Dear Ms. Wheeler:

This is a request for a Variance to allow the height of a sign to be 40-foot where the previously approved Variance only allowed for a 37-foot height Variance. The three foot discrepancy is due to the embellishments at the top of the sign that were not considered in the original request. There will be no negative effect from this request and the sign continues to meet the criteria of the National Scenic Byway Signage Overlay Standards.

Thank you,

RE: Providence Master Plan Community
Project Plan: Tentative Map Submittal
POD: 201/203 – Cambridge – Unit 4
Plan Date: 7/13/10

Dear Christa:

The Providence Design Review Committee (DRC) is in receipt of your Tentative Map submittal for the aforementioned POD.

The DRC **conditionally approves** your Tentative Map for POD 201/203 – Cambridge subject to the following:

- That this Tentative Map's conditions of approval granted by the City of Las Vegas will not refer to dedication of right-of-way necessary for the City of Las Vegas' northern beltway (Sheep Mountain Parkway);
- That the City of Las Vegas' previous tentative map approvals for POD 201/203, specifically, TMP-5290 and TMP-20526, shall be expunged so that the conditions contained therein referring to dedication of right-of-way necessary for the City of Las Vegas' northern beltway (Sheep Mountain Parkway) no longer exist;
- That KB Home demonstrate the above requirements have been met by filing with the Providence Design Review Committee the new conditions of approval for this Tentative Map once the Tentative Map has been approved by the City of Las Vegas' Planning Commission;
- The approved density of POD 201/203 was reduced to eight units per acre. Please revise the "Site Data" block to reflect this;
- Please provide the total number of lots proposed within POD 201/203 as shown on this revised Tentative Map;
- Please verify this revision conforms to an overall density of eight units per acre for POD 201/203.

RE: FMP-38588 - STRATTON 35 AMENDED

Dear Mr. Swapp:

Your request for Final Map Technical Review was completed by the departments of Planning and Development and Public Works on July 2, 2010. The departments have administratively **APPROVED** your request, subject to the conditions noted below, which shall be incorporated into the Final Map Mylar when submitted for signature by the City.

Planning and Development

1. The Original Final Map Mylar shall be in conformance with the approved Tentative Map – STRATTON 35 (TMP-12092) and all other land use entitlements associated with Final Map – STRATTON 35 (FMP-15912).
2. On the cover sheet, insert the file number “FMP-38588” above the signature block in the lower right-hand corner.
3. The “CERTIFICATE OF DIRECTOR OF PLANNING AND DEVELOPMENT APPROVAL” should read as follows:

I certify that this final map substantially complies with the tentative map and any approved alterations thereto; that the map complies with applicable statutory and ordinance provisions; that all conditions imposed upon the final map have been met; and that the map was approved and the parcels herein were accepted for dedication by the Director of Planning and Development on the ____ day of _____, 200__.

Public Works

4. Coordinate with the Collection System Planning Section of the Department of Public Works for an Oversizing Agreement for sewer line construction in Jones Boulevard prior to the recordation of this Map.
5. No permanent structures, landscape trees, or shrubs with potential growth of three feet or greater in height shall be permitted within the sewer easement located in common element D (between lots 4 & 5). A note to this affect shall be placed on this Map.
6. Submit a Vacation application for all existing City of Las Vegas easements that are no longer needed due to amendments shown on this map. The Order of Vacation must be recorded concurrently with this Map. Relocate the City Engineer's signature block such that it does not appear to be an approval of Vacating City of Las Vegas Easements, as such easements can only be eliminated through the Vacation process, not by Amended Map.
7. Dimensions and information presented on the currently approved civil improvement plans should match this amended Final Map. Revise drawings as necessary.

Re: Justification Letter / Request for Review of Condition

Dear Sirs:

The Twilight North Homeowners Association requests a review of condition pertaining to the five foot high fence separating the equestrian path and transportation path. The fence was required as a condition of development but has been overcome by events and no longer appears to serve any useful purpose. No horses use the equestrian trail; only pedestrians at this point in time.

Additionally, the maintenance of the polyvinyl chloride resin fence has become an extreme hardship for the Association. Vandals damage the fence frequently necessitating expensive repairs. There is no way for the Association to protect the fence as it is situated outside the perimeter walls. Accordingly, the frequent damage presents a huge liability for the Association should someone sustain an injury on the fence, especially if it is broken which it often is. These factors together with the city's allowing other Association's along Grand Teton to remove the fencing we believe are justification for removing the fence altogether.

In summary, the Association is simply asking for permission to remove the fence along Ackerman Drive. It will continue to maintain the landscaping or trail as it does now. The many owners in Twilight North Homeowners Association, the Board and me, eagerly await your response. Thank you for your consideration.

