Facilities are provided throughout City Hall for convenience of persons with disabilities. For meetings held in the Council Chambers, sound equipment is available for persons with hearing impairments. If you need an accommodation to attend and participate in this meeting, please call the DEPARTMENT DESIGNEE at (702) 229-6301 and advise of your need at least 48 hours in advance of the meeting. The City's TDD number is (702) 386-9108.

January 10, 2012
6:00 PM

ITEMS MAY BE TAKEN OUT OF THE ORDER PRESENTED AT THE DISCRETION OF THE CHAIRPERSON. TWO OR MORE AGENDA ITEMS FOR CONSIDERATION MAY BE COMBINED; AND ANY ITEM ON THE AGENDA MAY BE REMOVED OR RELATED DISCUSSION MAY BE DELAYED AT ANY TIME.

NOTICE: This meeting has been properly noticed and posted at the following locations:

City Hall Plaza, 400 Stewart Avenue, Vending Area
City Clerk's Bulletin Board, 400 Stewart Avenue, 2nd Floor Skybridge
Clark County Government Center, 500 South Grand Central Parkway
Las Vegas Library, 833 Las Vegas Boulevard North
Grant Sawyer Building, 555 East Washington Avenue

ACTIONS: ALL ACTIONS EXCEPT GENERAL PLAN AMENDMENTS, REZONINGS AND RELATED CASES THERETO ARE FINAL UNLESS AN APPEAL IS FILED BY THE APPLICANT OR AN AGGRIEVED PERSON, OR A REVIEW IS REQUESTED BY A MEMBER OF THE CITY COUNCIL WITHIN TEN DAYS AND PAYMENT OF THOSE COSTS SHALL BE MADE UPON FILING OF THE APPLICATION.

ANY ITEM LISTED IN THIS AGENDA MAY BE TAKEN OUT OF ORDER IF SO REQUESTED BY THE APPLICANT, STAFF, OR A MEMBER OF THE PLANNING COMMISSION AND AGREED TO BY THE PLANNING COMMISSION. THE PLANNING COMMISSION MAY IMPOSE TIME LIMITATIONS, AS NECESSARY, ON THOSE PERSONS WISHING TO BE HEARD ON ANY AGENDAED ITEM.

PLANNING COMMISSION MEETING RULES OF CONDUCT:

1. Staff will present each item to the Commission in order as shown on the agenda, along with a recommendation and

suggested conditions of approval, if appropriate.

2. The applicant is asked to be at the public microphone during the staff presentation. When the staff presentation is complete, the applicant should state his name and address, and indicate whether or not he accepts staff's conditions of approval.

3. If areas of concern are known in advance, or if the applicant does not accept staff's condition, the applicant or his representative is invited to make a brief presentation of his item with emphasis on any items of concern.

4. Persons other than the applicant who support the request are invited to make brief statements after the applicant. If more than one supporter is present, comments should not be repetitive. A representative is welcome to speak and indicate that he speaks for others in the audience who share his view.

5. Objectors to the item will be heard after the applicant and any other supporters. All who wish to speak will be heard, but in the interest of time it is suggested that representatives be selected who can summarize the views of any groups of interested parties.

6. After all objectors' input has been received; the applicant will be invited to respond to any new issues raised.

7. Following the applicant's response, the public hearing will be closed; Commissioners will discuss the item amongst themselves, ask any questions they feel are appropriate, and proceed to a motion and decision on the matter.

8. Letters, petitions, photographs and other submissions to the Commission will be retained for the record. Large maps, models and other materials may be displayed to the Commission from the microphone area, but need not be handed in for the record unless requested by the Commission.

As a courtesy, we would ask those not speaking to be seated and not interrupt the speaker or the Commission. We appreciate your courtesy and hope you will help us make your visit with the Commission a good and fair experience.

BUSINESS ITEMS:

1. CALL TO ORDER

2. ANNOUNCEMENT: COMPLIANCE WITH OPEN MEETING LAW

3. ROLL CALL

4. PUBLIC COMMENT DURING THIS PORTION OF THE AGENDA MUST BE LIMITED TO MATTERS ON THE AGENDA FOR ACTION. IF YOU WISH TO BE HEARD, COME TO THE PODIUM AND GIVE YOUR NAME FOR THE RECORD. THE AMOUNT OF DISCUSSION, AS WELL AS THE AMOUNT OF TIME ANY SINGLE SPEAKER IS ALLOWED, MAY BE LIMITED

5. FOR POSSIBLE ACTION TO APPROVE THE FINAL MINUTES FOR THE PLANNING COMMISSION MEETING OF DECEMBER 13, 2011

6. FOR POSSIBLE ACTION - Any Items from the Planning Commission, staff and/or the applicant wish to be stricken or held in abeyance to a future meeting may be brought forward and acted upon at this time.

CONSENT ITEMS:

CONSENT ITEMS ARE CONSIDERED ROUTINE BY THE PLANNING COMMISSION AND MAY BE ENACTED BY ONE MOTION. HOWEVER, ANY ITEM MAY BE DISCUSSED IF A COMMISSION MEMBER OR APPLICANT SO DESIRES.

7. TMP-43967 - TENTATIVE MAP - SUMMERLIN VILLAGE 23A, UNIT NO. 2, PARCEL O - APPLICANT: WOODSIDE HOMES - OWNER: THE HOWARD HUGHES COMPANY, LLC - For possible action on a request for a Tentative Map FOR A 107-LOT SINGLE FAMILY RESIDENTIAL SUBDIVISION on 21.08 acres at the southwest corner of Alta Drive and Fox Hill Drive (APN 137-34-212-001), P-C (Planned Community) Zone [SF3 (Single Family Detached) Summerlin West Special Land Use Designation], Ward 2 (Wolfson).

STATEMENT OF FINANCIAL INTEREST

Case Number: TMP-43967 APN: 137-34-212-001

Name of Property Owner: The Howard Hughes Company, LLC

Name of Applicant: Woodside Homes

Name of Representative: Edward Duenas

To the best of your knowledge, does the Mayor or any member of the City Council or Planning Commission have any financial interest in this or any other property with the property owner, applicant, the property owner or applicant's general or limited partners, or an officer of their corporation or limited liability company?

☐ Yes ☒ No

If yes, please indicate the member of the City Council or Planning Commission who is involved and list the name(s) of the person or persons with whom the City Official holds an interest. Also list the Assessor's Parcel Number if the property in which the interest is held is different from the case parcel.

Re: **SDRC Tentative Map Review** – Woodside Homes, Parcel O, Summerlin Village 23A (The Paseos)

Dear Mr. Foltz,

The Summerlin Residential Design Committee (SDRC) has reviewed and approved your tentative map submittal with the following conditions:

1. Verify that product fits on the lots shown. While the typical lot size is 45' and 55' wide x 100' deep, several lots are 95' deep and most of the lots have scarp within the typical lot size. This may make it difficult to fit the product on the lot and provide a full rear and side yard (20' and 6' respectively) for each home. Please note, waivers to setbacks will not be granted.

2. Provide alternative street names for "Eagle Point Ct." and "Johns Flat Ave."

3. Per the existing topography on the Preliminary Grading Plans, the existing cross slope on the area designated for the neighborhood park is between 5% and 10%. Plans will be created to accommodate the slope, however, small retaining walls within the park may be required.

4. Verify that the planter area between retaining walls used to transition slope is a minimum of 4' wide.

5. As discussed earlier, Woodside Homes will employ one of the rear yard slope alternatives shown on Greey Pickett's exhibit to transition grade between lots. This will need to be addressed in your Improvement Plans submittal.

6. Retaining walls may not exceed 3' along parcel boundaries per Exhibit 2-M in the Paseos Residential Design Criteria. The 7'–15' grade difference between Lots #45-48 and the existing grades on the adjacent parcel (Parcel N) will need to be addressed.

7. The 9' grade difference between Lot #52 and "Big Meadow Street" will need to be addressed and may require a lot line adjustment to meet the criteria.

8. Consider moving the lot line between Lot #105 and Lot#106 to the west to alleviate retaining wall condition on Lot #105 due to grade difference of 11'-15' along northern side yard.

RE: SUP-25217 - SPECIAL USE PERMIT

Dear Ms. Baltz:

Your Request for a Special Use Permit FOR AN ELECTRICAL UTILITY TRANSMISSION LINE OVER 15,000 VOLTS at 2500 Highland Drive (APN 162-09-103-002), M (Industrial) Zone, Ward 1 (Tarkanian), was considered by the Planning Commission on December 6, 2007.

The Planning Commission voted to ***APPROVE*** your request, subject to the following:

Planning and Development

1. Conformance to all minimum requirements under LVMC Title 19.04.010 for Utility Transmission Lines use.

2. Conformance to the conditions for Rezoning (Z-0062-60), if approved.

3. This approval shall be void two years from the date of final approval, unless a building permit has been issued for the principal building on the site. An Extension of Time may be filed for consideration by the City of Las Vegas.

4. All City Code requirements and design standards of all City departments must be satisfied, except as modified herein.

This action by the Planning Commission on ***December 6, 2007*** is final unless a written appeal is filed with the City Clerk within ten days of the date of the Planning Commission's decision or there is a review action filed by the City Council within the same time period. The Notice of Final Action was filed with the Las Vegas City Clerk on ***December 7, 2007***.

Sincerely,

Andrew P. Reed

Las Vegas, NV 89106

Re: Justification Letter: 2nd Extension of time for SUP-25217 -- Collman Transmission Line
(APN- 162-09-103-002)

Dear Flinn:

This application is for a 2nd Extension of Time for a Special Use Permit (SUP-25217) for an electrical transmission line over 15,000 volts. The transmission route, basically encompassing 4 poles, starts within NV Energy's Highland electrical substation, located at 2500 Highland Drive, but quickly crosses into Clark County jurisdiction (at the Union Pacific Railroad right-of-way.

Given the state of the economy and lack of growth throughout the Las Vegas valley, many of our projects are being deferred to later In-Service dates, requiring Extension of Time applications with all jurisdictions. Lack of sustainable growth has delayed the need for additional electrical load and this transmission line as well. NV Energy requests an extension of time for a period of five (5) years, which would extend the commence deadline from December 6, 2011 to December 6, 2016.

Your consideration of this matter is greatly appreciated. Should you have any questions, please feel free to contact me at 702-402-2620.

Sincerely,

Thomas Dombrowski
Sr. Land Use Consultant
NV Energy

RE: ***Applications for Rezoning, Site Development Review, Amendment to Site Development Review, and Waivers***

Dear Dan:

I am writing on behalf of Waitt-Montecito Real Estate, LLC ("Applicant") in support of applications for the rezoning of parcel #125-20-803-009 to T-C(MS); for a site development review for the addition of a parking lot; to amend the site development review of the adjacent parcel (#125-20-610-002) to allow for a waiver of the required landscape buffer; for a waiver to allow for landscape buffers of less than 8 feet on the north, west, and south sides of the parcel; and for an exception to allow for one row of trees on the north side.

The parcel is currently undeveloped, but is located adjacent to a parcel owned by the Applicant that contains a 180,000 square foot constructed, unoccupied office complex. The existing zoning for the parcel at issue is U(T-C), so the Applicant is seeking rezoning to T-C(MS), a Montecito zoning classification that would match the zoning of the adjacent parcel.

As the Applicant intends to market the availability of the office complex for occupation, it is anticipated that additional parking may be necessary to accommodate all tenants and guests. Therefore, if rezoning is approved, the Applicant intends to

ZON-43792
SDR-43790

develop a surface parking lot, which is a permitted use with MS zoning. Accordingly, the Applicant seeks approval of a site development review for the parking lot.

The proposed rezoning will not adversely affect surrounding properties since the adjacent parcel is developed with a compatible use, the parcel abuts the I-215 and Grand Montecito Parkway, and the other neighboring parcel is undeveloped. The proposed parking lot use would not increase the intensity of any use, but would simply compliment all permitted uses in the area. Therefore, the rezoning and site development review would be appropriate for the parcel at issue.

Moreover, the Applicant seeks certain waivers that would best accommodate a parking lot. First, to allow for maximum spacing and usage, the Applicant seeks a waiver of the 8-foot landscape buffer requirement on the north, west, and south sides of the parcel. Due to the shape of the parcel, the landscape buffer on these sides vary from over 4 feet to 7 feet. Second, the Applicant, which owns the adjacent parcel, seeks to amend the existing site development review of that parcel (#125-20-610-002) to waive the landscape buffer that abuts the parcel at issue. This will allow for one strip of landscaping along the parcel lines, which consists solely of paved parking, rather than requiring two 8-foot landscape buffers for the same use on abutting parcels. Moreover, in conjunction with the landscape buffer waiver, the Applicant also seeks an exception to allow for one row of trees on the landscape buffer on the north side of the parcel.

The proposed rezoning and parking lot use confirms to the General Plan and are compatible to surrounding parcels. There is adequate access to the parcel and the parking lot complements the use on the adjacent parcel. Aside from the requested waivers, the proposed site development meets other code standards, and is in accordance with the City of Las Vegas policies, plans, and standards.

Please call me if you have any questions or need additional information.

