Re: Summerlin Village 23A Parcel J Unit 2 (Barcelona)
Justification Letter – Tentative Map

To whom it may concern:

The Howard Hughes Corporation (THHC), an affiliate of General Growth Properties, Inc. (GGP), requests the resubmittal of the Tentative Map for Village 23A Parcel J Unit 2 – Barcelona. The original Tentative Map (TMP-10420) was approved by the City of Las Vegas on January 12, 2006 and has since expired. The subject project is the second unit of an existing subdivision and consists of thirty-four (34) single-family residential units.

The recent slow-down in the real estate market has removed the impetus for project completion on its original aggressive schedule. It is expected that this work will continue and will be complete within approximately two (2) years.

Please feel free to contact me if you have any questions or concerns.

Cordially,

CITY COUNCIL MEETING OF AUGUST 3, 2005

Dear Mr. and Mrs. Reisbord:

The City Council at a regular meeting held August 3, 2005 APPROVED the Required Two Year Review of an approved Special Use Permit (U-0135-95) WHICH ALLOWED A 14-FOOT BY 48-FOOT OFF-PREMISE ADVERTISING (BILLBOARD) SIGN at 1701 South Decatur Boulevard (APN 162-06-301-001), C-1 (Limited Commercial) Zone. The Notice of Final Action was filed with the Las Vegas City Clerk on August 4, 2005. This approval is subject to:

Planning and Development

1. Any part of an embellishment not in conformance with Title 19 requirements shall be removed.

2. The Special Use Permit shall be reviewed in five (5) years at which time the City Council may require the off-premise sign to be removed. The applicant shall be responsible for notification costs of the review. Failure to pay the City for these costs may result in a requirement that the Off-Premise Advertising (Billboard) Sign be removed.

4. If the existing Off-Premise Advertising (Billboard) Sign structure is removed, this Special Use Permit shall be expunged and a new Off-Premise Advertising (Billboard) Sign structure shall not be erected in the same location unless: (1) a new Special Use Permit is approved for the new structure by the City Council, or (2) the location is in compliance with all applicable standards of Title 19 of the Las Vegas Municipal Code including, but not limited to, distance separation requirements, or (3) a Variance to the applicable standards of Title 19 has been approved for the new structure by the City Council.

RE: ***Application for Special Use Permit***

To Whom It May Concern:

I am writing on behalf of Walgreen Co. in support of the application for a special use permit for the addition of 74 square feet of accessory "off-sale" packaged beer, wine, and liquor at the premises of Walgreens at 900 North Rancho Drive. The location is currently operating and licensed as a drug store.

This location is zoned C-1, Limited Commercial. The proposed sale of packaged liquor will not adversely affect surrounding properties, as this store is intersected by two major thoroughfares – Rancho and Washington – and there are many commercial uses near the location. There are also other businesses in the general area that sale alcohol, so the proposed use would not be unique to the area. The location also currently complies with all other requirements pursuant to the City of Las Vegas Municipal Code.

With this special use permit, Walgreens will remain competitive with similar businesses by offering patrons the option to purchase packaged beer, wine, or liquor for consumption off-premises. Since this use is commonly found at similar drug and retail grocery stores in Las Vegas, there would be no variable impact on other businesses by allowing Walgreens to sell alcohol for the convenience of its customers.

SUP-38239
REVISED

Walgreens will continue to maintain its high-level standard of operations, and the design, hours of operation, traffic generation, lighting, and noise at this location will remain unchanged with the issuance of a special use permit to allow for accessory packaged beer, wine, and liquor sales. Additionally, the 74 square foot space devoted to packaged beer, wine, and liquor sales is less than 1% of the overall retail floor area.

Furthermore, Walgreen Co. is a well-established national company with shares traded on the New York Stock Exchange. The company has over 60 stores in southern Nevada that maintain a low impact on neighboring properties.

As Walgreens is currently operating and the addition of packaged beer, wine, and liquor for sale is compatible with the surrounding area, we respectfully request a special use permit for the addition of 74 square feet of accessory "off-sale" packaged beer, wine, and liquor sales.

Please call me if you have any questions or need additional information.

Sincerely,

Jennifer Roberts

RE: Cardivan Company; Special Use Permit-Restricted gaming;
CVS Pharmacy; 9430 Del Webb Blvd

City Planner:

Please allow this letter to serve as the required SUP justification letter to operate up to fifteen (15) gaming devices inside of the CVS Pharmacy at the above-mentioned location.

This pharmacy serves the Sun City Summerlin area and was previously operated as a Long's drug store. The Long's chain held their own gaming license and operated gaming devices in this location pursuant to said license. When CVS purchased Long's this license was relinquished to the Nevada GCB. This request serves to replace the restricted gaming which was previously allowed by the City at this location.

As required by the Nevada GCB, Cardivan will have one employee on the premises at all times that gaming devices are offered for play to the public. The gaming devices will be operated during the normal operating hours of the pharmacy. Cardivan is only placing ten (10) gaming devices as referenced in the floor plan at this time.

Cardivan operates gaming devices at other CVS stores, as well as, other locations throughout Clark County and the State of Nevada.

Granting of this SUP would be harmonious with the surrounding commercial uses and would not be inconsistent with or compromise the public health, safety or welfare.

Please feel free to contact me with any questions. Your prompt attention to this matter would be greatly appreciated.
Sincerely,

Sean T. Higgins
EVP-General counsel

Re: Application for a special permit to operate as an elementary school

Dear Sirs:

Challenger School leases the property at 5150 North Jones Blvd, Las Vegas, Nevada from BABB Investments, LLC, a related entity. In the past this facility was operated by Kids 'R' Kids as a school, preschool and day care center. Challenger School will also operate the facility as a preschool and would like to get a special use permit to also offer kindergarten through 1st grade. Our hours of operation will be from 7:00 am until 6:00 pm. We will begin operation with a staff of five full time employees and anticipate at full occupancy that we will have 22 staff members.

We anticipate beginning school with enrollment of between 50-60 students and at full enrollment we would be at approximately 280-300 students. Challenger will not prepare any food at this facility. If any food is to be provided it will be prepared off site and served by a licensed caterer.

Challenger currently operates 22 preschools and elementary schools in four western states. We have two existing schools in Las Vegas. Our Silverado campus at 1725 East Serene Ave, Las Vegas, NV 89123 and our Lone Mountain campus at 9900 Isaac Newton Way, Las Vegas, NV 89129. Both of these schools offer preschool and elementary classes. We are licensed by the proper authorities in each location.

The zoning on the property is RE and we have attached site plans, building floor plans and a copy of the deed for your reference. There are just over two acres of ground with developed playgrounds for both preschool and elementary. Kids 'R' Kids were operating with kindergarten and had applied for a license when they lost the building last August. The building has over 17,000 square feet. The surrounding area is residential, light commercial, agricultural, and a large church.

The site plan shows our traffic flow for drop off and pick up of students. On site we have 68 parking spaces, 3 of which are handicapped. All of the lighting is designed to be sensitive to the neighbors while providing appropriate night time illumination. . The parking, traffic flow and lighting have been designed to mitigate impact on the neighborhood. The landscaping is attractive and environmentally sensitive to water conservation.

