PROJECT DESCRIPTION

The subject site contains an Electric Utility Substation on approximately 1.95 acres, located at the southwest corner Bubbling Brook Drive and Shadybrook Lane. The applicant is requesting a Rezoning from R-4 (High Density Residential) to the C-V (Civic) district. ANALYSIS

The subject site contains an existing Electric Utility Substation, which is a permissible use in the proposed C-V (Civic) zoning district, and is allowed by the existing PF (Public Facilities) General Plan land use designation. The existing Electric Utility Substation is within the A-O (Airport Overlay) District and meets the restriction of 175 feet. The proposed Rezoning will bring the site into conformance with the existing land use designation.

As the proposed C-V (Civic) zoning district is consistent with the existing PF (Public Facilities) General Plan designation, and the proposal is compatible with the surrounding land uses, staff is recommending approval of this request.

FINDINGS (ZON-38968)

In order to approve a Rezoning application, pursuant to Title 19.18.040, the Planning Commission or City Council must affirm the following:

1. **The proposal conforms to the General Plan.**

   The proposed C-V (Civic) zoning district is consistent with the existing PF (Public Facilities) General Plan land use category.

2. **The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.**

   The uses allowed by the C-V (Civic) zoning district are compatible with the surrounding land uses and zoning districts.

3. **Growth and development factors in the community indicate the need for or appropriateness of the rezoning.**

   The subject site has a land use designation of PF (Public Facilities). Rezoning of the subject site will allow conformance with the existing land use designation of the subject site.

4. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.**

   Site access is provided off of an unnamed alley, which is 20 feet wide. Access is adequate in size to meet the requirements of the existing Electric Utility Substation.

ANALYSIS

The subject site contains an existing Electric Utility Substation, which is a permissible use in the proposed C-V (Civic) zoning district, and is allowed by the existing PF (Public Facilities) General Plan land use designation. The existing Electric Utility Substation is within the A-O (Airport Overlay) District and meets the restriction of 200 feet. The proposed Rezoning will bring the site into conformance with the existing land use designation.

As the proposed C-V (Civic) zoning district is consistent with the existing PF (Public Facilities) General Plan designation, and the proposal is compatible with the surrounding land uses, staff is recommending approval of this request.

FINDINGS (ZON-38971)

In order to approve a Rezoning application, pursuant to Title 19.18.040, the Planning Commission or City Council must affirm the following:

1. **The proposal conforms to the General Plan.**

   The proposed C-V (Civic) zoning district is consistent with the existing PF (Public Facilities) General Plan land use category.

2. **The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.**

   The uses allowed by the C-V (Civic) zoning district are compatible with the surrounding land uses and zoning districts.

3. **Growth and development factors in the community indicate the need for or appropriateness of the rezoning.**

   The subject site has a land use designation of PF (Public Facilities). Rezoning of the subject site will allow conformance with the existing land use designation of the subject site.

4. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.

Site access is provided off of Tamrich Drive, a 65-foot wide local street. Access is adequate in size to meet the requirements of the existing Electric Utility Substation.

RE: Application ZON-38978
Assessor's Parcel Number 162-09-103-002

Dear Mr. Gebeke:

In regard to this parcel, staff has determined that the existing General Plan designation and zoning classifications are inconsistent. In order to resolve this inconsistency and ensure that future development is compatible with existing development, staff is proposing to change the zoning classification of this site to C-V (Civic). Please call me at 229-6882 with any questions.

5. All City Code requirements and design standards of all City departments must be satisfied, except as modified herein.

** STAFF REPORT **

PROJECT DESCRIPTION

The applicant is requesting a Variance to allow a proposed 42-foot tall freestanding sign where 37-feet is the maximum height allowed at 810 North Las Vegas Boulevard. The project is a component of the overall Neon Museum and Boneyard Complex and will be located in the new Neon Boneyard Park. The sign meets the minimum design criteria of the Las Vegas Boulevard Scenic Byway Signage Overlay and will be an asset to the Byway. Therefore, staff recommends approval with conditions. If denied, the sign would have to conform to Title 19.14.060(c) standards.

ISSUES

- A previous Variance (VAR-34515) was approved for a height of 37 feet and surface area of 505 feet. However, there were embellishments on the sign that increased the height to 42-feet that were not factored into the original request and therefore, a new Variance is required.

BACKGROUND INFORMATION

Related Relevant City Actions by P&D, Fire, Bldg., etc.	
01/07/04	The City Council approved a Rezoning (ZON-3256) and a related Site Development Plan Review (SDR-3257) application for a portion of the subject site. The Planning Commission and staff both recommended approval of the requests. The Site Development Plan Review application (SDR-3257) expired in January 2006, as no building permits were submitted; however, the subject properties have since been hard zoned to C-V (Civic).
02/21/07	The City Council approved a Rezoning application (ZON-18755) from C-1 (Limited Commercial) to C-V (Civic) for a site located on the east side of Las Vegas Boulevard, north and south of McWilliams Avenue.
02/21/07	The City Council approved a Site Development Plan Review (SDR-18751) for a 2,768 square-foot museum and park for a site located on the east side of Las Vegas Boulevard, north and south of McWilliams Avenue
Pre-Application Meeting	
08/17/10	A pre-application conference was conducted with the applicant; issues were discussed regarding the need for a sign variance and the need for the sign to meet the Las Vegas Boulevard Scenic Byway signage standards for neon and/or animation.

Neighborhood Meeting
A neighborhood meeting is not required for this application request, nor was one held.

Field Check	
08/19/10	Staff conducted a field check of the subject site. The site was found to be fenced and under construction for a new city park.

Most Recent Change of Ownership	
03/07/05	A deed was recorded for a change in ownership to the City of Las Vegas.

Related Building Permits/Business Licenses	
12/30/09	Public Works issued a permit (L-37069) for a public park that will complement the Neon Museum at Las Vegas Boulevard and McWilliams Avenue. The park will include picnic facilities, passive recreation space and enhanced landscaping.

ANALYSIS

The proposed sign is for the Neon Boneyard Park which is a component of the Neon Museum complex located at 770 North Las Vegas Boulevard. The sign is also located within both the Cultural Corridor and the Las Vegas Boulevard Scenic Byway. Staff has reviewed the sign for conformance with the standards outlined within the Scenic Byway Signage Overlay District and found that it is within those standards. Although the sign is using L.E.D. lighting instead of neon, the fact that the letters will be animated and set up in a chasing pattern meets the standards established. The sign, as proposed, will be an asset to the Scenic Byway program.

A previous Variance (VAR-34515) was approved to allow a 37 foot tall, 18-foot wide sign with a surface area of 505 square feet where the C-V (Civic) zoning designation only permitted signs to be 12 feet tall with a surface area of 48 square feet. The oversized sign was requested as a vital part of the overall Neon Museum complex. This Variance is needed as the embellishments at the top of the sign were not included in the height calculations. Thus, the sign will be 42-feet high and requires an additional five feet in height Variance. The sign is 42 feet tall and 18 feet wide featuring a lattice surface area. Attached to the lattice are replicas of historic neon lettering spelling out the word “neon.” The letters will be animated and light up in a chasing pattern from

top to bottom. An atomic star will be offset to the right of the lettering. The lighting proposed is L.E.D. instead of neon due to the reduced maintenance costs over time. The sign will be supported by a six foot wide, 27'- 9" high concrete pylon with smooth cement plaster finish in a vista sandalwood color.

This project is governed by the Downtown North Land Use Plan that calls out this parcel as part of the Cultural Corridor set aside for cultural amenities. The park and the proposed signage meet the requirements called for in this plan. The park is also covered by the C-V (Civic) District that allows for public uses and a City Park is within these allowed uses. A 200-Foot Airport Overlay and the Las Vegas Boulevard Scenic Byway Signage Overlay also apply to this project. The proposed sign is under 200 feet high and therefore is in compliance with this requirement. The proposed sign also meets the minimum standards called for in the Las Vegas Boulevard Scenic Byway Signage Overlay.

The proposed sign would be an asset to the Las Vegas Boulevard Scenic Byway and as the park is a civic asset, the visibility is needed. Since the proposed sign was addressed in the approved Variance (VAR-34515) application and only material changes are being made to the overall sign, staff is recommending approval, with conditions. If denied, the sign could only be 37 feet tall.

FINDINGS (VAR-39237)

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.18.070(L) states:

> "Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution."

This sign was addressed in the Site Development Review process which determined a Variance was required. A Variance (VAR-34515) was subsequently approved by City Council. However, the embellishments at the top of the sign were not included in the height calculations and thus a five-foot discrepancy exists which required a new Variance. The proposed sign will still meet the Scenic Byway Signage Overlay requirements and will be an added feature for the Cultural Corridor for visibility of the new park. Therefore, the public good would be served.

Margo Wheeler, Director
City of Las Vegas
Planning & Development Department
731 S. 4th Street
Las Vegas, Nevada 89101

Dear Ms. Wheeler:

This is a request for a Variance to allow the height of a sign to be 40-foot where the previously approved Variance only allowed for a 37-foot height Variance. The three foot discrepancy is due to the embellishments at the top of the sign that were not considered in the original request. There will be no negative effect from this request and the sign continues to meet the criteria of the National Scenic Byway Signage Overlay Standards.

Thank you,

Yorgo Kagafas

** STAFF REPORT **

PROJECT DESCRIPTION

The subject site contains 8.06 gross acres of undeveloped land at the southeast corner of Puli Road and Grand Teton Drive within the Cliff's Edge Master Plan area. The Cliff's Edge Master Development Plan designates this acreage as ML (Medium Low Density Residential), which allows up to eight dwelling units per acre. The applicant has proposed a 52-lot, single-family non-gated residential subdivision with private streets on this property. Site development has been approved by the Cliff's Edge (Providence) Design Review Committee. The map meets all applicable Cliff's Edge Design Guidelines and all Title 18 requirements for tentative maps with the exception of the two waivers of design standards, which staff can support. Staff therefore recommends approval of the waiver and accompanying tentative map with conditions. If denied, a new subdivision design that complies with Title 18 standards must be submitted for review.

ISSUES

- Approval of a Waiver of Title 18.12.105 and 18.12.130 (WVR-39089) is required to allow private streets to terminate in dead-end stubs where cul-de-sacs are required prior to approval of a tentative map for this proposed subdivision.
- Approval of a Waiver of Title 18.12.160 is required to allow an internal intersection offset of 115 feet where 125 feet is required prior to approval of a tentative map for this proposed subdivision.

ANALYSIS

This site was the subject of two previous tentative maps (TMP-5290 and TMP-20526), the first of which included 101 residential lots as part of a larger subdivision. The city's Master Plan of Streets and Highways was subsequently amended to add the northern alignment of the proposed Sheep Mountain Parkway. A portion of the anticipated right-of-way for this parkway occupied this site; therefore, TMP-20526 amended the first map to remove 69 lots within the proposed right-of-way. No residential lots were previously recorded within the subject site. The city now intends to realign Sheep Mountain Parkway away from the subject site. The original tentative map (TMP-5290) allowed 290 lots over the full 41 acres. This proposed map would allow recordation of up to 52 lots on 8.06 acres, bringing the total number of lots for the Cliffs Edge Pod 201 and 203 Subdivision to 275, which is 15 less than originally planned for the overall site.

The proposed lots range in size from 3,141 square feet to 6,151 square feet, with an average gross density of 6.45 dwelling units per acre. The lots are intended to have similar characteristics as and tie into the subdivision to the east; site access is therefore provided from Broxden Junction Avenue (recorded in Unit 4), which in turn receives access from Grand Teton Drive on the north perimeter. Site circulation is provided by 39-foot wide private streets. All streets terminate in cul-de-sacs, with the exception of Brighton Beach Avenue, which terminates in dead-end stubs. A Waiver of Title 19.12 is required to allow this street design. These stubs essentially function as driveways serving two to three lots each and should not pose a hazard for emergency, utility and refuse vehicle access. Furthermore, development standards in effect at the time of adoption of the Cliff's Edge Master Plan allowed stub streets, and their use has been common within the community. Therefore staff can support the requested waiver.

The intersections of Brighton Beach Avenue and Magdalene Street and of Brighton Beach Avenue and Leyland Street are offset approximately 115 feet, which is an eight percent deviation from the Title 18.12 minimum standard of 125 feet. However, traffic counts at these intersections are expected to be low and conflicts will be minimal. The associated waiver can therefore be supported.

Development standards are dictated by the Cliff's Edge Design Guidelines, established at the time of the site's rezoning to PD (Planned Development). The design of streets, lots, buildings and structures, including walls, are reviewed for compliance with these standards by the Cliff's Edge Design Review Committee prior to submittal to the city of Las Vegas. The development complies with density, community theme, common open space, parking, height and setback requirements pertaining to the ML (Medium Low Density Residential) land use designation. The Tentative Map was approved by the Cliff's Edge (Providence) Design Review Committee with conditions separate from those that will be imposed by the Planning Commission.

The Regional Transportation Commission of Southern Nevada recommends that pedestrian access from the proposed subdivision to Grand Teton Drive and Puli Road be provided in order to facilitate access to transit services in this area of the city. The tentative map makes provision for access to Grand Teton Drive, but provides no direct access to Puli Road.

Community walls are located along Puli Road and Grand Teton Drive and will have a proposed combined height of no taller than six feet nine inches as viewed from the street side of the wall. The steepness of the grade along Grand Teton Drive is such that a series of retaining walls are proposed. These are designed in conformance with Exhibit 'B' of Section 6 of the Cliff's Edge Design Guidelines, which allows a solid community wall height of up to seven feet six inches along the perimeter of the site. In addition, a 20-foot wide Multi-Use Non-Equestrian Trail is required along the south side of Grand Teton Drive in conformance with the Transportation Trails Element of the Las Vegas 2020 Master Plan. The trail is indicated on the map and its components are displayed within a detail drawing.

As the proposed tentative map conforms to the Cliff's Edge Master Development Plan for density and the Design Guidelines for product compliance, and staff can support the two waiver requests, staff recommends approval of the request with conditions.

RE: **Waiver to Title 18.12**

Planning Department,

On behalf of our client, KB Homes of Nevada, VTN Nevada respectfully submits this letter for two (2) Waivers of Title 18. Specifically, we request a waiver of the Subdivision Code, 18.12, requiring a turnaround at the end of a private street. The second waiver is to Subdivision Code, 18.12.160, requiring 125 feet from centerline to centerline along Brighton Beach Avenue, between Magdalene Street and Leyland Street. This site is located east of Puli Road and south of Grand Teton Drive.
The proposed project is unit # 6 of Cliff's Edge Pods 201 and 203, previously identified as open area. The proposed 52 lot subdivision will be access for Unit # 5 via private streets. The stub street identified as "Brighton Beach Avenue" will provide access to a maximum of 2 lots at each end. These requested waiver are due to the triangular configuration of the parcel, coupled to the need to develop maximum number of lots, the project as design provide the most efficient layout for a parcel of this configuration.

Should you have any further questions regarding this matter, please do not hesitate to telephone this office at 873-7550.

Sincerely,
VTN-Nevada

RE: Providence Master Plan Community
Project Plan: Tentative Map Submittal
POD: 201/203 – Cambridge – Unit 4
Plan Date: 7/13/10

Dear Christa:

The Providence Design Review Committee (DRC) is in receipt of your Tentative Map submittal for the aforementioned POD.

The DRC **conditionally approves** your Tentative Map for POD 201/203 – Cambridge subject to the following:

- That this Tentative Map's conditions of approval granted by the City of Las Vegas will not refer to dedication of right-of-way necessary for the City of Las Vegas' northern beltway (Sheep Mountain Parkway);
- That the City of Las Vegas' previous tentative map approvals for POD 201/203, specifically, TMP-5290 and TMP-20526, shall be expunged so that the conditions contained therein referring to dedication of right-of-way necessary for the City of Las Vegas' northern beltway (Sheep Mountain Parkway) no longer exist;
- That KB Home demonstrate the above requirements have been met by filing with the Providence Design Review Committee the new conditions of approval for this Tentative Map once the Tentative Map has been approved by the City of Las Vegas' Planning Commission;
- The approved density of POD 201/203 was reduced to eight units per acre. Please revise the "Site Data" block to reflect this;
- Please provide the total number of lots proposed within POD 201/203 as shown on this revised Tentative Map;
- Please verify this revision conforms to an overall density of eight units per acre for POD 201/203.

This is the fifth review of the subject Off-Premise Sign which is located on a property that is used as a car wash. The sign has the required building permits with final inspections completed. The Off-Premise Sign faces Charleston Boulevard, a 100-foot Primary Arterial. The area is primarily commercial in nature with the nearest residential uses buffered by right-of-way and commercial development. The applicant indicated that a large plastic owl is installed inside the sign as a bird deterrent. The subject site is located within the Airport Overlay District with a height limit of 175 feet and the existing Off-Premise Sign meets the height restrictions. The Off-Premise Sign is in compliance with code requirements, and it is compatible with surrounding areas; therefore, staff is recommending approval with conditions.

PROJECT DESCRIPTION

This is a Required Review of a previously approved Special Use Permit (U-0315-94) for a 40-foot tall, 14-foot by 48-foot Off-Premise Sign located at 6070 West Sahara Avenue. A building permit (#95374861) was issued on 04/26/95 for the installation of an Off-Premise Sign at 6070 West Sahara Avenue with an approved final inspection on 10/12/95. The sign meets current codes and nothing has changed in the area that would render the sign incompatible with nearby land uses; therefore, staff has no objection to the continued use of the sign and is recommending approval. If denied, the Special Use Permit for the Off-Premise Sign would require the sign to be removed.

