

To whom it may concern:

The Department of Public Works requests a Petition of Vacation of portions of the Sheep Mountain Parkway right-of-way grant that it currently possesses. Through negotiations between the City and KAG Properties, LLC it has been determined that portions of the City's BLM grant N-77772 may be relinquished contingent upon KAG Properties, LLC performing certain obligations outlined in their Development Agreement. If approved, the City will only vacate its interest that are outside the future boundaries of the revised Sheep Mountain Parkway footprint and will only do so after the exact right-of-way footprint is dedicated to the City by KAG Properties, LLC and is recorded on their Final Map.

Thank you,