Very Truly Yours,

Russell Powers, CMCA

Re: JUSTIFICATION LETTER

To whom it may concern.

I am applying for a Use Permit for an Auto Sales at 4561 E. Bonanza Road, Las Vegas, Nevada 89110. The property is zoned as a C2 which is for a heavy mechanic repair of which is comparable with Use Permit of which I am applying for.

Further this is vital to me because at this time I have filed a chapter 11 bankruptcy and this will give more proof to the judge and trustees that I do intent to have future income.

Respectfully

HECTOR CAMACHO

Re: 2281 S. Pioneer Way
Las Vegas, Nevada 89117
Parcel No: 310-320-052

To Whom It May Concern:

Pursuant to your request for a Justification Letter, please be advised the outer structure located in the backyard at 2281 S. Pioneer Way is utilized as a Men/Women Pool House/Dressing Room and an outdoor Summer Kitchen area. These areas are used by myself as owner for personal purposes only. None of the structure is utilized for any non-residential or business purpose. The satellite building which existed when I purchased the home is utilized strictly for personal entertainment.

Consequently, I am requesting a variance for use aligned with the above only. All inquiries and/or communications should be directed to Bill Spaulding – Spaulding Construction at (661) 917-6887. Mr. Spaulding has informed me that he will be forwarding the plot plan by Friday February 26, 2010.

Thank you for your assistance in this matter.

Very truly yours,

Roxanne W. Sheridan

Re: Justification Letter
Legal Aid Center of Southern Nevada
APNs: 139-34-410-244 & 139-34-410-245

Dear Mr. Howe:

This firm represents Legal Aid Center of Southern Nevada (LACSN) with respect to the development of an office building located at the northwest corner of Charleston Boulevard and Eighth Street. The site is within the Downtown Redevelopment Plan with a General Commercial (GC) master plan designation and is currently zoned C-1. The structure will be the new office building for LACSN, which is presently located in the adjacent office building at the southwest corner of Eighth and Gass. This request consists of a Site Development Plan Review and Variance applications. Note that these applications represent a revision of the project which was previously approved by the City Council (SDR-29445, VAR-29446 & 29447).

Site Development Plan Review

The project proposes a 32,500 square-foot office building (previously approved at 39,000 square feet), two story structure and three story parking garage (both previously approved at four stories) at a maximum height of 50 feet (previously approved at 65 feet). Contemporary materials will be used on the building exterior, which include various colors of smooth finish stucco, metal panels and glass wall system with high performance low E reflectivity not to exceed 22%.

A waiver of perimeter landscaping requirements is requested as part of the SDR applications as follows:

	Required	Provided	Previously Approved
South/East	15 feet	Zero feet	10 feet
West (alley)	8 feet	Zero feet	Zero feet

Parking Variance

In addition to the SDR the applicant is requesting parking and setback variances as follows:

	Current Application	Previously Approved
Required	118	130
Provided	92	84
Reduction	26 or 22%	46 or 35%

The applicant is proposing a reduction of the previously approved parking variance for this application. This request is justified given the applicant's mission, clientele, location and mass transit opportunities. LACSN is a private, non-profit corporation dedicated to providing free community legal services to the County's low-income residents since 1958. Eligibility for their services is based on household income and the number of people living in the client's household. As a result of the economic status of its clientele, approximately half (48%) of the applicant's clients travel to the office by a mode other than driving their own car – mass transit, walk or ride a bicycle, or dropped off by a relative or friend. Stated frankly, a vehicle is a luxury item many of their clients simply do not have. Moreover, approximately 45% of the applicant's clientele live in the downtown area, making access to the site by means other than a vehicle quite easy.

Of the remaining 55% of their clientele, most live in the east and northeast parts of the valley. LACSN is ideally located for mass transit opportunities – not a coincidence and quite necessary in fulfilling its mission of providing free legal services to those in need. Bus Route 206 runs the full length of Charleston Boulevard and has four bus stops within two blocks of the site, including one next door (in front of the US Bank building) and one directly across Charleston. Route 206 is the third busiest non-tourist route in the CAT system, and it intersects with the second busiest non-tourist route (Maryland Parkway) in addition to the busiest of all routes, Las Vegas Boulevard. This makes LACSN accessible to virtually all parts of the valley where most of its clientele live and work. Route 206 is also expected to connect to the new Central City Terminal at Casino Center and Bonneville (replacing the Downtown Transportation Center), which will allow for even more bus transfers and easier access to LACSN.

