexation (A-0038-02) of approximately 495 acres, including current APN 125-20-802-003. The Planning Commission and staff recommended approval. The annexation became effective 02/14/03.
06/10/09	A deed was recorded indicating change of ownership of the property.

January 28, 2010 - Planning Commission Meeting

01/28/10	The Planning Commission will consider companion applications for a Major Modification (MOD-36955), a Rezoning (ZON-36949), a Variance (VAR-37101), a Special Use Permit (SUP-36950), a Vacation (VAC-37100) and a Site Development Plan Review (SDR-36953) associated with development of the site with a proposed 6,126 square-foot Auto Repair Garage (Minor).
----------	--

Related Building Permits/Business Licenses

There are no building permits or business licenses associated with the subject site.

Pre-Application Meeting

11/17/09	A pre-application meeting was held to discuss development of the subject site, with the following topics addressed: • Rezoning to T-C (Town Center) is required. • A Modification (MOD) of the Town Center Land Use Plan from UC-TC (Urban Center Mixed Use – Town Center) to SC-TC (Service Commercial – Town Center) or GC-TC (General Commercial – Town Center) or EC-TC (Employment Center Mixed Use – Town Center) is required. • A Special Use Permit is required for an Auto Repair Garage (Minor) because the proposed use does not meet Condition B: Openings to the service bays shall not face public rights-of-way and shall be designed to minimize the visual intrusion into adjoining properties. • A Variance will be required for building setbacks; the proposed structure does not meet the required 20-foot rear setback. • Waivers are required for building placement (build-to-line standards), which require 80% of the building façade to abut the build-to-line on the side of the building facing the street. • The development must comply with Town Center and Title 19 landscaping requirements, or a waiver will be required. • A Waiver is required for the 20% open space requirement. • A Vacation of portions of adjacent public right-of-way in conflict with the development is required. • Minimum 24-foot drive aisles are required.

Field Check	
12/22/09	During a routine site visit, it was noted that the site was undeveloped. Completed half-street improvements and a perimeter wall exist along Rome Boulevard, with weeds growing adjacent.

DEVELOPMENT STANDARDS

Pursuant to Title 19.10, the following parking standards apply:

Parking Requirement							
Use	Gross Floor Area or Number of Units	Required			Provided		Compliance
		Parking Ratio	Parking		Parking		
			Regular	Handi-capped	Regular	Handi-capped	
Auto Repair Garage (Minor)	6,126 SF	5 Spaces, plus 1 space / 200 SF GFA	34	2	23	2	N
TOTAL			36		25		N
Percent Deviation			31%				
Loading space	GFA less than 10,000 SF		1		1		Y

ANALYSIS

The subject parking variance is proposed in conjunction with a proposed 6,216 square-foot Auto Repair Garage (Minor) on the site. The site is triangularly shaped; however, the building proposed is too large to accommodate Title 19 and Town Center Development Standards Manual requirements. Based on its size, the use requires 36 parking spaces; the applicant proposes 25 spaces, a 31 percent deviation from the Title 19 standard. As the site is overbuilt, the hardship is self-preferential in nature and cannot be supported by staff.

The Department of Public Works supports present City Code parking requirements, and therefore it cannot support the variance request to allow 25 parking spaces where 36 spaces are the minimum allowed for a proposed Auto Repair Garage (Minor).

FINDINGS

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.”

VAR-36954 - Staff Report Page Five
January 28, 2010 - Planning Commission Meeting

Additionally, Title 19.18.070(L) states:

“Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.”

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by proposing to overbuild the site. A site design that includes a smaller building would allow conformance to Title 19 requirements. In view of the absence of any hardships imposed by the site’s physical characteristics, it is concluded that the applicant’s hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