ISSUES

- This is the fifth Required Review of Special Use Permit (U-0315-94). The last Required Review (RQR-22271) was approved by City Council in 2007, subject to a three-year review.

** STAFF REPORT **

PROJECT DESCRIPTION

This is a request for a Special Use Permit for a Massage Establishment use in conjunction with an existing 3,504 square-foot Medical Office located at 950 South Durango Drive, Suite # 120. The Massage Establishment use is required for licensing of therapists providing care for patients; therefore, the use can be conducted in a manner that is harmonious and compatible with surrounding uses, and staff recommends approval with conditions. If this application is denied, the proposed Massage Establishment use cannot be located within the existing Medical Office, nor can a business license be obtained for the use at this location.

ANALYSIS

A Massage Establishment use is defined by Title 19.20.020 as "a facility which is occupied and used for the purpose of practicing massage therapy as defined in LVMC Chapter 6.52. The term does not include the use accessory massage as defined in this Title." The applicant is requesting a Waiver to allow a 100-foot distance separation from a residential use where 400 feet is required. As the proposed use will be conducted in conjunction with a medical office providing physical therapy, staff can support the Waiver request. An existing bike route runs along the west property line on Durango Drive as designated by the Master Plan Transportation Trails Element, which does not impact the subject site.

The proposed massage establishment use will be operated in conjunction with an existing medical office providing physical therapy in existing treatment rooms. The Massage Establishment use is required for licensing of employees who provide care as a result of changes to NRS in 2009. As there are no rooms that are devoted exclusively to the provision of massage services, parking for the location remains unchanged and calculated for an Office, Medical use. The subject site is currently parking impaired by two spaces for the current uses within the commercial center. Future tenanting of the center will be limited by available parking, and a Variance shall be required for any proposed use that results in an increased parking requirement.

FINDINGS (SUP-39104)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

   The proposed Massage Establishment use can be conducted in a manner that is harmonious and compatible with the existing surrounding commercial uses. The proposed use will be operated in conjunction with the existing Medical Office.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

   The subject site has sufficient on-site for parking as the proposed use requires no additional parking. It is physically suitable for the proposed Massage Establishment use.

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

   Access to the subject is provided by Durango Drive. This street is capable of accommodating the traffic flow created by the site and the use.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

   If approved, the proposed use on this site will be subject to periodic inspection by regulatory agencies for business licensing and environmental health, and it will therefore not compromise the public health, safety and welfare, or the overall objectives of the General Plan.

5. **The use meets all of the applicable conditions per Title 19.04.**

   The proposed Massage Establishment use meets all applicable conditions of Title 19.04, with the exception of the requested Waiver to allow a 100-foot distance separation from a residential use where 400 feet is required. Staff supports the requested Waiver as the use will be operated in conjunction with a medical office.

Justification Letter

Dear Sir and/or Madam:

We are a Physical Therapy center that offers post-trauma and preventive medical care to our patients. One of our medically effective services is a manual therapy called "Soft Tissue Oxygenation". This hands-on technique is a form of a massage. It is performed by specially trained licensed massage therapists and physical therapists. This massage technique is known in Europe, Asia, Australia, and New Zealand as "medical massage" due to it therapeutic qualities.

On July 13, 2010, we were informed by the Business License Department that due to law changes in 2009, Physical Therapy facilities must receive a Special-Use Permit in order to perform any type of manual therapy on their clients. So in order for us to be in compliance, we are asking for this Special-Use Permit.

This service is vital to health and recovery of our patients. Soft Tissue Oxygenation Therapeutic Massage is the only type of "massage" that we offer (going to offer) our clients. We do not plan to be a regular cosmetic massage center or a spa because we are a medical facility.

We kindly ask for your assistance in this matter in order to be in compliance with the City of Las Vegas. Only Nevada licensed massage therapists and Nevada licensed physical therapists will be performing Soft Tissue Oxygenation Therapeutic Massage treatments.

We are requesting a waiver for a 300-feet where 400-feet is required between us and a residentially zoned property. Our property is 100-feet across Durango Drive from the closest residential property.

If there is anything else that I need to provide you, please call me on my cell phone. My contact information is:

** STAFF REPORT **

PROJECT DESCRIPTION

- This application is a request for a Special Use Permit to re-establish a 7,000 square-foot Supper Club at an existing Restaurant located at 9560 West Sahara Avenue. The existing Restaurant has been previously entitled for the Supper Club use two times since its construction in 1999. The applicant has not proposed any physical alterations to the existing site or structure. Staff recommends approval of this requested Special Use Permit for the Supper Club use with conditions. If denied, the applicant would be allowed to operate a Restaurant use without any permitted alcohol sales.

ISSUES

- A Special Use Permit is required because the previous Supper Club use (SUP-28835) expired after business operations ceased for more than 180 days.
- This request, as presented, requires a Waiver to allow a zero foot separation distance where 400 feet is required from a Church/House of Worship located within the same commercial subdivision.

ANALYSIS

This application is a request to reestablish a Supper Club at 9560 West Sahara Avenue. Because the previous entitlement (SUP-28835) for such use expired on 08/03/2010, a new Special Use Permit with a Waiver to allow no distance separation from a Church/House of Worship where 400 feet is required is needed prior to licensing.

The subject site is located within a 458,053 square-foot Shopping Center and is consistent with the C-1 (Limited Commercial) zoning district and the SC (Service Commercial) land use designation. The Supper Club use has been established twice in at this Restaurant since construction in 1999, but had expired each time due to a cease in business operations greater than 180 days (six months).

A Church/House of Worship has located within this Shopping Center since the original construction and entitlement of this building as Supper Club, thus requiring the need for a Waiver. Staff finds that there is minimal impact to the existing Church/House of Worship, as this location has previously operated as a Supper Club, along with the consideration for two Supper

Clubs and a Liquor Establishment (Tavern) currently operating within this commercial subdivision.

With exception to the distance separation from the existing Church/House of Worship, the proposed use meets the required Minimum Conditions for the Supper Club use. The provided floor plan adequately satisfies the requirements for the Supper Club use as follows: The restaurant operation is the principal use of the business; access to the 32-seat bar area is through the lobby with a partition between the restaurant area; and the seating for 200 customers within the restaurant area (150 seats inside and 50 seats within a patio area) exceeds the minimum requirement of 125 persons.

FINDINGS (SUP-39144)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

   The proposed Supper Club is located in a Shopping Center that contains variety of uses including a Church/House of Worship use. With an approved Waiver of the required 400-foot separation from the Church/House of Worship use, the Supper Club can be conducted in the same harmonious and compatible manner that has been entitled twice at this location.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

   There are no proposed alterations to the subject site or structure and thus the site retains its physical suitability for a Supper Club use that had been established with the previous entitlements (U-0090-98 and SUP-28835).

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

   Site access is from Sahara Avenue and Fort Apache Road; both of these streets provide adequate access to meet the requirements of the proposed use.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

The proposed use will be subject to permit review and inspections prior to operating a Supper Club; therefore, appropriate measures will be taken to protect the health, safety and general welfare of the public.

5. The use meets all of the applicable conditions per Title 19.04.

With an approved Waiver, the requested use will satisfy all Minimum Special use Permit requirements for a Supper Club. Staff supports the requested Waiver to allow no separation distance from a Church/House of Worship where 400 feet is required as this use has been previously established twice at this location with no adverse impacts.

Re: Justification Letter – APN 163-06-816-025
Special Use Permit Application
Firefly Westside, LLC

Dear Steve:

This office represents the applicant in the above referenced matter. This application is a request for a special use permit to allow for a reduced separation between a supper club with alcohol sales and a place of worship within an existing commercial shopping center. The shopping center is generally located on the northwest corner of Sahara Avenue and Fort Apache Road.

The proposed restaurant lounge is located within an existing multi-use shopping center and faces Sahara Avenue, a 100 foot right-of-way. The restaurant, known as Firefly Tapas Kitchen & Bar, will be located in an approximate 7,000 square foot (including outdoor dining) pad space on the southwest end of the site.

The restaurant is located within 400 feet of an existing place of worship. The place of worship is located at 9590 Sahara Avenue just east and slightly north of the subject pad site within the same commercial shopping center. The subject restaurant pad site was previously approved for and operated as a supper club with alcohol while the place of worship operated in its existing location. The latest restaurant closed late last year and the approvals have since expired. However, there are several other supper clubs with alcohol approved and currently in operation within the shopping center today. Clearly, all uses have operated harmoniously with one another and the alcohol sales have not had any adverse impacts on the existing place of worship.

We appreciate your kind consideration of our request. Should you have any questions, please call me. Thank you very much.

Sincerely,

KAEMPFER CROWELL RENSHAW

** STAFF REPORT **

PROJECT DESCRIPTION

The applicant proposes to vacate two U.S. Government patent easements generally located approximately 300 feet northwest of the intersection of Shaumber Road and Centennial Parkway. The request is needed to develop a 106-lot residential development within POD 307 of the Cliff's Edge Master Development. Access streets for this parcel are shown on the site plan of a previously approved Tentative Map (TMP-38575). Staff recommends approval, with conditions, as the previously approved Tentative Map addresses access and drainage issues. If denied, the approved development could not move forward, as an Order of Relinquishment of Interest must be recorded prior to approval of construction plans or issuance of a building permit.

ISSUES

- A Vacation is required in order for the 106 lot single-family residential development to proceed as planned and approved in TMP-38575.

LEGAL DESCRIPTION

The subject property is legally described as the West, North and East 33.00 feet of the East half (E½) of the Southwest Quarter (SW¼) of the Southwest Quarter (SW¼) of the Southwest Quarter (SW¼) of Section 24, Township 19 South, Range 59 East, M.D.M., City of Las Vegas, Clark County, Nevada, as reserved in the patent recorded in book 20040819, Instrument No. 02260, Clark County Official Records.

ANALYSIS

The patent easements proposed to be vacated are located within the Cliff's Edge Master Plan but Vacations are not directly referred to in the document and thus has no bearing on this request.

Staff has no objection to the vacation application request to relinquish the City's interests in U.S. Government Patent Reservations generally located approximately 300 feet northwest of the intersection of Shaumber Road and Centennial Parkway. As no right-of-way is proposed to be vacated, and thus no franchise rights are involved, it is not necessary to send this Vacation request to the utility companies and franchise holders, nor wait for their responses. Since only City interests are involved, any utility company's interests will need to be addressed with each respective utility company and will not be affected by the City relinquishing its interest.

These two U.S. Government Patent Easements are no longer needed for this parcel as drainage and access has been addressed in the previously approved Tentative Map (TMP-38575) and Waiver (WVR-38578). This project is located within a PD (Planned Development) district and meets the criteria set forth in the Cliff's Edge Master Plan. Staff supports the single-family residential subdivision, and therefore has no objection to the requested petition to vacate the subject Patent Easements in Providence POD 307.

PROJECT DESCRIPTION

The applicant proposes to vacate a drainage easement that is no longer required due to the development of Rancho Drive and Alexander Road. The area proposed to be vacated is 20 feet wide and approximately 400 feet south of the centerline of Alexander Road. Staff recommends approval, with conditions, as the drainage easement is no longer required for the area. If denied, the easement would remain.

ISSUES

- The Vacation is needed in order to fully develop the three parcels for a Veteran's Clinic. The easement is no longer required as the drainage for the area has been addressed by the fully developed adjacent roadways, as well as the approved Site Development Plan Review (SDR-36432).

ANALYSIS

The complete build-out of the Rancho Drive and Alexander Road Rights-of-Way has rendered the need for this drainage easement obsolete and therefore, the applicant is requesting that it be vacated in order to develop the parcels as a Veteran's Clinic. Although the project is within the Airport Overlay, this request is not impacted by the 105-foot height limit. Staff supported the clinic development and therefore has no objection to the requested petition to vacate the subject drainage easement.

This Vacation application proposes to vacate an existing 20-foot wide public drainage easement. As no right-of-way is proposed to be vacated, and thus no franchise rights are involved, it is not necessary to send this request to the utility companies and franchise holders, nor wait for their responses. Since only City easements are involved, any utility company interests will not be affected.

LEGAL DESCRIPTION

Lying within the northeast quarter (NE¼) of the northeast quarter (NE¼) of section 11, Township 19 South, Range 60 east, M.D.M., City of Las Vegas, Clark County, Nevada, being portions of the common lots of Stratton 35, a common interest community, as shown on that certain map on file in the office of Clark County, Nevada recorder in book 137, page 54 of plats, described as follows: the emergency access easement and public drainage easement within Common Lot C; the City of Las Vegas sewer easement and the emergency access easement within Common Lot D; the public drainage easement within the north 20 feet of Common Lot D and the prolongation thereof across common lot b; the public utility easement within Common Lot E; the public utility easement, City of Las Vegas sewer easement and the public drainage easement within Common Lot F; and the public drainage easement within Common Lot H.

ANALYSIS

This Vacation application proposes to vacate the City of Las Vegas sewer and existing public utility easements. As no right-of-way is proposed to be vacated, and thus no franchise rights are involved, it is not necessary to send this request to the utility companies and franchise holders, nor wait for their responses. Since only City easements are involved; any utility company interests will need to be addressed with each respective utility company and will not be affected by the City vacating its interest.

The Public Utility Easement is no longer needed for this parcel as drainage and access has been addressed in Amended Plat of Stratton 35 (FMP-38588). The proposed Vacation is located within the R-PD2 (Residential Planned Development – 2 Units per Acre) zoning district and meets the criteria set forth by the concurrent approval of the requested Rezoning (ZON-9093) and related Site Development Plan Review (SDR-9095). Staff supports the single-family residential subdivision, and therefore has no objection to the requested petition to vacate the subject Public Utility Easement.

Public Works

4. Coordinate with the Collection System Planning Section of the Department of Public Works for an Oversizing Agreement for sewer line construction in Jones Boulevard prior to the recordation of this Map.

5. No permanent structures, landscape trees, or shrubs with potential growth of three feet or greater in height shall be permitted within the sewer easement located in common element D (between lots 4 & 5). A note to this affect shall be placed on this Map.

6. Submit a Vacation application for all existing City of Las Vegas easements that are no longer needed due to amendments shown on this map. The Order of Vacation must be recorded concurrently with this Map. Relocate the City Engineer's signature block such that it does not appear to be an approval of Vacating City of Las Vegas Easements, as such easements can only be eliminated through the Vacation process, not by Amended Map.

7. Dimensions and information presented on the currently approved civil improvement plans should match this amended Final Map. Revise drawings as necessary.

LEGAL DESCRIPTION

The above is legally described as being a portion of a 20-foot wide alley right-of-way granted in block 10 of that subdivision known as "Clark's Las Vegas Townsite" on file in the Office of the County Recorder, Clark County Nevada in Book 1 of Plats, at Page 37, lying within the Southwest Quarter (SW 1/4) of Section 34, Township 20 South, Range 61 East, M.D.M., City of Las Vegas, Clark County, Nevada. Excepting therefrom, all areas falling below an elevation of 2,042 feet, being a point a minimum of 18 feet above the highest crown elevation of the "Bonneville Clark Oneway Couplet Phase 1" improvement plans, between Bonneville Avenue and Clark Avenue, as shown on City of Las Vegas Drawing Number 107v5201. Containing 3,498 square feet measured two dimensionally, more or less, as determined by computer methods.

ANALYSIS

If approved, the requested Vacation will remove the aerial right-of-way for a portion of an existing 20-foot wide public alley located between Clark Avenue and Bonneville Avenue, and between 1st Street and Casino Center Boulevard. This is needed in order to accommodate the separation of the pedestrian right-of-way from the vehicular component of the one-way collector. If denied, the completed design for the Collector would have to be resubmitted at significant cost in scheduling and construction.

We present the following information concerning this request to vacate certain public street ROW:

A. Does this vacation request result in uniform or non-uniform right-of-way widths? *N/A as it is to vacate the aerial right-of-way above the alley.*

B. From a traffic handling viewpoint will this vacation request result in a reduced traffic handling capability? *No, the alley is being replaced by a full roadway connecting Clark Avenue to Bonneville Avenue.*

C. Does it appear that the vacation request involves only excess right-of-way? *Yes, technically. This vacation will eliminate City interests in the right-of-way beginning roughly 16 feet above the future roadway.*

D. Does this vacation request coincide with development plans of the adjacent parcels? *Yes, it is in conjunction with the City's Bonneville-Clark connector project.*

E. Does this vacation request eliminate public street access to any abutting parcel? *No.*

F. Does this vacation request result in a conflict with any existing City requirements? *No.*

G. Does the Department of Public Works have an objection to this vacation request? *No.*

** STAFF REPORT **

PROJECT DESCRIPTION

This is a request for a Special Use Permit for a proposed 2,000 square-foot Motor Vehicle Sales (Used) use at 4561 East Bonanza Road, Suite #130. The subject property contains an existing 16,250 square-feet Auto Repair Garage, Major building and has been approved through Site Development Plan Review (SDR-25148) for a 19,500 square-foot General Retail and Restaurant building. In addition, the subject property has also received a parking Variance (VAR-25220) to allow 201 parking spaces where 250 are required. The applicant is proposing to convert a 2,000 square-foot storage area of the existing 16,250 square-foot Auto Repair Garage, Major building into a Motor Vehicle Sales (Used) use. Placing an additional use on the subject property, in addition to the existing and approved uses, will create an overly developed site and will negatively impact the surrounding neighborhood; therefore, staff recommends denial of this request. If this application is denied, the existing 16,250 square-foot Auto Repair Garage, Major building and use would remain.