Also important to consideration of the parking variance request is that significant off-site (street) parking is available in the area. Adjacent to both LACSN parcels is 270 feet of street parking, equivalent to 15 parking spaces (assuming a standard 18 feet of space per vehicle). Including these parking spaces with the 92 provided with the project brings the total available parking count to 107 spaces. Also available within one block of LACSN is approximately 842 feet of street parking for an equivalent of another 46 parking spaces. In total, 61 additional parking spaces may be available at any given time either adjacent to or across the street from LACSN. Coupled with the spaces provided with the project, approximately 153 parking spaces are available either on-site or within a one block area.

VAR-39099
VAR-39100
SDR-39098

Setback Variance

The second variance request is for reduced setbacks as follows:

	Required	Provided	Previously Approved
Front	20 feet	10 feet	10 feet
Side	10 feet	5 feet	5 feet
Corner Side	15 feet	10 feet	Zero feet
Rear	20 feet	8 feet	Zero feet

The proposed setbacks conform to the existing development in the area. The adjacent building to the west has a 10-foot setback on Charleston, while buildings along Charleston towards Las Vegas Boulevard have limited or no front setbacks. The proposed 10-foot setback for this project will provide a smooth and aesthetically pleasing transition from the zero setbacks allowed on properties in the Downtown Centennial Plan only one and a half blocks away from this site.

Along with the setback variance is a request for lot coverage of 78.2% where a maximum of 50% is allowed. Again, much of this area of downtown has been built as scales exceeding the 50% lot coverage requirement. Indeed, the Downtown Redevelopment Plan contemplates development that does not necessarily conform to the parameters of the City's overall development code. Notably, the lot coverage previously approved for this site was 83%.

When completed this project will add a vibrant, new structure to Charleston Boulevard and the Downtown Redevelopment area that will set a standard for small-sized office buildings. Moreover, it will allow LACSN to continue providing legal access to the poor, indigent, elderly and immigrant communities in southern Nevada at a location that is accessible to all.

Thank you in advance for your time and consideration regarding this application. Please feel free to contact me should you have any questions or need additional information.

Sincerely,

Russell M. Rowe, Esq.

Re: Variance Request (Setbacks and Site Coverage) for a Law Office Building
APN: 139-34-710-030, -031, -032, -033

To whom it may concern:

The purpose of this letter is to request a variance to the provisions of the code regarding setbacks and site coverage ratio for the proposed Law Office Building located at 400 South 7th Street in Las Vegas, Nevada 89101.

All four parcels are currently zoned C-1, for which an office building is best suited. The current general plan designation for this site is 'C'.

A historic and traditional office building is envisioned by the property owner. The tenants are expected to be predominantly law firms and related office users. The building is designed to have a classical architectural theme consisting of arches, brick veneer, colonnade, and a capitol dome.

The building site is situated just outside of downtown centennial office core district. It is designed to fit in the context of the urban neighborhood. The project consists of 3-story office building situated on top of (2) levels above grade parking and (2) levels subterranean parking. The building's parapet height is 84'-0", the top of the dome is 96'-0", and the top of the flag pole is 126'-0" in height which conforms to the unlimited height limit of the C-1 zone.

We are requesting a variance for the required setbacks and site coverage. Code requirements for general C-1 development are 20' (front) 10' (side yard), 15' (corner yard) and 20' (rear yard). In a downtown area, with small lot sizes and anticipated urban core density, conformance to setback requirements would substantially limit the site's development potential. In addition, this property is situated on a corner lot and thus would be greatly impacted by the required setbacks. The proposed design requires zero lot setbacks on all sides. This meets the spirit and a language of the urban area. Zero setback as an element of urban site development is a requirement in the adjacent downtown centennial office core district. The resulting site coverage of 86% is proposed (where 50% is allowed by code) and meets the spirit of code language for urban areas. In this context, given the relatively small site area, setback and lot coverage code conformance would result in substantially less viable project.

We appreciate your assistance in moving forward with this proposed project.

Sincerely,

date

**Re: Site Development Review for a Law Office Building
APN: 139-34-710-030, -031, -032, -033**

To whom it may concern:

The purpose of this letter is to request a Site Development Review for the proposed Law Office Building located at 400 South 7th Street in Las Vegas, Nevada 89101.

All four parcels are currently zoned C-1, for which an office building is best suited. The current general plan designation for this site is 'C'. The site also lies within the Las Vegas High School Neighborhood Historic District. This project intends on conforming to the goals and policies of the current zoning and general plan.

A historic and traditional office building is envisioned by the property owner. The tenants are expected to be predominantly law firms and related office users. The building is designed to have a classical architectural theme consisting of arches, brick veneer, colonnade, and a capitol dome.