Sincerely,

Jennifer Roberts

Code Compliance: Yes - See below for C-V District Code

19.14.060 DIMENSIONAL AND OTHER STANDARDS
(C) PERMITTED SIGNS IN THE **C-V**, N-S, P-R AND O ZONING DISTRICTS
(5) Wall Signs
(a) Maximum number. One wall sign per tenant or per building elevation, which faces a street or on-site parking area.
(b) Maximum area. The total amount of wall signage allowed per building elevation is equivalent to 10 percent of the building elevation. In multitenant buildings, the 10 percent maximum sign area for each tenant will be based upon the portion of the building elevation of the leased/ occupied area only.
(c) Maximum height. A wall sign shall not extend more than 12 inches above top of wall, marquee or parapet to which it is attached.
(d) Minimum setback. NA.
(e) Maximum projection. A wall sign shall not project more than 24 inches from the structure to which it is attached; where a wall sign projects from a building elevation, there shall be no additional message on the additional horizontal surface created by the projection.
(f) Additional standards.
(g) Illumination permitted. Internal and or direct external illumination, except on a building elevation facing and located within 200 feet of property zoned or shown on the General Plan as planned for single-family residential (attached or detached) use. Animated and electronic message unit signs are prohibited.
(h) Certificate required. Yes.
(i) See also Residential Protection Standards in Section 19.14.070.

- One freestanding sign per street frontage

19.14.060 DIMENSIONAL AND OTHER STANDARDS
(C) PERMITTED SIGNS IN THE **C-V**, N-S, P-R AND O ZONING DISTRICTS
(3) Freestanding Signs
(a) Maximum number.
(i) One freestanding sign per street frontage; and
(ii) No more than one freestanding sign shall be allowed on lots 43,000 square feet or less in area.
(b) Maximum area. 48 square feet, except in the O zoning district.
(c) Maximum height. 12 feet, except in the O zoning district.
(d) Maximum height and area in the O zoning district.
(ii) Freestanding signs not exceeding 20 feet in height may be up to 100 square feet in area

(l) MEASUREMENT OF SIGN AREA -- GENERAL
See Figures 2 and 3 for illustrations of sign area computation.
(1) The area of a sign face shall be computed by means of the smallest square, circle, rectangle, triangle or combination thereof that encompasses the smallest perimeter of the signs's message.

(2) Except as otherwise provided in this Section, the area of a sign face does not include any supporting framework, bracing, architectural detail or decorative fence or wall which is clearly incidental to the sign. Where the supports or structural elements constitute a commercial symbol, logo, or text, those elements shall be computed as part of the sign area.

(c) Maximum height. A wall sign shall not extend more than 12 inches above top of wall, marquee or parapet to which it is attached.
(d) Minimum setback. NA.
(e) Maximum projection. A wall sign shall not project more than 24 inches from the structure to which it is attached; where a wall sign projects from a building elevation, there shall be no additional message on the additional horizontal surface created by the projection.
(f) Additional standards.
(g) Illumination permitted. Internal and or direct external illumination, except on a building elevation facing and located within 200 feet of property zoned or shown on the General Plan as planned for single-family residential (attached or detached) use. Animated and electronic message unit signs are prohibited.
(h) Certificate required. Yes.
(i) See also Residential Protection Standards in Section 19.14.070.

RE: Justification for Application to the Planning Department,
Mob Museum Exterior Signage

To Whom it May Concern:

The Mob Museum, the National Museum of Organized Crime and Law Enforcement, will be a new cultural destination in Las Vegas that tells an authentic and accurate historical story – Las Vegas's history and the history of American organized crime – in a fun, immersive engaging way.

In visually active areas such as downtown Las Vegas, clear and attractive signage is extremely important. It can influence the number of visitors coming to the Museum as well as create build-up and excitement. The museum building is the former Post Office / Courthouse building located at 300 Stewart Avenue. This location is near to but detached from the core downtown pedestrian area, the Fremont Street Experience. It is critical for the museum to have a visual draw from a distance and at pedestrian/vehicular eye level.

This justification letter describes the challenges that the Mob Museum is facing and requests a limited variance to the Zoning Code requirements for district C-V to allow the museum to be more visible, attract more visitors, and be a more successful addition to downtown Las Vegas.

OVERVIEW

The museum faces significant challenges in connecting to visitors from various approaches. Diagram 1 and Diagram 2 show analysis of the primary paths of travel in the vicinity of the museum, both roads/highways, and at pedestrian/street-level. Our analysis of these paths of travel early in the design process showed that signage would be critical for attracting and directing visitors to this new attraction and ensuring its success.

MSP-44034
REVISED

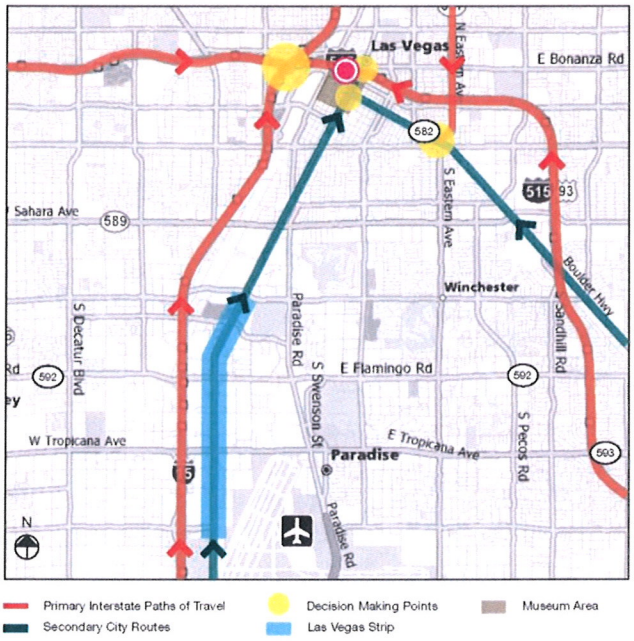

Diagram 1: Vehicular Paths of Travel

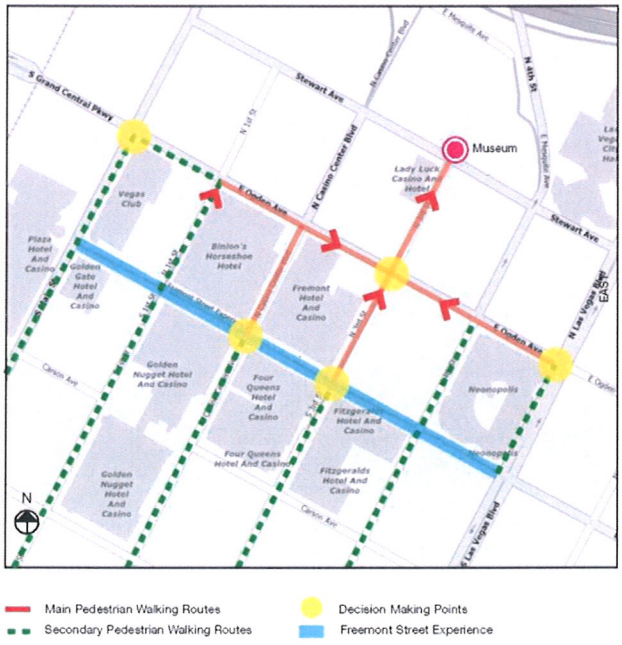

Diagram 2: Pedestrian Paths of Travel

MSP-44034
REVISED

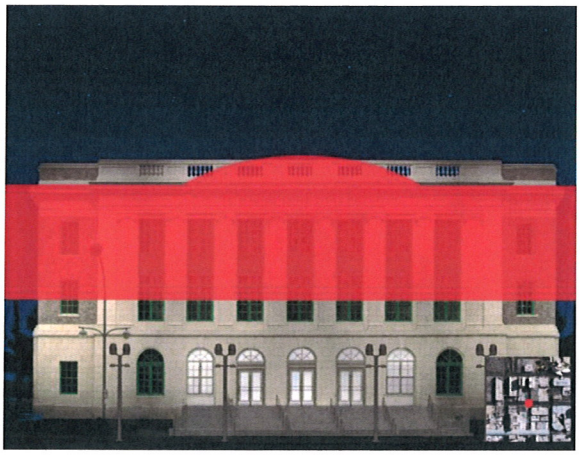

CHALLENGES

1. No view from a distance
A sign on the rooftop of the building was not approved by the National Park Service, so there is no visibility from a distance. The Las Vegas Expressway runs behind and above the museum, drivers driving at highway speed pass only by the rear of the building from a high vantage point.

2. Blocked presence/view from Fremont Street Experience
The Mob Museum will be located just off the Fremont Street Experience, a major pedestrian walkway in the old downtown section of Las Vegas. However, from the Fremont Street experience, the visitor must turn off the main lighted corridor and view down Third Street to get a glimpse of the museum.

Obscuring this view is a large, opaque pedestrian bridge connecting the two sides of the Lady Luck Hotel and Casino. The hotel and casino has its own re-development project underway, but there are no plans to remove the pedestrian bridge.

The two pictures below show the impact of this pedestrian bridge on the view of the Mob Museum building from two points. The red area indicates the pedestrian bridge's impact on the view from each point. Picture 1 shows the impact from the intersection of Third and Ogden Streets (one block off the Fremont Street Experience), and Picture 2 shows the impact from slightly closer to the museum, on Third Street. Both pictures show that the front of the Mob Museum is almost entirely blocked by the existing pedestrian bridge, even when less than two blocks away. From the Fremont Street Experience, the building will barely be seen past this large obstruction. We have a narrow opportunity, below the red area indicated, to make the building visible.

Picture 1: From the intersection of Third and Ogden Sts, Street, one block off the Fremont Street Experience

Picture 2: From closer to the building, on Third St.

MSP-44034
REVISED

3. Historic Preservation restrictions on amount and scale of signage on the historic building
This is a primary concern. The former Post Office building that will house the Mob Museum is historically important to Las Vegas, and the City of Las Vegas is pursuing several tax credits related to strict historic preservation of the building. The architecture and design teams have been fastidious in addressing historic impact considerations on the interior and exterior of the building, affecting methods of attachment, reversibility, and overall visual impact / scale.

The current exterior signage designs have been rigorously reviewed and negotiated with the National Park Service and have been dramatically reduced in quantity, and scale over that process. What is shown currently on the building signage plans and elevations is the minimum we feel is necessary for getting the appropriate visual presence for this important new institution, and has been approved by the National Park Service.

REQUEST

The architecture and design team asks for consideration from the Planning Commission in addressing these significant hardships in providing visibility to the Museum. Each of the signs proposed in this Master Sign Plan package serves a purpose for a particular set of visitors, delivering specific information at the most appropriate point in the visitor's view of, or approach to, the museum.

Per the Additional standards in the C-V zoning district (LV Zoning Code 19.14.060, C.7c) "additional signs may be permitted in conjunction with public and semi-public institutions subject to the review and approval of the Planning Commission as to each case."

Freestanding Signs:
For sign types B (ground-mounted freestanding sign) and D (lightpost mounted banners): We are requesting additional signs be allowed, and a height increase of 6' from the allowable height for the sign type B signs.

We are requesting this variance as the restrictions on the locations of the signage from a historic preservation perspective limit the size/scale of anything we put on the building, and as evidenced by the views of the pedestrian bridge, we have a very narrow window of visibility from the primary pedestrian path of travel. The 18' height would allow the signs to be much more visible and prominent while not impacting significantly the views of the building. Additional banners on the lightposts will help to utilize that narrow view to the building with more visual identity. And two ground-mounted signs, rather than one, allow us to catch the attention of visitors approaching from either direction on Stewart Avenue.

After review of the C-V district codes, it appears that the only variance that we are requesting is related to the quantity and height of the freestanding signs. Other sign types that we would like to address, but that we feel are already within the requirements of the Zoning Code for district C-V:

MSP-44034
REVISED

Sign Type A: Wall Sign / Non-Illuminated Letters on Building: Per the Additional standards in the C-V zoning district, (LV Zoning Code 19.14.060, C.7a), "Non-illuminated letters identifying the name of a public or semi-public institution may be permanently set no the wall of the building, providing the sign does not exceed 50 square feet." The bronze letters shown on the frontage of the building meet these criteria. In addition, this sign is simply a replacement of the bronze lettering which is already a part of the historic building. The frieze letters must be replaced since the name and use of the building is changed.

Sign Types C and E: Wall Signs: For our submission, we are categorizing the banners on the windows on the South, East and West elevations as "wall signs" since banners are not specifically mentioned in the Code. There is no specific limit on the number of signs, except that maximum area "shall not cover more than 25 percent of the total area of all windows located on a building elevation." Additionally, any of these banners can be removed or replaced at any time.

Sign Type F: Window Signs: These types of entry graphics signs are not addressed in the requirements for Zone C-V per the Las Vegas Zoning Code, however the DDRC does need to comment on these. Therefore, we are requesting to include these signs in accordance with the note in LV Zoning Code 19.14.060, C.7c which allows the "request for additional signs subject to the review and approval of the Planning Commission." The function of these small vinyl-applied graphics are to convey the brand of the museum, directions to the primary entry doors (only two sets of doors are available for visitor use) and important information about the hours of operation of the museum and store.

We thank you for your consideration of this request. The exterior signage at the Mob Museum is critical to attracting visitors to the site and making its presence known among all of the other visually active buildings in the area and in Las Vegas. The visibility of the building is critical to making the Mob Museum a popular and successful anchor and attraction for downtown Las Vegas and the revitalized Fremont Street Experience area.

Sincerely,

Sara Habich

MEMORANDUM

Client: City of Las Vegas
Project: Mob Museum
Comm. No.: 06079.03
File No.: D-Planning

Date: November 30, 2011

The following is a brief sustainability statement, per the City of Las Vegas Department of Planning Justification letter instructions:

The National Museum of Organized Crime and Law Enforcement ("Mob Museum") has been designed to achieve LEED Silver certification. Some of the sustainability design features are as follows: Evacuated solar tubes are provided on the roof for the heating of hot water. Low-flow plumbing fixtures and low-water landscaping have been implemented. Bicycle parking has been provided, along with priority parking for hybrid/alternative fuel vehicles and carpools. The HVAC system has been designed to be as efficient as possible. Recycled and regional materials have been used wherever possible. Finally, low-VOC or non-VOC materials have been used throughout.