ISSUES

- 4561 East Bonanza Road, Suites # 125 and # 145 have had permits issued, but were never finaled.
- The applicant currently has six code enforcement cases open at 4561 East Bonanza Road.
- Per Title 19.04 Minimum Special Use Permit Requirement # 7 for the Auto Repair Garage, Major use, no vehicles may be parked on the premises for the purposes of offering the vehicle for sale. Approval of this Special Use Permit request would circumvent this requirement of the previously approved Special Use Permit (SUP-3223).

ANALYSIS

The applicant is proposing to convert 2,000 square feet of an existing 16,250 square-foot Auto Repair Garage, Major into a Motor Vehicle Sales (Used) establishment. A previous Variance (VAR-25220) approved 201 parking spaces for a 16,250 square-foot Auto Repair Garage, Major, a 6,207 square-foot Restaurant, and 13,315 square-feet of General Retail where 250 parking spaces are required. The applicant was denied a previous a Special Use Permit (SUP-33611) for a proposed 1,000 Motor Vehicle Sales (Used) at this site on 04/23/09. This request would allow vehicle sales in conjunction with an Auto Repair Garage, Major, which was previously approved through Special Use Permit (SUP-3223). This would circumvent a Minimum Special Use Permit Requirement of that use that prohibits the display and sale of vehicles at an Auto Repair Garage, Major site. As such, staff cannot support this request and recommends denial.

FINDINGS (SUP-38523)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

   The proposed land use cannot be conducted in a manner that is harmonious and compatible with the existing and surrounding land uses, as the surrounding businesses within the subject property are high-volume uses, and over 20,400 square feet of additional uses have been approved for the site through Site Development Plan Review (SDR-25148). The surrounding parcels are residential and commercial in nature, and the proposed use will not be harmonious or compatible with the adjacent residential land uses, as the proposed use is too intense for the subject property.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

   The subject site is not physically suitable for the type and intensity of land use proposed, as evidenced by the approved Variance (VAR-25220) for parking. The isolation of this parcel from others zoned C-2 (General Commercial) creates a significant conflict with adjacent, less-intensely zoned properties.

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

   Access to the site is provided by Bonanza Road, a 100-foot Primary Arterial as designated by the Master Plan of Streets and Highways, which will provide adequate access to the site. There is only one access driveway to the site with an emergency crash gate at the south end of the site, at Diamond Head Drive, a 60-foot Local Street, which will provide adequate emergency access. The subject property is also adjacent to Page Street, a 60-foot Local Street to the east; however, no access is provided to this roadway.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

   The proposed development is subject to permit review and inspection; therefore, appropriate measures will be taken to protect the health, safety and general welfare.

5. **The use meets all of the applicable conditions per Title 19.04.**

   The proposed use meets all of the applicable conditions per Title 19.04; however, the request would allow vehicle sales in conjunction with an Auto Repair Garage, Major, which was previously approved through Special Use Permit (SUP-3223). This would circumvent a Minimum Special Use Permit Requirement of that use that prohibits the display and sale of vehicles at an Auto Repair Garage, Major site.

Re: JUSTIFICATION LETTER

To whom it may concern.

I am applying for a Use Permit for an Auto Sales at 4561 E. Bonanza Road, Las Vegas, Nevada 89110. The property is zoned as a C2 which is for a heavy mechanic repair of which is comparable with Use Permit of which I am applying for.

Further this is vital to me because at this time I have filed a chapter 11 bankruptcy and this will give more proof to the judge and trustees that I do intent to have future income.

Respectfully

To Whom It May Concern:

We are respectfully submitting this application for a Special Use Permit/Variance of distance restrictions with the department of Planning & Development. This permit is for Toma Herfi, Inc. dba Durango Market, located at 6955 N. Durango Drive, Suite 114, Las Vegas, NV 89149.

Our SUP/Variance is for a conversion of the existing liquor license use. We seek to have Durango Market's Liquor License changed from a Beer/Wine License to a Package Liquor License. Originally, this was the preferred use by my client, however when the original application was submitted they did not move forward on the Package Liquor use.

Currently, Durango Market has 2 employees, and operates during the hours of: 8:00am - 10:00pm.

This application meets all current City of Las Vegas codes and regulations. We respectfully ask for your approval of this SUP/Variance for the sole purpose of operating a convenience store with Package Liquor.

Respectfully,

** STAFF REPORT **

PROJECT DESCRIPTION

This is a request for a Special Use Permit for an existing 1,088 square-foot Accessory Structure (Class I) on a developed single-family residential lot at 2281 South Pioneer Way. The lot contains an existing 3,840 square-foot residence and an unpermitted accessory structure totaling 1,088 square feet of building area. Staff recommends denial, as the use does not comply with Title 19 requirements for an Accessory Structure (Class I) use. The structure was built without building permits and with a zero side yard setback. If these applications are denied, the Accessory Structure (Class I) will need to be removed from the property.

ISSUES

- An Accessory Structure (Class I) use is permitted in the R-E (Residence Estates) zoning district with the approval of a Special Use Permit.
- Approval of an associated Variance (VAR-39068) is required prior to approval of a Special Use Permit, to allow a zero-foot side yard setback where three feet is required.
- A second accessory structure is also present on the subject site, but was not included in this review. Building permits are required for all structures on site, as conditioned.

ANALYSIS

This is a request for a Special Use Permit for an existing unpermitted 1,088 square-foot, single story Accessory Structure, (Class I) on a developed single-family residential lot at 2281 South Pioneer Way. An Accessory Structure (Class I) use is defined by Title 19.20.020 as "an accessory structure which is located on the same residential parcel as a principal dwelling and which, as an ancillary use, provides living quarters, including full kitchen facilities, for the occupants of the principal dwelling or their tenants, domestic employees or temporary guests." If the principal dwelling is owner-occupied, a Class I accessory structure may be offered or occupied as a rental unit. The subject property is located in the Rural Preservation Overlay District and fails to meet Objective # 3, which is to provide adequate buffer areas, as is evidenced by the requested Variance. Located at the southwest corner of the site is a gate that allows access to Via Olivera. Pursuant to Title 18.12.250(C)(1), no more than a single entrance or circular driveway shall be provided for any single-family residential lot, unless approved by the Director of Public Works. The submitted site plan does not indicate the location of an additional space that is required for an Accessory Structure (Class I), pursuant to Title 19.04. Conditions of Approval have been added to address these issues.

Approval of an associated Variance (VAR-39068) is required as the existing Accessory Structure, (Class I) was constructed with a zero-foot side yard setback. Since the hardship is a self-created, staff recommends denial of the Variance and consequently staff recommends denial of this Special Use Permit request.

FINDINGS (VAR-39068)

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.18.070(L) states:

> "Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution."

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by constructing the Accessory Structure, (Class I) contrary to Title 19 requirements without obtaining building permits. Removal of the existing Accessory Structure, (Class I) and reconstruction with building permits and inspections would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the site's physical characteristics, it is concluded that the applicant's hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.

FINDINGS (SUP-39069)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

The proposed use is incompatible with the DR (Desert Rural Density Residential) General Plan designation and is located within an existing R-E (Residence Estates) subdivision and is incompatible due to the required buffer areas are not provided from neighboring properties. Therefore, the use cannot be conducted in a manner that is harmonious and compatible with the surrounding residential uses as the requested Variance indicates.

2. The subject site is physically suitable for the type and intensity of land use proposed.

The subject site is physically suitable for the type and intensity of the existing Accessory Structure (Class I) use. However, the location of the structure on the lot does not conform to Title 19.08 Development standards.

3. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.

The main access to the site is from a private street off of Pioneer Way. The site also has a secondary access entry from Via Olivero Way. No more than a single entrance or circular driveway shall be provided for any single-family or duplex residential lot. Except as otherwise permitted by this Chapter or by City standards, or as otherwise approved by the Director of Public Works

4. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.

If approved, the proposed use on this site will be subject to periodic inspection by regulatory agencies for business licensing and environmental health, and it will therefore not compromise the public health, safety and welfare, or the overall objectives of the General Plan.

5. The use meets all of the applicable conditions per Title 19.04.

As conditioned, the proposed use meets all applicable conditions of Title 19.04.

Re: 2281 S. Pioneer Way
Las Vegas, Nevada 89117
Parcel No: 310-320-052

To Whom It May Concern:

Pursuant to your request for a Justification Letter, please be advised the outer structure located in the backyard at 2281 S. Pioneer Way is utilized as a Men/Women Pool House/Dressing Room and an outdoor Summer Kitchen area. These areas are used by myself as owner for personal purposes only. None of the structure is utilized for any non-residential or business purpose. The satellite building which existed when I purchased the home is utilized strictly for personal entertainment.

Consequently, I am requesting a variance for use aligned with the above only. All inquiries and/or communications should be directed to Bill Spaulding – Spaulding Construction at (661) 917-6887. Mr. Spaulding has informed me that he will be forwarding the plot plan by Friday February 26, 2010.

Thank you for your assistance in this matter.

Very truly yours,

Roxanne W. Sheridan

** STAFF REPORT **

PROJECT DESCRIPTION

The requested Site Development Plan Review and Variance are for a proposed five-story, 120-foot tall, 55,132 square-foot Office building to be located on 0.65 acres on the southwest corner of 7th Street and Chef Andre Rochat Place. Included with the Site Development Plan Review are requested Waivers of the perimeter landscape buffer width requirements. The related Variance (VAR-39122) is to allow zero-foot setbacks where a 10-foot side yard, 15-foot corner side yard, and 20-foot front and rear yard setback is required, and to allow 86% lot coverage where 50% lot coverage is the maximum allowed. Staff recommends denial of this request as the Site Development Plan Review (SDR-39121) does not meet the development standards as required by Title 19 for the C-1 (Limited Commercial) zoning district and the site, as proposed, will be overbuilt. In addition, the applicant has provided no evidence of unique or extraordinary circumstances pursuant to Title 19.18.070 that substantiate the requested Variance (VAR-39122). If denied, the property will remain in its current configuration with the southern half of the subject property undeveloped and the remaining northern half with two buildings.

ISSUES

- A Variance (VAR-39122) is required to allow a zero-foot front and rear yard setback where 20 feet is required; a zero-foot corner side yard setback where 15 feet is required; a zero-foot side yard setback where 10 feet is required; and 86% lot coverage where 50% is allowed.

ANALYSIS

Although the subject site is located within close proximity of the Downtown Centennial Master Plan and would meet or exceed those Design Standards, it is important to note that this proposal is bound to the standard Title 19.08.050 Commercial and Industrial Development Standards and the Title 19.12.040 Perimeter Landscape Buffering requirements. As such, the proposed scope of development exceeds the limitations in required setbacks and lot coverage as required by Title 19.08.050 for the C-1 (Limited Commercial) zoning district.

In relation to the zero-foot setbacks, there are insufficient landscape buffers widths provided adjacent to the public rights-of-way or the interior perimeter. Per Title 19.12, the applicant is required to provide a 15-foot wide landscape buffer inside the property line with a 24-inch box tree spaced 20 feet apart along 7th Street and Chef Andre Rochat Place and an eight-foot wide landscape buffer with 24-inch box trees along the south and west perimeters.

In order to address the deficiency of on-site landscaping that stems from the proposed zero-foot build-to line, the applicant is proposing enhanced streetscaping along the existing detached sidewalks on 7th Street and Chef Andre Rochat Place, with 24-inch box trees spaced 14-feet, six-inches apart within the existing landscape planter. No landscaping has been proposed along the public alley or southern property line.

The materials specified on the landscape plan are acceptable for the surrounding area. Although ineligible for consideration as perimeter buffer trees, the applicant proposes to install 20 24-inch box trees within the detached sidewalk planter along 7th Street and Chef Andre Rochat Place. In addition to the proposed streetscape trees, an additional 14 trees are proposed on the third floor roof garden along the southern and eastern building edge.

Considering the dark appearance of the brick building, a darker broad-leafed street tree, such as the proposed Raywood Ash, would be acceptable for the site. However, if Raywood Ash trees are utilized, the spacing between each tree should be revised from 14 feet to a minimum of 20 feet on-center. Consideration should be given to providing pathways, sidewalk extensions or other similar allowances within the amenity zones adjacent to Seventh Street and Chef Andre Rochat Place in order to reduce the loss of landscape due to pedestrian traffic and soil compaction.

Provided that 14% of the tree population in Downtown Las Vegas consists of Ash trees, consideration should be given to the possibility of utilizing other species in order to better prevent monocultures. The following alternative tree species could be considered for the proposed building:

Seventh Street:

- *Gleditsia triacanthos* (Thornless Honey Locust and related cultivars, including 'Imperial', 'Shademaster', 'Skyline' or 'Trueshade') spaced at a minimum of 20-feet on center.
- *Pistachia chinensis* (Chinese Pistache and related cultivars, including 'Red Push') spaced a minimum of 20-feet on center.

Chef Andre Rochat Place (*Due to the anticipated shade that Chef Andre Rochat Place will receive due to the northern exposure and 50-foot adjacent building, the following species should be considered*):

- *Arbutus unedo* (Strawberry Tree) spaced 20 to 25 feet on center.
- *Elaeocarpus decipiens* (Japanese Blueberry Tree) 18 to 20 feet on center.

The subject property is located within the Las Vegas High School Historic District, which is not on the local City of Las Vegas historic property register. Two structures located on the proposed site have a substantial historic interest as they are greater than 70 years old, but are also not on the City of Las Vegas historic property register. One of those structures, located at 408 South 7th Street, is a Spanish Revival home constructed in 1931 for R.B. Griffith. This house was later the residence of Pop Squires, who was the publisher of *The Las Vegas Age* for forty years. Most of the single-family homes in the district have been converted to professional office space over the past decade. An off-street Multi-Use Transportation Trail is shown along the 7th Street right-of-way. This trail will be installed along the east side of the street and thus does not apply to this project.

Staff recommends denial of this Site Development Plan Review (SDR-39121), as the proposed development does not meet the development standards as required by Title 19 for the C-1 (Limited Commercial) zoning district, and the site, as proposed, will be overbuilt, as is evidenced by the requested Variance and Waivers.

FINDINGS (VAR-39122)

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.18.070(L) states:

> "Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution."

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by placing the building adjacent to the property line. Even with an alternative design showing the required 20-foot front setback, 15-foot corner side setback, 10-foot side setback, and 20-foot rear setback, the applicant would need to further reduce the building's footprint by approximately 4,400 square feet in order to meet the 50% lot coverage requirements. In view of the absence of any hardships imposed by the site's physical characteristics, it is concluded that the applicant's hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.

FINDINGS (SDR-39121)

In order to approve a Site Development Plan application, per Title 19.18.050 the Planning Commission and/or City Council must affirm the following:

1. **The proposed development is compatible with adjacent development and development in the area;**

   The proposed development is contextually compatible with the neighboring four-story apartment building to the north, the three-story office building to the southwest, and the high school campus to the east; however, the proposed development does not meet the minimum requirements of the C-1 (Limited Commercial) zoning district development standards and is not compatible in scale with the residential and commercial development to the south.

2. **The proposed development is consistent with the General Plan, this Title, the Design Standards Manual, the Landscape, Wall and Buffer Standards, and other duly-adopted city plans, policies and standards;**

   The proposed development is consistent with the applicable Objectives listed for the Neighborhood Revitalization Area as stated in the Master Plan and the stated objective of the Redevelopment Plan. However, the streetscape alternative to the required landscape buffers along with the zero-foot building setbacks do not meet the development standards as required by Title 19.

3. **Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;**

   The proposed primary public access to the Office building is through the subterranean parking garage located off of 7th Street. A secondary, private access is provided via the public alley that runs west along the rear side of the building. Staff finds that the proposed access should not negatively impact the traffic flow of the area.

4. **Building and landscape materials are appropriate for the area and for the City;**

   Although staff is recommending denial based upon the scope of the proposed development, the provided brick façade and tree-lined sidewalks are appropriate for the area and the City.

5. **Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;**

   The proposed building elevations and aesthetic features are not unsightly, undesirable, or obnoxious in appearance. The proposed tree-lined sidewalks along the east and north sides of the building create an orderly and aesthetically pleasing environment and are harmonious and compatible with development in the area.

6. **Appropriate measures are taken to secure and protect the public health, safety and general welfare.**

   If approved, the proposed development will be subject to inspection during both building construction and business licensing and will therefore not compromise the public health, safety and general welfare.

Re: Variance Request (Setbacks and Site Coverage) for a Law Office Building
APN: 139-34-710-030, -031, -032, -033

To whom it may concern:

The purpose of this letter is to request a variance to the provisions of the code regarding setbacks and site coverage ratio for the proposed Law Office Building located at 400 South 7th Street in Las Vegas, Nevada 89101.

All four parcels are currently zoned C-1, for which an office building is best suited. The current general plan designation for this site is 'C'.

A historic and traditional office building is envisioned by the property owner. The tenants are expected to be predominantly law firms and related office users. The building is designed to have a classical architectural theme consisting of arches, brick veneer, colonnade, and a capitol dome.

The building site is situated just outside of downtown centennial office core district. It is designed to fit in the context of the urban neighborhood. The project consists of 3-story office building situated on top of (2) levels above grade parking and (2) levels subterranean parking. The building's parapet height is 84'-0", the top of the dome is 96'-0", and the top of the flag pole is 126'-0" in height which conforms to the unlimited height limit of the C-1 zone.