The building site is situated just outside of downtown centennial office core district. It is designed to fit in the context of the urban neighborhood. The project consists of 3-story office building situated on top of (2) levels above grade parking and (2) levels subterranean parking. The building's parapet height is 84'-0", the top of the dome is 96'-0", and the top of the flag pole is 126'-0" in height which conforms to the unlimited height limit of the C-1 zone.

By a separate application we are also requesting a variance for the required setbacks and site coverage. The proposed design requires zero lot setbacks on all sides. This meets the spirit and a language of the urban area. Zero setback as an element of urban site development is a requirement in an adjacent downtown centennial office core district. Site coverage of 86% is proposed (where 50% is allowed by code) and meets the spirit of code language for urban areas. In this context setback and lot coverage code conformance would result in substantially less viable project.

As a result of urban design approach that fits downtown area, we are requesting a waiver to reduce the landscape perimeter buffer width. Proposed landscape along the 7th Street and Chef André Rochat Place includes densely spaced trees, shrubs in the planters and vines on building facades, which should adequately compensate for the reduced width of the buffer.

All required parking, totaling 184 spaces is located within the 4-storey (2 of which are subterranean) parking garage. Six (6) ADA parking stalls, including an ADA van accessible parking stall is provided. Please refer to the site plan, floor plans, landscape plans and elevations dated 8-9-10 that accompany this letter.

As you can see, the applicant has made a considerable effort to work with the property and historic nature of the neighborhood. This project is consistent with the surrounding area, the City of Las Vegas Development Code, and does not have any adverse impacts on the area. There are adequate utilities, public transportation, and services to the development. Located in the heart of a successful downtown district, the site presents a great opportunity for this office development.

We appreciate your assistance in moving forward with this proposed project.

Sincerely,

**Re: Site Development Review for a Law Office Building
APN: 139-34-710-030, -031, -032, -033**

To whom it may concern:

The purpose of this letter is to request a Site Development Review for the proposed Law Office Building located at 400 South 7th Street in Las Vegas, Nevada 89101.

All four parcels are currently zoned C-1, for which an office building is best suited. The current general plan designation for this site is 'C'. The site also lies within the Las Vegas High School Neighborhood Historic District. This project intends on conforming to the goals and policies of the current zoning and general plan.

A historic and traditional office building is envisioned by the property owner. The tenants are expected to be predominantly law firms and related office users. The building is designed to have a classical architectural theme consisting of arches, brick veneer, colonnade, and a capitol dome.

The building site is situated just outside of downtown centennial office core district. It is designed to fit in the context of the urban neighborhood. The project consists of 3-story office building situated on top of (2) levels above grade parking and (2) levels subterranean parking. The building's parapet height is 84'-0", the top of the dome is 96'-0", and the top of the flag pole is 126'-0" in height which conforms to the unlimited height limit of the C-1 zone.

By a separate application we are also requesting a variance for the required setbacks and site coverage. The proposed design requires zero lot setbacks on all sides. This meets the spirit and a language of the urban area. Zero setback as an element of urban site development is a requirement in an adjacent downtown centennial office core district. Site coverage of 86% is proposed (where 50% is allowed by code) and meets the spirit of code language for urban areas. In this context setback and lot coverage code conformance would result in substantially less viable project.

As a result of urban design approach that fits downtown area, we are requesting a waiver to reduce the landscape perimeter buffer width. Proposed landscape along the 7th Street and Chef André Rochat Place includes densely spaced trees, shrubs in the planters and vines on building facades, which should adequately compensate for the reduced width of the buffer.

All required parking, totaling 184 spaces is located within the 4-storey (2 of which are subterranean) parking garage. Six (6) ADA parking stalls, including an ADA van accessible parking stall is provided. Please refer to the site plan, floor plans, landscape plans and elevations dated 8-9-10 that accompany this letter.

As you can see, the applicant has made a considerable effort to work with the property and historic nature of the neighborhood. This project is consistent with the surrounding area, the City of Las Vegas Development Code, and does not have any adverse impacts on the area. There are adequate utilities, public transportation, and services to the development. Located in the heart of a successful downtown district, the site presents a great opportunity for this office development.

We appreciate your assistance in moving forward with this proposed project.
Sincerely,

 8/9/10

Re: A Cab Taxi Dispatch Center

Major Modification to SDR-35195
Special Use Permit
Variance

AUG 10 2010

To Whom It May Concern:

Architecture

Engineering

Planning

Interiors

Landscape

Enclosed please find the required application materials associated with the following requests:

- Major modifications to an existing Site Development Plan Review for a Taxi Yard with waivers of a portion of the landscaping requirement.
- Special Use Permit for outside storage within the side setback
- Variance for 0'-0" side setback where 8'-0" is required

A Cab Taxi Co. has been operating at its existing site located at 4444 South Valley View since 2004 and received its first medallion from the Taxicab Authority in 2001. Its current site on .86 acres has continually met the company's needs since that time. The recent condemnation of the existing site to facilitate the expansion of Harmon Avenue has required that the business be relocated. The proposed 1.89 acre site located at 1500 Searles Avenue is a suitable location for the permitted use within a C-M zone. A Cab has been operating out of the Searles location for approximately 6 months.