RE: SUP-37905 – SPECIAL USE PERMIT
CITY COUNCIL MEETING OF JULY 7, 2010

Dear Mr. Patel:

The City Council at a regular meeting held July 7, 2010, APPROVED the request for a Special Use Permit FOR 22 RESIDENCE HOTEL UNITS WITHIN AN EXISTING 68-UNIT MOTEL at 1028 Fremont Street (APNs 139-35-211-025 and 026), C-2 (General Commercial) Zone. The Notice of Final Action was filed with the Las Vegas City Clerk on July 8, 2010. This approval is subject to:

Planning and Development

1. There shall be a 1-year Required Review after issuance of a business license for the subject use at a public hearing of the Planning Commission.

2. Conformance to all Minimum Requirements under LVMC Title 19.04.010 for a Hotel, Residence use.

3. This approval shall be void one year from the date of final approval, unless a Business License has been issued for the Hotel, Residence use. An Extension of Time may be filed for consideration by the City of Las Vegas.

4. Prior to occupancy, all necessary building permits shall be obtained and final inspections shall be completed in compliance with Title 19 and all codes as required by the Building and Safety Department.

5. These Conditions of Approval shall be affixed to the cover sheet of the plan set submitted for any building permit.

6. All City Code requirements and design standards of all City departments must be satisfied, except as modified herein.

RE: RQR-33882 - REQUIRED REVIEW
CITY COUNCIL MEETING OF JUNE 17, 2009

Dear Mr. Kemp:

The City Council at a regular meeting held June 17, 2009 APPROVED the request for a Required Review of a previously approved Special Use Permit (SUP-1274) FOR A 55-FOOT TALL, 14-FOOT BY 48-FOOT OFF-PREMISE SIGN at 2236 Paradise Road (APN 162-03-411-011), C-1 (Limited Commercial) Zone. The Notice of Final Action was filed with the Las Vegas City Clerk on June 18, 2009. This approval is subject to:

Planning & Development

1. Conformance to the conditions for Special Use Permit (SUP-1274).

2. This Special Use Permit shall be placed on an agenda closest to January 22, 2012 at which time the City Council may require the Off-Premise Sign (Billboard) be removed. The applicant shall be responsible for notification costs of the review. Failure to pay the City for these costs may result in a requirement that the Off-Premise Sign (Billboard) is removed.

3. The Off-Premise Sign (Billboard) and its supporting structure shall be properly maintained and kept free of graffiti at all times. Failure to perform the required maintenance may result in fines and/or removal of the Off-Premise Sign (Billboard).

4. If the existing off-premise sign is voluntarily demolished, this Special Use Permit (SUP-1274) shall be expunged and a new off-premise sign shall not be permitted in the same location unless a Special Use Permit is approved for the new structure by the City Council.

5. Bird deterrent devices shall be installed on the sign within 30 days of final approval by the City of Las Vegas.

Las Vegas, NV
Ph: (702) 229-6301
Fax: (702) 474-0352

RE: ***Commercial Building Plans Submittal***
AutoZone Project # 5739
1200 S. Rainbow Blvd.
Las Vegas, NV 89145
APN No. 163-02-101-003

Dear Mr. Gebeke:

AutoZone is planning to move its existing store to the above referenced location, formerly Bargain Hunters, to expand our retail sales. We hereby apply for a Special Use Permit.

In accordance with the UDC 19.12, our use is classified as Auto Parts (Accessory Sales & Service) which requires a Special Use Permit. As part of our operation, we offer service at the customer vehicle in the parking lot for computer diagnosis, and replacement of batteries, wipers, and lights. We accept used batteries, alternators and starters, and keep them in the premises for return to our distribution center for remanufacture or component recycling. We do not perform the other forms of services noted in the UDC or in the meeting notes. We perform these services at our current location at 1043 S. Rainbow Blvd. and at all stores in Las Vegas and Clark County. We have 10 other stores within a 5 mile radius of this location.

The UDC requires a minimum parking of 5 spaces plus 1 space/200SF gross floor area. You investigated this on November 3, and found the site qualifies as a Shopping Center, with uses calculated at this rate, so no variance is required.

We maintain high standards for the appearance and maintenance of our property and for the site. As a retail operation, the use is compatible with the existing uses of the property and with surrounding mercantile occupancies. However, as a Tenant Improvement, we have little to afford for sustainability and do not expect to participate in the Green Building Program.

Our normal business hours shall be from 7AM-10PM every day and will employ as many as 10 people at this location.

Enclosed please find the documents for the Development Submittal for the above referenced AutoZone Store,

RE: Sea Breeze Shopping Center at Buffalo & Vegas, NEC
Request: Jewelry Story Class III Special Use Permit
APN: 138-22-418-008

Dear Mr. Fagg:

On behalf of our client, Great American Capital, please accept this justification letter for a Special Use Permit to allow a Jewelry Store Class III in an approximately 1,300 square foot tenant space in the Sea Breeze Shopping Center. This proposed use is located in Suite 110, within the 3.82 +/- net acres located at the northeast corner of Vegas Drive & Buffalo.

Approval Criteria for a Special Use Permit 19.16.110

L. Special Use Permit Determinations—Approval

In order to approve a proposed rezoning, the Planning Commission or City Council must determine that:

1. In order to approve a proposed Special Use Permit application, the Planning Commission or City Council must determine that:

a. The proposed use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan;

The existing shopping center is already planned and approved for commercial as C-1. The addition of this uses capability merely enables a tenant to help sustain the shopping center vitality while complying with Title 6 requirements and Conditional Use Regulations. It does not create any impacts that are not typical of a retail center.

b. The subject site is physically suitable for the type and intensity of land use being proposed;

The operation is just another retail tenant that will occupy space that is already planned, designed and built within the shopping center and that has adequate physical accommodations including parking in compliance with City requirements.

RECEIVED
NOV 23 2011
City of Las Vegas
SUP-43992

GCGARCIA
A Planning & Development Services Corporation
1711 Whitney Mesa Drive, Suite 110, Henderson, Nevada 89014-2158
Telephone: 702 435 9909 Facsimile: 702 435 0457 E-Mail: ggarcia@gcgarciainc.com

c. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use; and

The use is within an approved shopping center on the corner of two major streets, Buffalo and Vegas, which are fully built and will accommodate this use.

d. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety and welfare or the overall objectives of the General Plan.

The proposed tenant will be like other tenants in the shopping center and will not compromise the health, safety and welfare or the Plan.

SUMMARY JUSTIFICATION

In summary, we believe the requested SUP will help the vitality and stability of the shopping center and provide for a new business, jobs and investment and will be a good compatible tenant. It will not create any adverse impacts and can be served by existing infrastructure.

We respectfully request you favorable consideration of this request. Please contact me if you have any questions or need additional information.

Sincerely,

for George Garcia,
President

SDR-43960

SDR 43960
Las Cal Corporation

401 S Decatur Bouelvard

Proposed 1.921 thousand square foot fast food restaurant.

Traffic produced by proposed development:

Proposed Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	FAST-FOOD W/ DRIVE THRU [1000 SF]	1.921	496.12	953
AM Peak Hour			53.11	102
PM Peak Hour			34.64	67

Existing traffic on all nearby streets:

Decatur Blvd.

Average Daily Traffic (ADT)	51,425
PM Peak Hour	4,114
(heaviest 60 minutes)	

Alta Dr.

Average Daily Traffic (ADT)	12,075
PM Peak Hour	966
(heaviest 60 minutes)	

Traffic Capacity of adjacent streets:

	Existing Street Capacity
Decatur Blvd.	67,000
Alta Dr.	16,300

This project will add approximately 953 trips per day on Decatur Boulevard and Alta Drive. Decatur is currently at about 77 percent of capacity and Alta is at about 74 percent of capacity. After this project is added, Decatur is expected to be at about 78 percent of capacity and Alta to be at about 80 percent of capacity.

Based on Peak Hour use, this development will add roughly 102 additional cars into the area, which works out to about two every minute.

Note that this report assumes all traffic from this development uses all named streets.

Re: **Justification Letter – Taco Bell Restaurant @ Mayflower Ln. & Decatur Blvd.**

To Whom It May Concern:

This letter is addressed to the City of Las Vegas, Planning & Development Department as required by the UDC Title 19: Site Development Plan Review Submittal Requirements. Assessor's Parcel Number is 139-31-**221-001.**

The site is currently a vacant parcel located on the southeast corner of S. Decatur Blvd. & Mayflower Lane and is Lot One of Becker Enterprises Decatur and Alta Commercial Center; a commercial subdivision. The current zoning district is C-2. The adjacent developments within the shopping center include a newer Walgreens Drugstore to the south and an older in-line retail commercial building to the east. The in-line building to the east contains a barber shop, jeweler and diner, with one vacant tenant space. It is understood that the prior use of this pad was for a drive-thru restaurant.

Off-site improvements including curb & gutter and sidewalks are existing. Ingress and egress drives are existing within the adjacent development and cross-access agreements are in place. All utilities are stubbed to the pad.

We are requesting approval to construct a new 38 seat free-standing Taco Bell restaurant with a drive-thru. The store will employ approx. 14 people. The hours of operation will be approx. 8:00 AM to 1:00 AM. The Applicant, Las Cal Corporation, dba Taco Bell, operates numerous franchise stores throughout the state of Nevada. This store will act as a replacement store for an older and outdated store at the SE intersection of Charleston & Decatur.

The Gross Area of the building is 1,921 SF, and at 1/100 SF that is 19.2 or rounded up to 20 required parking spaces including (1) van accessible space. The proposed site

RECEIVED
NOV 22 2011
SDR-43960

layout indicates providing 21 parking spaces, including (1) van accessible space. All parking spaces are 9' wide x 19' deep. The main drive aisle separating the parking island from the head-in parking is 30' wide to provide extra width for circulating vehicles and easier access to the drive-thru entrance. The drive-thru will contain a minimum 7-car stack. A 15' wide x 25' deep loading zone is provided. A CMU trash enclosure with painted stucco finish, solid metal doors and painted metal trellis cover will be provided.

The proposed landscape design can meet the requirements of the Development Code with the exception of the depth of street frontage landscape buffers. We have provided a 10' landscape buffer along Decatur and Mayflower where 15' is required per the Development Code for a C-2 zone. No landscape currently exists. The proposed buffer will contain the required street trees with additional shrubs to negate the reduced depth. We are requesting a Waiver for Reduction of Landscape along the street frontages due to the limited depth and width of the parcel, 150' in each direction, for a total site area of about 22,448 SF, and the presence of a Utility Easement that enters the parcel from the east and extends approx. 42' into the pad. Our typical Taco Bell pad is approx. 28,000 to 30,000 SF. to fit a standard size Taco Bell building with an 8 to 10 car stack drive-thru. The building we are proposing is the smallest store available for use by YUM Brands! Corporation and will fit just shy of the Utility Easement and allow for the drive-thru lane to wrap around the building as needed for stacking and departure of the drive-thru. The site dimensions from east to west are as follows: 2' asphalt, 6' planter, 13' D/T lane, 21' to back of building for lane radius, 70' for building, 15' for lane radius, 13' D/T lane and 10' landscape buffer at ROW. This is the absolute minimum site depth that can work for our proposed store.

Our proposed landscape buffer along Decatur will align with the existing buffer of the Walgreens within the same development, providing a consistent appearance. Landscape planter islands throughout the parking area and overall percentage of landscape coverage will be provided per the UDC.

The proposed use complies with the current approved and adjacent property uses, which are commercial, C-2.

With the exceptions noted above, the proposed facility complies with the provisions of the Development Code provided by the City of Las Vegas.

The proposed facility will not impose any new use impacts to the adjacent properties and neighborhood in general. This includes architectural aesthetics. This development will enhance the street landscape and site development.

Public Safety, transportation and utility services will be able to access and serve the proposed facility's property.

Maintenance of subject property and accompanying utilities/infrastructure will be assured.

The natural environment surrounding the proposed facility will not be compromised in any fashion. Any potential conflicts would be mitigated. The proposed facility will not exceed the capacity of public services, which cannot be mitigated.

SOUTH ADDITION

TO THE

CITY OF LAS VEGAS,

CLARK COUNTY, NEVADA.

LEGEND:
All streets are 80 feet wide, and all alleys 20 feet wide.
All blocks are 300 by 400 feet and all lots 25 by 140 feet unless otherwise indicated.
○ Concrete monument 6 in. diam. 12 ins. long set 6 ins. below the surface of the ground with a metal plug at the exact intersection of the center line of the Street.