To Whom It May Concern:

Please accept our Justification Letter for the Special Use Permit for our business From Diapers To Dorms, a children's resale shop, which we intend to operate out of suite 106 of the shopping center at 7501 N. Cimarron Rd. Las Vegas, NV 89131. We plan for this to be an exciting retail environment for our customers and for our shop to be a true asset to the community. Our goal is to provide excellent quality children's items at competitive prices, giving our customers an upscale feeling shopping experience without upscale prices. Some of the types of items that we will be selling are clothing, baby equipment (strollers, high chairs, etc...), feeding supplies, educational materials, play materials, maternity items, bathing supplies and toiletries (toiletries will be unused), feeding materials (bottles, children's tableware, etc...), school supplies and more. There are no other children's resale shops in or near this part of town and what we will be offering is something that the community desperately wants and needs. Our business will be a reputable operation that abides by all laws, regulations, statutes, licensing requirements, zoning requirements and such. We will be careful and diligent in our commitment and quest to sell items that are safe, of high quality, in excellent condition, not recalled, desired and needed by the public and that will serve families well. Our business will operate under the highest standards of integrity, cleanliness, quality, customer service, adherence to all laws and regulations, honesty and the like. Our store will be an inviting and exciting environment that families will enjoy shopping in. We will be acquiring our merchandise through legal means only and such means include by purchasing them from their legal owners. Customers can come in to our shop during business hours and offer their items to us for sale. We also will purchase items through online sites such as eBay. We will not be having any donation drop boxes on our site as we are not operating in the way that a thrift-shop or charity shop would be. We will only sell items that meet our strict standards and that meet all legal requirements as well. Our business model and plan will be something that will serve our city well and will be an establishment that the community will love having access to.

The intended hours for our business will be from 9:00 am to 6:00 pm Monday through Saturday and from 10:00 am to 4:00 pm on Sundays. Should we ever need to adjust these hours in the future, we will be certain to adhere to city requirements. That being said, we plan on keeping these hours for the foreseeable future. At this point in time, we have no plan for employees, as this will be an owner-operated enterprise only. Should in the future we require the use of employees, we will abide by all rules and laws governing this issue. Our business will operate under the structure of a sole-proprietorship. We are already in possession of a state business license and once we submit the Special Use Permit application, we will be filing for the privileged license that applies to our business. (Having been in contact with business licensing, we are aware that they will not accept a business license application of our needed type until our Special Use Permit application has been filed. We will need a receipt for the Special Use Permit application in order to file for our required business license.)

The shopping area that From Diapers To Dorms will be in (should we be successful in our Special Use Permit application process) is in an easily accessible shopping center that is beautifully set up to provide no disruption to any homes, businesses or anyone or anything else. It also has many handicap parking

spots available for those customers who need such parking options. In fact, the parking lot is substantial enough to fit all the customers for all the businesses in the center and beyond. Well-maintained roads are already in place and they can absolutely handle the traffic that would be heading to our business as well as nearby homes and businesses. Being that our business is child and family oriented, people living in nearby homes will be well served by our having business at the proposed location. Also, many nearby business are child and family focused and by having our business anchored at the intended spot, the community will have a wonderful family-friendly shopping destination to fulfill many of their wants and needs. Our business will open up a new world to the community, as From Diapers To Dorms will be the only shop of its kind in the area.

From Diapers To Dorms should enjoy great success at this location. The community will benefit a great deal from having our business accessible to it as well. Not only will our presence in the community be beneficial for customers, but our business will also do a lot of good through our commitment to charities/nonprofits. We feel that businesses not only have to exist for their own benefit but also that they must exist to benefit those in their communities. From Diapers To Dorms has a commitment to dedicate a minimum of 2 percent of its profits to selected nearby charities and we will keep the information about our charitable efforts available for review by the public. We are confident that this will help local organizations and that customers will appreciate their dollars going towards helping their community.

We would like to thank everyone involved in the review of this application and we ask for a favorable outcome. From Diapers To Dorms will be a great source of pride not only for myself, but for those involved in allowing the business to come into existence and for the community. Thank you for your time and efforts.

Sincerely,

Angela Hovda

To whom it may concern:

Currently "The Beat Coffeehouse" is a recently opened and functioning business located inside the Emergency Arts Building on Fremont and Sixth Street. We serve coffee, breakfast, and lunch items during the daytime hours of 7am until 7pm.

It is our goal to expand our business and hours in hopes of attracting additional clientele, as well as making the business financially sustainable.

In making this request, as a current liquor license holder, I acknowledge and accept that all of the following information is part of my proposal for this SUP:

1. Coffeehouse hours will be until 7p, while the sale of alcoholic beverages will be 7p-2am
2. No persons under the age of 21 will be allowed inside "The Beat" after 7pm
3. Alcoholic beverages will only be served and consumed inside "The Beat" space
4. Any events using additional space would require a special event permit
5. We will feature live entertainment at least 4 nights per week
6. Security will be utilized during most, but not all evening hours

As an officer of the Fremont East board of directors, a business owner, a liquor license holder, and a downtown resident, I have made a commitment to the city of Las Vegas to make this area a better place and a fully functioning and prosperous community that offers a superior quality of life. Please allow me to move this project ahead in an expeditious fashion.

Thanks for your support,

Michael Cornthwaite

RE: Justification Letter
The Lady Silvia (Urban Lounge)
900 S. Las Vegas Boulevard, # 140
Las Vegas, Nevada 89101

Dear Doug:

My client desires to design and build a 3,9,37 SF Urban Lounge in unoccupied space on the first level of the SOHO Lofts. The use is permitted under the current zoning which is General Commercial District C-2. A Special Use Permit will be required for the alcoholic beverage license - Urban Lounge. A gaming license will also be required for the five (5) machines located at the bar.

At this time, the project will not be constructed to LEED or equivalent standards however we will be integrating tank less water heaters and LED lighting into the project.

The project will be open for business 24 hours a day, making it an asset to the downtown area and a desirable amenity for the residents of SOHO Lofts. They anticipate 15 employees working at the Lady Silvia.

We appreciate your support of this project and look forward to working with the City of Las Vegas staff during the entitlement process. Should you have any questions, please give me a call.

Best Regards,

Thank you for your consideration of this request. Should you have any questions, please feel free to contact me at 821-6699.

Very Truly Yours,

Gaspar Andrade

To Whom It May Concern:

We are applying for a General Plan Amendment from DR(Desert Rural Density Residential) to SC (Service Commercial) and rezoning from R-E (Residence Estates) to C-1 (Limited Commercial) for a proposed Convalescent Care Facility/Nursing Home, per Title 19, located at 6640 W. Cheyenne Avenue, Las Vegas, NV 89108. The home will be called Ohana (Family) Care Manor and will house 47 adults and will employ approximately 24 staff members. More specifically: 1 Activity Director, 2 Cooks, 2 Pantry Helpers, 1 Kitchen Helper, 1 Dishwasher, 1 Registered Dietician (can be contracted), 10 Caregivers, 1 Medication Technician, 1 Maintenance Person, 1 Laundry, 1 Transportation, 1 Administrator, and 1 Office Clerk. It will have the ability to accommodate 47 adults and be open 24 hours a day, 7 days a week. The ages of the senior citizens will start from 55 years and older only. This facility will only be used as a care center for seniors. The care facility will be professionally managed and a licensed administrator, who has been my consultant, will manage the facility. Our philosophy is to hire the best qualified people in all phases of our employment. Our number 1 goal is to earn the greatest reputation for care, quality and service. License is available upon request.