We are requesting a variance for the required setbacks and site coverage. Code requirements for general C-1 development are 20' (front) 10' (side yard), 15' (corner yard) and 20' (rear yard). In a downtown area, with small lot sizes and anticipated urban core density, conformance to setback requirements would substantially limit the site's development potential. In addition, this property is situated on a corner lot and thus would be greatly impacted by the required setbacks. The proposed design requires zero lot setbacks on all sides. This meets the spirit and a language of the urban area. Zero setback as an element of urban site development is a requirement in the adjacent downtown centennial office core district. The resulting site coverage of 86% is proposed (where 50% is allowed by code) and meets the spirit of code language for urban areas. In this context, given the relatively small site area, setback and lot coverage code conformance would result in substantially less viable project.

We appreciate your assistance in moving forward with this proposed project.

Sincerely,

8/9/10

Re: Site Development Review for a Law Office Building
APN: 139-34-710-030, -031, -032, -033

To whom it may concern:

The purpose of this letter is to request a Site Development Review for the proposed Law Office Building located at 400 South 7th Street in Las Vegas, Nevada 89101.

All four parcels are currently zoned C-1, for which an office building is best suited. The current general plan designation for this site is 'C'. The site also lies within the Las Vegas High School Neighborhood Historic District. This project intends on conforming to the goals and policies of the current zoning and general plan.

A historic and traditional office building is envisioned by the property owner. The tenants are expected to be predominantly law firms and related office users. The building is designed to have a classical architectural theme consisting of arches, brick veneer, colonnade, and a capitol dome.

The building site is situated just outside of downtown centennial office core district. It is designed to fit in the context of the urban neighborhood. The project consists of 3-story office building situated on top of (2) levels above grade parking and (2) levels subterranean parking. The building's parapet height is 84'-0", the top of the dome is 96'-0", and the top of the flag pole is 126'-0" in height which conforms to the unlimited height limit of the C-1 zone.

By a separate application we are also requesting a variance for the required setbacks and site coverage. The proposed design requires zero lot setbacks on all sides. This meets the spirit and a language of the urban area. Zero setback as an element of urban site development is a requirement in an adjacent downtown centennial office core district. Site coverage of 86% is proposed (where 50% is allowed by code) and meets the spirit of code language for urban areas. In this context setback and lot coverage code conformance would result in substantially less viable project.

As a result of urban design approach that fits downtown area, we are requesting a waiver to reduce the landscape perimeter buffer width. Proposed landscape along the 7th Street and Chef André Rochat Place includes densely spaced trees, shrubs in the planters and vines on building facades, which should adequately compensate for the reduced width of the buffer.

All required parking, totaling 184 spaces is located within the 4-storey (2 of which are subterranean) parking garage. Six (6) ADA parking stalls, including an ADA van accessible parking stall is provided. Please refer to the site plan, floor plans, landscape plans and elevations dated 8-9-10 that accompany this letter.

As you can see, the applicant has made a considerable effort to work with the property and historic nature of the neighborhood. This project is consistent with the surrounding area, the City of Las Vegas Development Code, and does not have any adverse impacts on the area. There are adequate utilities, public transportation, and services to the development. Located in the heart of a successful downtown district, the site presents a great opportunity for this office development.

We appreciate your assistance in moving forward with this proposed project.
Sincerely,

8/9/10

** STAFF REPORT **

PROJECT DESCRIPTION

The site is currently approved for a Taxicab/Limo Yard with a 4,400 square-foot existing office, 1,100 square-foot existing storage building, 300 square-foot existing paint spray booth and a proposed 3,000 square-foot auto maintenance facility. The remainder of the site consists of parking and outside storage containers along the north, south and west perimeters of the site. As part of a request for a Major Amendment to the approved Site Development Plan Review (SDR-35195), the applicant proposes to increase the approved auto maintenance facility from a 30-foot tall, single story 3,000 square-foot building to a 29-foot, two-story 5,000 square-foot facility and move it 76 feet to the north. In addition, a nine-foot by nine-foot supervisor office has been located along the east property line. The applicant also proposes to shift existing storage containers to form a wall along the north side of the site from the west property line to the east. Existing containers along the south property line will be removed from the site. Self-imposed deviations from Title 19 exceeding the approved Site Development Plan Review (SDR-35195) will require an additional variance, waiver, exception and Special Use Permit. Staff recommends denial, as the applicant has provided no evidence of unique or extraordinary circumstances pursuant to Title 19.18.070 that would substantiate the required variance, and the additional waiver, exception and Special Use Permit requested will not be compatible with the adjacent commercial and residential land uses. If denied, the site will remain as previously approved.

ISSUES

- A Special Use Permit for the Outdoor Storage, Accessory use on this site is required because a minimum use condition disallowing storage within required setbacks or buffer yards cannot be met. The applicant proposes that storage containers be located within the west side yard.
- Prior to approval of a Major Amendment to the previously approved Site Development Plan Review, a Variance from Title 19.08.050 is required to allow a zero-foot setback from the east property line where eight feet is required for an existing 81 square-foot accessory building.
- Waivers of Title 19.12.040 are required to allow a zero-foot perimeter landscape buffer for a portion of the east property line where eight feet is required and along the south property line where six feet is required. The City Council approved a previous waiver of this standard through SDR-35195; however, this current request is beyond the scope of that waiver, and buffering will be further reduced along the east property line than was previously approved.
- Permits have not been obtained for the existing 81 square-foot supervisor office. Permits and inspections will be required prior to occupancy of any new buildings.

10/09/09	A building permit (149327) was issued for demolition work at 1500 Searles Avenue. A final inspection was completed on 10/28/09.
01/05/10	A building permit (154090) was issued for installation of low voltage electrical with conduit for data transmission at 1500 Searles Avenue. A final inspection was completed on 01/20/10.
08/05/10	An application for a building permit (169266) was submitted for a 10-foot combined retaining and screen wall along the south property line at 1500 Searles Avenue. The permit has not yet been issued.
08/05/10	An application for a building permit (169262) was submitted for existing paint mixing and spray booths at 1500 Searles Avenue. This permit has not been issued and is pending approval of SDR-39147.

Pre-Application Meeting	
07/20/10	A pre-application meeting was held with the applicant's representative. The following issues were discussed: • Submittal requirements for a Major Amendment to the approved Site Development Plan Review, a Variance for accessory building setback and a Special Use Permit to allow Outdoor Storage within required setback and buffer yards. • Unless the proposed wall along the south property line meets Title 19.12.075 requirements, a Variance will be required. • Barbed and concertina wire shall be removed from the site per condition of approval of SDR-35195. Chain link gates at the two access points of the site are expected to remain. • A new plan was discussed in which an accessory check-in supervisor booth would be placed along the east property line, requiring a setback variance. • The wall along the east property line was constructed by the property to the east and will remain. • The landscape buffer along the east property line would be reduced further from the approved landscape plan; this will require a waiver of Title 19.12. • The City Council struck the previous request for a waiver of sidewalk requirements along Gragson Avenue; however, the new sidewalk will either need to span the full distance from the curb to the proposed wall or the area in front of the wall, if wide enough, should contain decomposed granite and/or shrubs. • Replacement of palm trees in the parking lot planter islands with shade trees.

Neighborhood Meeting
A neighborhood meeting is not required, nor was one held.

Field Check	
08/19/10	A field check was performed at the site, where the following items were noted: • Storage containers exist along the north and south perimeters and within the interior of the subject site. • The site is surrounded by chain link fencing with the exception of the south perimeter; however, a portion of the chain link fencing along the east side has been dismantled. Barbed wire along the property lines and gates has been removed. • Along the south property line, the site is at a lower grade than Gragson Avenue. • There is little or no landscaping along rights-of-way. • A series of telephone poles are located along the east property line.

ANALYSIS

The site is located within the Downtown North Land Use Plan area. The site is also located within the Downtown Redevelopment Area, which designates this site as appropriate for industrial land uses. The Taxicab/Limo Yard use is a permitted use within the C-M (Commercial/Industrial) zoning district, which conforms to the LI/R (Light Industry/Research) land use category. The Land Use Plan Strategy outlined in the Downtown North Land Use Plan emphasizes enhancement of existing commercial properties through the implementation of commercial design standards. In the absence of specific design standards for the Downtown North area, Title 19 development standards will be used to evaluate commercial properties.

An Order of Vacation was recorded in December 2009 that added 2,305 square feet of existing right-of-way in Gragson Avenue to the existing 82,283 square-foot lot. This ensured that existing construction within that portion of right-of-way would be located completely on private property. The grade of the property adjacent to Gragson Avenue is lower than the current right-of-way. In order to adequately screen and protect the property, the applicant has proposed a maximum 10-foot tall decorative block wall spanning the length of the south property line. The

wall meets Title 19.12 retaining, screening and design standards. The sidewalk that was required by the City Council as part of the approval of SDR-35195 is depicted as five feet wide and between one to four feet from the proposed wall. It is recommended that the sidewalk be extended onto the site up to the proposed wall to eliminate the creation of a narrow zone where landscaping cannot survive and hardscaping such as decomposed granite would create maintenance problems. A condition of approval addresses this issue.

The originally approved site plan showed four existing 320 square-foot storage containers on the north side of the site. The amended plan shows three such containers extending from the west property line to the site's north entrance. Accessory Outdoor Storage is a conditional use in a C-M (Commercial/Industrial) zoning district; however, a Special Use Permit is required to allow this configuration of containers, as a Title 19.04 minimum use requirement prohibits all outdoor storage located within required setbacks or buffer yards. Title 19.04 also limits outdoor accessory storage to five percent of the total lot area. Four other shipping containers are located on the site adjacent to the proposed auto repair garage. The total outdoor storage area would increase from 1,280 square feet to 2,240 square feet, still less than the maximum five percent allowed. The shipping containers will be screened by a proposed eight-foot decorative block wall behind the required 10-foot landscape buffer along the north property line. Per Title 19.04, no screening is required from the adjacent C-M-zoned property. The existing approved chain link fence along the west property line will remain. However, all barbed wire has been removed from this fence and all other sections of chain link fencing throughout the property. Staff recommends denial of the Special Use Permit, as it supports Title 19.04 requirements and the encroachment in the side yard is not compatible with the uses on the adjacent property to the west.

The site plan as amended either meets Title 19 development standards or adheres to the previously approved plan, with the exception of an 81 square-foot supervisor office that is proposed to be located along the east property line. Title 19.08 requires accessory structures in a C-M zone to be at least eight feet from the side property line. The request represents a 100 percent deviation from the standard. Because the hardship due to the code requirement is self-imposed, staff recommends denial of the associated Variance (VAR-39148) request.

The amended site plan contains some minor changes from the approved plan. Although the number of parking spaces required and provided have not changed, the location of several of the spaces has shifted. The employee parking area in the center of the site will be covered by a canopy. The trash enclosure has moved from the west property line to a place south of the existing outdoor shipping containers. The proposed auto repair garage (Building 'C') has moved 76 feet to the north. The canopy that had covered the garage and the existing spray booths has been removed. The booths have also shifted slightly from their original positions. These changes are allowed by and compliant with Title 19.

The applicant has requested waivers of perimeter landscape buffer standards along the east and south property lines. A Waiver had been granted through SDR-35195 to allow zero feet of buffer along a portion of the east property line where eight feet was required; however, the new request is beyond the scope of that waiver, as the buffer is proposed to be further reduced along the east property line than was previously approved to allow for parking and placement of the proposed supervisor office. The proposed landscaping does not provide the buffering required for commercial properties adjacent to a residential use. The waiver along the south property line would reduce the previously approved six-foot buffer to zero feet to allow for parking of taxicabs. Staff supports Title 19.12 buffer requirements and does not support the placement of the supervisor office in the proposed location. Therefore, denial of the waivers is recommended.

The exception of Title 19.12 tree spacing requirements is the result of the proposed further reduction of landscape buffer area along the east property line; therefore, staff recommends denial. The reduction in the number of trees is a 35 percent deviation from the amount approved by SDR-35195. There is no exception for parking lot landscaping, as the site was previously approved for zero trees and islands, and the applicant is adding seven trees and islands with this request.

The proposed accessory auto repair garage consists of the same materials as previously approved (painted metal siding), but the height has decreased approximately 1.5 feet from the previously approved structure and it contains a flat, rather than sloped, roof. The large canopy has been removed and there are now two 10-foot tall roll-up bay doors on the east elevation where three 16-foot doors had been approved on the north elevation. Though the proposed building is of similar height to the approved structure, a second floor is proposed for storage purposes. An open floor plan is proposed, similar to the previously approved garage floor plan. The structure is proposed to be shifted 76 feet north of its previous location. The result of this arrangement is a more compact and aesthetically superior building.

FINDINGS (VAR-39148)

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.18.070(L) states:

> "Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution."

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by constructing an accessory structure on the east property line without a building permit. Moving the structure out of the eight-foot side yard would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the site's physical characteristics, it is concluded that the applicant's hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.

FINDINGS (SUP-39149)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

   The Outdoor Storage, Accessory use can be conducted in a way that is harmonious and compatible with the neighboring properties; however, the encroachment of outdoor shipping containers into the side yard adjacent to the west property line as proposed creates the possibility of a nuisance to the adjoining property and the use is therefore made incompatible.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

   There is adequate space on the site for storage. Less than three percent of the site is proposed to be occupied by the Outdoor Storage, Accessory use. The site is zoned C-M (Commercial/Industrial), which allows this use within certain parameters.

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

   Both Gragson Avenue and Searles Avenue are 60-foot rights-of-way, and are adequate for the primary use, which is for a Taxicab/Limo Yard. These streets are also adequate for any needs concerning the Outdoor Storage, Accessory use.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

   Location of the proposed storage within required setbacks and buffer yards may compromise the health and safety of the public; this proposal defeats the purpose of setbacks.

5. **The use meets all of the applicable conditions per Title 19.04.**

   The proposed use cannot meet a condition that requires all storage to be located outside of required setbacks or buffer yards. Failure to meet this condition requires approval of a Special Use Permit to conduct the use. The proposal conforms to all other applicable conditions of the use.

FINDINGS (SDR-39147)

In order to approve a Site Development Plan application, per Title 19.18.050 the Planning Commission and/or City Council must affirm the following:

1. **The proposed development is compatible with adjacent development and development in the area;**

   The proposed development is not compatible with adjacent residential, commercial and industrial development in the area. The applicant proposes to place storage and a small office structure along the west and east property lines, as well as reduce required landscape buffer areas from residential property, thereby reducing the amount of landscaping overall.

2. **The proposed development is consistent with the General Plan, this Title, the Design Standards Manual, the Landscape, Wall and Buffer Standards, and other duly-adopted city plans, policies and standards;**

The proposed development as amended does not meet Title 19.08.050 accessory setback standards for commercial properties, nor does it adhere to Title 19.12 landscape buffer zone or tree spacing standards. A Special Use Permit is required for the Outdoor Storage, Accessory use, as storage containers are not proposed to be located within side yard buffers as required by Title 19.04. The use is compatible with the LI/R (Light Industry/Research) land use designation of the Las Vegas Redevelopment Plan Area. The proposed supervisor building, which has already been added to the site, has not yet been permitted by the Department of Building and Safety.

3. **Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;**

Adequate site access is provided from both Searles Avenue and Gragson Avenue. Existing gates restrict traffic from entering the site during non-business hours. Traffic in the area should not be negatively impacted.

4. **Building and landscape materials are appropriate for the area and for the City;**

Building materials are typical for industrial accessory structures, which are appropriate in this area of the city. The proposed landscape materials are appropriate for this area, but are insufficient in number to adequately buffer this property from neighboring parcels. The applicant is requesting a number of Waivers and Exceptions of Title 19.12 and 19.10.

5. **Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;**

Although building materials are acceptable for the type of development, the proposed auto repair garage building will not be aesthetically compatible with the other existing buildings on the site. Outdoor storage areas will be screened from view of the adjoining residential property and from public rights-of-way.

6. **Appropriate measures are taken to secure and protect the public health, safety and general welfare.**

Several buildings are still in need of building permits or are in the process of being permitted. As a condition of approval, all necessary building permits shall be obtained and final inspections shall be completed in compliance with Title 19 and all codes as required by the Building and Safety Department in order to ensure the public health, safety and welfare.

Re: A Cab Taxi Dispatch Center
APN: 139-26-201-004
Major Modification to SDR-35195
Special Use Permit
Variance

AUG 10 2010

To Whom It May Concern:

Architecture
Engineering
Planning
Interiors
Landscape

Enclosed please find the required application materials associated with the following requests:

- Major modifications to an existing Site Development Plan Review for a Taxi Yard with waivers of a portion of the landscaping requirement.
- Special Use Permit for outside storage within the side setback
- Variance for 0'-0" side setback where 8'-0" is required

A Cab Taxi Co. has been operating at its existing site located at 4444 South Valley View since 2004 and received its first medallion from the Taxicab Authority in 2001. Its current site on .86 acres has continually met the company's needs since that time. The recent condemnation of the existing site to facilitate the expansion of Harmon Avenue has required that the business be relocated. The proposed 1.89 acre site located at 1500 Searles Avenue is a suitable location for the permitted use within a C-M zone. A Cab has been operating out of the Searles location for approximately 6 months.

The existing office building has been remodeled to accommodate the company's approximately 12 non-driver employees. Adequate parking for both these employees, as well as those drivers who may bring a personal vehicle to work is provided, although experience has shown that many employees choose public transportation instead of driving private vehicles. The Certificate of Occupancy has been granted for this structure as of 02.11.10.

