

Justification Letter

New store: 1611 S. Decatur Las Vegas, NV

O'Reilly Auto Parts is planning to construct a new 14,152sf store at this location with new parking and landscaping. The existing closed restaurant building will be removed and the entire site will be redeveloped with a new building and landscaping per current codes. All of the current access points will be maintained, including the existing drive from Decatur Blvd.

O'Reilly Auto Parts is a just retail store. The store sells after market auto parts, auto accessories and associated products. Vehicles are not serviced at the store and tires are not sold. The store will blend well with the other retail and restaurant establishments along Decatur Blvd.

The new building and site will coordinate with adjacent development. The parking lot will be concrete and will have landscaping integrated in appropriate areas. The new building will have a flat roof with parapets to screen the HVAC units. The main entrance to the store will face west and have a pedestrian sidewalk that will connect to the sidewalk on Decatur.

The receiving area for the store will be on the north side of the building away from the residential area to the east. The receiving door is an 8' high 6' wide overhead door. The trash enclosure will be located to the east of the receiving door.

The interior of the store is essentially an open space with racks for products. The main sales area has racks up to 5' high and the parts area has racking up to 10'. The 2 areas are separated with parts counters where computer stations are located for employees to look up parts and make sales. The store will also have 2 ADA compliant restrooms and a manager's office. The sales area has an acoustical ceiling and the parts area has an open ceiling.