The height of our building "B" is 28' and a portion of building "A" is 27', which is reflected on our latest plans. The 3 to 1 ratio requirement is 84'.

We request a waiver of 4 feet where 15 feet is the minimum landscape buffer zone depth adjacent to the right of way along Cheyenne Avenue. We request an exception for the perimeter landscaping that is currently 1-24' box tree every 30' on center, along the Southern 160 feet of the West Property line as we only have room for the driveway and no trees in this area. However, these required trees and shrubs will be located in other areas of our facility. The landscape requirement along Cheyenne Avenue and the remainder of the property is 1-24' box tree every 20 feet on center and 4-5 gallon shrubs for every tree. We are proposing to plant a total of 12-24" box trees and 60 total 1 to 5 gallon shrubs consisting of various palms and asparagus ferns in the front facing Cheyenne Avenue. We have 19 parking spaces, including 2 handicap spaces available. This meets the requirements for 1 space per 6 beds (47÷6=8). We also have 8 spaces for our 8 employees on the largest shift. We also have 3 spaces available for medical professionals. This totals 19 spaces which meets the requirement.

We are also requesting a waiver of the East/West perimeter of zero feet where 8 feet is required.

We request to leave the existing 24" tall block wall and brick pillars. We will have to make adjustments to this area to accommodate the 30' driveway coming in from Cheyenne Avenue as the two existing brick pillars may need to be moved to the East a few feet to accommodate a new commercial driveway.

We are requesting a variance for Residential Adjacency standards as 30 feet is required from the property line adjacent to 3235 Garehime Street. We are requesting this be changed to 10 feet.

According to the April 2nd, 2010 issue of the Las Vegas Sun, it states that Nevada is due for an influx of seniors. Experts say the state is unprepared because of limited resources. The U.S. Census Bureau projects that the fastest growing segment of Nevada's population over the next 10 years will be senior citizens, and the prospect has policy makers on edge. In 2008, although Nevada's population grew 1.4 percent that year, the Census Bureau estimated that the number of residents age 65 and older increased by 3.9 percent. In short, this article addresses the immediate and upcoming urgent need for adult care facilities such as the one we are proposing. See attached article.

We feel that given the location of our proposed facility on Cheyenne Avenue, that it will impact the community in a positive manner. There will be none or a minimal increase in traffic to the area. Street elevations will be vastly improved and add to the value and attractiveness of the neighborhood. The landscaping will be such that it will be very attractive and enhance the surrounding neighborhood. We will plant above and beyond the amount of trees and shrubs required by city specifications. There will be in excess of 171 – 24" box trees, approximately 24 – 24" box giant bamboo species along the North, West, and Eastern block walls. There will be meandering pathways for walking, sitting, visiting and lush vegetation, some of which will be small palm trees and asparagus ferns. There will be approximately 150 – 1 to 5 gallon size shrubs total. This landscaping will be similar to what you would see at the Mirage Resort where various species of plants enhance a Polynesian atmosphere. We will install within the courtyard area a pond, water feature, misting systems and areas for meditation. Some of the amenities this facility will include are pets, koi ponds, garden areas, walking paths, beauty salon, group exercise and shuttle service. This facility will be as energy efficient as practical using professional guidance for energy benefits. The manor will also provide employment opportunities at a time when so many in the work force are being let go or laid off. This will help at a time when employment is at an all time low and will provide our economy with a boost in moral and encouragement. This will certainly help our current economy with added jobs. JOBS!!

The storage warehouse in the back of the premises will be converted into a commercial kitchen and hopefully we have approval for a second story above the commercial kitchen for our caregiver's resting quarters. If allowed to, we will utilize all areas of the property for its everyday use. Our storage facilities will be incorporated into our new facility.

The surrounding properties consist of a Chevron Gas Station, the property to the North is vacant and Bank Owned. The 2 properties to the East are owned by one family and we have enclosed a letter that concurs with our proposal. See attached letter.

Neighborhood meetings have been held according to City and Council member requirements.

Please consider our request as there will come a time that our parents, grandparents and even ourselves will need some assistance as we become senior citizens.

Thank you in advance for your consideration of this project.

Attn: Planning and Development Dept.

To Whom It May Concern:

Under the non profit status of Chabad of Southern Nevada we are planning on opening a thrift store located at 6029 West Charleston LV NV 89146. It shall be called Dinosaurs and Roses.

We would gain our inventory from donations within the community. Profits from the store would be distributed to Chabad of Southern Nevada and several other charities in the Las Vegas area such as the Humane Society, AFAN, and others local charities that may be in need. Our goal and purpose is to help as many as possible through our donations.

We plan on picking up all of our donations during daytime hours and should anyone drop any donations off after hours we would by Nine AM (or opening time) have any and all donations removed from the parking lot, front door or anywhere that they are left. There will be no drop boxes or outside storage. We will not be encouraging any drop off donations.

We are planning on opening at 9 AM and staying open till 7 PM Sunday through Friday.

We expect to have one store manager and three volunteers during store hours working with the customers.

Chabad/Dinosaurs and Roses does not have or own any similar or existing business.

Thank you, for your consideration please feel free to contact me with any other questions for concerns,

Sincerely,

Michele Morgan-Devore
Director of Operations

** STAFF REPORT **

PROJECT DESCRIPTION

This is a request for a Major Amendment to a previously approved Site Development Plan Review (SDR-35195) for a proposed Taxicab/Limo Yard on 1.89 acres at 1500 Searles Avenue. The request will increase the square-footage of Building C from 3,000 square feet to 5,000 square feet, as well as relocate the building within the same site. The request includes Waivers of the Title 19 Perimeter Landscape Buffer Requirements. Additionally, the previously approved 30-foot tall Building C is requested to be lowered to a height of 28 feet. The indicated deviations from standards will result in a development that is not compatible or harmonious with adjacent development. An alternate design and adherence to minimum landscape requirements would facilitate the elimination of Waivers, which would create a development that would be appropriate for this area of the City; therefore staff is recommending denial of the subject application. If denied, the site will remain as previously approved.

ISSUES

- The applicant is requesting a zero-foot landscape buffer along the east perimeter where eight feet was previously approved.
- The applicant is requesting a zero-foot landscape buffer along the south perimeter where six feet was previously approved.
- The applicant is requesting an Exception to allow eight perimeter landscape trees where 39 were previously approved.

ANALYSIS

As proposed, the Taxicab/Limo Yard will increase the square-footage of Building C from 3,000 square feet to 5,000 square feet, as well as relocate the building within the same site, with subsequent changes in site design. Site design changes include eliminating the east and south perimeter landscape buffers, as well as providing a five-foot wide sidewalk along Gragson Avenue.