I, J. F. HESSE, do hereby certify that this plat is a true and accurate map of the land surveyed by me and laid out into blocks, lots, streets, alleys and public places at the instance of FIRST STATE BANK OF LAS VEGAS, NEVADA, INCORPORATED; that the location of said Blocks, lots, streets, alleys and public places have been definitely established and perpetuated in strict accordance with the law as shown hereon; that the blocks, lots and public places shown hereon are situate wholly within that certain parcel of ground, described as follows, to wit:

That certain piece or parcel of land, being that portion of the SW¼ of Sec. 34, and the E½ of the SE¼ of Section 33, T 20 S.R. 61 E. M.D.B.&M.; in the City of Las Vegas, Clark County, Nevada, and more particularly described as follows:

Beginning at the Southwest corner of Main and Garces Streets in the City of Las Vegas, Clark County, Nevada; thence southwesterly along the westerly side of Main Street produced to the intersection of the Fifth Standard Parallel (Township line between Tps. 20 and 21 S.); thence Easterly along said Township line to the North and South Centerline of said Section 34; thence north along said north and south centerline to the intersection with the South side of Clark Street produced; thence westerly along the south side of Clark Street produced to the East side of Fifth Street; thence Southerly along the east side of Fifth Street to the south east corner of Fifth and Garces Streets; thence westerly along the south side of Garces Street to the place of beginning;

Expressly excepting and excluding therefrom, a parcel of land described as follows: Commencing at the point of intersection of the Southerly line of Garces Street, with the southerly prolongation of the easterly line of Main Street, as shown on the plat of Clark's Las Vegas Townsite; thence Southerly following said southerly prolongation of the easterly line of Main Street, a distance of 150 feet; thence easterly parallel with and distant 150 feet from the Southerly line of Garces Street for a distance of 140 feet; thence northerly parallel with and distant 140 feet easterly from said southerly prolongation of the easterly line of Main Street for a distance of 150 feet to the southerly line of Garces Street; thence westerly along the southerly line of Garces Street to the point of beginning. Also expressly excepting and excluding therefrom a strip of land 80 feet wide, being 40 feet on each side measured at right angles from the following described centerline:

Beginning at the point of intersection of the Center line of Fifth Street with the Southwesterly line of Garces Street said point being West 653.7 feet, more or less from a point on the Easterly line of the Southwest quarter of said Section 34, said last named point being 1205.5 feet northerly from the South-east corner of said southwest quarter of Section 34; thence S. 27° 45' W. 1364.0 feet, more or less to a point on the Southerly line of said Section 34, said point being 1288.0 feet westerly from said southeast corner of southwest quarter of Sec. 34.

That the survey was completed on the 31st day of July 1926.

J. F. Hesse
Surveyor

First State Bank of Las Vegas, Nevada, Incorporated, does hereby certify that it is the owner of the property subdivided as shown by this plat and known as SOUTH ADDITION TO THE CITY OF LAS VEGAS; that it dedicates for public use the streets and alleys shown thereon and also Block 22 shown hereon for the use of the public school system of the District in which it is located.

FIRST STATE BANK OF LAS VEGAS, NEVADA, INCORPORATED.
By _____ its Vice President
Attest: _____ Secretary.

STATE OF NEVADA
COUNTY OF CLARK --ss--

On this 5th day of August 1926, personally appeared before me, a Notary Public in and for the County of Clark, State of Nevada, C. S. Wengert, known to me to be the Secretary of the Corporation that executed the foregoing instrument, and upon oath did depose that he is the officer of said corporation as above designated; that he is acquainted with the seal of said corporation and that the seal affixed to said instrument is the corporate seal of said corporation; that the signatures to said instrument were made by officers of said corporation as indicated after said signatures; and that said corporation executed said instrument freely and voluntarily and for the uses and purposes therein mentioned.

_____ Notary Public

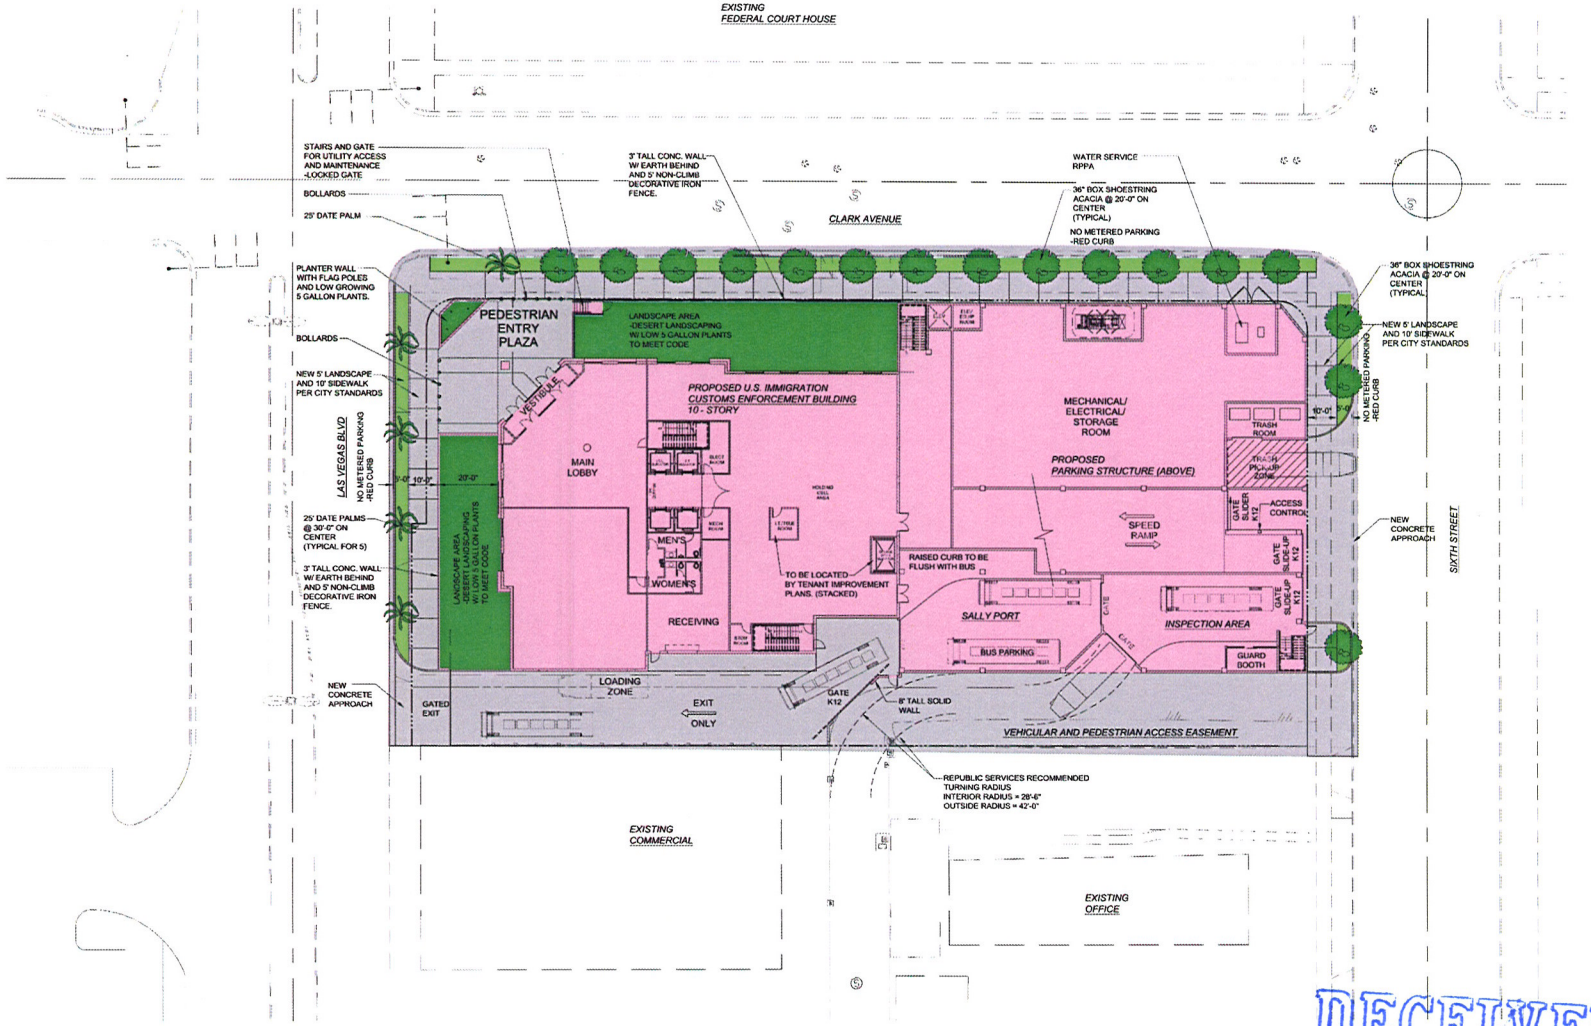

APPROVED by the Board of City Commissioners of the City of Las Vegas, Clark County, Nevada, at its regular meeting held August 5, 1926.

_____ Mayor Pro Tem.
Attest: _____ Clerk.

SDA, Inc.

SEC Las Vegas Boulevard & Clark Avenue

Proposed 131.228 thousand square foot office building.

Traffic produced by proposed development:

Proposed Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	GENERAL OFFICE BUILDING [1000 SF]	131.228	11.01	1,445
AM Peak Hour			1.55	203
PM Peak Hour			1.49	196

(heaviest 60 minutes)

Previous Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	GENERAL OFFICE BUILDING [1000 SF]	63.828	11.01	703
AM Peak Hour			1.55	99
PM Peak Hour			1.49	95

Net Change	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	GENERAL OFFICE BUILDING [1000 SF]	67.4	11.01	742
AM Peak Hour			1.55	104
PM Peak Hour			1.49	100

Existing traffic on all nearby streets:

Las Vegas Blvd.

Average Daily Traffic (ADT)	22,013
PM Peak Hour	1,761

(heaviest 60 minutes)

Clark Ave.

Average Daily Traffic (ADT)	2,650
PM Peak Hour	212

(heaviest 60 minutes)

6th St.

Average Daily Traffic (ADT)	1,694
PM Peak Hour	136

(heaviest 60 minutes)

Traffic Capacity of adjacent streets:

	Existing Street Capacity
Las Vegas Blvd.	34,500
Clark Ave.	16,300
6th St.	16,300

This project will add approximately 742 trips per day more than the previous use on Las Vegas Boulevard, Clark Avenue and 6th Street. Las Vegas is currently at about 64 percent of capacity, Clark is at about 16 percent of capacity and 6th is at about 10 percent of capacity. After this project is added, Las Vegas is expected to be at about 66 percent of capacity, Clark to be at about 21 percent of capacity and 6th to be at about 15 percent of capacity.

Based on Peak Hour use, this development will add roughly 104 additional cars into the area, which works out to about two every minute.

Note that this report assumes all traffic from this development uses all named streets.

RE: JUSTIFICATION LETTER FOR THE PROPOSED 10 STORY OFFICE BUILDING LOCATED ON THE SE CORNER OF LAS VEGAS BLVD AND CLARK.

To Whom this May Concern:

SDA Inc. is proposing a new 10 story / 131,228 SF office building with a 7.5 story parking structure to include 273 parking spaces. This proposed development will be located on the south east corner of Las Vegas Blvd and Clark, 501 Las Vegas Blvd, and will be the future home of two Federal Government Agencies. The land for this project was recently purchased from the City of Las Vegas. As part of this submittal, we are requesting that the existing alley be vacated to make a continuous parcel.

The development is required to meet all the security requirements of the federal government which include guarded / gated vehicular entries, security measures at the pedestrian entry of the building, perimeter protection, and blast resistant exterior walls. The project also requires that all on street parking spaces on Las Vegas Blvd and Clark along the boundaries of this site be eliminated and to be secured by an eight foot tall concrete and wrought iron fence capable of withstanding vehicular penetration.

The first floor will be used for a main lobby with security, holding cells, sally port for buses, receiving, building management, and storage. Floors 2 through 10 will be regular office space. The parking garage was designed to meet the requirements of the Federal Agencies occupying the building and will not have any public parking.

801 Las Vegas Blvd. South, Suite 150
Las Vegas, Nevada 89101

P. (702) 835-7000
F. (702) 835-7001
www.10NINE.com

RECEIVED
NOV 23 2011
SDR-43975

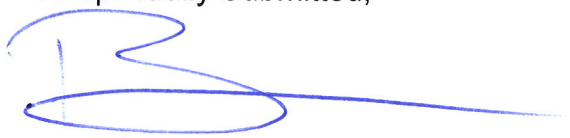

The building was designed to complement the surrounding buildings with precast concrete exterior walls, clear anodized aluminum window frames with blue tinted glass, and metal decorative accents to match the window frame color.

The waivers requested from the downtown centennial plan are the following:

a.) 70% façade alignment along Las Vegas Boulevard. This is due to setback requirements of the tenant.
b.) Parking Garage to have ground floor retail. This is due to the requirements of the tenant to be a secure site.
c.) Reduction in required parking based on SF requirements.

We are requesting your support of this project and believe that it will be a great addition to downtown Las Vegas. Please contact me if you need any additional information or have any questions.

Respectfully Submitted,

Benjamin Girardin, AIA, NCARB, LEED AP
Principal Architect

October 28, 2011

Planning Department
City of Las Vegas
Hand delivered

Dear Gentlemen:

Please accept this as the required justification letter for applications as follow:

1. A General Plan Amendment from MXU (Mixed Use) to C (Commercial) and a Rezoning from R-4 (Apartment Residence District) to C-2 (General Commercial District for APN 162-04-811-028.

Justification: This parcel is intended to be incorporated into an overall hotel-casino development with adjacent parcels to the south and east which are already in the C general plan category and the C-2 zoning district. In effect, the proposed changes simply move the existing plan/zone boundary slightly west. Since the subject parcel is already within a gaming enterprise district, the applicant believes that the C/C-2 classification is presumed to be appropriate as they are necessary to utilize the gaming classification.

2. A special use permit for a Gaming Establishment, Unrestricted on APNs 162-04-814-002, 162-04-807-004, 162-04-807-005, and 162-04-811-028.