The existing office building has been remodeled to accommodate the company's approximately 12 non-driver employees. Adequate parking for both these employees, as well as those drivers who may bring a personal vehicle to work is provided, although experience has shown that many employees choose public transportation instead of driving private vehicles. The Certificate of Occupancy has been granted for this structure as of 02.11.10.

Accessory buildings on site reflect the site's use for limited maintenance of company owned vehicles. Auto Repair Garage (Minor) and Auto Paint and Body Repair Shop are both Conditional Uses in the C-M zone, and any maintenance performed on site will consist only of preventative or basic maintenance such as oil changes, tire changing, and minor paint jobs to keep the taxis prepared for their usual schedules. No fueling services will be offered, and more intense body work, such as that associated with vehicles involved in collisions, will be performed elsewhere. As required, the repair and service work will be performed within the proposed building in an area which will be completely enclosed. The repair garage previously shown on the site has been relocated just south of the existing office building and a portion of the parking has been relocated along the southern property line and the eastern property line.

We are requesting a variance for the eastern (side setback) of the Supervisor Shelter of 0'-0" where 8'-0" is required. This structure allows the cab drivers to download their information to the computer for billing purposes.

F 951.823.0550

We are also requesting a special use permit to allow outside storage within the side setback at the north end of the property. This will help to provide a buffer from the site to the street and will provide a continuous landscape strip.

We are requesting a waiver (in addition to the waivers already approved with the previous SDR) to provide a 0'-0" landscape buffer where an 8'-0" landscape buffer is required along the east property line and to provide a 0'-0" landscape buffer where 15'-0" landscape buffer is required along the southern property line. A sidewalk along Gragson has been shown on the plans at the councilman's request. The existing trees on the residential side of the wall offer an adequate buffer between the two properties.

If you have any questions or need additional information regarding anything with respect to these requests, please do not hesitate to contact my office.

Re: Justification Letter for Cardenas Market #30
4700 Meadows Lane

Dear Sir or Madam:

Enclosed please find all of the exhibits and application for the proposed Cardenas Market at the location of Highway 95, Meadows Lane and Decatur Blvd. The proposed market will provide new vitality for this area and a face lift for the existing closed Mervyn's Store.

As you are well aware, Cardenas Markets have several locations in Las Vegas at 4421 East Bonanza Road and 4500 East Tropicana Ave. This store will be the third store established in Southern Nevada and the 30th family store and will help to rejuvenate the Decatur and 95 area.

The existing building will remain as is in size with a new façade and new covered entry walk areas. The building is buffered adequately from the residential properties and will bring a neighborhood market to this area and help the existing and future businesses along Decatur Blvd. The hours of operation are seven days a week from 6:00 a.m. to 11:00 p.m. The site, parking, infrastructure, sewer, water, roadway, gas and electric are existing.

We are required to have 331 parking spaces and 413 parking spaces are provided. We are also upgrading the existing Accessible parking from the original 8 to the required 9 plus adding 1 van space for a total of 10. All accessible spaces are being brought up to Title 19 with the 5' access isles on both sides and the 8' access isle on the passenger side of the van parking. We have also done a comprehensive site review of the existing landscape and are adding trees and shrubs in the spirit of Title 19 along Decatur Blvd. and Meadows lane that are spaced 20' apart with 4 shrubs per tree and in the existing parking islands we are adding trees where they are missing with additional shrubs for a minimum of 1 tree per island and 4 shrubs per tree. The proposed signage is also shown on the site plan with one sign on Decatur Blvd. and one sign on Meadows Lane. The minimal adverse affects during construction will all be mitigated appropriately and the end result will be an extraordinary commercial establishment.

The Cardenas family in 1979 opened their first supermarket. Today, Cardenas Markets cater to shoppers, with a wide variety of products from Mexico and Central and South America. The stores feature extensive meat and produce departments, bakeries, and tortillerias.

On behalf of Cardenas Markets, SSA Architecture has been authorized and directed to request an Administrative Approval for the proposed changes to the existing building. Since the facility will contain a grocery store with accessory uses of a package liquor off-sale establishment of approximately 500 square feet and a gaming area of approximately 503 square feet which require state licenses we are also requesting a special use permit for these items separate from the Administrative approval. The overall Cardenas Market area will be 66,055 square feet and there will also be five retail spaces totaling 10,582 square feet along the Decatur Blvd. side for lease to complementary businesses of the Cardenas Market.