The site complies with all Title 19 requirements with the exception of required landscaping. The applicant has requested a Waiver and two Exceptions as a part of the subject application. The requested Waiver is from Title 19.12.040 Perimeter Landscape Buffer Standards for deviations from buffer widths on the east and south property lines. The first Exception is to allow no parking lot trees where one is required for every six parking spaces. The second Exception is to allow eight trees in the perimeter landscaping where 39 are were previously approved. The requested Waivers and Exceptions are not appropriate and could be mitigated through a better overall design.

The landscape plan indicates the following: 24-inch box Honey Locust, Shoestring Acacia, Purple Robe Locust and Mediterranean Fan Palm. The landscape plan fails to conform to all Perimeter Landscape Buffer Requirements with the exception of the north property line buffer. The landscape plan also fails to meet all parking lot landscaping and seeks a reduction in the overall required tree count.

Pursuant to Title 19.04 Permissible Use, the parking requirement for a Taxicab/Limo Yard is one space for each employee on the largest shift, plus one space per taxi or limo when the facility is at maximum capacity. The applicant indicates that there will be 66 employees for the largest shift and 67 taxis when the facility is at maximum capacity. The subject site contains 133 parking spaces with five handicapped spaces, thereby complying with the proposed Taxicab/Limo Yard use. Primary access to the site is provided from both Searles Avenue and Gragson Avenue. Searles Avenue and Gragson Avenue are designated as 60-foot Local Streets by the Master Plan of Streets and Highways.

FINDINGS (SDR-37613)

In order to approve a Site Development Plan application, per Title 19.18.050 the Planning Commission and/or City Council must affirm the following:

1. **The proposed development is compatible with adjacent development and development in the area;**

   The proposed development is not compatible with adjacent residential, commercial and industrial development in the area. The number of additional requested landscape Waivers further demonstrates the incompatible nature of the proposed development.

2. **The proposed development is consistent with the General Plan, this Title, the Design Standards Manual, the Landscape, Wall and Buffer Standards, and other duly-adopted city plans, policies and standards;**

The proposed development is inconsistent with Title 19.12 Landscape and Buffer Standards. This is seen in the number of Waivers and Exceptions, which are requested as a part of the subject application. These deviations highlight the incompatibility with adjacent developments. The proposed development is both undesirable and obnoxious with regard to its overall design and adherence to minimum requirements.

3. Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;

Adequate site access is provided from both Searles Avenue and Gragson Avenue. Searles Avenue and Gragson Avenue are designated as 60-foot Local Streets by the Master Plan of Streets and Highways.

4. Building and landscape materials are appropriate for the area and for the City;

The proposed building and landscape materials are not appropriate for this area and for the City. The applicant is requesting a number of Waivers and Exceptions of Title 19.10 and 19.12. The provided landscape materials are lacking in quantity. Only one of the existing buildings has proper building permits, which is not appropriate for this or any area of the City.

5. Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;

The buildings fail to create an orderly and aesthetically pleasing environment. The non-permitted structures and overall lack of landscaping is not compatible with adjacent commercial and residential developments in the area. Inadequate mitigation measures have been taken to create an aesthetically pleasing environment.

6. Appropriate measures are taken to secure and protect the public health, safety and general welfare.

The subject site contains several buildings and structures, which do not have proper building permits. The applicant has not taken appropriate action to protect the public health, safety and general welfare.

Re: **SDR-37613, A Cab Taxi Co.**
Request to Withdraw Application

Dear Ms. Wheeler:

Please accept this letter as a request by my client, A Cab Taxi Company, to withdraw the above referenced application.

Work with your staff has revealed that a more comprehensive application must be filed to accomplish the client's goals. Rather than having two applications being processed separately, I believe it is more appropriate to re-file a new application so that the entire matter can be reviewed at one time.

The new application will be filed shortly.

Sincerely,

Bill Curran

Re: A Cab Taxi Dispatch Center
APN: 139-26-201-004
Major Modification to SDR-35195

To Whom It May Concern:

Enclosed please find the required application materials associated with the following requests:

- Major modifications to an existing Site Development Plan Review for a Taxi Yard with waivers of a portion of the landscaping requirement.

A Cab has been operating at its existing site located at 4444 South Valley View since 2004 and received its first medallion from the Taxicab Authority in 2001. Its current site on .86 acres has continually met the company's needs since that time. The recent condemnation of the existing site to facilitate the expansion of Harmon Avenue has required that the business be relocated. The proposed 1.89 acre site located at 1500 Searles Avenue is a suitable location for the permitted use within a C-M zone.

The existing office building has been remodeled to accommodate the company's approximately 12 non-driver employees. Adequate parking for both these employees, as well as those drivers who may bring a personal vehicle to work is provided, although experience has shown that many employees choose public transportation instead of driving private vehicles. The Certificate of Occupancy has been granted for this structure as of 02.11.10.

Accessory buildings on site reflect the site's use for limited maintenance of company owned vehicles. Auto Repair Garage (Minor) and Auto Paint and Body Repair Shop are both Conditional Uses in the C-M zone, and any maintenance performed on site will consist only of preventative or basic maintenance such as oil changes, tire changing, and minor paint jobs to keep the taxis prepared for their usual schedules. No fueling services will be offered, and more intense body work, such as that associated with vehicles involved in collisions, will be performed elsewhere. As required, the repair and service work will be performed within the proposed building in an area which will be completely enclosed. The repair garage previously shown on the site has been relocated just south of the existing office building and a portion of the parking has been relocated along the southern property line and the eastern property line.

We are requesting a waiver (in addition to the waivers already approved with the previous SDR) to provide a 0'-0" landscape buffer where an 8'-0" landscape buffer is required along the east property line and to provide a 0'-0" landscape buffer where 15'-0" landscape buffer is required along the southern property line. The owner has agreed to increase the height of the wall with

wrought iron fencing to 8'-0" on the east property line. The existing trees on the residential side of the wall offer an adequate buffer between the two properties.

To whom it may concern:

Please accept this justification letter as an attempt for a variance, and project approval, so that I may proceed with my plans of opening an over 45 seat restaurant. This project is adjoining my current business (Sofia's Pizza) space one. This new project will encompass spaces 2 & 3.

Shauna Plaza located at 821 North Lamb Blvd, currently has seventy four (74) parking spaces, based on needed parking space for the purposed addition which would require a variance of seventeen (17) spaces to comply with regulations x square footage of my new proposed business with 107 spaces that are required based on the parking analysis.

Please note that three businesses's within this complex close for the day between 6:00 Pm to 7:00 PM creating ample parking as these are the times that most people use for dining.

Additionally I will be providing photographic documentation of the parking facility and area lay out, to be added to this variance request, with all other information in adding this request. I am looking forward to a favorable reply so that I can move forward with this project creating new jobs in this uncertain economy.

Re: Parking dilemma Shauna Plaza:

To whom it may concern,

Please be advised that this parking issue is of an ambiguous nature and as a business owner at this location, I see no need for this new interest in holding up a business to open and operate as usual, creating jobs in this uncertain economy. It must be noted that ample parking spaces are provided and would not impact my business or any business that occupies this complex.

The need for new business in this complex is crucial for the existing business to benefit from the exposure and passably gaining new clientele.