Accessory buildings on site reflect the site's use for limited maintenance of company owned vehicles. Auto Repair Garage (Minor) and Auto Paint and Body Repair Shop are both Conditional Uses in the C-M zone, and any maintenance performed on site will consist only of preventative or basic maintenance such as oil changes, tire changing, and minor paint jobs to keep the taxis prepared for their usual schedules. No fueling services will be offered, and more intense body work, such as that associated with vehicles involved in collisions, will be performed elsewhere. As required, the repair and service work will be performed within the proposed building in an area which will be completely enclosed. The repair garage previously shown on the site has been relocated just south of the existing office building and a portion of the parking has been relocated along the southern property line and the eastern property line.

We are requesting a variance for the eastern (side setback) of the Supervisor Shelter of 0'-0" where 8'-0" is required. This structure allows the cab drivers to download their information to the computer for billing purposes.

We are also requesting a special use permit to allow outside storage within the side setback at the north end of the property. This will help to provide a buffer from the site to the street and will provide a continuous landscape strip.

We are requesting a waiver (in addition to the waivers already approved with the previous SDR) to provide a 0'-0" landscape buffer where an 8'-0" landscape buffer is required along the east property line and to provide a 0'-0" landscape buffer where 15'-0" landscape buffer is required along the southern property line. A sidewalk along Gragson has been shown on the plans at the councilman's request. The existing trees on the residential side of the wall offer an adequate buffer between the two properties.

If you have any questions or need additional information regarding anything with respect to these requests, please do not hesitate to contact my office.

Sincerely,

Kristen G. Neuman

** STAFF REPORT **

PROJECT DESCRIPTION

This request is for a Special Use Permit to allow an Accessory Package Liquor Off-Sale use within a proposed Grocery Store at 4700 Meadows Lane. Staff recommends approval of this request, with conditions as the use will be operated in conjunction with a Grocery Store and is compatible with adjacent land uses. If denied, the applicant may proceed with the Grocery Store use but may not sell alcoholic beverages.

ISSUES

- Per Title 19.04, the Accessory Package Liquor Off-Sale Use is permissible in the C-1 (Limited Commercial) zoning district with an approved Special Use Permit.
- An associated Minor Site Development Review (SDR-38861) to remodel an existing 77,637 square-foot General Retail Establishment (department store) into a Grocery Store has been administratively approved.
- The display and merchandising area permitted for the Accessory Package Liquor Off-Sale use is limited to 5,570 square feet (10% of the 55,706 square-foot retail portion of the 66,964 square-foot Grocery Store). Per the submitted plans, the area dedicated to alcohol sales is 500 square feet.

ANALYSIS

The subject site of the proposed use maintains the SC (Service Commercial) land use designation and is located within the C-1 (Limited Commercial) zoning district. The proposed Retail Establishment with Accessory Package Liquor Off-Sale use is permissible only with an approved Special Use Permit.

Regarding the physical impact of the proposed Special Use Permit, only the internal layout of the Grocery Store would be affected. Site access and overall parking count remain unchanged; however, the applicant has updated the existing handicapped parking spaces to meet the current City of Las Vegas Title 19.10.010(G) Handicapped Parking Requirements by providing five additional Handicapped spaces with the required five-foot access to each space.

Per Title 19.04, the description of the Retail Establishment with Accessory Package Liquor Off-Sale use limits the amount of area devoted to the display and merchandising of alcoholic beverages to 10 percent of the retail floor space. The applicant has received approval for an Amendment (SDR-38861) to convert the existing 77,637 square-foot General Retail Establishment (department store) into a 66,926 square foot Grocery Store with 9,711 square-feet of General Retail space sectioned into five leasable suites on the west side of the building. Based upon the Amended floor plan (SDR-38861), the Grocery Store maintains 55,706 square feet of retail area, of which the applicant would be allowed to utilize up to 5,570 square feet of floor space for the display and merchandizing of alcoholic beverages. The applicant has requested 500 square feet of area which constitutes approximately 1% of the retail area. Staff recommends approval of this request, with conditions.

FINDINGS (SUP-38860)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

   The adjacent properties, consisting of Shopping Centers to the east and west, the US-95 Expressway to the north, and a Single Family Residential neighborhood separated by a thirty-foot wide landscape buffer with 6-foot high screen wall, are all compatible with the addition of a Grocery Store use where neighborhood.

2. The subject site is physically suitable for the type and intensity of land use proposed.

The subject site has been approved (SDR-38861) to convert the thirty-two year old department store into a 66,926 square foot grocery store with 9,711 square feet of leasable commercial suites. The applicant is providing additional landscaping and features that support and encourage pedestrian use and will be providing a needed Grocery Store for the nearby residential neighborhoods.

3. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.

Access to the subject site is provided from Decatur Boulevard, a 100-foot Primary Arterial, and Meadows Lane, a 70-foot Local Street, as defined by the Master Plan of Streets and Highways and Meadows Lane. Adequate site access to the adjacent roadways and internal site circulation remain unchanged since the originally approved Plot Plan Review (Z-0102-73).

4. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.

The proposed use will be subject to permit review and inspections prior to operating a business; therefore, appropriate measures will be taken to protect the health, safety and general welfare of the public.

5. The use meets all of the applicable conditions per Title 19.04.

The proposed use meets all Minimum Special use Permit requirements for the Retail Establishment with Accessory Package Liquor Off-Sale use. Because of the size and location of the Grocery Store, the primary use, all separation distance requirements have been met.

Re: Justification Letter for Cardenas Market #30
4700 Meadows Lane

Dear Sir or Madam:

Enclosed please find all of the exhibits and application for the proposed Cardenas Market at the location of Highway 95, Meadows Lane and Decatur Blvd. The proposed market will provide new vitality for this area and a face lift for the existing closed Mervyn's Store.

As you are well aware, Cardenas Markets have several locations in Las Vegas at 4421 East Bonanza Road and 4500 East Tropicana Ave. This store will be the third store established in Southern Nevada and the 30th family store and will help to rejuvenate the Decatur and 95 area.

The existing building will remain as is in size with a new façade and new covered entry walk areas. The building is buffered adequately from the residential properties and will bring a neighborhood market to this area and help the existing and future businesses along Decatur Blvd. The hours of operation are seven days a week from 6:00 a.m. to 11:00 p.m. The site, parking, infrastructure, sewer, water, roadway, gas and electric are existing.

We are required to have 331 parking spaces and 413 parking spaces are provided. We are also upgrading the existing Accessible parking from the original 8 to the required 9 plus adding 1 van space for a total of 10. All accessible spaces are being brought up to Title 19 with the 5' access isles on both sides and the 8' access isle on the passenger side of the van parking. We have also done a comprehensive site review of the existing landscape and are adding trees and shrubs in the spirit of Title 19 along Decatur Blvd. and Meadows lane that are spaced 20' apart with 4 shrubs per tree and in the existing parking islands we are adding trees where they are missing with additional shrubs for a minimum of 1 tree per island and 4 shrubs per tree. The proposed signage is also shown on the site plan with one sign on Decatur Blvd. and one sign on Meadows Lane. The minimal adverse affects during construction will all be mitigated appropriately and the end result will be an extraordinary commercial establishment.

The Cardenas family in1979 opened their first supermarket. Today, Cardenas Markets cater to shoppers, with a wide variety of products from Mexico and Central and South America. The stores feature extensive meat and produce departments, bakeries, and tortillerias.

SSA ARCHITECTURE

On behalf of Cardenas Markets, SSA Architecture has been authorized and directed to request an Administrative Approval for the proposed changes to the existing building. Since the facility will contain a grocery store with accessory uses of a package liquor off-sale establishment of approximately 500 square feet and a gaming area of approximately 503 square feet which require state licenses we are also requesting a special use permit for these items separate from the Administrative approval. The overall Cardenas Market area will be 66,055 square feet and there will also be five retail spaces totaling 10,582 square feet along the Decatur Blvd. side for lease to complementary businesses of the Cardenas Market.

In order to accomplish this, we understand that Cardenas is in the process of obtaining various planning and building approvals from the city which require our consent. We hereby consent.

For your records, I attach the first and last page of the executed purchase contract for the property.

Dear Commissioners,

The Meadows Neighborhood Preservation Assoc. , in total agreement, is totally in disagreement for case #SUP38860 regarding Cardenas going into the vacant Mervyns building on Meadows Lane and Alta.

Our neighborhood, which has a multitude of senior original homeowners, want their peaceful living back and we don't think this business will contribute to that cause.

Carman –

I received this feedback regarding the SUP-38860 from the Easy Street Neighborhood Association in support of the proposal.

Subject: Support for the Cardenas Market

Dear Rob and City Planners of Las Vegas,

Regarding case number SUP-38860, the building of a Cardenas Market at Decatur and Meadows Lane, we from the Easy Street Neighborhood Association, just around the corner would like to show not only our support but our encouragement in this project. We feel that this will be a very good thing because ever since the Vons, previously located there, went out of business the area has looked near abandoned and all of us who used that grocery store had to travel further. So not only will this help to fill empty buildings, it will also be very useful to the area to have a quality and family-owned establishment in the area. So please note that the Easy Street Neighborhood Association welcomes this project with open arms and hopes to see Cardenas open its doors soon.

Thank you Fernando Coronado-President of the Easy Street Neighborhood Association

The existing General Retail Store is part of an existing 141,250 square-foot Shopping Center. ANALYSIS

A Gaming Establishment, General Business Related use is defined by Title 19.20.020 as "a building or structure which is primarily used for some business other than gaming but in which restricted gaming is permitted pursuant to Title 6. For purposes of the Special Use Permit requirements of this Title, the term does not include a location that has obtained and maintains current licensing and zoning approvals to sell alcoholic beverages." Currently, no licenses have been issued for the sale of alcoholic beverages on this site, and none are proposed. The applicant is requesting 10 Gaming devices to be located at the front of the General Retail Store.

The existing General Retail Store is within the A-O (Airport Overlay) District and meets the restriction of 175 feet. An existing bike route runs along the northern property line on Alta Drive as designated by the Master Plan Transportation Trails Element, which does not impact the subject site.

No additional parking is required for a Gaming Establishment, General Business Related use. There are no minimum use conditions for the Special Use Permit and the use can be conducted in a manner that is compatible with existing and surrounding land uses; therefore, staff recommends approval of this request, with conditions.

FINDINGS (SUP-38996)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

   The proposed Gaming Establishment, General Business Related use can be conducted in a manner that is harmonious and compatible with the existing surrounding commercial uses. The proposed use will be operated in conjunction with the existing General Retail Store.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

   The subject site has more than sufficient on-site parking facilities that make it physically suitable for the proposed Gaming Establishment, General Business Related use.

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

Access to the subject site is provided via Decatur Boulevard and Alta Drive. These streets are capable of accommodating the traffic flow created by the site and the use.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

   If approved, the proposed use on this site will be subject to periodic inspection by regulatory agencies for business licensing and environmental health, and it will therefore not compromise the public health, safety and welfare, or the overall objectives of the General Plan.

5. **The use meets all of the applicable conditions per Title 19.04.**

   The proposed Gaming Establishment, General Business Related use meets all applicable conditions of Title 19.04.

July 8, 2010 JUSTIFICATION LETTER

Planning & Development
City of Las Vegas
Las Vegas, NV

RE: RP Slots, LLC Application for Slot Route Operation at 542 S. Decatur Blvd.

Dear Sir or Madam:

Please consider this to be our justification letter in connection with the Special Use Permit process for the above-referenced project. The location at 542 S. Decatur has been a pharmacy with slot machines since the early 1960's.

In February 2009 when Wellcare Pharmacy became the new pharmacy operator, the existing gaming machines were removed and the gaming license surrendered. RP Slots, LLC submitted an application with the City and the State of Nevada to be licensed as a slot route operator, with the intent of operating gaming at this location. It took over a year for the licensing process to conclude, and in May 2010, both the State and City approved RP Slots, LLC as a slot route operator.

RP Slots, LLC then submitted an application to both the City and State to operate slots at 542 S. Decatur. I have been advised that because gaming has been ceased at this location for over 12 months (although the delay was solely caused by the time required to obtain necessary approvals from the

SUP-38996

State), the City requires a Special Use Permit in order to re-establish gaming at the location.

It is important to recognize that approval of this request will restore the location to the exact same nature that it had operated for over 40 years. The operation has always been deemed to be harmonious and compatible with surrounding land uses. The physical site is suitable and street facilities are adequate. Approval of the Special Use Permit will not be inconsistent with or compromise the public health, safety and welfare.

Hours of operation will be unchanged: Mon-Sat 7a-9p and Sunday 8a-5p. Number of employees will be unchanged with four. State Gaming approval is being obtained concurrently. The current owners of RP Slots, LLC had previously operated slots in this location from January 2008 - February 2009, under the corporate entity of DDRT, LLC.

This letter is being submitted with the Pre-Application Conference Request Form.

I will be happy to provide any additional information necessary to expedite this process.

Sincerely,

Roger M. Szepelak

ANALYSIS

The Liquor Establishment (Tavern) use is defined by Title 19.20 as a facility which sells alcoholic beverages for consumption on the premises where the same are sold and authorizes the sale, to consumers only and not for resale, of alcoholic beverages in original sealed or corked containers, for consumption off the premises where the same are sold.

The applicant is requesting Waivers of the required 1,500-foot distance separation from a similar use and from a City Park, pursuant to Minimum Special Use Permit requirement Number 5d. The first Waiver is from a similar use and requires a zero-foot distance separation, as there are taverns located at the adjacent Angel Park Golf Club and also within the subject Mixed-Use development, as approved through Special Use Permit (SUP-34175). The second Waiver is from a City Park, which is approximately 141 feet from the proposed Tavern. There was a previous Special Use Permit (SUP-34175) for a Liquor Establishment (Tavern) use within the Mixed-Use development.

As the proposed Liquor Establishment (Tavern) will be located within the Mixed-Use development, the distance separation requirement can be waived per Title 19.04. The development has a minimum net site area of 28.69 acres and the minimum is 15 acres. The Mixed-Use development has a gross floor area of nonresidential space greater than 250,000 square feet. The proposed Liquor Establishment (Tavern) is a compatible use with neighboring commercial and residential uses within the approved Mixed-Use development. The proposed use will be compatible and harmonious with the existing uses and future surrounding land uses; therefore, staff recommends approval with conditions.

FINDINGS (SUP-39146)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

The proposed Supper Club is a compatible use with neighboring commercial and residential uses within the approved Mixed-Use development. Therefore, the proposed use will be compatible and harmonious with the existing uses and future surrounding land uses.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

   The site is physically suitable for this type of use and the intensity is appropriate in this area of the City. Ample site access is provided and adequate parking is being provided in accordance with the approved Variance (VAR-10773) for the Mixed-Use development. The proposed Liquor Establishment, Tavern is appropriate in these types of Mixed-Use developments.

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

   The subject site is accessed by Rampart Boulevard and Alta Drive. Both streets are sufficient to accommodate the amount of vehicular trips associated with the proposed use.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

   Approval of the Special Use Permit is consistent with the General Plan, and will not compromise the public health, safety, or welfare.

5. **The use meets all of the applicable conditions per Title 19.04.**

   The proposed use does not meet all Minimum Special Use Permit Requirements pursuant to Title 19.04 due to the proximity to a City Park and another Liquor Establishment (Tavern). The requested Waivers of the minimum distance separation requirement are appropriate for the proposed use within a Mixed-Use development.

Re: Special Use Permit with separation waivers for Opa Tavern Liquor Establishment within Tivoli Village at Queensridge Parcel 138-32-601-003

Dear Sir/Madam;

Please consider this request to allow a Liquor Establishment (tavern) within a previously approved mixed use development (SUP-5853). The site is located within a 29 acre commercial and residential development located at the northeast corner of Alta Drive and Rampart Boulevard.

Opa Taverna uses a unique two-story design. The first story has indoor and outdoor table seating. There is also a bar on the first level that is surrounded by stools placed both indoor and outdoor. The second story also offers an outdoor terraced seating area and additional indoor seating area. Patrons may also be seated at a small bar within the interior of the second story.

This establishment expects to have more alcohol sales than food sales and therefore should be considered a Liquor Establishment (tavern). The parking allocation for this restaurant is grandfathered into the project-wide parking agreement. Please reference VAR-10773 that approved 3,955 spaces where 4,961 would otherwise be required.

Please also refer to ordinance 6013 that permits a waiver of the 1500 foot separation requirement between taverns and protected uses when the proposed tavern is located in a mixed use district. This Use Permit request requires the application of ordinance 6013 in order to Opa Taverna operate amongst previously approved taverns within Tivoli village as well as exist within 1500 feet of a City Park. Therefore, separation waivers are needed between taverns and from a tavern to a City Park.

The Tivoli Village mixed use development is situated on a parcel on which the north easternmost corner measures 160 feet from a playground within Angel Park (138-32-501-003). It is important to note that the commercial portion of this 30 acre parcel is on the westernmost side of the mixed use area. Consequently approximately 560 feet of mid-rise residential development is situated between the commercial portion of Tivoli Villages and the subject playground. Further, the subject suite is at the opposite end of the mixed-use parcel thereby providing more than 1000 feet from the front door of the supper-club to the property line of the playground. It is also notable that there are two barriers between this park and Tivoli Village. The first is an approximate 600 foot fence along the northern boundary of the property. The second is a drainage channel that is more than 20 feet deep. As a result, a pedestrian must walk more than 2600 feet to the park while there is no direct vehicular access. For this reason, the park is suitably protected from this liquor establishment.