Re: Former Mervyn's, 4700 Meadows Lane, Las Vegas, NV

Ladies/Gentlemen:

We are under contract to purchase from an affiliate of Developers Diversified Realty the former Mervyn's store at the above address. Upon close of escrow, we will be leasing the building to Cardenas Markets, Inc. It is our understanding that Cardenas will be making modifications to both the interior and exterior so they can utilize the building as a supermarket. In order to accomplish this, we understand that Cardenas is in the process of obtaining various planning and building approvals from the city which require our consent. We hereby consent.

For your records, I attach the first and last page of the executed purchase contract for the property.

A notarized acknowledgement is also attached.

Please call with any questions.

JUSTIFICATION LETTER

Planning & Development
City of Las Vegas
Las Vegas, NV

RE: RP Slots, LLC Application for Slot Route Operation at 542 S. Decatur Blvd.

Dear Sir or Madam:

Please consider this to be our justification letter in connection with the Special Use Permit process for the above-referenced project. The location at 542 S. Decatur has been a pharmacy with slot machines since the early 1960's.

In February 2009 when Wellcare Pharmacy became the new pharmacy operator, the existing gaming machines were removed and the gaming license surrendered. RP Slots, LLC submitted an application with the City and the State of Nevada to be licensed as a slot route operator, with the intent of operating gaming at this location. It took over a year for the licensing process to conclude, and in May 2010, both the State and City approved RP Slots, LLC as a slot route operator.

RP Slots, LLC then submitted an application to both the City and State to operate slots at 542 S. Decatur. I have been advised that because gaming has been ceased at this location for over 12 months (although the delay was solely caused by the time required to obtain necessary approvals from the

RECEIVED
JUL 27 2010
SUP-38996

State), the City requires a Special Use Permit in order to re-establish gaming at the location.

It is important to recognize that approval of this request will restore the location to the exact same nature that it had operated for over 40 years. The operation has always been deemed to be harmonious and compatible with surrounding land uses. The physical site is suitable and street facilities are adequate. Approval of the Special Use Permit will not be inconsistent with or compromise the public health, safety and welfare.

Hours of operation will be unchanged: Mon-Sat 7a-9p and Sunday 8a-5p. Number of employees will be unchanged with four. State Gaming approval is being obtained concurrently. The current owners of RP Slots, LLC had previously operated slots in this location from January 2008 - February 2009, under the corporate entity of DDRT, LLC.

This letter is being submitted with the Pre-Application Conference Request Form.

I will be happy to provide any additional information necessary to expedite this process.

Sincerely,

Roger M. Szepelak

Justification Letter

Dear Sir and/or Madam:

We are a Physical Therapy center that offers post-trauma and preventive medical care to our patients. One of our medically effective services is a manual therapy called "Soft Tissue Oxygenation". This hands-on technique is a form of a massage. It is performed by specially trained licensed massage therapists and physical therapists. This massage technique is known in Europe, Asia, Australia, and New Zealand as "medical massage" due to its therapeutic qualities.

On July 13, 2010, we were informed by the Business License Department that due to law changes in 2009, Physical Therapy facilities must receive a Special-Use Permit in order to perform any type of manual therapy on their clients. So in order for us to be in compliance, we are asking for this Special-Use Permit.

This service is vital to health and recovery of our patients. Soft Tissue Oxygenation Therapeutic Massage is the only type of "massage" that we offer (going to offer) our clients. We do not plan to be a regular cosmetic massage center or a spa because we are a medical facility.

We kindly ask for your assistance in this matter in order to be in compliance with the City of Las Vegas. Only Nevada licensed massage therapists and Nevada licensed physical therapists will be performing Soft Tissue Oxygenation Therapeutic Massage treatments.

We are requesting a waiver for a 300-feet where 400-feet is required between us and a residentially zoned property. Our property is 100-feet across Durango Drive from the closest residential property.

If there is anything else that I need to provide you, please call me on my cell phone. My contact information is:

Eugene Kaufman

Cell: 702-622-5628

Thank you so much for your service. I await your further instructions.

RE: Justification Letter – Special Use Permit – APN: 162-03-410-007

Dear Planning and Development Department,

Enclosed is an application for a Special Use Permit for an indoor Gun Club, Skeet or Target Range, or Archery Club for that property located at the northeast corner of Cincinnati Avenue and Las Vegas Blvd., more specifically described as APN: 162-03-410-007 (the “Property”) by Cornerstone Company.

