To whom it may concern:

Please accept this justification letter as an attempt for a variance, and project approval, so that I may proceed with my plans of opening an over 45 seat restaurant. This project is adjoining my current business (Sofia's Pizza) space one. This new project will encompass spaces 2 & 3.

Shauna Plaza located at 821 North Lamb Blvd, currently has seventy four (74) parking spaces, based on needed parking space for the purposed addition which would require a variance of seventeen (17) spaces to comply with regulations x square footage of my new proposed business with 107 spaces that are required based on the parking analysis.

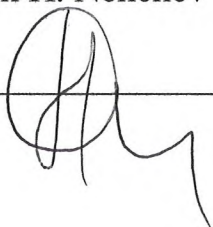

Please note that three businesses's within this complex close for the day between 6:00 Pm to 7:00 PM creating ample parking as these are the times that most people use for dining.

Additionally I will be providing photographic documentation of the parking facility and area lay out, to be added to this variance request, with all other information in adding this request. I am looking forward to a favorable reply so that I can move forward with this project creating new jobs in this uncertain economy.

Sincerely Yours