** STAFF REPORT **

PROJECT DESCRIPTION

Opportunity Village is a non-profit organization established to assist developmental disabled people to contribute and function in society. The organization accepts donations of clothing, household goods and furniture for re-sale to the community. The organization was forced to find a new location after a fire gutted their current Main Street location in downtown. The proposed site has been utilized as a retail establishment for over thirty years and thus the proposed use is compatible for the location. The applicant states that the hours of operation will be 9:00 a.m. to 6:00 p.m. Monday thru Saturday and 10:00 a.m. to 4:00 p.m. on Sunday. Staff recommends approval with conditions. If denied, Opportunity Village would not be able to operate at this location.

ISSUES

- Title 19.04 allows Thrift Shop, Non-Profit use in a C-1 (Limited Commercial) Zone with an approved Special Use Permit.
- No outside display, storage or sales are permitted; this is a non-waivable Special Use Permit Requirement.
- The delivery of donations will be limited to the hours of operation only as stated by the applicant.

ANALYSIS

This is a request for a Special Use Permit for a Thrift Shop, Non-Profit use for Opportunity Village. The applicants' current location at 915 S. Main Street suffered a devastating fire in June requiring the relocation of the store. Title 19 allows a Thrift Shop, Non-Profit use in the C-1 (Limited Commercial) district with an approved Special Use Permit. There is a minimum Special Use Permit Requirement that prohibits all outdoor display, sales or storage of merchandise. This provision is not waivable. The applicant is proposing the use of storage bins in the rear of the store for donations. This will not be permitted. However, the applicant also states that the majority of donations are picked-up by Opportunity Village trucks. There will be a specific condition that prohibits the outside storage of merchandise that will include all donations.

The site is subject to a 140-foot Airport Overlay. This proposal does not adjust the height of the building and thus the overlay requirement is met.

FINDINGS (SUP-39219)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

   The proposed Thrift Shop, Non-Profit use can be conducted in a manner that is harmonious and compatible with the existing surrounding commercial uses.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

   The site was designed for a large retail establishment with ample parking for the size of the project.

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

   Access to the site is via Meadows Lane, which will be adequate to meet the requirements of the Thriftshop, Non-Profit use.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

   If approved, the proposed use on the site will be subject to periodic inspection by business licensing inspectors, and it will therefore not compromise the public health, safety and welfare, or the overall objectives of the General Plan.

5. **The use meets all of the applicable conditions per Title 19.04.**

   The proposed Thrift Shop, Non-Profit use meets all applicable conditions of Title 19.04.

Planning & Development Department
City of Las Vegas

Dear Planning & Development Department,

Opportunity Village, ARC (OV) is requesting a "Special Use Permit" from the City of Las Vegas. On July 11, 2010, Opportunity Village, ARC, (OV) sustained heavy damage in a building fire at our thrift store location, 921 South Main St. This fire will require OV to rebuild the structure, with an estimated completion time of 2 years. To mitigate the impact on our clients with intellectual disabilities and to help alleviate the economic effect, we need to re-establish an OV thrift store in a temporary location for approximately 2 years until the Main Street location can be rebuilt.

OV has found a suitable temporary location at 4600 Meadows Ln, Las Vegas, NV. It is appropriately sized at 25,062 SF with the proper infrastructure and is demographically correct. Together with ADA accessibility and large amount of parking, this location is ideally suited. The property is currently zoned C1. We are requesting a "Special Use Permit" to allow the thrift store to operate at this location. There is a similar store located at 4530 Meadows Lane, Suite 1

Donations are made primarily by OV truck pick up. Access is available at the rear of the building for off loading and customer pickup of oversized items. Anyone making donations at the store will be directed to the rear of the building where specific storage bins will be located for this purpose. There are four steel bollards at the loading door two will have to be removed to facilitate the use of a forklift. It is our intention to place dumpsters for trash at the rear to mitigate the current trash problem. Combined, these measures will ensure the location will remain clean, neat and not adversely impact current businesses.

The location is fully functional as is and OV will not perform any Tenant Improvements to the building. We will place signage on the building structure and will follow all regulations and requirements as set forth by the City of Las Vegas. Maximum occupancy is expected to be 250. We will employee approximately 35 people. Our hours of operation will be 9:00am to 6:00pm, Monday through

Saturday and 10:00am to 4:00pm on Sunday. We will be transferring our business license from our old thrift store location at 921 South Main Street to this new location.

Opportunity Village Thrift Store is a known and loved icon of Las Vegas with an established customer base and as such we feel the presence of this temporary location will be a valuable addition to the area and offer a much needed service to the local community.

Sincerely,

William Risley

** STAFF REPORT **

PROJECT DESCRIPTION

This is a request for a Major Amendment to a previously approved Site Development Plan Review (SDR-8635) for a 371-lot single family residential development to add five alternate model home plans and to allow an eight-foot garage setback where six feet or less or 18 feet or greater is required. There are 80 lots that were developed by the previous developer that conform to the approved Site Development Plan Review, which leaves 291 lots presently undeveloped. Staff recommends denial, as the proposed request of eight feet would encourage residents to park in the driveway, resulting in blockage of sidewalks and streets. Six feet or less discourages residents from parking in the driveway and 18 feet or greater can accommodate driveway parking without sidewalk or street obstruction. If this application is denied, the 291 remaining lots can only be developed as previously approved.

ANALYSIS

The proposed models conform to the Lone Mountain West Design Standards for single family residential. The proposed models are also located in the PD (Planned Development) District and achieve one of the goals of the district, by providing a variety of housing types to achieve variety and integration of economic and redevelopment opportunities. An existing Multi-Use Non-Equestrian Trail runs along the north property line on Alexander Road as designated by the Master Plan Transportation Trails Element, which does not impact the subject site.

The applicant is proposing to add five alternate model home plans. The previously approved Site Development Plan Review (SDR-8635) permitted homes to be up to three stories or 35 feet, whichever is less. The applicant is proposing models having a height of two stories or 35 feet, whichever is less. However, the alternate homes will have a larger footprint. The applicant is also requesting to allow an eight-foot garage setback, where six feet or less or 18 feet or greater is required. As the applicant has presented no compelling evidence for the change in setbacks, staff recommends denial. The existing setback of six feet or less discourages residents from parking in the driveway, and 18 feet or greater can accommodate driveway parking without sidewalk or street obstruction. The proposed request of eight feet would encourage residents to park in driveways, resulting in blockage of sidewalks and streets.

The Department of Public Works has expressed concern in the past regarding vehicles blocking driveways and consequently, pedestrian paths. Public works has consistently recommended that the distance from the face of the garage door to the front property line shall be a minimum distance of 18 feet or a maximum distance of five feet to avoid potential issues with vehicles blocking pedestrian and vehicular travel corridors. On February 1, 2006 the previous developers of this site were approved to move the minimum garage door distance from the front property line from five feet to six feet. As the proposed eight-foot garage setback would encourage parking in the driveway, resulting in impediments to the sidewalks and streets. Therefore, staff recommends denial.

FINDINGS (SDR-39117)

In order to approve a Site Development Plan application, per Title 19.18.050 the Planning Commission and/or City Council must affirm the following:

1. **The proposed development is compatible with adjacent development and development in the area;**

   The proposed development is not compatible with adjacent development and development in the area, as the requested increase of the minimum driveway length would encourage parking that would block pedestrian and vehicular circulation within the subdivision.

2. **The proposed development is consistent with the General Plan, this Title, the Design Standards Manual, the Landscape, Wall and Buffer Standards, and other duly-adopted city plans, policies and standards;**

   The applicant has recently purchased existing lots previously graded and owned by a different developer and would like to construct homes with different floor plans which requires certain driveways to be a minimum of eight feet in length to keep driveway slopes within City threshold requirements. This request is self imposed in nature, due to the fact

that the developer could design the floor plans for new models so that they could be accommodated under the current conditions.

3. **Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;**

   Adequate site access is provided from Alexander Road, which is designated as 80-foot Secondary Collector by the Master Plan of Streets and Highways.

4. **Building and landscape materials are appropriate for the area and for the City;**

   The building materials are appropriate for the area and will retain a residential appearance for the site. The landscape materials, as conditioned, are appropriate for the area and for the city.

5. **Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;**

   The proposed five new model home elevations are appropriate for the single family residential subdivision and are harmonious and compatible with the surrounding area.

6. **Appropriate measures are taken to secure and protect the public health, safety and general welfare.**

   Proposed development on the site will be subject to permit review and inspection, thereby protecting the public's health, safety and general welfare. However, the potential for parked vehicles in the eight-foot driveways could present safety issues for both pedestrians and moving vehicles.

Major Amendment to Site Development Review
APN #137-12-114-001-077;122-126;158-304;310-371

On behalf of Richmond American Homes, we respectfully request your consideration of the attached Major Amendment to the Site Development Review doe Alexander-215.

Location:

The proposed site is located on Alexander Road and I-215 within Section 12, Township 20 South, Range 59 East.

Request:

At this time we are requesting the approval of a Major Amendment to a Site Development Review application to update the existing SDR for the Alexander-215 project (SDR-8635). Richmond American Homes is contemplating the purchase of the remaining lots in the Alexander-215 subdivision and would like to offer different architectural house plans in the place of those originally approved with SDR-8635 and reduce the front setbacks of those originally approved with SDR-8635.

Richmond American Homes proposes **A)** to offer different architectural house plans, **B)** to reduce the front setback from the approved 10' setback to a 5' setback and **C)** to reduce the existing garage setback from the approved 18' setback to a distance of 6', 8', or 18'+ depending on the lot and constraints.

Richmond American Homes wants to offer two story house products on the Alexander – 215 project instead of the two and three story house product offered by the previous developer. In order to achieve this more desirable house plan, Richmond American Homes will need a larger foundation footprint than what was required for the existing house plans. Therefore, Richmond American Homes is requesting reduced front setbacks to achieve a two story house with a comparable square footage of a three story house on the same sized lot.

This project has an existing grade change of more than 90 vertical feet from the northwest corner down to the southeast corner of the project. This significant elevation difference resulted in the previously approved design of street slopes reaching 6.0 percent. With the steepness of the street, a 5 foot long

driveway would exceed CLV allowed driveway slopes on the downhill side of the driveway if the uphill side of the driveway was to be higher than the adjacent top of curb grade. Therefore TCE is requesting garage setbacks of 6', 8', or 18'+ dependent on the slope of the existing street to maintain CLV approvable driveway slopes. These driveway lengths will also keep the distance between the house finish floor and the garage finish floor under two feet which is preferable to prospective home buyers. The following table breaks down the number of lots that would be requested for each driveway length.

PROPOSED GARAGE SETBACK	MAXIMUM STREET SLOPE	NUMBER OF LOTS WITH 3' SIDEWALK	NUMBER OF LOTS WITHOUT 3' SIDEWALK	TOTAL NUMBER OF LOTS
6 FEET	4.50%	65	102	167
8 FEET	6.00%	32	92	124

As shown in the table above, only 32 of the 291 lots would have a garage setback of 8' adjacent to a sidewalk producing an effective driveway length of 11' with the added 3' sidewalk.

The proposed garage setback distances are based upon the perpendicular distance from the face of the garage to the front property line (back of curb or sidewalk if it exists) for linear streets and from the nearest garage corner to the front property line on curvilinear streets. Due to the curvilinear street design of this project the actual driveway lengths may exceed the proposed garage setbacks based upon the angle at which the driveway intersects the front property line. The exact driveway length for each lot can not be determined until the plot plan stage of the project when the final driveway design is completed based upon the architectural house plan chosen for that lot.

This request for a Major Amendment to the SDR is similar to the previously approved Review of Condition for this project (ROC-10964) which was approved to allow a 5' front house setback and a 6' garage setback. Approval of this Major Amendment will allow Richmond American Homes greater flexibility in designing 2 story floor plan houses to fit on the smaller compact lots of the Alexander – 215 subdivision.

Please place this request for a Major Amendment to the SDR on the next available Planning Commission agenda. If you have any questions or need additional information, please call me at 932-6125.

Sincerely,

Kurt Johansen, P.E

RE: Alexander/215 (Hillside) Project

Dear Sir or Madam,

I am writing this letter on behalf of the Homeowner's Association for Hillside in full support of Richmond American's plans. In summary, we are excited about the prospects of a homebuilder starting construction and support their application to the planning commission; very few of us want to live in a half-built community.

We had a Homeowners Association meeting on August 5, 2010 to review and discuss Richmond American's plans to build at Hillside. In addition to residents of Hillside, in attendance were Brian Walsh from Richmond American homes and Council Liaison Anthony Ruggiero, who was there to listen to the questions and concerns of the residents.

Brian Walsh made a presentation to the homeowners to discuss the product that they intend to build on the Hillside lots which included large diagrams and architectural drawings, and also discussed the setback variance for the driveways that they need so that they can fit their homes to the lots. None of our residents raised any concerns about five to eight foot driveways; most of the questions were whether the new product would blend in somewhat with the older homes, and what the new color scheme would look like so that as a whole the community looked nice. There were also questions about the location of the model homes and phasing of the community. The residents expressed a desire for two-story homes and said that they did not want any additional three story homes because it would potentially block their views. Views are a very important part of why many Hillside homeowners choose to live here, and have a significant impact on home values. Because the five to eight foot driveway variance would obviate the need for three story homes on a number of the lots, there is additional support for the driveway variance which will allow Richmond American to do two story homes on all their lots and preserve more views for the existing homeowners.

A motion was made to support Richmond American and its application to the planning commission for the variance on driveway lengths to allow Richmond to fit its product to the lots, and the motion was passed.

Please do not hesitate to contact me should you have any questions.

ANALYSIS

Introduction:

Title 19 of the Las Vegas Municipal Code, which is the city's zoning regulations, was last revised in 1997. As the city continues to grow and mature, codes must be updated to reflect changing conditions and adopted initiatives. Consequently, Planning & Development staff has initiated revisions to Title 19 to reflect current development patterns and incorporate new initiatives, such as sustainability and transit-oriented development. A form-based code approach has been selected as the appropriate format for the code revision, as a means to promote understanding and application of zoning regulations. A form-based code is characterized by the following two qualities: the use of diagrams and visual examples to explain regulations, and an emphasis on regulating the form of the built environment.

Draft Organization:

Currently, staff is proposing to organize the revision into generalized chapters that address the requirements of both the current subdivision regulation and zoning code as one comprehensive title. The merging of these two titles (Title 18 and 19) will create a Unified Development Code (UDC) for the city that will provide greater assurance that development is occurring in conformance with the master plan. UDCs streamline the development process by weaving development standards together, reducing conflicts between standards and providing staff and the community a single point of reference for standards and regulations related to development.

At this time staff is presenting draft chapters for Chapter 19.00 – General Provisions, Chapter 19.12 – Permitted Uses, Chapter 19.16 – Nonconforming Uses and Structures and Chapter 19.18 – Definitions and Measures. The following table summarizes the substantive changes reflected in these four chapters from their corresponding existing regulations:

Proposed Chapter Reference/Subject	Summary of Substantive Change
19.00 – General Provisions	• Merged Title 18 and 19 elements related to the stated purpose, reference title, administration, interpretation, enforcement and fee schedule • Relocated Official Zoning Map sections
19.12 – Permitted Uses	• Reorganized Permitted Uses Table by eliminating the categorical listing and alphabetizing the uses • Separated the use/district matrix from the description/requirements text associated with each use • Relocated the Off-Premise Sign section to this chapter
19.14 – Nonconforming Uses and Structures	• No substantive changes from currently adopted non-conformity provisions

19.18 – Definitions and Measures	• Merged Title 18 and 19 elements related to how terms and phases are defined • Addressed a number of inconsistent definitions and added many illustrations to provide greater clarity • Added a Subchapter to address how measurements and calculations are intended to be done

Partnerships:

Staff has worked with a wide variety of stakeholders in the review of the proposed revisions. As the draft document is completed and moves through the adoption process staff will continue to work with these groups to address the concerns and questions of the public and development industries. Department staff has worked with the following groups:

- ***Customer Feedback Group*** – Staff has worked with representatives of the development community and other stakeholder groups to review various aspects of the proposed code revision. This group consists of representatives of various community and professional organizations, including the Southern Nevada Home Builders Association (SNHBA), NAIOP, Regional Transportation Commission (RTC) and Clark County School District (CCSD). Additionally, the group contains land use attorneys, architects and private sector planning professionals.

- ***Southern Nevada Home Builders Association (SNHBA)*** – In addition to the Customer Feedback Group, staff has worked with representatives of the SNHBA's Community Development Subcommittee in reviewing their industry's specific concerns.

- ***Regional Transportation Commission (RTC)*** – As mentioned above, staff has reviewed the RTC's transportation plans in connection with proposed street sections and transit-oriented development (TOD) standards. Staff continues to work with the RTC regarding the location of future transportation infrastructure projects, such as the Downtown Transit Center, and how the city can capitalize on those improvements in the planning for future TOD districts, corridors or projects.

- ***City of Las Vegas Departments*** – The revisions anticipated as a part of this project extend beyond the Planning and Development Department. Staff has been working closely with members of the city's Public Works and Fire and Rescue Departments and the Office of Sustainability to ensure that goals and proposed changes are achievable across the range of interests represented by these various departments.