The Property consists of 1.9 acres of land zoned C-2 (General Commercial). Cornerstone Company proposes to develop an approximately 7,000 square foot indoor Gun Club Establishment with a retail store for related services. The proposed Gun Club Establishment will be located in an existing building on the Property.

The proposed use is appropriate because the property is zoned C-2 which permits the use when accompanied with a Special Use Permit.

The proposed Gun Club Establishment will provide a first rate operation to serve the tourists and residents in the area.

Therefore, we respectfully request the approval of the Special Use Permit. If you have any questions, please contact me at (702) 383-3033.

Thank you,

Justin M. Michaels
Cornerstone Company

**Re: Justification Letter – APN 163-06-816-025
Special Use Permit Application
Firefly Westside, LLC**

Dear Steve:

This office represents the applicant in the above referenced matter. This application is a request for a special use permit to allow for a reduced separation between a supper club with alcohol sales and a place of worship within an existing commercial shopping center. The shopping center is generally located on the northwest corner of Sahara Avenue and Fort Apache Road.

The proposed restaurant lounge is located within an existing multi-use shopping center and faces Sahara Avenue, a 100 foot right-of-way. The restaurant, known as Firefly Tapas Kitchen & Bar, will be located in an approximate 7,000 square foot (including outdoor dining) pad space on the southwest end of the site.

The restaurant is located within 400 feet of an existing place of worship. The place of worship is located at 9590 Sahara Avenue just east and slightly north of the subject pad site within the same commercial shopping center. The subject restaurant pad site was previously approved for and operated as a supper club with alcohol while the place of worship operated in its existing location. The latest restaurant closed late last year and the approvals have since expired. However, there are several other supper clubs with alcohol approved and currently in operation within the shopping center today. Clearly, all uses have operated harmoniously with one another and the alcohol sales have not had any adverse impacts on the existing place of worship.

We appreciate your kind consideration of our request. Should you have any questions, please call me. Thank you very much.

Sincerely,

KAEMPFER CROWELL RENSHAW

Re: Special Use Permit with separation waivers for Opa Tavern Liquor Establishment within Tivoli Village at Queensridge Parcel 138-32-601-003

Dear Sir/Madam;

Please consider this request to allow a Liquor Establishment (tavern) within a previously approved mixed use development (SUP-5853). The site is located within a 29 acre commercial and residential development located at the northeast corner of Alta Drive and Rampart Boulevard.

Opa Taverna uses a unique two-story design. The first story has indoor and outdoor table seating. There is also a bar on the first level that is surrounded by stools placed both indoor and outdoor. The second story also offers an outdoor terraced seating area and additional indoor seating area. Patrons may also be seated at a small bar within the interior of the second story.

This establishment expects to have more alcohol sales than food sales and therefore should be considered a Liquor Establishment (tavern). The parking allocation for this restaurant is grandfathered into the project-wide parking agreement. Please reference VAR-10773 that approved 3,955 spaces where 4,961 would otherwise be required.

Please also refer to ordinance 6013 that permits a waiver of the 1500 foot separation requirement between taverns and protected uses when the proposed tavern is located in a mixed use district. This Use Permit request requires the application of ordinance 6013 in order to Opa Taverna operate amongst previously approved taverns within Tivoli village as well as exist within 1500 feet of a City Park. Therefore, separation waivers are needed between taverns and from a tavern to a City Park.

The Tivoli Village mixed use development is situated on a parcel on which the north easternmost corner measures 160 feet from a playground within Angel Park (138-32-501-003). It is important to note that the commercial portion of this 30 acre parcel is on the westernmost side of the mixed use area. Consequently approximately 560 feet of mid-rise residential development is situated between the commercial portion of Tivoli Villages and the subject playground. Further, the subject suite is at the opposite end of the mixed-use parcel thereby providing more than 1000 feet from the front door of the supper-club to the property line of the playground. It is also notable that there are two barriers between this park and Tivoli Village. The first is an approximate 600 foot fence along the northern boundary of the property. The second is a drainage channel that is more than 20 feet deep. As a result, a pedestrian must walk more than 2600 feet to the park while there is no direct vehicular access. For this reason, the park is suitably protected from this liquor establishment.

Major Amendment to Site Development Review
APN #137-12-114-001-077;122-126;158-304;310-371

On behalf of Richmond American Homes, we respectfully request your consideration of the attached Major Amendment to the Site Development Review doe Alexander-215.

Location:

The proposed site is located on Alexander Road and I-215 within Section 12, Township 20 South, Range 59 East.