Please note that a major part of our traffic is by foot, being set within several housing communities that do not require the use of an automobile. Additionally, high peek hours for a restaurant business is in the later hours of the day whereas all other business will be closed.

I surely see no need for the city to spend additional dollars on this quest as I feel the money could be used for a better cause.

Sincerely

Kimble & Jackie Gubler

To whom it may concern.

My name is Claudia Cotto. I am an employee at My Office Services suite number 5. Were I work at is owned by Nevada Tax Solutions. Nevada Tax Solutions store number 6 has been combined with My Office Services store number 5. There is curently one employee for My Office Services and that is me. There are three other employees working at Nevada Tax Solutions. As of this time of year the stores are not as busy there for the parking lot is empty. I personaly think that there is enough paking space for the new Restaurant. I also think that this will bring buisness to all of the other store at the Shauna Plaza.

RE: 1301 N. Gateway
APN No. 140-30-502-010

Dear Sirs:

At this time we are requesting a variance for an auxiliary building on our property. Our home is 2,034 square feet with a 520 sq. ft. Class I accessory building, on a .48 acre parcel. The variances that we are in need of in order to construct this building would be for the size, height, and building material.

We purchased this property in March of 2010. Prior to our purchase, the property was vacant for ten months. During this time vandals have continually broke into the house, spray painted graffiti, tore up the inside drywall of the house, and broke all windows. Since our purchase we have diligently tried to protect this property from illegal entry and keep any new graffiti painted over. We intend to clean up, repair, landscape and make this a beautiful property that the City would be proud to have in their area.

At the current time there is no garage. In order to repair and remodel we would like to construct a garage in the rear north-west corner of the property. This would allow us to secure our tools, building materials, and vehicles. The 1,500 sf. Class II auxiliary structure would be a metal garage, painted to match the color of the house and casita.

In the next three months we intend to invest considerable amounts on improvements to the property. They include:

- Repair of southern masonry wall, installation of northern masonry wall on property line ($7,000)
- Abandonment of 1955 septic tank and tie-on to City sewer system ($5,000)
- Replacement of the casita windows, cabinets, appliances, paint & flooring ($8,000)
- Construction of proposed Class II accessory structure ($25,000)

We have moved equipment on-site to begin the sewer installation and masonry walls. After completion of the above listed items, we will live full-time on the property in the casita. Once we are there full-time, I anticipate that the problems with random vandals accessing the area will be eliminated. The neighbors along Gateway have noticed an increase in vandalism and crime as well since this house has been vacant and are eager for us to move in permanently.

In the winter of 2010 we anticipate having remodeling plans for the main house drawn up and submitted for building permits.

The homes to the west of our property are two-story four-plexes (that are also at an elevation 3 feet higher than our property. See Picture #2) The property to the north has a two-story home

RECEIVED
JUL 13 2010
VAR-38840

on it (see Picture #5). The homes in the neighborhood directly east of us are all two-story (see Picture #4). So although our home only has a roofline of 10-feet, the 16-foot height of the accessory structure would not be out of place in the neighborhood. The metal building will be tan with a brown trim. We intend on painting the other structures to match.

Picture #2 shows a view from north of our property, looking south, where we intend to place the building. Picture #3 is taken from within the property, again showing were the building would be placed behind the casita. Picture #1 is a front view showing the home and casita. Aerial views that are currently available on the Clark County website show extraneous sheds and buildings that are no longer on the property. There is only the home and casita there now.

We request that the Planning Commission and City Council recognize our willingness to invest and improve this property and approve our variance request.

Respectfully,

Ronald Marx

Purpose: **Parking Variance Request for APN: 138-21-617-005**
(Near Lake Mead Blvd. and Buffalo Dr.)
0.69 Gross Acres

Mr. Grider:

This serves as a justification letter for the above mentioned parcel for the existing McDonalds restaurant. We are proposing to revise the current drive thru configuration, exterior building elevations and modifications to the interior of the building to meet current McDonald's standards.

In addition to the Site Development Review application that is being submitted concurrently with this application, we are requesting a variance to the parking and signage requirements set forth in Title 19.

The existing parking configuration includes thirty seven parking spaces but no designated loading zone. With the proposed drive thru and parking layout configuration, we are providing a designated loading zone.

Per the requirements set forth in Title 19.10, the number of required parking is thirty-eight parking spaces and since we are proposing thirty-five parking spaces this development does not meet the required number of parking per Title 19.10. Please see parking calculations below:

Restaurant: 1/100 x 3,734 = 37.3

Total: = 38.0 Required
Total: = 35.0 Provided

Since the majority of McDonald's business is drive-thru and not a dine in restaurant, we are suggesting that a reduction in the number of parking spaces required be approved to meet the number of parking spaces that we are proposing for this project.

In addition, with this new site configuration, we are anticipating that the congestion within the parking lot will be reduced from the current situation within the parking lot.

Mr. Grider:

This serves as a justification letter for the above mentioned parcel for the existing McDonalds restaurant. We are proposing to revise the current drive thru configuration, exterior building elevations and modifications to the interior of the building to meet current McDonald's standards.

In addition to the Site Development Review application that is being submitted concurrently with this application, we are requesting a variance to the signage requirements set forth in Title 19.14.

This request is for the approval of incidental directional signage that exceeds seven feet in height, per Title 19.14. The incidental directional signage includes the Welcome Point Gateway for the drive thru entrance, the Drive Thru Twin Pole Canopy with Built in COD, and the Freestanding Modular Outdoor Menu Board.

The Welcome Point Gateway and the Drive Thru Twin Pole Canopy with Built in COD are both approximately 11' – 0" in height. The Freestanding Modular Outdoor Menu Board is approximately 8' – 0" in height. Please see signage information included within this package.

Since these are standard McDonald's signage that are currently in use over the Las Vegas Valley, we are requesting that this variance request be approved for the overall height requirements set forth in Title 19.14.

In addition, we are requesting for a variance for the externally illuminated pole canopy based off of comments received from previous applications submitted for review.

Mr. Grider:

This serves as a justification letter for the above mentioned parcel for the existing McDonalds restaurant. We are proposing to revise the current drive thru configuration, exterior building elevations and modifications to the interior of the building to meet current McDonald's standards.

We are providing thirty five parking spaces for this project, which does not exceed the required thirty eight parking spaces. A variance request is being submitted concurrently with this application requesting the approval of a reduction in the number of parking spaces required per Title 19.10.

In addition, a variance request for the incidental directional signage height is being requested for signage within the drive-thru that exceeds the allowable 7'-0" allowable height and for externally illuminated signage.

Vehicular access to the property will remain off of Lake Mead Blvd with access to the adjacent parcels to the north. In addition, the intent of this site configuration updates will include designing certain ramps, sidewalks, etc. to meet the current ADA specifications.

The existing driveway configurations off of Lake Mead Blvd will remain the current existing widths as indicated on the Site Plan and Landscape Plans. We are proposing to reconfigure the curb returns for the driveways along Lake Mead Blvd to meet current ADA specifications.

The existing landscaping currently conforms to the City of Las Vegas Development Standards in Title 19. Since we are revising the drive thru configuration, a certain amount of landscaping will be removed. Based off of the landscape plan, we are proposing to replace any removed landscape so that an

equal or greater amount of landscaping is proposed. In addition, to meet the previously approved landscape plan, we are proposing additional trees in order to maintain the previously approved landscape plan on file.