Justification: All parcels are within the existing gaming enterprise district and therefore presumed to be appropriate for gaming. The project is primarily accessed from Sahara Avenue, a major arterial which provides adequate access and which has previously been approved or planned for gaming on both the City and County sides.

3. A site development review with waivers is requested for the overall project (same APNs as in paragraph 2 above).

Justification: As to the overall design, the project is generally designed to be compatible with (and share access with) the existing Allure condominiums, but is lower in height than the Allure project and lower than prior proposals for the subject parcels. The design focuses activity on Sahara Avenue, a major commercial arterial.

a. Waiver of Downtown Centennial Plan east-west street landscaping theme and streetscape (5' amenity zone and 10' sidewalk) is requested. Proposed landscape and streetscape for both Sahara and Cincinnati are designed to approximately match abutting properties. Particularly

SDR-43890

300 S. 4th Street, #1500 • Las Vegas, NV 89101 *(702) 383-8953 • Fax 383-8845*

on Sahara Avenue the applicant believes it is aesthetically important to maintain continuity with the frontage treatment of Allure Condominiums with which the subject project will share access. Landscape on Cincinnati has been provided to the extent feasible and taking account of the slight skewing of the Cincinnati alignment adjacent to the subject parcels.

b. Waiver to allow service area/loading dock at street frontage on Cincinnati, requiring some vehicle maneuvering within the Cincinnati right-of-way. Similar service/loading area arrangements have previously been approved on Cincinnati. As a practical matter, servicing/loading cannot utilize the Sahara access without causing traffic conflicts with the adjacent Allure project and on Sahara Avenue itself. The minimal facilities on Cincinnati (which can be screened to minimize any visual issues) should have no significant impacts on the use of Cincinnati by other properties.

c. Above-ground utilities on Cincinnati. It is is the applicant's understanding that the utility boxes for NV Energy will be required to be above ground for access. The boxes would be low profile and no more visually intrusive than traffic control devices and similar equipment used throughout the community, but appear to require a waiver.

d. Waiver for a 14' block wall on the west perimeter is requested to adequately separate the the project from different uses to the west. The wall can be treated with contrasting materials so as to be aesthetically acceptable. I have been advised that similar overheight walls have been approved on portions of the property in conjunction with a prior application.

e. Other blank walls at street level can be aesthetically enhanced in a manner compatible with the 14' west wall described above.

4. A vacation and abandonment of a portion of the existing alley connecting Tam Drive to Cincinnati is requested to allow APN 162-04-811-028 to be joined to the overall project.

Justification: The applicant will dedicate a new alley segment to maintain the Tam-Cincinnati connection. The net result will be a shorter alley which should be just as convenient for other users and less public alley to be maintained.

Sincerely,

Greg Borgel

10/27/2011 16:31 Weidner Holdings (FAX)702 407 5683 P.002/002

SDR 43890
Lucky Dragon, LLC

North Side of Sahara, West of Fairfield

Proposed 201 room casino.

Traffic produced by proposed development:

Proposed Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	CASINO HOTEL, CORRIDO [ROOMS]	201	N/A	N/A
AM Peak Hour			0.48	97
PM Peak Hour			0.70	141

(heaviest 60 minutes)

Existing traffic on all nearby streets:

Sahara Ave.

Average Daily Traffic (ADT)	53,138
PM Peak Hour	4,251

(heaviest 60 minutes)

Las Vegas Blvd.

Average Daily Traffic (ADT)	30,700
PM Peak Hour	2,456

(heaviest 60 minutes)

Traffic Capacity of adjacent streets:

	Existing Street Capacity
Sahara Ave.	51,800
Las Vegas Blvd.	34,500

Sahara Avenue is currently over capacity and Las Vegas Boulevard is at about 89 percent of capacity. An Average Daily Traffic estimation has not been determined for this use, however after this project is added, Sahara is still expected to be over capacity, and Las Vegas Boulevard is expected to remain under capacity.

Based on Peak Hour use, this development will add roughly 141 additional cars into the area, which works out to about five every two minutes.

Note that this report assumes all traffic from this development uses all named streets.

JUSTIFICATION LETTER

November 3, 2011

City of Las Vegas Planning Department

Gloria Saucedo
Hermandad Mexicana Transnacional
2511 W. Bonanza Road
Las Vegas, NV 89107
APN: 139-29-810-023

To Whom It May Concern:

We are hereby requesting approval of a General Plan amendment, Rezoning, Variance for Parking and a Site Development Plan Review to allow the convention of a Residence to Office use on the above referenced property.

Hermandad Mexicana Transnacional (HMT) is a non-profit organization, the main purpose of the office will be have our headquarter office; will have only 2 employees to do the back paperwork which involves such as filings, accounting, payroll and corporate management operations. Hours of operations: Monday-Friday 9:00AM - 5:00PM. During 1966 this property was approve to be used as a bookkeeping office we are going to be doing something completely similar.

Since our site layout complies with the conditions of City of Las Vegas Planning Department and meets all necessary requirements is justified and will be an asset to the community.

Very Truly Yours,

Gloria Saucedo
Owner

SDR 43973
Hermandad Mexicana Transnacional

2511 W. Bonanza Road

Proposed conversion of an existing house into a 2.01 thousand square foot office.

Traffic produced by proposed development:

Existing Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	SINGLE FAMILY DETACHED [DWELL]	1	9.57	10
AM Peak Hour			0.75	1
PM Peak Hour			1.01	1

Proposed Change	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	GENERAL OFFICE BUILDING [1000 SF]	2.01	11.01	22
AM Peak Hour			1.55	3
PM Peak Hour			1.49	3

Net Change	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	GENERAL OFFICE BUILDING [1000 SF]	2.01	11.01	6
AM Peak Hour			1.55	1
PM Peak Hour			1.49	2

Existing traffic on all nearby streets:

Bonanza Road	
Average Daily Traffic (ADT)	2,113
PM Peak Hour (heaviest 60 minutes)	169

Rancho Drive	
Average Daily Traffic (ADT)	50,275
PM Peak Hour (heaviest 60 minutes)	4,022

Traffic Capacity of adjacent streets:

	Adjacent Street ADT Capacity
Bonanza Road	16,300
Rancho Drive	51,800

This conversion is expected to add 6 additional trips per day on Bonanza Rd. and Rancho Dr. Currently, Bonanza is at about 13 percent of capacity and Rancho is at about 97 percent of capacity. This project is not expected to significantly change these capacities.

Based on Peak Hour use, this conversion will add 2 additional cars into the area in the peak hour, or about one every thirty minutes.

Note that this report assumes all traffic from this development uses all named streets.

GENERAL NOTES

1. LANDSCAPE ARCHITECT/OWNER TO APPROVE ALL PLANT MATERIAL PRIOR TO INSTALLATION. NOTIFY 48 HRS. IN ADVANCE OF PLANT MATERIAL DELIVERY AND/OR INSTALLATION DATE.
2. PLANT MATERIAL IS TO HAVE SPECIES IDENTIFICATION TAGS ON AT LEAST 10% OF TOTAL # OF EACH SPECIES INDICATING GENUS, SPECIES, CULTIVAR, ETC.
3. ALL IRRIGATION TO BE DRIP, SOD TO RECEIVE LOW ANGLE SPRINKLERS OR NETAFIM.
4. ALL PLANTS TO BE INSTALLED A MINIMUM OF 2' FROM OUTER CURB/PATH LINE. SYMBOL PLACEMENT IS NOT EXACT.
5. ALL PLANTERS TO RECEIVE A 3" DEPTH OF SHREDDED BARK MULCH AVAILABLE THROUGH WESTERN ORGANICS OR A-1 ORGANICS.

Re:JUSTIFICATION LETTER for General Plan Amendment, Zone Change and Site Development Review
for
Gilcrease Nature Santuary
8103 Racel Street
Las Vegas, Nevada
APN:12509401033

Gilcrease Nature Santuary is an existing sanctuary for exotic birds and animals. Currently the sanctuary is home to over 250 birds along with goats, donkeys, miniature horses, miniature pigs, ostriches, emus, llama, koi fish , a mule deer, ducks, geese and swans. Our facility is a sanctuary for local families as well, who often picnic here. The sanctuary hosts scouts, school field trips, church groups and the like. The proposed use is not anticipated to be changed in the future. The sanctuary currently has 12 employees and 1 full-time resident. The sanctuary is open daily from 9:00 a.m. – 6:00 p.m.

The sanctuary was recently annexed into the City of Las Vegas from Clark County and is currently a nonconforming use of land, with a nonconforming land use designation and zoning district. The santuary was annexed into the city with a PCD General Plan classification. The sanctuary is requesting that the General Plan be amended to change the designation to Public Facility (PF). The property was zoned as R-E as part of the annexation. The sanctuary is requesting that the property be re-zoned to C-V. We believe that the proposed General Plan Amendment and zoning change are compatible with the existing and proposed land use. It was understood during the annexation that the existing uses on the property would be allowed to be grand-fathered in even though they may not meet the intent of the general plan or the zoning classification.

Although the sanctuary will not be registering with USGBC for LEED certification, the sanctuary is committed to sustainability. Wherever financially feasible the sanctuary will be using recycled materials and sustainable building practices. Currently the sanctuary has applied for solar panel grants for the facility.

Phase 1 involves site improvement work to include new 42 stall parking lot along Racel Street, new curb and gutter along with landscaping along the project frontage on Racel Street, new visitor entry and donation plaza which will include a sculpture of sanctuary founder William Gilcrease. Parking lot and site lighting will be designed to meet applicable codes and regulations. Three (3) new monument signs are proposed along Racel Street, one in front of main entry and 1 at each project corner. The signs will meet City of Las Vegas signage design standards. During Phase 1 the existing exhibit spaces affected by new site design will be relocated to Phase 2 area.

The applicant is requesting a landscape waiver of 5'-0" from required 15'-0" front yard landscape buffer. Current site plan show a 20'-0" landscape buffer, with 5'-0"wide meandering sidewalk, from back of street curb to back

10799 West Twain Ave, Las Vegas, NV 89135 | 702.733.7759

of curb at parking lot. The reason for the additional 10'-0" of landscaping is due to the street being developed to 60'-0" width vs. 80'-0" per general plan.

Phase 2 work involves building new walkways, exhibit spaces (fencing, shed etc.) educational kiosks, ponds and streams, along with landscaping in areas improved. It is hopeful that solar grants may allow installation of solar panels for site lighting and electrical.

Phase 3 work involves refurbishing the existing amphitheater and bringing facility to current accessibility standards. Currently the amphitheater is not being used on a regular basis and is used only a few times during the year. After renovation it is the hopes of the sanctuary staff that the facility will be used on a regular basis with planned events that will benefit the community. Additional bird exhibit facilities will be built around the renovated amphitheater.

Phase 4 involves site improvement to existing staff parking and to refurbishing existing facilities that are deemed appropriate for refurbishing. Some of the existing facilities will be demolished at this phase to accommodate future growth. Phase 4 will also include plans to build a veterinary clinic to service the sanctuary and also be an educational source for the community.

Feel free to contact me if you have any questions or need additional information.

Sincerely,

Dan Vowles

f:\depot\Application Packet\Application Form.pdf

SDR 43981
Gilcrease Nature Sanctuary

8103 Racel Street

Proposed 8.02 acre nature preserve.

Traffic produced by proposed development:

Proposed Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	REGIONAL PARK [ACRES]	8.02	4.57	37
AM Peak Hour			0.15	1
PM Peak Hour			0.20	2

(heaviest 60 minutes)

Existing traffic on all nearby streets:

Racel St.

Average Daily Traffic (ADT)	1,772
PM Peak Hour	142

(heaviest 60 minutes)

Durango Dr.

Average Daily Traffic (ADT)	9,228
PM Peak Hour	738

(heaviest 60 minutes)

Cimarron Rd.

Average Daily Traffic (ADT)	1,039
PM Peak Hour	83

(heaviest 60 minutes)

Traffic Capacity of adjacent streets:

	Existing Street Capacity
Racel St.	15,400
Durango Dr.	32,700
Cimarron Rd.	15,400

This project will add approximately 37 trips per day on Racel Street, Durango Drive and Cimarron Road. Racel is currently at about 12 percent of capacity, Durango is at about 28 percent of capacity and Cimarron is at about 7 percent of capacity. This project is not expected to significantly change these capacities.

Based on Peak Hour use, this development will add roughly 2 additional cars into the area, which works out to about one every thirty minutes.

Note that this report assumes all traffic from this development uses all named streets.

DEPARTMENT OF PLANNING

STATEMENT OF FINANCIAL INTEREST

Case Number: GPA-43991 APN: _____

Name of Property Owner: City of Las Vegas

Name of Applicant: City of Las Vegas Redevelopment Agency

Name of Representative: Scott D. Adams, Chief Urban Redevelopment Officer

To the best of your knowledge, does the Mayor or any member of the City Council or Planning Commission have any financial interest in this or any other property with the property owner, applicant, the property owner or applicant's general or limited partners, or an officer of their corporation or limited liability company?

☐ **Yes** ☒ **No**

If yes, please indicate the member of the City Council or Planning Commission who is involved and list the name(s) of the person or persons with whom the City Official holds an interest. Also list the Assessor's Parcel Number if the property in which the interest is held is different from the case parcel.

City Official: _____

Residential Areas – Observations and Evaluation 19

DEFINITION OF BLIGHT

The rationale behind the State of Nevada enabling laws to create redevelopment agencies resides in NRS 279.416-420. These statutes describe conditions of blight and deterioration that, if prevalent, constitute a menace to the health, safety and welfare of communities. Conditions of blight as delineated in NRS 279.388 are reprinted, verbatim in the box below.