Request:

At this time we are requesting the approval of a Major Amendment to a Site Development Review application to update the existing SDR for the Alexander-215 project (SDR-8635). Richmond American Homes is contemplating the purchase of the remaining lots in the Alexander-215 subdivision and would like to offer different architectural house plans in the place of those originally approved with SDR-8635 and reduce the front setbacks of those originally approved with SDR-8635.

Richmond American Homes proposes **A)** to offer different architectural house plans, **B)** to reduce the front setback from the approved 10' setback to a 5' setback and **C)** to reduce the existing garage setback from the approved 18' setback to a distance of 5' to 8', depending on the lot and constraints.

Richmond American Homes wants to offer two story house products on the Alexander – 215 project instead of the two and three story house product offered by the previous developer. In order to achieve this more desirable house plan, Richmond American Homes will need a larger foundation footprint than what was required for the existing house plans. Therefore, Richmond American Homes is requesting reduced front setbacks to achieve a two story house with a comparable square footage of a three story house on the same sized lot.

This project has an existing grade change of more than 90 vertical feet from the northwest corner down to the southeast corner of the project. This significant elevation difference resulted in the previously approved design of street slopes reaching 6.0 percent. With the steepness of the street, a 5 foot long

driveway would exceed CLV allowed driveway slopes on the downhill side of the driveway if the uphill side of the driveway was to be higher than the adjacent top of curb grade. Therefore TCE is requesting garage setbacks ranging from 5' to 8' dependent on the slope of the existing street to maintain CLV approvable driveway slopes. The following table breaks down the number of lots that would be requested for each driveway length.

PROPOSED GARAGE SETBACK	MAXIMUM STREET SLOPE	NUMBER OF LOTS WITH 3' SIDEWALK	NUMBER OF LOTS WITHOUT 3' SIDEWALK	TOTAL NUMBER OF LOTS
5 FEET	3.75%	45	128	173
6 FEET	4.50%	6	29	35
7 FEET	5.25%	15	38	53
8 FEET	6.00%	10	20	30

As shown in the table above, only 25 of the 291 lots would have a garage setback of 7' or 8' adjacent to a sidewalk producing an effective driveway length of 10' or 11' with the added 3' sidewalk.

The proposed garage setback distances are based upon the perpendicular distance from the face of the garage to the front property line (back of curb or sidewalk if it exists) for linear streets and from the nearest garage corner to the front property line on curvilinear streets. Due to the curvilinear street design of this project the actual driveway lengths may exceed the proposed garage setbacks based upon the angle at which the driveway intersects the front property line. The exact driveway length for each lot can not be determined until the plot plan stage of the project when the final driveway design is completed based upon the architectural house plan chosen for that lot.

This request for a Major Amendment to the SDR is similar to the previously approved Review of Condition for this project (ROC-10964) which was approved to allow a 5' front house setback and a 6' garage setback. Approval of this Major Amendment will allow Richmond American Homes greater flexibility in designing 2 story floor plan houses to fit on the smaller compact lots of the Alexander – 215 subdivision.

Please place this request for a Major Amendment to the SDR on the next available Planning Commission agenda. If you have any questions or need additional information, please call me at 932-6125.

RE: Alexander/215 (Hillside) Project

Dear Sir or Madam,

I am writing this letter on behalf of the Homeowner's Association for Hillside in full support of Richmond American's plans. In summary, we are excited about the prospects of a homebuilder starting construction and support their application to the planning commission; very few of us want to live in a half-built community.

We had a Homeowners Association meeting on August 5, 2010 to review and discuss Richmond American's plans to build at Hillside. In addition to residents of Hillside, in attendance were Brian Walsh from Richmond American homes and Council Liaison Anthony Ruggiero, who was there to listen to the questions and concerns of the residents.

Brian Walsh made a presentation to the homeowners to discuss the product that they intend to build on the Hillside lots which included large diagrams and architectural drawings, and also discussed the setback variance for the driveways that they need so that they can fit their homes to the lots. None of our residents raised any concerns about five to eight foot driveways; most of the questions were whether the new product would blend in somewhat with the older homes, and what the new color scheme would look like so that as a whole the community looked nice. There were also questions about the location of the model homes and phasing of the community. The residents expressed a desire for two-story homes and said that they did not want any additional three story homes because it would potentially block their views. Views are a very important part of why many Hillside homeowners choose to live here, and have a significant impact on home values. Because the five to eight foot driveway variance would obviate the need for three story homes on a number of the lots, there is additional support for the driveway variance which will allow Richmond American to do two story homes on all their lots and preserve more views for the existing homeowners.

A motion was made to support Richmond American and its application to the planning commission for the variance on driveway lengths to allow Richmond to fit its product to the lots, and the motion was passed.

Please do not hesitate to contact me should you have any questions.