In addition, conceptual renderings indicating the Chocolate Color Scheme with Stone Arcade in Texas Crème are provided for your reference. Please note that the renderings provided are for reference only and may not reflect the elevations that we are proposing within this package.

To Whom It May Concern,

We are Statewide Bail Bonds, a Nevada Corporation. We have signed a lease at our location 616 S. 3rd Street Las Vegas, Nevada 89101 for ten years. We have confirmed with John in Planning and Development that we are zoned for this type of business at this location.

We have been in the industry for over 7 years. We have chosen this location because it is located near all the courts and detention facilities. The building is also in the same vicinity as the majority of the other Bail Bond businesses. There are two other Bail Bond businesses next door to our location.

We feel that we fit in perfectly into the downtown Las Vegas core community of attorney offices, bail bond offices and other court-related professionals. We operate a clean and professional office atmosphere and hope to serve the downtown Las Vegas area in a positive way.

Sincerely,

JUSTIFICATION LETTER FOR 9061 W. SAHARA AVE. #104

I intend to use this space for a massage establishment. It will be Las Vegas' first and only massage studio to provide therapeutic services for all ages. I am a nationally certified and licensed therapist who wants to own a private practice. A few of my services include infant massage therapy, sport massage for kids and adults, foot and scalp massage, injury massage, as well as small spa parties for kids and adults. I want to bring awareness to the valley the importance of infant and children massage, as well as adults.

The 750 square foot suite perfectly suits my needs for my practice with an office, a treatment room, a waiting area, and a small reception area. I understand that it is located close to a residential area, so it would be greatly appreciated if that may be waived. I am also aware that I will need two additional waivers. I am the sole therapist in my practice, just like a doctor/dentist who runs their own practice. I will have on-call therapists to help as needed, depending on my books for the day. My hours of operation will be 8am-6pm Monday through Thursday, 8am-8pm Friday and Saturday, and 9am-3pm on Sunday.

My massage practice will be a phenomenal asset to the Vegas valley. It focuses on the whole family, and not just adults.

In conclusion to this justification letter, I have described the nature of my intended project and its use.

To Whom It May Concern:

We are respectfully submitting this application for a Special Use Permit/Variance of distance restrictions with the department of Planning & Development. This permit is for Toma Herfi, Inc. dba Durango Market, located at 6955 N. Durango Drive, Suite 114, Las Vegas, NV 89149.

Our SUP/Variance is for a conversion of the existing liquor license use. We seek to have Durango Market's Liquor License changed from a Beer/Wine License to a Package Liquor License. Originally, this was the preferred use by my client, however when the original application was submitted they did not move forward on the Package Liquor use.

Currently, Durango Market has 2 employees, and operates during the hours of: 8:00am - 10:00pm.

This application meets all current City of Las Vegas codes and regulations. We respectfully ask for your approval of this SUP/Variance for the sole purpose of operating a convenience store with Package Liquor.

Respectfully,

Date: June 26, 2010

Comment:
A letter from the Commissioning Agent or LEED-AP on the project is required to be submitted to the SP-DRC before issuance of a building permit. This letter is to confirm that the LEED checklist received in the DD package is achievable with the submitted design.

Response:
The Lied Discovery Children's Museum, as currently designed is anticipated to achieve 33 points under LEED for Core & Shell v2.0 for a target of Silver certification, per the June 4, 2010 progress set. 16 additional credits have been targeted as potential. Please see the attached scorecard and credit notes.

2. QUANTITIES SHOWN IN THE LEGEND ARE FOR CONVENIENCE ONLY. THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE TO VERIFY AND INSTALL PLANT QUANTITIES AS DRAWN ON PLAN.
3. FINAL LOCATION OF ALL TREES AND PALMS SHALL BE VERIFIED BY THE LANDSCAPE ARCHITECT IN THE FIELD PRIOR TO EXCAVATION OF PLANTING PITS.
4. INSTALL 2" LAYER OF PLANTER MULCH IN ALL PLANTING AREAS; MATCH PLANTER MULCH IN EXISTING PLANTERS.
5. ALL PLANTERS SHALL RECEIVE IRRIGATION AND DRAINAGE.

PLANTING SHRUBS, VINES & GROUNDCOVERS:

1. SHRUBS AND VINES: PLANTING PITS FOR SHRUBS AND VINES SHALL BE 6" GREATER IN DIAMETER AND 6" DEEPER THAN PLANT ROOTBALL. COMPACTED SOIL AT BOTTOM OF PIT SHALL BE LOOSENED AND THE PIT FILLED WITH "PREPARED SOIL" TO THE BOTTOM OF THE BALL. WHEN THE PLANT HAS BEEN PROPERLY SET, THE PIT SHALL BE FILLED TO THE REQUIRED GRADE WITH "PREPARED SOIL" AND THOROUGHLY SETTLED BY TAMPING AND WATERING. ALL VINES SHALL BE REMOVED FROM STAKES, UNTIED, AND SECURELY FASTENED IN ALL APPROVED MANNER TO THE WALL, FENCE OR OTHER SURFACE NEXT TO WHICH THEY ARE PLANTED.

2. GROUNDCOVER PLANTING PITS FOR ROOTED CUTTINGS FROM FLATS SHALL BE 6" X 6" X 6". GROUND COVER AREAS SHALL BE MOISTENED PRIOR TO PLANTING. NO GROUND COVER PLANTS SHALL BE PLANTED IN DRY SOIL.

   SET PLANTS IN CENTER OF PITS SO THAT AFTER SETTLING OF SOIL CROWN OF PLANT WILL BE LEVEL WITH FINISHED GRADE THEN BACKFILL AND WATER.

   GROUND COVER PLANTS SHALL BE WELL ROOTED WITH RUNNERS MINIMUM 4" LONG.

TREE PLANTING PIT NOTE:

ALL PITS FOR TREES SHALL BE DUG SQUARE WITH BOTTOMS LEVEL, THE LENGTH OF THE SIDES AND THE DEPTH AS SPECIFIED BELOW. COMPACTED SOIL AT SIDES AND BOTTOMS SHALL BE LOOSENED BY SCARIFYING OR OTHER APPROVED METHOD. PITS SHALL BE BACKFILLED WITH "PREPARED SOIL", THOROUGHLY SETTLED BY WATER APPLICATION. BACKFILL SHALL BE MADE WITH SOIL AS SPECIFIED UNDER "PREPARED BACKFILL MIX"

ALL PLANT PITS FOR TREES 24" BOX SIZE AND LARGER SHALL BE EXCAVATED TO A MINIMUM OF 2' LARGER THAN THE SIDE AND 1' DEEPER THAN THE HEIGHT OF THE CONTAINER IN ORDER TO PERMIT HANDLING. PLANTING PITS FOR PLANT MATERIAL UP TO 15 GALLON SHALL BE A MINIMUM OF 6" LARGER THAN THE DIAMETER AND 6" DEEPER THAN THE HEIGHT OF THE CONTAINER. EXCAVATE PITS WITH VERTICAL SIDES FOR ALL PLANTS. PLANTS SHALL NOT BE PLANTED IN DRY SOIL. SOIL SHALL BE MOIST AT LEAST 18" DEEP

SET PLANTS IN CENTER OF PIT, IN A VERTICAL POSITION, SO THAT THE CROWN OF THE BALL WILL BE LEVEL WITH FINISH GRADE AFTER ALLOWING FOR WATERING AND SETTLING AND SHALL BEAR THE SAME RELATIONSHIP TO THE FINISH GRADE THAT IT DID TO THE CONTAINER SOIL SURFACE

HEADERBOARD NOTE:

ALL HEADERBOARD LAYOUT SHALL BE VERIFIED IN THE FIELD BY LANDSCAPE ARCHITECT PRIOR TO INSTALLATION OF HEADER. LANDSCAPE CONTRACTOR SHALL LAYOUT HEADER IN THE FIELD.

