**** STAFF REPORT ****

PROJECT DESCRIPTION

This is a request for a Special Use Permit for a proposed 2,000 square-foot Motor Vehicle Sales (Used) use at 4561 East Bonanza Road, Suite #130. The subject property contains an existing 16,250 square-foot Auto Repair Garage, Major building and has been approved through Site Development Plan Review (SDR-25148) for a 19,500 square-foot General Retail and Restaurant building. In addition, the subject property has also received a parking Variance (VAR-25220) to allow 201 parking spaces where 250 are required. The applicant is proposing to convert a 2,000 square-foot storage area of the existing 16,250 square-foot Auto Repair Garage, Major building into a Motor Vehicle Sales (Used) use. Placing an additional use on the subject property, in addition to the existing and approved uses, will create an overly developed site and will negatively impact the surrounding neighborhood; therefore, staff recommends denial of this request. If this application is denied, the existing 16,250 square-foot Auto Repair Garage, Major building and use would remain.

ISSUES

- 4561 East Bonanza Road, Suites # 125 and # 145 have had permits issued, but were never finalized.
- The applicant currently has six code enforcement cases open at 4561 East Bonanza Road.
- Per Title 19.04 Minimum Special Use Permit Requirement # 7 for the Auto Repair Garage, Major use, no vehicles may be parked on the premises for the purposes of offering the vehicle for sale. Approval of this Special Use Permit request would circumvent this requirement of the previously approved Special Use Permit (SUP-3223).

ANALYSIS

The applicant is proposing to convert 2,000 square feet of an existing 16,250 square-foot Auto Repair Garage, Major into a Motor Vehicle Sales (Used) establishment. A previous Variance (VAR-25220) approved 201 parking spaces for a 16,250 square-foot Auto Repair Garage, Major, a 6,207 square-foot Restaurant, and 13,315 square-feet of General Retail where 250 parking spaces are required. The applicant was denied a previous a Special Use Permit (SUP-33611) for a proposed 1,000 Motor Vehicle Sales (Used) at this site on 04/23/09. This request would allow vehicle sales in conjunction with an Auto Repair Garage, Major, which was previously approved through Special Use Permit (SUP-3223). This would circumvent a Minimum Special Use Permit Requirement of that use that prohibits the display and sale of vehicles at an Auto Repair Garage, Major site. As such, staff cannot support this request and recommends denial.

FINDINGS (SUP-38523)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1.The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.

The proposed land use cannot be conducted in a manner that is harmonious and compatible with the existing and surrounding land uses, as the surrounding businesses within the subject property are high-volume uses, and over 20,400 square feet of additional uses have been approved for the site through Site Development Plan Review (SDR-25148). The surrounding parcels are residential and commercial in nature, and the proposed use will not be harmonious or compatible with the adjacent residential land uses, as the proposed use is too intense for the subject property.

2.The subject site is physically suitable for the type and intensity of land use proposed.

The subject site is not physically suitable for the type and intensity of land use proposed, as evidenced by the approved Variance (VAR-25220) for parking. The isolation of this parcel from others zoned C-2 (General Commercial) creates a significant conflict with adjacent, less-intensely zoned properties.

3.Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.

Staff Report Page Eight
September 23, 2010 - Planning Commission Meeting

Access to the site is provided by Bonanza Road, a 100-foot Primary Arterial as designated by the Master Plan of Streets and Highways, which will provide adequate access to the site. There is only one access driveway to the site with an emergency crash gate at the south end of the site, at Diamond Head Drive, a 60-foot Local Street, which will provide adequate emergency access. The subject property is also adjacent to Page Street, a 60-foot Local Street to the east; however, no access is provided to this roadway.

4.Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.

The proposed development is subject to permit review and inspection; therefore, appropriate measures will be taken to protect the health, safety and general welfare.

5.The use meets all of the applicable conditions per Title 19.04.

The proposed use meets all of the applicable conditions per Title 19.04; however, the request would allow vehicle sales in conjunction with an Auto Repair Garage, Major, which was previously approved through Special Use Permit (SUP-3223). This would circumvent a Minimum Special Use Permit Requirement of that use that prohibits the display and sale of vehicles at an Auto Repair Garage, Major site.