    - **Public Works** - Areas where the staff has been working collaboratively include the merge of Titles 18 and 19 into a UDC, addressing street widths and streetscapes as a part of the improved streets effort, and working on site development standards that integrate Low Impact Development (LID) principles

as a part of the city's stormwater management program.

- **Fire and Rescue** - Staff has been working collaboratively to address and resolve concerns related to street widths as a part of the improved streets effort.

- **Sustainability** - Areas where the staff has been working collaboratively include the merge of Titles 18 and 19 into a UDC, addressing the elimination of barriers to sustainable development practices, and working on additional improvements to promote sustainable development.

INTERPRETATION 19.00.080

A. Rules of Interpretation

In interpreting the language of this Title, the rules set out in this subchapter shall be observed unless the interpretation would be inconsistent with the express language of this Title. In the case of conflicting language, the more restrictive language shall apply.

D. Computation of Time

The time within which an act is to be performed shall be computed by excluding the first day and including the last day. If the last day is a Saturday, Sunday or legal holiday, that day shall be excluded. The following time-related words shall have the meanings ascribed below:

"Day" means a calendar day unless otherwise stated.

"Week" means seven calendar days.

"Month" means one calendar month.

"Year" means a calendar year, unless a fiscal year is indicated.

E. Other Clarifications

1. Headings

a. Levels of headings used in this Title include Chapters (for example "Chapter 19.00"), Subchapters (for example "19.00.010"), Sections (for example "A."), Subsections (for example "1.") and Paragraphs (for example "a").

b. The headings contained in this Title are for convenience only and do not limit or modify the intent or meaning of the provisions.

2. Tense. Unless clearly indicated to the contrary, words used in the present tense shall include the future, words used in the plural shall include the singular, words used in the singular shall include the plural, and words of one gender shall include the other.

3. Use of Certain Words. The words "shall," "must," and "will" are always mandatory. The words "may" and "should" are discretionary. Words and phrases shall be construed according to the common and approved usage in the language, but technical words and phrases that may have acquired a peculiar and appropriate meaning in the law shall be construed and understood according to that meaning.

4. Written Information. References to "written" information shall mean any representation of words, letters or figures whether by printing or other form or method of writing.

5. Conjunctions. Unless the context clearly indicates the contrary, conjunctions shall be interpreted as follows:

"And" indicates that all connected items or provisions apply; and

"Or" indicates that the connected items or provisions may apply singularly or in any combination.

H. Implementation

All applications which have been accepted as complete by the Director prior to the effective date of this Title shall be processed in accordance with, and subject to, the regulations and requirements in effect at the time the application was accepted as complete. Unless otherwise provided in this Title, the review of previously approved Special Use Permits and other zoning actions bearing a time limitation or subject to periodic review may be evaluated with reference to the requirements of this Title, as amended, unless the property owner or developer demonstrates that it is inequitable for the City to do so. Except as otherwise provided in Section 19.00.060 (B), any application accepted as complete after the effective date of this Title shall be processed in accordance with and subject to this Title.

I. Minimum Requirements

Within the scope and authority of this Title, the provisions hereof are intended to be the minimum requirements adopted for the promotion of the public health, safety and general welfare. Where the provisions of this Title impose greater restrictions than those of any other

ordinance, resolution or regulation, the provisions of this Title shall prevail. Where the provisions of any other ordinance, resolution or regulation impose greater restrictions than those of this Title, the provisions of that other ordinance, resolution or regulation shall prevail.

J. Private Covenants or Deed Clauses

No provision of this Title is intended to interfere with or abrogate or annul any easement, private covenants, deed restriction or other agreement between private parties. In cases in which this Title imposes a greater restriction upon the use of land or structures, the provisions of this Title shall prevail and control. By virtue of this Title, the City is not a party to and has no power or authority to enforce private deed covenants, conditions or restrictions. Private covenants or deed restrictions which impose conditions more restrictive than those imposed by this Title, or which impose restrictions not covered by this Title, are not implemented nor superseded by this Title.

K. Regulatory Conflicts

Except as otherwise specifically provided, it is not the intent of this Title to repeal, abrogate, annul, or in any way to impair or interfere with any other existing provisions or law or ordinance, or any other rules, regulations or permits previously adopted or issued, or which will be adopted or issued pursuant to law relating to the erection, construction or alteration of an establishment or the moving or enlargement of any buildings.

L. Limitations on City Action

The issuance or granting of a building permit or approval of plans or specifications under the authority of the Building Code shall not be construed to be a permit for, or an approval of, any violation of any provisions of this Title or any amendments thereto, or of any other law. No permit, approval, representation, action or inaction on the part of a City officer or employee which purports, or could be interpreted, to authorize the violation or cancellation of any of the provisions of this Title shall limit the City's authority to enforce the provisions of this Title or any other provision of the Municipal Code. No permit or other approval issued under the provisions of this Title shall constitute or imply approval of any business license or permit required by any provision of the Municipal Code. Any permit, license or other approval which is issued in error in conflict with this Title is voidable by order of the City.

M. Other Limitations

No provision in this Title amounts to a guarantee, warranty or promise that any particular type of construction will be free from defect, will perform in a certain manner, or will be exempt from other legal requirements applicable thereto. The issuance of a permit, or the inspection or approval of any permit, plans or work under this Title, shall in no way constitute a guarantee, warranty or promise that any particular material, labor or construction will be free from defect, or perform in a certain manner, or will be durable, safe or fit for a particular purpose or use. Compliance with this Title is not intended to substitute for the performance of any private duty, nor to reduce or eliminate any private liability on the part of an owner, developer or permittee.

N. Appeals of Interpretation

Any person aggrieved in connection with the inability to obtain a building permit or by the decision of any administrative officer or agency based upon or made in the course of the administration or enforcement of any provision of this Title may appeal the decision to the Planning Commission. An appeal must be in written form and must be filed in the office of the Department of Planning and Development, with a copy to be filed in the office of the City Clerk. The appeal must be filed within ten days after the administrative decision is made and shall specifically describe the decision at issue and the basis for the appeal. The appeal shall be considered on the next available agenda of the Planning Commission.

3. **Nuisance**. Any building or structure set up, erected, built, moved, or maintained or any use of property contrary to the provisions of this Title shall be, and is declared to be, unlawful and a public nuisance and the City Attorney shall, upon order of the City Council, immediately commence actions or proceedings for the abatement, removal and enjoinment of it in a manner provided by law and shall take such other steps and shall apply to the court as may have jurisdiction to grant relief to abate or remove the building, structure or use, and restrain and enjoin any person from setting up, erecting, building, moving, or maintaining any building or structure, or using any property contrary to the provisions of this Title.

4. **Remedies Cumulative.** All remedies provided herein shall be cumulative and not exclusive.

5. **Violations Continue.** Any violation of the previous Subdivision Regulations or Zoning Code will continue to be a violation under this Title and be subject to penalties and enforcement under this Subchapter, unless the use, development, construction, or other activity complies with the provisions of this Title.

CONDITIONAL USES 19.12.040

A. General

A use approved as a conditional use is subject to, and shall comply with:

1. The conditions use regulations that are listed in the Tables for that use; and

2. All other applicable requirements of this Title.

B. Special Use Permit Required

Expect as otherwise specifically provided regarding a particular use, when one or more of the itemized conditional use regulations cannot or will not be met, a Special Use Permit is required for the use. Approval of such a Special Use Permit may be conditioned on requirements beyond those that are itemized as conditional use regulations for that use.

C. Conditional Use Verification

Uses that are permitted conditionally pursuant to this Subchapter are made subject to conditional use regulation, some of which are conditions that must be met before a use may commence and others that represent ongoing requirements or limitations. In order for the

Department to verify compliance with the applicable conditional use regulations, the Director may require the submission of documentation regarding such compliance. For uses concerning which the Director requires such documentation, the submission shall be in the form of a Conditional Use Verification provided by the Department. Within the time period for submission established by the Department, the form must be signed, notarized and acknowledged, and filed with the Department. The form must be signed by the owner of record of the property for which the verification is sought; provided however, that such submission is also sufficient if it is signed and acknowledged by a lessee, a contract purchaser or an optionee of the property upon which such conditional use is maintained. However, interest in such property must exist in a written agreement with the owner of the record attached to which is a copy of the submission and in which the owner of record has authorized the lessee, contract purchaser or optionee to sign the submission.

D. Noncompliance

Whether or not the Director requires the submittal of a Conditional Use Verification under Section (C) of this Subchapter, each person or entity maintaining, operating or permitting a conditional use must comply with all provisions of this Title. Failure to comply with this Subchapter or with any other requirement of this Title pertaining to conditional uses shall be grounds for enforcement action pursuant to LVMC 19.00.090 against the person or entity that owns the property or the person or entity that operated the conditional use.

SIMILAR AND PROHIBITED USES 19.12.090

A. Unlisted Uses

The uses permitted in this Chapter are classified on the basis of common operational characteristics and land use compatibility. Uses not specifically listed in this Chapter are prohibited. However, additional new and unlisted uses may be permitted by the Director if the Director finds that the use is similar to other uses listed in the same zoning district.

B. Appeals

An applicant who is aggrieved by the decision of the Director with respect to the allowability of an unlisted use may appeal the decision to the City Council. The appeal shall be filed in the office of the City Clerk, with a copy to be filed in the office of the Planning and Development Department. Unless otherwise stated in the Council's action, the determination of the Council with respect to the appeal shall constitute a permanent and consistent interpretative decision which the Director shall apply in all future instances.

C. Conditions

When considering requests to permit a new or unlisted land use as being similar to a listed use, the Planning Director or City Council shall consider the potential effects of the use on adjacent properties in terms of requirements for services, visual impact, traffic generation, the extent to which the use is consistent with other uses allowed in the district, and other issues they deem appropriate. Based upon such consideration, the Director or Council, in approving a request under this Subchapter, may impose appropriate and reasonable conditions designed to ensure compatibility and consistency of uses.

D. Authorization of New Uses

New uses which have been permitted by the Director or City Council, pursuant to the subchapter shall be added by ordinance amendment on a periodic basis.

E. Uses Expressly Prohibited

Without limiting the general applicability of Section (A) of this Subchapter, the commercial use of a residential dwelling unit for dwelling, lodging or sleeping purposes, wherein any individual guest rents or occupies the unit for a period of less than thirty-one consecutive calendar days, is prohibited except as otherwise permitted under this Title.

INTENT AND EFFECT OF CROSS-REFERENCING TOOLS 19.12.100

The Land Use Tables that appear in Subchapter 19.12.010 and the various minimum standards that are set forth in other Subchapters of this Chapter 19.12 include certain cross-referencing tools that are intended to assist the City and the public in using and applying the Zoning Code. For example, the Land Use Tables include asterisks and plus signs that are intended to remind the user to consult other portions of the Zoning Code for additional information. Likewise, language in the other Subchapters of this Chapter occasionally refers to the Land Use Tables to help the user correlate the various provisions of the Code that apply. These cross-referencing tools are for the sake of convenience and assistance only, and do not diminish the applicability of

substantive standards and limitations of this Code. Except as otherwise specifically indicated, the absence or omission of an asterisk or plus sign in the Land Use Tables shall not be deemed to limit or negate any other provision of this Code.

OFF-PREMISE SIGNS 19.12.110

A. Off-Premise Signs Defined

Off-premise signs are to be considered primarily a specific type of land use rather than as an incidental use to an existing land use. Off-premise signs generally produce revenue to the property owner(s) as a land use as compared to on-premise signs which in themselves do not produce revenue but are incidental to a revenue-producing land use. However, because of the special characteristics of off-premise signs as compared to other types of land uses and structures, certain qualifications and requirements are set forth in connection with off-premise signs as a permitted use in certain zoning districts.

B. Special Use Permit Required

1. Except as otherwise provided in Sections (F) and (G) of this Subchapter a Special Use Permit is required for all off-premise signs prior to the construction, placement, erection or modification of the sign in accordance with the requirements of this Chapter. A Special Use Permit application shall be processed in accordance with Subchapter 19.16.110. Furthermore, the property owner(s), owner(s) of the structure or other responsible person shall maintain in force, at all times, a sign certificate for the sign in accordance with the requirements of this Chapter.

2. The Special Use Permit requirement set forth in Paragraph (1) is in addition to and independent of any locational provision or limitation contained in this Section. In determining whether to approve or deny a Special Use Permit under this Section, the Planning Commission and City Council may consider the aesthetic impact of the sign on the area and all other aspects of the sign's compatibility with the surrounding area, including the existence or nonexistence of other signage in the area.

3. In connection with the approval of a Special Use Permit under this Section, the Planning Commission or City Council may impose a time limit on the approval or require a periodic review of the sign as a condition of approval, provided that:

a. In the case of a time limit, the limit is not less than three years; and

b. In the case of a periodic review, the review is not sooner than three years after the approval.

4. After conducting a review, the City Council may require removal of the sign if it is demonstrated that conditions in the surrounding area have changed in such a manner that the sign no longer meets the standards established in Section 19.16.110(L).

C. Locational Provisions

1. No off-premise signs shall be erected in the public right-of-way.

2. No off-premise sign certificate of any kind shall be issued for an existing or proposed sign unless the sign is consistent with all requirements of this Chapter (including those protecting existing signs).

3. Off-premise signs are permitted in the C-1, C-2, C-M and M Zoning Districts only.

4. No off-premise sign shall have a surface area greater than 672 square feet, except that an embellishment of not to exceed five feet above the regular rectangular surface of the sign may be added if the additional area contains no more than 128 square feet. Any embellishment may include lettering, text, numerals or images, but only to the extent that such items do not exceed fifty percent of any linear side of the sign.

5. Off-premise signs which are within 660 feet of the right-of-way and which can be read from Interstate 15, US 95 from the north city limits to the Oran K. Gragson Highway, the Oran K. Gragson Highway or Interstate 515 shall be no closer than 750 feet (measured along the highway frontage) to any other off-premise sign along the same frontage. Each side of the highway shall be considered a separate frontage. The sign and all other off-premise signs not oriented toward the same highway shall be no closer than 300 feet in any direction to any other off-premise sign, wherever located, including an off-premise sign that is situated outside the corporate boundaries of the City.

6. The distance to and from a sign shall be measured with reference to the point on the ground that is directly beneath the center of the sign structure.

7. Off-premise signs which are within 660 feet of the right-of-way and which can be read from Interstate 15, US 95 from the north city limits to the Oran K. Gragson Highway, the Oran K. Gragson Highway or Interstate 515 shall not be higher than 40 feet except as provided in Subparagraphs (a) and (b)

below. The height shall be measured from the grade at the point of construction to the top of the sign. The display surface shall not be higher than 30 feet nor wider than 60 feet.

a. An off-premise sign within 150 feet of the right-of-way line of an elevated freeway or highway to which it is oriented may be erected 30 feet above the elevation of the elevated roadway surface nearest the sign.

b. An off-premise sign within 150 feet of the right-of-way line of any freeway or highway to which it is oriented which, at a height of 40 feet, will have a significant portion of its display surface obscured from view from the travel lanes of the freeway or highway may be increased to a maximum of 55 feet when authorized by the City Council.

8. All other off-premise signs shall be no higher than 40 feet from grade at the point of construction, except that an off-premise sign within 60 feet of the right-of-way line of the street to which it is oriented which, at a height of 40 feet, will have a significant portion of its display surface obscured from view from the travel lanes of the street may be increased to a maximum of 55 feet when authorized by the City Council.

9. Off-premise signs shall not be located closer than 10 feet to the right-of-way line of a freeway nor closer than 50 feet to the intersection of the present or future rights-of-way of any two public roads, streets or highways.

10. No off-premise sign shall be erected or maintained within 660 feet of the nearest travel lanes of the Summerlin Parkway from Station 499 + 78 to Station 601 + 30.

11. No off-premise sign shall be allowed within 300 feet from the nearest property line of a lot in the "U" zoning district or any "R" zoning district.

D. Additional Provisions

1. All structural elements of an off-premise sign to which the display panels are attached shall be screened from view. Display surface panels which are removed for the purpose of changing the advertising message shall be replaced within 30 days with display panels containing a new advertising message or uniformly painted blank panels.

2. All off-premise signs shall be detached and permanently secured to the ground and shall not be located on property used for residential purposes.

3. For any off-premise sign that is proposed within 660 feet of any highway classified by the State of Nevada as part of the interstate or primary highway system, a State of Nevada sign permit shall be obtained and a copy attached to the application prior to the issuance of a construction permit or sign certificate by the City.

4. No sign certificate shall be issued for an individual off-premise sign unless and until a site plan for the lot on which the sign will be erected has been submitted to and approved by the Director. The site plan shall include the following:

a. An accurate site plan of the lot, at the scale the Director requires;

b. The location of buildings, parking lots, driveways and landscaped areas on the lot;

c. An accurate indication of the location of all existing and proposed off-premise signs; and

d. Drawings that allow the computation of the area and the height of any off-premise signs and which indicate any sign characteristics such as illumination, embellishment areas or moving parts.

5. The permittee or holder of a sign certificate shall notify the Director in advance, by letter or fax and pursuant to Section 19.16.100(F) of any change in the characteristics of an off-premise sign, such as illumination, embellishment areas or moving parts, that are not shown on the approved site plan, and shall provide any additional supplemental drawings as the Director may require. Final approval of any changes under this Paragraph (5) shall be contingent upon final construction inspection and approval by the Department of Building and Safety regarding structural changes, including approval of any necessary electrical inspections. In the case of a proposed embellishment, the proposal shall be processed as in the case of a Minor Site Development Plan Review under Section 19.16.100(F), except that if the Director does not respond to the notice, within ten business days following receipt thereof, regarding whether or not the embellishment complies with this chapter, the embellishment shall be deemed approved.