ESPALIER NOTE:

REMOVE ALL ESPALIERS FROM TRELLIS AND ATTACH TO WALL OR FENCE WITH VINE CLIPS.

STONE/PRE-CAST CONCRETE PAVER NOTE:

THIS AREA WILL BE USED TO DETERMINE SURCHARGE OF THE SAND LAYER (IF APPLICABLE), CONCRETE BASE REQUIREMENTS, JOINT SIZES, LAYING PATTERNS, COLORS, TEXTURES AND MINIMUM TOLERANCES OF THE JOB. REJECTED SAMPLES SHALL BE REMOVED AND ADDITIONAL SAMPLES PREPARED UNTIL APPROVED BY THE LANDSCAPE ARCHITECT. SAMPLE MAY FORM PART OF THE FINAL WORK.
2. FABRICATOR SHALL PREPARE SHOP DRAWINGS FOR ALL CUSTOM PIECES. DRAWINGS SHALL BE SUBMITTED TO LANDSCAPE ARCHITECT TO VERIFY GENERAL DESIGN CONFORMANCE PRIOR TO FABRICATION.

Re: **The Donald W. Reynolds DISCOVERY Children's Museum**
HKS Project No. 12867.000
Planning & Development Justification Letter

Dear Mr. Fagg:

The Donald W. Reynolds DISCOVERY Children's Museum will be built as part of The Smith Center for the Performing Arts which already consists of a three-theater complex: a spectacular main theater (Reynolds Hall) seating more than 2,000, and an Education Center (Bowman Pavilion) containing a flexible Studio Theater/Rehearsal Hall seating 300 and a Cabaret Theater seating 300 patrons for performances, rehearsals, and community receptions.

The Donald W. Reynolds DISCOVERY Children's Museum will be visually striking, timeless, majestic, and built to last for many generations. It will truly be a world-class facility and establish itself as an important community resource enabling the community to continue to experience one of the metropolitan area's major educational institutions serving children and families. It will be located downtown - the geographic center of the Las Vegas valley - as part of the 4.75 acres set aside by the city within the 61-acre parcel of undeveloped land formerly owned by the Union Pacific Railroad called Symphony Park. It is located to the Southeast of the "Spaghetti Bowl", North of Bonneville Avenue across Grand Central Parkway from the World Market Center. Situated at the center of the 61-acre development and part of The Smith Center site, the Donald W. Reynolds DISCOVERY Children's Museum will provide an energy and excitement that, when supplemented with The Smith Center and the adjacent Symphony Park, will assuredly create a central hub and a heart to this newly developed area.

The Donald W. Reynolds DISCOVERY Children's Museum, which is currently known as the Lied Discovery Children's Museum is located at 833 Las Vegas Boulevard North. It was founded as a private, nonprofit educational institution by the Allied Arts Council and the Junior League of Las Vegas and is celebrating 20 years of educating and inspiring Las Vegas. It is operated by 14 full-time and 20 part-time staff members. The museum features over 100 hands-on exhibits in the arts, sciences and culture, special demonstrations and activities, job training programs for teens, and much more. Scheduled hours of operation are as follows: Tuesday through Friday (9 a.m. - 4 p.m.), Saturday (10 a.m. - 5 p.m.), and Sunday (12 p.m. - 5 p.m.). The museum is closed on Mondays except for most school holidays.

The Donald W. Reynolds DISCOVERY Children's Museum, as currently designed is anticipated to achieve 33 points under LEED for Core & Shell v2.0 for a target of Silver certification, per the June 4, 2010 progress set. Sixteen additional credits have been targeted as potential. Please see the attached LEED scorecard and credit notes for further clarification.

Re: Lied Discovery Children's Museum -Design Development Submission
Submitted May 28, 2010 and presented June 4, 2010

The Symphony Park Design Review Committee (SP-DRC) met on June 4, 2010 to review your submission. The Design Development submission is **APPROVED subject to the following conditions:**

1. A revised Promenade elevation/perspective drawing that shows the same three dimensional view of the Museum as the Block Plan submittal dated January 15, 2010, with streetscape, signage, banner and any art elements is required to be submitted, reviewed, and approved by the SP-DRC prior to Site Development Plan Review. Consistent with DD submittal requirement to refine the 3-D perspective views of the building, this requirement is so that the City can adequately compare the two versions of the building and make a final decision on the acceptability of the current material selection and elevation treatment. Although updated 3-D views were provided in the DD submittal, they were not the same eye level view as in the Block Plan submittal. The design development version of the building appears much more institutional in character like a vintage school gymnasium, and less contemporary, perhaps less acceptable for a modern children's museum in this location. The Block Plan drawing was well received for its distinctiveness and playfulness. The use of tile or some material other than basket-weave pattern of brick is also seen as part of the positive change in character for the Museum as was illustrated on the Block Plan submission.

2. A revised landscape and irrigation plan for just the Children's Museum is required to be submitted, reviewed and approved by the SP-DRC prior to issuance of a building permit. The SP-DRC requires that this plan show the sidewalk/curb bump out on Promenade Place relocated to center on the Museum entrance.

3. A signage master plan is required to be submitted, reviewed, and approved by the SP-DRC prior to issuance of a building permit.

RECEIVED
JUL 13 2010
SDR-38854

4. If any building or site lighting is anticipated other than the lighting of the public sidewalk shown in the landscape plans, it is required to be submitted, reviewed, and approved by the SP-DRC prior to issuance of a building permit.

5. A site drainage accommodation letter showing the site conforms to the overall Symphony Park master drainage plan is required to be submitted, reviewed, and approved by the SP-DRC prior to issuance of a building permit.

6. A parking accommodation letter indicating how this project will supply parking or share parking is required to be submitted, reviewed, and approved by the SP-DRC prior to issuance of a building permit.

7. A letter from the Commissioning Agent or LEED-AP on the project is required to be submitted to the SP-DRC before issuance of a building permit. This letter is to confirm that the LEED checklist received in the DD package is achievable with the submitted design.

8. The construction of an adjacent building abutting the South wall of the Children's Museum must be permitted for construction and scheduled for completion within 6 months of the Museum shell completion or the South wall appearance must be revised, submitted and approved by the SP-DRC prior to the construction of the South wall.