1. Except as otherwise provided in subsection 2, "blighted area" means an area which is characterized by at least four of the following factors:
   (a) The existence of buildings and structures, used or intended to be used for residential, commercial, industrial or other purposes, or any combination thereof, which are unfit or unsafe for those purposes and are conducive to ill health, transmission of disease, infant mortality, juvenile delinquency or crime because of one or more of the following factors:
      1) Defective design and character of physical construction.
      2) Faulty arrangement of the interior and spacing of buildings.
      3) Inadequate provision for ventilation, light, sanitation, open spaces and recreation facilities.
      4) Age, obsolescence, deterioration, dilapidation, mixed character or shifting of uses.
   (b) An economic dislocation, deterioration or disuse.
   (c) The subdividing and sale of lots of irregular form and shape and inadequate size for proper usefulness and development.
   (d) The laying out of lots in disregard of the contours and other physical characteristics of the ground and surrounding conditions.
   (e) The existence of inadequate streets, open spaces and utilities.
   (f) The existence of lots or other areas which may be submerged.
   (g) Prevalence of depreciated values, impaired investments and social and economic maladjustment to such an extent that the capacity to pay taxes is substantially reduced and tax receipts are inadequate for the cost of public services rendered.
   (h) A growing or total lack of proper utilization of some parts of the area, resulting in a stagnant and unproductive condition of land which is potentially useful and valuable for contributing to the public health, safety and welfare.
   (i) A loss of population and a reduction of proper use of some parts of the area, resulting in its further deterioration and added costs to the taxpayer for the creation of new public facilities and services elsewhere.
   (j) The environmental contamination of buildings or property.
   (k) The existence of an abandoned mine.

Finally, NRS 279.519 states that a redevelopment area need not be restricted to only those building improvements or lands which are detrimental or inimical to the public health, safety or welfare, but may consist of an area in which such conditions predominate and injuriously affect the entire area. Furthermore, a redevelopment area may include, in addition to blighted areas, lands, buildings or improvements which are not detrimental to the public health, safety or welfare, but whose inclusion is found necessary for the effective redevelopment of the area of which they are a part. These criteria are critical for the City of Las Vegas Redevelopment Agency as the redevelopment area contains a few parcels which do not appear to have significant decline or deterioration. However, these parcels are threatened by other parcels which exhibit a variety of conditions of blight including deterioration, safety hazards, economic maladjustment, depreciating property values, stagnant population and the unproductive use of land.

This Blight Study is a component of the documentation required to establish a new redevelopment area within the City of Las Vegas.

APPROACH AND METHODOLOGY

With the legal definition of blight clearly described, it is necessary to demonstrate how, and where, these conditions exist. To accomplish this, a common sense interpretation of the individual blight statutes has been provided. In turn, specific examples of blight located within the City of Las Vegas Redevelopment Area were identified and compared to the interpretations, thereby clearly documenting the extent of blight. For ease of understanding, the format used is to:

1. List the legal blight factor as defined by NRS;
2. List the common sense interpretation;
3. Provide the specific examples which demonstrate these characteristics.

Both primary and secondary data sources were used to quantify existing conditions in the proposed redevelopment area. The primary method for evaluating the existence and prevalence of conditions that characterize blight were extensive field surveys of existing physical conditions. These field surveys were conducted in March 2010 through November, 2010.

Parcels within the proposed Redevelopment Area were analyzed individually and collectively and both physical and economic blight indicators were observed in the field surveys. These blight indicators include inadequate streets, flood prone conditions, deterioration and dilapidation of structures, age and obsolescence, population stagnation, and economic maladjustment. Secondary data sources include U.S. Census Bureau records, and interviews with City of Las Vegas staff and public officials. Finally, numerous pictures of blighted parcels were taken in order to provide a permanent, visual record of the extent of decline and deterioration.

GENERAL DESCRIPTION OF THE PROPOSED REDEVELOPMENT AREA

The proposed new Redevelopment Area ("Redevelopment Area 2") can be divided into three (3) distinct corridors:

- Sahara Avenue
- West Charleston Boulevard
- South Decatur Boulevard

The **Sahara Avenue Corridor** can be generally described as the following area:

> *East Boundary is the west side of the South I-15 ramp to West Sahara Avenue; North and South Boundary is West Sahara Avenue; and the West Boundary is the east side of South Rainbow Boulevard.*
>
> *Additionally there are two residential areas within the Sahara Avenue Corridor:*
>
> 1) *Richfield Village (Richfield Neighborhood Association) Beginning at Sahara Avenue, to Rye St., (Tract Block Group Boundary, then to the Precinct Boundary), then to Wyandotte Street, then to the intersection of Wilmington Way & Kings Way, then to Teddy Drive and then to Sahara Avenue, and,*
> 2) *Las Verdes Heights (Keen Neighborhood Coalition) Beginning at Sahara Avenue at Valley View, then proceeding west to Arville Street, then south to Tara Avenue, and then east to Valley View.*

The Sahara Corridor is considered a major transportation corridor within the city of Las Vegas. While the eastern boundary is characterized by newer buildings that contain office, retail and service oriented businesses, as you proceed west, the buildings are older and have a dated architectural style and reveal significant aging.

This corridor consists of **592 parcels**. Thirty-two percent (32%) are zoned as commercial parcels and sixty-seven percent (68%) are zoned low-density residential and three (3) and four (4) plex residential buildings. These 592 parcels equate to 424.33 acres – seventy-nine percent (79%) commercial and twenty-one percent (21%) low-density residential (R-1, R-3, and R-4).

The **West Charleston Boulevard Corridor** can be generally described as the following area:

> *East Boundary is the west side of South Rancho Drive; North and South Boundary is West Charleston Boulevard; and the West Boundary is the east side of South Rainbow Boulevard.*

Additionally there is a residential area within the West Charleston Boulevard Corridor:

1) *Hyde Park Subdivision (Meadows Neighborhood Preservation Neighborhood Association)*
   Bounded by Charleston Blvd. on the south, west to Decatur Blvd., north to Alta Drive, and then east to Bedford Road.

The Charleston Corridor is also a significant commercial corridor within the city of Las Vegas. It also is one of the older commercial corridors located in the city limits. Many parcels have businesses located on them with plot lines running through the property, making it challenging for property owners to develop their property for a changing economic and population demographic. Architectural style of these buildings is dated and not aesthetically pleasing for positive progress within the community.

This corridor consists of **983 parcels**. Thirty-six percent (36%) are zoned as commercial parcels and sixty-four percent (64%) are zoned as low-density residential. These 983 parcels equate to 411.54 acres – seventy percent (70%) commercial and thirty percent (30%) low-density residential.

The **South Decatur Boulevard Corridor** can be generally described as the following area:

South Boundary is the north side of West Sahara Avenue; East and West Boundary is South Decatur Boulevard; and North Boundary is generally the south side of the US 95.

The Decatur Corridor is a newer commercial corridor populated with commercial centers that are larger in scale than the other two corridors. While these properties may be considered "young", there has been a growing deterioration of the properties and a dated architectural look. This area also is host to a regional mall that was built in 1979-1980 and has shown an increasing vacancy rate.

This corridor consists of **122 parcels**. Ninety-nine percent (99%) is zoned commercial and equates to 371 acres.

These three corridors are included in the City of Las Vegas Master Plan 2020 and incorporated in the Neighborhood Revitalization Area. The Neighborhood Revitalization Area foresees a strategy to address the decline of older, mature areas that are affected by a shift in land use base, has a significant decline in the economic base, and an increase in property crime, vandalism and graffiti.

IDENTIFICATION OF BLIGHT WITHIN THE PROPOSED LAS VEGAS REDEVELOPMENT AREA

As previously mentioned, this Study describes, in **bold face headings**, each of the specific blight factors defined in state statutes. The interpretation of the statute appears in italics. Blighting factors in NRS 279.388 that are not addressed in this Blight Report, due to the fact that they do not exist, nor avail themselves to evaluation, are (j) Environmental contamination of buildings or property and (k) Existence of an abandoned mine. Finally, the applicable data that demonstrates the existence of blight and meets the specific factor under consideration is provided.

Unfit or Unsafe Buildings or Structures

A. The existence of buildings and structures, used or intended to be used for residential, commercial, industrial or other purposes, or any combination thereof, which are unfit or unsafe for those purposes and are conducive to ill health, transmission of disease, infant mortality, juvenile delinquency or crime because of one or more of the following factors (1-4).

This category of the law deals with the physical condition of buildings in a redevelopment area. It includes subcategories that describe specific indicators of blight: defective design and physical construction; faulty arrangement of interiors and spacing of buildings; overcrowding; inadequate provisions for ventilation, light, sanitation, open spaces and recreational facilities and age and obsolescence of structures.

Each of these categories is discussed separately, and in detail below.

Defective Design and Physical Construction

1) *Defective design and character of physical construction.*

Buildings of any type may suffer deterioration or disuse, or may contribute to such problems in other buildings, because of inherent defects in their design. Such buildings can present safety hazards, be functionally inefficient or facilitate their own deterioration. Defects may exist from the moment a given building is completed or they may evolve as occupants attempt to accommodate change in uses within the building or within surrounding buildings over time.

Conditions of defective design can occur in a variety of ways, and can include inappropriate exterior building materials, or a building that is of inadequate size for the intended use, or exterior retrofit of utilities, such as electrical and water systems. A faulty addition to a building can also be considered defective design.

To document the degree of dilapidation and where deterioration originates of the properties surveyed, field staff surveyed the conditions of only the exteriors of structures from the public right-of-way. Two points must be considered: 1) field staff can only examine and evaluate the most durable portions of the structure and property, i.e. the roof, exterior walls and windows and 2) the structure may be concealing any number of structural deficiencies, which may have a negative impact on the integrity or safety of the structure, but may not be visible from the public right-of-way. The presence of negative conditions that may be hidden by a more durable exterior means that conditions of deterioration may be more prevalent than indicated in this Blight Report.

Since the deterioration couldn't be directly traced to defective design the structures/parcels are listed in category 4 which covers dilapidation and deterioration. Regardless of the reason for deterioration, it is always a serious problem and has a profound impact on the likelihood of new investment and further deterioration.

Faulty Arrangement of Interiors and Spacing of Buildings

2) *Faulty arrangement of the interior and spacing of buildings*

Indicators of faulty interior arrangement and spacing of buildings include inadequate setbacks and side yards resulting in fire hazards, inadequate loading, inadequate on-site parking areas, excessive lot coverage, and exposed outdoor storage and/or production.

Field surveys were conducted from public rights-of-way, and did not include an assessment of interior spaces. There were no available secondary data sources for this information.

The city of Las Vegas can be considered a relatively young municipality. For the most part, recent commercial developments are more likely to meet the required set backs for development purposes. Older commercial developments or structures that were once designated as residential units and are now a professional office or service business are an indicator of blight due to inadequate on-site parking, excessive lot coverage and problems with ingress and egress for customers and safety vehicles.

Instances of this issue were found in all three corridors. Twelve (12) parcels in Sahara, twenty-one (21) properties in Decatur, and 103 parcels in Charleston are zoned as Professional-Residential (P-R). These are former residential homes that have been converted into business/commercial property. In total these parcels account for 7.60 percent of the parcels and 4 percent of the acreage in the proposed new redevelopment area.

Some examples of outdoor storage, which weren't screened from view, were observed. These are identified by the existence of an outdoor storage unit or a fenced in area designated for storage. Exposed outdoor storage is a blight factor in itself, but it can also lead to additional health and safety problems and poses a potential fire hazard to nearby residents and property owners.

3) *Inadequate provision for ventilation, light, sanitation, open spaces and recreational facilities*.

A typical indicator of inadequate ventilation and light includes building walls with windows placed too close together so that air and light cannot reach the windows. Open space and recreational facilities refers to parks and playgrounds which are inadequately maintained.

There were only a few examples of blight due to inadequate sanitation observed. It could not be determined if the condition was due to the business owner or a random act by a citizen(s). Often times, citizens will place debris or refuse in unlocked sanitation areas. This is a minor problem in all three corridors of the proposed new redevelopment area. Increased attention by business and property owners would minimize this blighting factor.

Age, Obsolescence and Deterioration and Dilapidation Mixed Character, Shifting of Uses

4) *Age, obsolescence, deterioration, dilapidation, mixed character or shifting of uses.*

Age refers to buildings and structures of older construction that have not been renovated or upgraded to: eliminate deterioration; modernize heating, ventilation, plumbing or electrical systems; or remedy code or other legal violations or inadequacies. Obsolescence refers to an outdated building design and layout, or site plan that is no longer useful or economically viable given present-day standards or market needs. Such buildings may encourage marginal uses or become neglected and pose safety hazards.

Dilapidation and deterioration are characteristics of buildings or structures.

The terms "Mixed Character" and "Shifting of Uses" refer to a use in a building that was not intended for that building and, consequently, the building is usually poorly adapted and inefficient. This is considered a blighting characteristic because it can lead to incompatible uses, and increased deterioration if buildings are put to more rigorous use than originally intended.

Dilapidation and Deterioration

Ratings in this blight category are the product of first hand field observations. These observations occurred on various dates from March 2010 to October 2010.

The rating categories used in the field survey to assess conditions are generally defined as follows:

- Buildings or land rated as excellent or in good condition (**"0" or "1")** are in need of little or no maintenance; vacant parcels are well cared for and not overgrown with weeds or other debris.

- Buildings or land rated as deferred maintenance (**"2" or "3"**) need minor improvements such as paint or other exterior cosmetic repairs; vacant parcels need minor landscaping improvements.