6. No display panel or advertising message may be placed upon a new off-premise sign structure until:

a. The Department of Building and Safety has performed all necessary final construction inspections of the structure and issued a certificate or other evidence of compliance with applicable codes; or

b. The applicant has obtained and filed with the City a certification by a licensed professional engineer that the sign is structurally sound.

7. Any illumination of an off-premise sign shall be in accordance with the applicable standards and permit requirements of the City's Electrical Code and Administrative Code.

8. With respect to existing signs for which no final construction inspection and approval exists, the owner of the sign, upon notice from the City, shall, within thirty days, obtain either construction inspection and approval by the City or structural certification, as those items are described in Paragraph (6).

E. Off-Premise Sign Exclusionary Zone

1. Off-premise signs are prohibited within the boundaries of the following area:

a. Bounded on the north by the Las Vegas/Clark County boundary.

b. Bounded to the east by the Las Vegas/North Las Vegas boundary (Decatur Boulevard), south to Cheyenne Avenue, then west along Cheyenne Avenue to Rainbow Boulevard, then continuing south along Rainbow Boulevard to Sahara Avenue.

c. Bounded on the south by Sahara Avenue, west to Durango Drive then continuing south along Durango Drive to Desert Inn Road, continuing west to Hualapai Way then north along Hualapai Way to West Charleston Boulevard, then west to the Las Vegas/Clark County boundary.

2. The prohibition contained in Paragraph (1) of this Subsection does not apply to any sign which would be within 660 feet of the right-of-way line, and oriented toward, the following interstate and federal-aid primary routes, as defined by the Nevada Department of Transportation:

a. Oran K. Gragson Highway

b. U.S. Highway 95, south of Ann Road

c. Interstate 515

3. The prohibition of off-premise signs within the area described in Paragraph (1) or within any other area described in this Chapter shall not be deemed or interpreted:

a. As an indication that any other particular location is suitable for an off-premise sign.

b. To eliminate the need for a Special Use Permit or affect the determination of compatibility with respect to a proposed sign.

F. Relocation Of Signs Required To Be Removed For Publicly Funded Improvements

1. If an off-premise sign is required to be removed by a governmental entity in connection with the widening of a public roadway or the installation of publicly-funded improvements, the sign may be relocated without obtaining a Special Use Permit or Variance that would otherwise be required, but only if:

a. The applicant can demonstrate that the sign, at its existing or previous location, received all necessary approvals and permits, and that the approvals and permits remain valid;

b. The relocation will be on the same parcel or within the same commercial subdivision;

c. The applicant submits for and obtains a waiver, pursuant to Paragraph (4) below, of any and all requirements and limitations of this Section pertaining to distance separation and location that cannot otherwise be met by the sign as relocated;

d. There will be no increase in the area of the sign to be relocated; and

e. There will be no increase in the height of the sign, except that:

i. A sign within one hundred fifty feet of the right-of-way line of an elevated freeway or highway to which it is oriented may be erected thirty feet above the elevation of the elevated roadway surface nearest the sign; and

ii. A sign that, at a height of forty feet, will have a significant portion of its display surface obscured from view from the travel lanes of the right –of-way to which it is oriented, may be increased to a maximum of fifty-five feet.

2. The applicant for relocation of a sign under the provisions of Paragraph (1) must submit to the Department a written application for administrative review. The application must include:

a. A site plan;

b. An elevation drawing;

c. Evidence that the sign, at its existing or previous location, received all necessary approvals and permits, and that the approvals and permits remain valid;

g. Any other information required by the Director.

3. If the Director determines that the relocation of the off-premise sign;

a. Conforms to the conditions set forth in Paragraph (1), the Director shall provide written notice of approval to the applicant, with a copy to the office of the City Council. Within ten days after the notice is mailed or delivered, the applicant may proceed to apply for building permits, unless within that time a member of the City Council files with the Director a request for the Council to review the approval. If such a request to review is filed, the application must first be reviewed and approved by the council prior to issuance of any building permits.

b. Does not conform to the conditions set forth in Paragraph (1), the normal Special Use Permit and Variance requirements and limitations will apply. Any determination by the Director that the relocation of an off-premise sign does not conform to the conditions set forth in Paragraph (1) is not subject to appeal.

4. In connection with an application to relocate an off-premise sign pursuant to Paragraph (1), the requirements and limitations of the Section pertaining to distance separation and location may be waived by the Director, or in connection with City Council review pursuant to Paragraph (3)(a), notwithstanding any other provision of this Title, upon a determination that the relocation, under the circumstances, will not have a materially different impact on surrounding properties and uses than the existing sign.

5. Unless otherwise indicated in a written notice of approval pursuant to Paragraph (3)(a), conditions of approval from any previous Special Use Permit and Variance applications pertaining to the sign at its existing or previous location will apply to the relocated sign, and additional conditions may be added as appropriate.

6. A demolition permit must be obtained for the removal of an existing off-premise sign prior to removal. A building permit must be obtained and constructed related to the relocation of the sign completed within six months after issuance of the demolition permit, unless the Director grants an extension of time.

7. For purposes of this Subsection (F), the "relocation" of a sign includes both the re-erection of a sign at a replacement location and the erection of a new structure at that location.

G. Adjustments, Relocations And Modifications Of Signs Near Freeways

1. The Director shall have the authority to grant approval, by means of a Minor Site Development Plan Review under Section 19.18.050(F), to do any of the following regarding an off-premise sign within 660 feet of any highway classified by the State of Nevada as part of the interstate or primary highway system, and, subject to the provision of Paragraph (3) of this Subsection (G), no Special Use Permit or public hearing shall be required in connection therewith:

a. Adjust the height or angle of an off-premise sign to a height or angle that:

i. Restores the visibility of the sign to the same or comparable visibility as before

the construction of a noise abatement or highway improvement project;

ii. Is not more than 45 feet above the noise abatement improvement project, measured from the tallest point of the improvement project to the top of the sign; and

iii. Is not more than 65 feet from the existing grade at the base of the sigh to the top thereof;

b. Relocate a sign to another location on the same existing parcel in order to achieve visibility that was obstructed by a noise abatement or highway improvement project; or

c. Make a structural modification to allow a digital display on a sign that adjoins a controlled-access freeway, in compliance with the size limitations and other applicable requirements of this Title.

2. Application for approval under this Subsection (G) shall require signatures by both the property owner and the sign owner.

3. Action by the Director under this Subsection (G) shall be subject to the appeal provision of Section 19.00.080(N) and those governing Minor Site Development Plan Reviews under Section 19.16.050(F).

4. In the case of an adjustment, relocation or modification that exceeds the scope of the Director's authority under Paragraph (1) above, any approval by the City Council may not be conditioned upon a required periodic review of the sign if a condition requiring a review was not imposed when the sign was initially approved. Action by the City Council under this Paragraph (4) will be pursuant to a Site Development Plan Review with a public hearing rather than by means of the Special Use Permit process otherwise applicable. A sign approved by the City Council under this Paragraph (4) shall maintain any nonconforming status it had immediately before such approval.

INTENT 19.14.010

Within the zoning districts established by this Title, there may exist lots, structures and uses of land which were lawful before the effective date of this Title or an amendment thereto and which would be prohibited, regulated, or restricted under the terms of this Title. It is generally the intent of this Title to permit these nonconformities to continue until they are removed or abandoned, or until such earlier time as they are ordered to be removed, but not to encourage their survival. It is further the intent of this Title, that such nonconforming lots, buildings, or uses shall not be enlarged upon, expanded or extended, except as otherwise specifically provided, and that such nonconforming lots, buildings or uses may not be used as justification for adding other lots, buildings or uses prohibited elsewhere in the same zoning district. Except as otherwise provided, nonconforming uses are declared to be incompatible with permitted uses in the same zoning districts.

APPLICABILITY 19.14.020

The provisions of this chapter shall apply to lots, uses and buildings which become nonconforming by reason of the adoption of this Title, as well as to any amendment to this Title, as of the effective date of such amendment.

REGULATIONS 19.14.030

A. Nonconforming Use of a Conforming Building

1. General Provisions. A nonconforming use of a conforming building shall not be reestablished in a new building, extended or expanded into any other portion of the conforming building, or relocated on the same parcel or within the same commercial subdivision; provided, however, that an existing use which was made nonconforming by one or more of the following may be expanded or relocated on the same parcel or within the same commercial subdivision in accordance with Subsection (2) of this Section (A):

a. The adoption of a Special Use Permit requirement for that type of use;

b. The adoption of a separation requirement between that type of use and a protected use;

c. The adoption of a separation requirement between two uses of that type;

d. The establishment of a protected use that, by virtue of a separation requirement, would otherwise prohibit the existing use from expanding; or

e. The adoption of a different method of measuring distance for purposes of a separation requirement.

2. Conditions of Allowable Continuation, Expansion, or Relocation of Use. If the proposed expansion of a nonconforming use or relocation of the same use on the same parcel or within the same commercial subdivision qualifies under Subsection (1) of this Section (A), the nonconforming use may be expanded or relocated on the same parcel or within the same commercial subdivision if the proposed expansion or relocation:

a. Will not increase the size or extent of the use by more than 50%; and

b. Will not require a Variance or Waiver regarding any other provision of Title 19, including those that pertain to parking, landscaping and residential adjacency requirements.

3. Discontinuation and Abandonment of Use. If a nonconforming use of a conforming building is discontinued by ceasing to physically occupy or operate within the building, there shall be a rebuttable presumption that the nonconforming use has been abandoned as of the date the use was discontinued and, for purposes of this Subsection (3), the Department may deem the use abandoned as of that date. The owner of the property or operator of the use may rebut the presumption of abandonment by demonstrating that the use has continued or existed beyond that date. The owner or operator shall have the burden of establishing the continuation or existence of the use beyond that date, as well as the burden of establishing the existence or continued operation of the use at any particular time.

a. If a nonconforming use of a conforming building is abandoned for a period of one year, the future use of such building shall be only in conformance with the provisions of this Title.

b. If a conforming building housing a nonconforming use is damaged or partially destroyed by fire, flood, wind, another calamity or act of God, and the use is abandoned for a period of two years, the future use of such building shall be only in conformance with the provisions of this Title.

c. If it appears, by reason of economic hardship, that a nonconforming use described in Paragraph (a) or (b) above will be deemed abandoned for a period of time greater than the applicable abandonment period described in those paragraphs, the owner of the property or operator of the use may request that the abandonment period be extended by the City Council. Such request shall be made by means of an application for an Extension of Time. The application shall include or be accompanied by a letter of justification explaining the economic hardship, which must be based on market conditions or other circumstances beyond the applicant's control, and shall be accompanied by the applicable fees, if any, that are set forth in the fee schedule. The application shall be heard at a public hearing of the City Council. An Extension of Time may be granted by the City Council only upon clear and convincing evidence of qualifying hardship and a determination that the public health, safety and welfare will not be jeopardized. An Extension of Time may not exceed the duration of the applicable abandonment period set forth in Paragraph (a) or (b) above.

4. Notice to Discontinue Use. Independent of any other provision of this Chapter, a nonconforming use of a conforming building shall be discontinued upon written notice from the City to the owner to discontinue the use. The use shall be discontinued no later than the date described in the notice, which in no event shall be later than five years from the date notice is given. Notice shall be provided by mailing to the owner of the property as shown by the County Assessor's records and recording a copy of the notice in the office of the County Recorder. Such notice shall contain the legal description of the property, a description of the use required to be discontinued, the date that the use is to cease and desist and the section of this Title which declares the use to be nonconforming.

The addition shall not encroach beyond the encroachment of the existing building, must be located in either a side or rear yard, and must not encroach more than 50 percent. In addition, the total of all such additions or enlargements shall not exceed more than 50 percent of the size of the original footprint of the structure. Additions may also be approved to nonconforming residential buildings in nonresidential zoning districts. Additions may be approved to any residential building made nonconforming by an action of a public entity. The addition, in either instance, shall be secondary in nature to the existing use on the property and will not substantially perpetuate the nonconforming use.

D. Nonconforming Use of Land

A nonconforming use of land that does not take place within a principal building, legally existing on the effective date of this Title or an amendment thereto shall be discontinued upon written notice from the City to the owner to discontinue the use. The use shall be discontinued no later than the date described in the notice, which in no event shall be later than five years from the date notice is given. Notice shall be provided by mailing to the owner of the property as shown by the County Assessor's records and recording a copy of the notice in the office of the County Recorder. Except as otherwise provided in Subsection (2) of this Section (A), a nonconforming use which was located in a building that has been damaged or partially destroyed by fire, flood, wind, another calamity or an act of God shall not be continued when the extent of damage or destruction is more than 50 percent of the replacement value of the building.

2. Subsection (1) of this Section (A) does not apply to a use which was made nonconforming by one or more of the following:

a. The adoption of a Special Use Permit requirement for that type of use;

b. The adoption of a 400-foot or 1500-foot separation requirement between that type of use and a protected use;

c. The adoption of a 1500-foot separation requirement between two uses of that type;

Notwithstanding any other provision of this Chapter, a solar panel and or small wind energy system that is approved as a conditional use or approved by means of special use permit pursuant to Chapter 19.12 shall not be considered an impermissible expansion or alteration to a nonconforming use or structure under this Chapter. However, nothing in this Subchapter precludes the denial of a special use permit application for a solar panel and or small wind energy system based upon the extent to which the size, scope and impact of the proposed installation or system would impact surrounding properties or would tend to perpetuate the nonconformity in a manner contrary to the intent of this Chapter as described in Section 19.16.010.

** STAFF REPORT **

PROJECT DESCRIPTION

This is a request to amend Table 2 of Title 19.04 and Title 19.20 to add a description, parking regulations and a definition for the Auto Sales Showroom use. The Auto Sales Showroom use is proposed to be permitted as of right in the C-2 (General Commercial), C-M (Commercial/Industrial) and M (Industrial) Districts and permitted in the C-1 (Limited Commercial) and C-PB (Planned Business Park) Districts with approval of a Special Use Permit.

BACKGROUND INFORMATION

Related Relevant City Actions by P&D, Fire, Bldg., etc	
10/07/07	The City Council approved Ordinance No. 5941, thereby updating various use and design standards within the Downtown Centennial Plan, including the addition of the Motor Vehicle Sales use to 18b the Las Vegas Arts District.

Currently, the Motor Vehicle Sales (New) and Motor Vehicle Sales (Used) uses allow the sale of vehicles both on an outdoor lot and within an enclosed showroom. Accessory uses such as auto maintenance, automobile rental, sales of parts and accessories and car washes are permitted with restrictions. There is no separate use in Title 19.04 that restricts the sale, display and storage of motor vehicles (excluding motorcycles and motor scooters) to indoor locations only.

The Motor Vehicle Sales (New) and Motor Vehicle Sales (Used) uses are allowed only in the C-2, C-M and M Districts. New vehicle sales are conditionally permitted without regard to zoning district; however, used vehicle sales are permitted in the C-2 District only with approval of a Special Use Permit with waivable minimum use requirements.

ANALYSIS

The proposed amendment would create a new use entitled “Auto Sales Showroom” along with a definition of the use. This use would allow for the display, storage and sales of new and used motor vehicles only within a completely enclosed building, without ancillary facilities for repair and detailing. In contrast, a typical motor vehicle sales lot displays most of its inventory outdoors and contains ancillary facilities for maintenance, detailing, and storage of vehicles on the same site. Other classes of motor vehicles such as motorcycles, motor scooters, boats and recreational vehicles fall under various other use categories listed in Title 19.04 and thus would not be included in the definition of Auto Sales Showroom. A similar use was added to the list of permitted uses within the Arts District in the Downtown Centennial Plan in 2007 with approval of a Special Use Permit.

The proposed amendment would permit the Auto Sales Showroom use with approval of a Special Use Permit in the C-1 and C-PB Districts, which would allow uses to be reviewed on a case-by-case basis. These districts allow most conventional retail uses, but currently do not allow automobile and truck sales. In the C-2, C-M and M Districts outside of the Arts District where motor vehicle sales are already allowed, the Auto Sales Showroom use would be a permitted use as long as the definition is satisfied. The definition of Auto Sales Showroom is intended to prohibit onsite outdoor display, storage and sales of vehicles, and any onsite vehicle service or maintenance, whether indoor or outdoor. For these activities, a more appropriate motor vehicle sales use in Title 19.04 should be used.

The parking requirement for the proposed use is one space per 250 square feet of gross floor area, matching the requirement for the Shopping Center use and many other Title 19 retail uses.

FINDINGS

The proposed text amendment will achieve the following:

- Establish a new use in Title 19.04 entitled Auto Sales Showroom that will be permitted as of right in the C-2, C-M and M Zoning Districts and a permitted use in the C-1 and C-PB Districts with approval of a Special Use Permit; and
- Add a definition of Auto Sales Showroom to Chapter 19.20 consistent with the proposed Land Use Table description.

The following table summarizes all proposed changes:

Code Requirements	Existing Regulations	Proposed Regulations
Title 19.04.010 Table 2 Land Use Tables	N/A	• Create table entry for Auto Sales Showroom use within the "Auto & Marine Related" element
Title 19.20.020 Definitions – Words and Terms Defined	N/A	• Adds a definition for Auto Sales Showroom