9. The awnings proposed on the Promenade Place elevation and indicated on drawings A2.01 and A2.02 are required to be revised to be a minimum of 6 ft from building face to front edge of awning and resubmitted to the SP-DRC for confirmation before issuance of a building permit.

10. Four specific public art opportunities are to be identified, submitted, reviewed, and approved by the SP-DRC prior to issuance of a building permit.

11. The materials pallet proposed is APPROVED subject to the following:

   a. The proposed use of colored brick on the body of the building will be replaced with tile or other material subject to the approval of the SP-DRC prior to the issuance of a building permit.

   b. The proposed glazing specification for the building is required to be submitted, reviewed, and approved by the SP-DRC prior to issuance of a building permit.

RECEIVED
JUL 13 2010
SDR-38854

c. The use of stucco on the first floor of the building in the interior courtyard is to be revised to cementitious plaster on any materials list prior to issuance of a building permit.

The following waivers of the Symphony Park Design Standards will be required to be approved by City Council:

1. Section 3.19.3 of the SP-Design Standards requires parapet heights to be equal to the height of any roof top mechanical equipment. Based on the view lines presented, the SP-DRC believes the roof top equipment will not be visible and therefore recommends the waiver of this requirement. However, be aware that if during construction the building inspector believes the equipment is visible, the project will be required to either raise parapet heights or construct a screening enclosure compatible with the roof architecture of the building.

2. Section 3.5.2 of the SP-Design Standards requires a minimum of 70% vision glazing at the street level. Based on the design character of the Children's Museum building the SP-DRC recommends that this requirement be waived to the proposed percentage of approximately 60%.

3. Section 3.4.2 (illustration) of the SP-Design Standards requires a 16 foot clear dimension to the underside of canopy structures. Based on the proportions of the Children's Museum front elevation the SP-DRC recommends waiving this requirement to the proposed height of approximately 12 feet.

The following comments are provided to focus the Children's Museum team on some specific drawings or issues:

1. Drawings C4.01 and C5.01- the civil engineer and landscape architect need to make sure the site utilities are coordinated with the proposed streetscape.

2. Landscape Material and Furnishing Image Board- The errors on this sheet should be corrected on any existing documents and include:
   a. The use of tree grate B instead of the correct grate A on West Clark.
   b. The use of the Promenade light fixture on West Clark instead of the standard pedestrian fixture
   c. The absence of a call out for the correct subtle patterning of the Promenade Place Quartzite stone
   d. The absence of a call out an approved color for the Hanover concrete pavers.

RECEIVED
JUL 13 2010
SDR-38854

3. Landscape Planting Image Board- The errors on this sheet should be corrected on any existing documents and include:
    a. The use of Hesperaloe on the temporary West Clark streetscape instead of the correct and previously requested Buffalo Grass. (If there will be no temporary landscape due to a garage submission, then this requirement is moot)
    b. The indication of a temporary landscape in front of the Children's Museum instead of the final planting scheme.

Sincerely,
The Symphony Park Design Review Committee

RE: APN: 162-01-801-022
Re: A. Site Development Review

To whom it may concern:

Fairway Chevrolet and Fairway GMC/Buick auto dealerships are located on an existing 17.01 acre site at 3100 and 3222 E. Sahara (APN 162-01-801-022). Both dealerships are existing and are housed in aging structures totaling approximately 145,000 sf. We are requesting a Site Development Review to construct new façade upgrades and an expansion to the existing GMC/Buick showroom, a new Chevrolet showroom and parts building, a new service writer's building and an addition to the service building. We feel this project will be a tremendous catalyst to help jumpstart the revitalization of the eastern end of Sahara in Las Vegas. The property is currently zoned C-2. No change to the zoning is desired or required. On site uses include Motor Vehicle Sales (New), Motor Vehicle Sales (Used), Auto Repair Garage (Major), Auto Paint and Body Repair Shop, Auto parts, Automobile Rental and Truck Rental.

Currently, this development employs 155 sales people, technicians and other support staff. The facility's hours of operation are Monday through Saturday 7am-9pm.

This project is part of the General Motors dealership improvement program and will be completed in phases so that the major operations of the dealerships can remain intact during construction. The first phase of the project is to enclose the existing covered patio of the GMC/Buick dealership to create a larger showroom and to complete façade upgrades to match the new GMC Buick/prototypical standards. This building is labeled as "Building #13" on the site plan. We are requesting that phase one of the project related to building #13 be independent of the rest of the project and not be tied to the approvals of any drainage studies, traffic studies etc.

Phases two and three of the project will include demolishing buildings 6, 8, 9 and 11 (labeled as such on the site plan and totaling approximately +/-45,000 sf) and then building an entirely new structure to house the Chevrolet Showroom, customer lounge and parts sales and then adding on to the south side of Building #10 to create additional service bays and constructing a new service writer's building. The new Chevrolet showroom, service writer's building and the service building will be connected with a new canopy to unify the view from Sahara, to create a cohesive campus and to help with way finding. Building #5 (Body Shop) will now be visible from the street and will receive only minor treatments such as paint, new signage and metal panels to match the new prototypical standards. All new mechanical units will be screened from public view. New construction totals approximately +/- 77,000 sf making the net square footage increase for onsite structures approximately +/-32,000sf.

Customer access to the site is directly off of Sahara via five existing driveways. We are requesting that all driveways remain as is and no work will be done within the right of way. Code required parking is provided in addition to the parking provided for the vehicles on display. New vehicles are delivered to the site via semi-trucks. These trucks pull onto Fairway Place and offload the vehicles from there. No vehicle unloading is done from Sahara.

On site refuse is collected and taken to a compactor behind building #8. Republic services exchanges an empty bin for the full bin on site.

This dealership has been operating since the late 1960's and was rezoned in 1987. At that time, the site was approved with no landscape buffer on the north, east or west sides and with a 5'-0" buffer containing "Astroturf" along Sahara. Over the years, the "Astroturf" has been removed and replaced with concrete and solar light poles. We are requesting a waiver of the original 5'-0" landscape buffer so that the concrete will remain as it is. We feel this waiver is justified since there are existing power poles along the north side of Sahara that could be affected by the addition of trees and other landscaping. In addition, landscaping along Sahara would block the customer's view of the display vehicles. Therefore, we have located on site landscaping set in from the street creating a buffer between the new car display and the customer parking. In lieu of the buffer adjacent to the street we have added approximately 13,000 sf of landscaping including 19 Mexican Fan Palms and other associated shrubs and ground cover within the new car display and customer parking areas and have added enhanced landscaping at the corners of the main buildings.

General Motors is encouraging all of its dealerships to utilize and incorporate Green building strategies. For this project we will attempt to incorporate water and energy saving measures such as the utilization of skylights, occupancy sensors, drought tolerant landscaping, insulated windows, light colored paint, appropriately sized mechanical units and charging stations for electric cars.

We feel this project meets and supports existing city regulations for Site Development Plans. This development is being upgraded aesthetically to be compatible with other development in the area and it is generally consistent with Title 19 standards. Site access has been improved with the addition of the service writer's building in that all service customers will know to come to a central location.

We have made every attempt to follow City of Las Vegas Title 19. Please join us in our attempt to bring much-needed high caliber product to Las Vegas residents.

Respectfully Submitted,
