RE: SDR-35417 - SITE DEVELOPMENT PLAN REVIEW
CITY COUNCIL MEETING OF OCTOBER 7, 2009
RELATED TO ZON-35382 AND ZON-35383

Dear Mr. Snow:

The City Council at a regular meeting held October 7, 2009, APPROVED the request for a Site Development Plan Review FOR A PROPOSED 310,000 SQUARE-FOOT PARKING GARAGE WITH 675 SPACES AND 4,430 SQUARE FEET OF RETAIL WITH A WAIVER OF THE DOWNTOWN CENTENNIAL PLAN DEVELOPMENT STANDARDS REGARDING NON-COMPATIBLE EXTERIOR WALLS on 1.95 acres at 400 and 500 South Main Street (APNs 139-34-201-009 and 019), M (INDUSTRIAL) Zone and C-M (COMMERCIAL/INDUSTRIAL) Zone [Proposed: C-2 (GENERAL COMMERCIAL) Zone]. The Notice of Final Action was filed with the Las Vegas City Clerk on October 8, 2009. This approval is subject to:

Planning and Development

1. This approval shall be void two years from the date of final approval, unless a building permit has been issued for the principal building on the site. An Extension of Time may be filed for consideration by the City of Las Vegas.
2. All development shall be in conformance with the site plan, landscape plan, and building elevations, date stamped 07/31/09, except as amended by conditions herein, with a minimum 3,500 square feet of retail.
3. A Waiver from the Downtown Centennial Plan Development Standards is hereby approved to allow the Parking Structure to contain no architectural compatibility with adjacent buildings where parking structures shall be designed as a part of the architectural form of the primary and/or surrounding buildings.
4. The applicant shall work with City staff to determine the most appropriate mapping action necessary to consolidate all existing parcels. The mapping action shall be completed and recorded prior to issuance of any building permits.

Printed with environmentally friendly soy ink.

14. Prior to the submittal of a building permit application, the applicant shall meet with Planning and Development Department staff to develop a comprehensive address plan for the subject site. A copy of the approved address plan shall be submitted with any future building permit applications related to the site.
15. All City Code requirements and design standards of all City Departments must be satisfied, except as modified herein.

Public Works

16. Submit a Reversionary Map for this site or coordinate with the City Surveyor to determine an acceptable mapping method; comply with the recommendations of the City Surveyor.
17. Dedicate an additional 5 feet of right-of-way for a total half-street width of 45 feet on Main Street adjacent to Assessor Parcel Number #139-34-201-009 and dedicate a taper in accordance with standard drawing #201.1 to connect the existing right turn lane to the proposed dedication prior to the issuance of any permits.
18. Construct all incomplete half-street improvements on Main Street to meet Downtown Centennial standards adjacent to this site concurrent with development of this site.
19. Remove all substandard public street improvements and unused driveway cuts on Main Street adjacent to this site concurrent with development, if any, and replace with new improvements meeting current City Standards.
20. Extend public sewer in Main Street to the north edge of this site concurrent with development of this site, unless otherwise allowed by the City Engineer. Contact the Collection System Planning section of the Department of Public Works to discuss sewer lateral relocation requirements.
21. Meet with the Fire Protection Engineering Section of the Department of Fire Services to discuss fire requirements for the proposed use of this facility.
22. Landscape and maintain all unimproved right-of-way, if any, on Main Street adjacent to this site. All private improvements and landscaping installed with this project shall be situated and maintained so as to not create sight visibility obstructions for vehicular traffic at all development access drives and abutting street intersections.
23. Meet with the Flood Control Section of the Department of Public Works for assistance with establishing finished floor elevations and drainage paths for this site prior to submittal of construction plans or the issuance of any building or grading permits, whichever may occur first. Provide and improve all drainage ways as recommended.

5. A technical landscape plan, signed and sealed by a Registered Architect, Landscape Architect, Residential Designer or Civil Engineer, must be submitted prior to or at the same time application is made for a building permit. A permanent underground sprinkler system is required, and shall be permanently maintained in a satisfactory manner; the landscape plan shall include irrigation specifications.
6. Pre-planting and post-planting landscape inspections are required to ensure the appropriate plant material, location, size of planters, and landscape plans are being utilized. The Planning and Development Department must be contacted to schedule an inspection prior to the start of the landscape installation and after the landscape installation is completed. A certificate of occupancy will not be issued or the final inspection will not be approved until the landscape inspections have been completed.
7. Revised elevations shall be submitted and approved through a Minor Site Development Plan Review.
8. Reflective glazing at the pedestrian level is prohibited. Glazing above the pedestrian level shall be limited to a maximum reflectance rating of 22% (as defined by the National Institute of Standards and Technology).
9. All mechanical equipment, air conditioners and trash areas shall be fully screened in views from the abutting streets.
10. All utility boxes exceeding 27 cubic feet in size shall meet the standards of LVMC Title 19.12.040.
11. Parking lot lighting standards shall be no more than 30 feet in height and shall utilize downward-directed lights with full cut-off luminaires. Lighting on the exterior of buildings shall be shielded and shall be downward-directed. Non-residential property lighting shall be directed away from residential property or screened, and shall not create fugitive lighting on adjacent properties.
12. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.
13. A Comprehensive Construction Staging Plan shall be submitted to the Planning and Development Department for review and approval prior to the issuance of any building permits. The Construction Staging Plan shall include the following information: Design and location of construction trailer(s); design and location of construction fencing; all proposed temporary construction signage; location of materials staging area; and the location and design of parking for all construction workers.
