

Justification Letter

The property located at 7501 West Alta Road (apn # 138-34-301-003) has operated as a self-serve carwash for over 13 years. It sits on approximately 1 acre of land and has 6 car wash bays and 6 vacuums bays. Approximately two and a half years ago Community Bank foreclosed on the property and shut the business down. The "Use Permit" expired March of 2009, I have purchase the property subject to the "Use Permit" being renew for the exiting Self-Serve Car Wash. I would be requesting Waivers to the Minimum Special Use Permit requirements as follows:

1. Hours of operation 7am to 10Pm
2. Opening bays to the street / existing
6. The use must not be within 200 feet of residential property / existing
9. The business must be operated in conjunction with another motor vehicle related Smog inspection, minor auto repair etc... I would like to do Smog inspections.
10. An attendant must be on the premises all times the equipment is operational. / Attendant 6 hours 7 days a week

Presently my company operate 10 self-serve car washes it the Las Vegas area and would like the opportunity to re-establish the Use Permit to operate this business again.

Sincerely,

Roger Foster