- Buildings or land rated as needing moderate rehabilitation ("**4**") require a substantial amount of improvement such as a new roof, exterior siding, foundation repairs, etc.; vacant parcels are extensively overgrown and may exhibit topographical problems; and

- Buildings or land rated as needing extensive rehabilitation ("**5**") are abandoned or boarded up, very poorly maintained, have significant structural damage or need several major repairs. Vacant parcels are thoroughly overgrown with weeds, have substantial debris, have been used as a common dumping ground, exhibit foundations of demolished buildings, have severe topographical problems, etc.

Structures that were assigned a rating of "2", "3", "4" or "5" are considered to be in a state of dilapidation or deterioration. While a property may have been assessed a relatively low blight rating, such as a rating of "2", the conditions of the surrounding properties are also a factor in determining the level of blight within an area. Deteriorated buildings which have not been properly maintained by property owners and tenants are a hindrance to attracting new development to the area. Existing property owners and prospective developers are often discouraged from investing in an area where deterioration is prevalent, because security in their investment is uncertain. The presence of properties which exhibit signs of deterioration may also deter owners of neighboring properties from improving or even maintaining their properties. This occurs if it appears that any benefits which might accrue to their properties will be diminished or negated due to the condition of surrounding properties. This presents a risk of decreases in property values if deteriorated conditions are permitted to persist.

Dilapidated and Deteriorated

The overriding blight factor in all three corridors is evidence of dilapidation and deterioration. Of the total of 704 commercial parcels, staff evaluations rated 123 parcels/building as "4" or requiring moderate rehabilitation or substantial improvement, and 35 parcels/buildings as "5" requiring extensive rehabilitation. More importantly, staff evaluated 311 parcels/buildings as "2 or 3" requiring deferred maintenance/minor improvements. In short, 469 of the 638 parcels in the proposed new Redevelopment Area, or 66 percent, are judged to be deteriorated or dilapidated under this blight factor.

While a parcel/building that has what may be considered a lower blight rating, such as a "2 or 3", it is important to note that once a building or parcel becomes deteriorated and/or dilapidated, it is incumbent upon the property owner to address and undertake the necessary maintenance and improvements to keep the property from further decay. Given the current economic environment, many property owners are financially impacted and cannot make those continued investments in the property.

Table 1
Summary Condition of Buildings & Parcels in the Proposed New Redevelopment Area 2 (Commercial Parcels)

	Condition	No. of Parcels	Percent of all Parcels
0 or 1	Buildings or vacant land in excellent or good condition, minor landscape improvements needed.	235	33%
2 or 3	Deferred maintenance/minor improvements needed, vacant land slightly overgrown	311	44%
4	Moderate rehabilitation/substantial improvements needed, vacant land severely overgrown	123	17%
5	Extensive rehabilitation/structural damage/major repairs/abandoned, vacant land thoroughly overgrown, demolished foundations, debris	35	5%
	TOTAL	**704**	**100%**

Total Dilapidated & Deteriorated (2 – 5) 66%

B. **Economic Dislocation, Deterioration or Disuse**

An economic dislocation, deterioration, or disuse resulting from faulty planning. Evidence of faulty planning results from buildings containing uses, which are incompatible with adjacent uses.

Incompatible uses observed in the three corridors could be characterized by the mix of businesses which are near residential parcels. Some parcels located in the proposed new redevelopment area back up to single-family homes and multi-family apartments. The majority of those parcels were located in mature areas of the business/commercial center. This blighting characteristic is not a major factor in the proposed new redevelopment area.

C. Lots of Irregular or Inadequate Shape or Size

The subdivision and sale of lots of irregular form and shape and inadequate size for proper usefulness and development.

The economic viability of an area is reduced when it contains a number of lots of inadequate size for usefulness and development. This situation is commonly the result of historical subdivision and development patterns, as well as shifting economic trends in commercial sectors (e.g. shifts in the demand for goods and services). Adequate parcel size and dimension are necessary if land is to be effectively utilized. Certain minimum lot sizes are required not only for code compliance, but also to make development and redevelopment attractive to investors. Parcels must be large enough to accommodate the primary structure, setback area, circulation, and parking space. Parcels not able to meet these conditions may require that potential investors acquire adjacent properties (which may not be for sale) or forego rehabilitation or development of a property in lieu of an attractive site of adequate size and dimensions. Section 279.388 of the NRS considers the "subdividing and sale of lots of irregular form and shape and inadequate size for proper usefulness and development" a characteristic of a blighted area.

New and recently built commercial development tends to be designed in an appropriate manner which does not impact potential investment in the surrounding properties. It is only when you look at the older, more mature commercial development that this blighting characteristic has a role in impacting future investment in a property. For example, the parcels in the Charleston corridor that are zoned as Professional-Residential (P-R) may have a typical single-family lot shape, but when you have multiple parcels designated as P-R along a commercial corridor, then investment in the area will be negatively impacted. The Charleston corridor has 103 parcels designated as P-R. The Sahara corridor has 12 and Decatur corridor has 21 parcels designated as P-R.

D. Disregard to Contours or Physical Conditions

The laying out of lots in disregard of the contours and other physical characteristics of the ground and surrounding conditions. This blighting characteristic refers to the presence of parcels that, because of their layout, create problems with, or do not take advantage of, opportunities presented by the topography of an area.

No examples of parcels with contour or physical condition problems in the proposed new Redevelopment Area were found.

E. Inadequate Streets or Physical Conditions

The existence of inadequate, deteriorating, rutted streets, open space and utilities. Section 279.388 of the NRS states a blighted area may also be characterized by the existence of inadequate public streets, open space or utilities. Inadequate streets are defined as those that lack the capacity to carry the existing or anticipated vehicular traffic, or provide inadequate access to an area. Inadequate open space refers to a lack of sufficient parks and recreation areas. Inadequate utilities means that an area lacks or is poorly served with electricity, gas, telephone or other services necessary for successful development.

The majority of the commercial parcels in the proposed new Redevelopment Area are mostly along the major commercial corridors of Sahara, Charleston and Decatur. There was some deterioration of curbs, sidewalks, gutters and streets in all three corridors, but most of the parcels are the responsibility of the city and are on a regular schedule for maintenance and repair.

Field observations throughout the three commercial corridors showed that there this blighting condition has no impact for the proposed new Redevelopment Area.

F. Possible submerging

The existence of lots or other areas which may be submerged. Areas which are flood prone or in a flood plain can be considered as possible submerging candidates.

The Clark County Regional Flood Control District's interactive website for determining if an area is within a 100 Year Flood Zone shows that the proposed new Redevelopment Area will not be impacted. No parcels were found to be a blighting influence due to potential flood problems.

G. Depreciated or Deteriorating Values

Prevalence of depreciated values, impaired investments and social and economic maladjustment to such an extent that the capacity to pay taxes is reduced and tax receipts are inadequate for the cost of public services rendered. Conditions where assessed values have been declining or failing to keep pace with those in other comparable locations indicates a lack of investment by existing property owners and outside investors.

To assess the depreciated or deteriorating values of the parcels in the three corridors, staff examined whether or not an area's housing stock is keeping pace with the overall performance of the City. Information was obtained from the 2000 Census and the 2005-2009 American Community Survey (ACS). When these figures are compared with the housing figures for the zip codes of the new Redevelopment Area (89102, 89106 and 89107) a determination whether housing figures are maintaining pace can be evaluated.

Apartment contract rent figures provide us with the overall monthly contract rent for the City of Las Vegas and the zip codes of the proposed new Redevelopment Area. From the 2000 Census to the 2005-2009 ACS, we find that the city's contract rent increased from $632 to $841, a 33percent increase. The contract rent for 89102 was $564 to $701, a 24 percent increase. Contract rent for 89106 was $496 to $642, a 29 percent increase. Contract rent for 89107 was $618 to $781, a 26 percent increase. Additionally we can compare the respective zip code's contract rent with the city's contract rent and see that from 2000 Census to the 2005-2009 ACS that each zip code represented a decline of the city's average contract rent. In 2000, 89102's contract rent represented 89 percent, and fell to 83 percent; 89106's contract rent represented 78 percent and fell to 76 percent; and 89107 represented 98 percent and fell to 93 percent.

The decline clearly demonstrates deterioration in the value of the multi-family housing stock in the proposed new Redevelopment Area. A failure to keep pace with the market is an indication of impaired investment and economic maladjustment throughout the study area.

As for economic maladjustment, median household (HH) income is used. Data from the 2009 through 2011 Las Vegas Perspective was used to make a determination of the level of economic maladjustment. The Perspective provides statistical information on 121 zip codes in Clark County. Median HH incomes in areas 89102, 89106, and 89107 in 2009 were $36,116, $33,305, and $46,535; for 2010 - $35,882, $33,357, and $46,398; and for 2011 - $36,715, $35,028, and $47,142. The city's median HH income in 2009 was $58,148 and for 2010 $58,432.

When you look at the 2000 Census data and the 2005-2009 ACS data for the median HH income, you will find that the 89102, 89106, and 89107 zip codes had a decrease in the percentage of the citywide median HH income. In 2000, 89102, 89106, and 89107 represented 73 percent, 63 percent, and 92 percent respectively. In the 2005-2009 ACS data, these three zip codes represented just 68 percent, 56 percent, and 88 percent of the citywide median HH income. This shows that there has been significant economic maladjustment in the proposed new Redevelopment Area.

To assess social maladjustment, we will look at crime statistics and educational levels for the three zip codes that encompass the proposed new Redevelopment Area. From an educational perspective, the national percentage of the population having attained a Bachelor's degree is 17.4 percent (ACS Summary – Census). The percentage for 89102, 89106, and 89107 are 8 percent, 6 percent, and 7.5 percent respectively.

When comparing crime statistics to the national median violent crime index of 4.5, obtained from NeighborhoodScout.com, you will see that 89102, 89106 & 89107 are much higher than the national median, the state's median (7.52) and the Las Vegas MSA (23.85). For violent crimes, the rate ranged from 13.94 to 42.86 in those three zip codes. For property crimes, the national median was 32.1, state median was 35.77, Las Vegas MSA median was 95.49, and the range for the three zip codes was 37.96 to 145.79.

Together, these two indicators demonstrate a significant economic maladjustment from the national levels of crime and education. This results in an area which exhibits the type of social maladjustment which is characteristic of a blighted community.

The proposed new Redevelopment Area suffers from depreciated property values, social and economic maladjustment. Every parcel being considered within the proposed new Redevelopment Area is blighted due to depreciating/deteriorating property values and social and economic maladjustment.

H. Growing, or Total Lack of, Proper Utilization

Growing or total lack of proper utilization of some parts of the area, resulting in a stagnant and unproductive condition of land which is potentially useful and valuable for contributing to the public health, safety and welfare.

This factor refers to the existence of one or more conditions (such as declining or slowly growing property values, or vacant land dispersed among developing properties) that indicate the economic health of an area is declining or stagnating, and that by themselves, or in combination with other physical and social conditions, prevent the private marketplace from economically using, maintaining, upgrading, developing or redeveloping the area.

This blighting characteristic was evaluated in relation to other blighting characteristics, such as the age, obsolescence, deterioration and dilapidation, mixed character; faulty arrangement of the interior and spacing of buildings; lots of irregular form, shape and inadequate size for proper usefulness and development; and economic and social maladjustment. Vacant properties, property zoned as Professional-Residence (P-R) and the overall economic viability of a property/parcel contribute to meeting blighting conditions and preventing private development to make an investment in the proposed new Redevelopment Area.

It is important to emphasize that while the numbers of parcels appear nominal, they have a major impact on the entire neighborhood. More importantly, they provide a dramatic indicator to the private sector that the risk of investing in these areas is likely to be much greater than others. In fact, since Las Vegas was one of the fastest growing cities in the country and the opportunities for the developer were so numerous, the likelihood of them investing in neighborhoods with the risk associated with underutilized property is extremely tenuous.

I. Loss of Population or Use

Loss of population and a reduction of proper use of some parts of the area, resulting in further deterioration and added costs to the taxpayer for the creation of new public facilities and services elsewhere.

The 2000 Census and the 2010 Census Summary provided statistics on population. The three zip codes included within the proposed new Redevelopment Area are 89102, 89106 and 89107. These zip codes were compared to the entire City of Las Vegas to provide perspective on population loss or stagnation.

This comparison proved extremely revealing demonstrating an overall stagnation within the proposed new Redevelopment Area. Between 2000 and 2010 the City of Las Vegas' population increased by 102,900 or 21% or 1.96% on an Annual Rate. In contrast, 89102 showed a **decrease** of **4%,** or a **-.46%** Annual Rate. 89106 showed a small **increase** of **.5%**, or a **.05%** Annual Rate. 89107 also had a minimal **increase** of **1%**, or a **.13%** Annual Rate. These anemic numbers, when contrasted to a City whose population increases make it one of the fastest growing cities in the country during this period, definitely indicates stagnation and decline. Couple these population figures with the other measures of deterioration previously reported verifies that the proposed new Redevelopment Area demonstrate a profound reduction in proper use of the Area and added costs to the taxpayer.

Summary

Of the 12 blight categories profiled, blight was identified in seven of them. Naturally the extent of this blight is more pervasive in some categories than others. Also, the magnitude of blight varies from Corridor to Corridor depending on the category. It is important to recognize that blight, even in minor numbers, has a substantial impact on deterioration of the entire area and a reluctance on the part of the private sector to contemplate new investment.

CONCLUSION

TABLE 2 provides a summary of the blight observed in the proposed Redevelopment Area. It is apparent that 100 percent of the parcels in the proposed Redevelopment Area are blighted in two categories. Similarly, a majority of all **704** parcels are considered dilapidated or deteriorated. This blight category is especially critical because deterioration of this nature has a tendency to spread to solidly maintained parcels quickly in challenging economic conditions.

In the last analysis, it has been clearly demonstrated that all parcels are blighted in some aspect and are further threatened by other parcels which are severely blighted. In short, it is apparent that the classic characteristics of blight delineated in NRS 279 are readily evident to the extent that they are detrimental to the public health, safety and welfare. These conditions exist in all three corridors of the proposed new Redevelopment Area to an extent where they predominate and may have injuriously affect to the entire proposed new Redevelopment Area.

TABLE 2

SUMMARY OF BLIGHT CONDITIONS
(704 Total Commercial Parcels)

Blight Factor	Blighted Parcels	Percent Blighted
A-1) Defective design* INCORPORATED IN A-4 BELOW	0	0%
A-2) Faulty arrangement & spacing of buildings	136	19%
A-3) Inadequate ventilation, light, sanitation, open spaces, and recreations facilities	0	0%
A-4) Age, obsolescence, deterioration, dilapidation, mixed character or shifting of uses	375	53%
B) Economic dislocation, deterioration or disuse	42	6%
C) Lots of irregular form, shape or size	45	6%
D) Lots in disregard to contours or other physical characteristics	0	0%
E) Inadequate streets, open spaces and utilities	0	0%
F) Lots which may be submerged	0	0%
G) Depreciated values, impaired investments, and social & economic maladjustment	704	100%
H) Stagnant and unproductive condition of land	61	8%
I) Loss of population resulting in further deterioration and added costs to the taxpayer	704	100%

RESIDENTIAL AREAS – Observations and Evaluation

There are three neighborhoods that are proposed for the new Redevelopment Area – Richfield Village; Las Verdes Heights; and Hyde Park Subdivision. Staff walked each neighborhood and noted the blighting conditions. Below is a summary of the findings.

There is obviously some ongoing reinvestment by some property owners. There is a visible on-going standard of maintenance and clear indications of pride of ownership on each block. The well manicured traditional lawns and landscaping, decorative fencing and patios are well planned, arranged and furnished as attractive outdoor rooms for entertaining, family and friends.

In contrast to those homeowners there are a substantial number of homes that exhibit deferred maintenance such as:

- Housing façades with bare wood components, gables ends, fascias, and trim that have years of peeling paint
- Buildings in general need of painting
- Variety of expedient, temporary patches on buildings
- Damaged roofs missing substantial shingles or other roofing material
- Roofs in need of major repair and or replacement
- Fascias and cornices deteriorated and separating from wall and /or roof systems
- Masonry repairs performed by non-qualified tradesmen, on walls, steps, porches, property fencing
- Dangerous masonry repairs that are not stable for the original purpose designed
- Wooden fences sagging, falling and fallen
- Old construction materials stored in yards or against the building
- Dead landscaping, dead trees, falling limbs left where they fell
- High weeds as fire hazard
- Front yards filled with concrete
- Front yards, side lots and ROW used for storage for vehicles, working and non-working- stored cars, trucks, boats, trailers, RV's and other debris
- Windows and doors with taped glass paned, or missing windows
- Hanging doors, not hung, appear to be non-functional
- Burned-out structures, partial and not occupied, left open to trespass; not posted or any indications of insurance repair or building permits, others having evidence of "intermittent owner repair"

Given the number of homes that exhibit the blighting conditions above, it can be determined that the neighborhoods have deteriorated to a point where private investment is no longer looking to invest in these neighborhoods. Programs and financial resources will need to be developed to address blight and disinvestment in the neighborhoods.

Re: Justification Letter – General Plan Amendment
Creation of New Redevelopment Area in Ward 1
(See Attached Draft Map of Proposed New Redevelopment Area)

Dear Mr. Fagg,

Please be advised that the Economic and Urban Development Department, on behalf of the city of Las Vegas Redevelopment Agency (the "Applicant"), is requesting to change the Future Land Use designation to Commercial, Mixed Use, Industrial, or Public Facilities on various parcels located within Ward 1 for the creation of a new Redevelopment Area.

The proposed new Redevelopment Area will encompass the following corridors:

- Sahara Corridor – East Boundary is the west side of the South I-15 ramp to West Sahara Avenue; North and South Boundary is West Sahara Avenue; and the West Boundary is the east side of South Rainbow Boulevard.
- Charleston Corridor – East Boundary is the west side of South Rancho Drive; North and South Boundary is West Charleston Boulevard; and the West Boundary is the east side of South Rainbow Boulevard.
- Decatur Corridor – South Boundary is the north side of West Sahara Avenue; East and West Boundary is South Decatur Boulevard; and North Boundary is generally the south side of the US 95.

In addition, the proposed new Redevelopment Area 2 will include three existing Low Density Residential Areas that will be part of the new Redevelopment Area. The three Low Density Residential Areas are:

- Meadows Neighborhood Preservation – Essex Circle – bounded by Charleston Blvd., to Decatur Blvd., to Alta Drive, and then to Bedford Road.
- Richfield Neighborhood Association –Beginning at Sahara Avenue, to Rye St., (Tract Block Group Boundary, then to the Precinct Boundary), then to Wyandotte Street, then to the intersection of Wilmington Way & Kings Way, then to Teddy Drive and then to Sahara Avenue.
- Neighborhood adjoining Sahara Avenue at Valley View, then proceeding to Arville Street, then to Tara Avenue, and then to Valley View.

CITY OF LAS VEGAS
400 STEWART AVENUE
LAS VEGAS, NEVADA 89101

VOICE 702.229.6011
TTY 702.386.9108
www.lasvegasnevada.gov

The City of Las Vegas Redevelopment Agency (RDA) will be able to provide staffing to the proposed new Redevelopment Area 2 to address the conditions of blight and provide the necessary financial resources and RDA programs to property and business owners and revitalize Redevelopment Area 2.

We believe this General Plan Amendment proposed to create a new Redevelopment within Ward 1, with the proposed Land Use designations are selected based on the long-range goals of the current Master Plan Land Use designations and Zoning Classifications. The General Plan Amendment will make the current uses more consistent with the General Plan.

Thank you for your consideration of this request.

Sincerely,

Scott D. Adams
Chief Urban Redevelopment Officer

Enclosure

RE: JUSTIFICATION LETTER | Variance for Setbacks for a Carport Addition at 2300 E Mesquite Ave, Las Vegas, NV (R-1)

Mike

Mr & Mrs William Wiseman bought their dream home in 1970, located at 2300 E Mesquite in Las Vegas. At the time of the purchase the 50'x127' lot contained a comfortable home and modest garage adjacent to the alley at the rear yard. Now retired, the Wisemans wish to build a carport in the front yard to protect their vehicles and themselves as they walk from their home to their cars. Since the existing garage was built to house a small single vehicle, it is now too small to store their cars.

We are requesting a variance to reduce the required setbacks from 20'-0" to 3'-0" at the front yard, and from 15'-0" to 6'-0" at the side corner yard. This will provide a location for an engineered, metal carport that offers weather protection from the north for the Wiseman's vehicles and persons. What we wish to achieve by constructing this carport is protection from the sun – providing added life to a retired couple's vehicles – and protection from potential slippage due to northern rains falling on the existing drive – a safety issue for the owners.

Additionally, please note that the location of this carport in relationship to the property lines and setback requirements for an R-1 zoned lot in this area has some history - as several lots in the area also contain carports (metal and wood) built within the required setbacks, next to the existing property lines.

Finally, know that Mr Wiseman has spoken to his nearest neighbors and received verbal acceptance to construct the carport. It is obvious to us that the Wisemans' neighbors do not believe the carport will cause any health, safety, or aesthetic issues for them; and we hope that the Commission will grant permission to construct it.

Please contact me at the phone number or email listed below for additional information about this project.

Sincerely

Monica M Gresser

RE: VAR-39148 – VARIANCE
CITY COUNCIL MEETING OF OCTOBER 20, 2010
Related to SUP-39149 and SDR-39147

Dear Mr. Nady:

The City Council at a regular meeting held October 20, 2010 APPROVED the request for a Variance TO ALLOW A ZERO-FOOT SIDE YARD SETBACK WHERE EIGHT FEET IS REQUIRED FOR ACCESSORY STRUCTURES on 1.94 acres at 1500 Searles Avenue (APN 139-26-201-004), C-M (Commercial/Industrial) Zone. The Notice of Final Action was filed with the Las Vegas City Clerk on October 21, 2010. This approval is subject to:

Planning and Development

1. Approval of and conformance to the Conditions of Approval for Special Use Permit (SUP-39149) and Site Development Plan Review (SDR-39147) shall be required, if approved.

2. This approval shall be void two years from the date of final approval, unless a final inspection has been completed. An Extension of Time may be filed for consideration by the City of Las Vegas.

3. Prior to occupancy, all necessary building permits shall be obtained and final inspections shall be completed in compliance with Title 19 and all codes as required by the Building and Safety Department.

4. These Conditions of Approval shall be affixed to the cover sheet of any plan set submitted for building permit.

5. All City Code requirements and design standards of all City departments must be satisfied, except as modified herein.

Sincerely,

Angela Crolli

To Whom It May Concern:

Enclosed please find the required application materials associated with the following requests:

- Site Development Review for an existing Taxi Yard
- Special Use permit to allow outdoor storage in a required setback
- Parking variance for the required number of spaces.

A Cab Taxi Co. is currently operating from their site located on a 1.89 acre site located at 1500 Searles Avenue. The site is currently zoned C-M. A Cab has been operating out of the Searles location for approximately 18 months.

Accessory buildings on site reflect the site's use for limited maintenance of company owned vehicles. Auto Repair Garage (Minor) and Auto Paint and Body Repair Shop are both Conditional Uses in the C-M zone, and any maintenance performed on site will consist only of preventative or basic maintenance such as oil changes, tire changing, and minor paint jobs to keep the taxis prepared for their usual schedules. No fueling services will be offered, and more intense body work, such as that associated with vehicles involved in collisions, will be performed elsewhere. As required, the repair and service work will be performed within the proposed building in an area which will be completely enclosed.

SDR 39147 approved in November 2010, approved a site that had storage containers on the north side of the site creating a buffer from the right of way. This application adds storage containers on the south side creating a buffer from the right of way. The containers are painted to simulate a brick wall. Also, with the addition of these containers, the parking count has been reduced from 133 to 113 creating the need for the variance. Lastly, the repair garage was approved at 5000 sf, but has been reduced to 4,985 sf to negate the need for fir sprinklers.

With this letter we are requesting the following applications:

A Site Development Review to allow the relocated parking, storage containers, removed masonry walls at north and south property lines and the reduction in SF for the repair garage.

A special use permit to allow outside storage within the rear setback at the south end of the property. This will help to provide a buffer from the site to the street and will provide a continuous landscape strip. The outdoor storage percentage is within the allowed amount.

A variance to allow 113 parking spaces where 133 are required. There are 47 spaces for taxis and 66 spaces for the employees. There is never a time when all taxis would be parked on site since it is against the taxi cab authority to have all taxis parked at one time. There are 67 taxis in the A Cab fleet. In addition to this variance request, we are working on a text amendment that would change the amount of required taxi parking (.5 space per taxi) and would negate the need for the parking variance. Please see attached for letter to Flinn Fagg dated 11.08.11.

Previously approved SDR-43399 approved a waiver of landscape along the east property line. This application does not affect that waiver.

If you have any questions or need additional information regarding anything with respect to these requests, please do not hesitate to contact my office.

Sincerely,

Kristen G. Neuman

RE: SUP-39149 – VARIANCE
CITY COUNCIL MEETING OF OCTOBER 20, 2010
Related to VAR-39148 and SDR-39147

Dear Mr. Nady:

The City Council at a regular meeting held October 20, 2010 APPROVED the request for a Special Use Permit FOR OUTDOOR STORAGE, ACCESSORY WITHIN THE REQUIRED SETBACK AND LANDSCAPE BUFFER AREA ALONG THE WEST PERIMETER at 1500 Searles Avenue (APN 139-26-201-004), C-M (Commercial/Industrial) Zone. The Notice of Final Action was filed with the Las Vegas City Clerk on October 21, 2010. This approval is subject to:

Planning and Development

1. Conformance to all Minimum Requirements under LVMC Title 19.04.010 for the Outdoor Storage, Accessory use.

2. Approval of and conformance to the Conditions of Approval for Variance (VAR-39148) and Site Development Plan Review (SDR-39147) shall be required.

3. This approval shall be void two years from the date of final approval, unless a final inspection has been completed. An Extension of Time may be filed for consideration by the City of Las Vegas.

4. Prior to occupancy, all necessary building permits shall be obtained and final inspections shall be completed in compliance with Title 19 and all codes as required by the Building and Safety Department.

5. These Conditions of Approval shall be affixed to the cover sheet of any plan set submitted for building permit.

RE: Big Dogs Nellis & Van Buren – 1511 North Nellis Boulevard

Request: SDR for Site & Building Renovations and Variances to Create a Conforming Use, Site, Building & Signage
Related Cases: SUP-33253 & VAR-33848
APN#s: 140-29-510-026 & 027

Dear Mr. Fagg:

On behalf of our client, Nevada Restaurant Services Inc., please accept this justification letter for a Site Development Plan Review and Variances to allow the existing Big Dogs to undergo a renovation of the site, sign face and building that will both be a major reinvestment into a deteriorating neighborhood as well as major upgrade to the property. It will also bring it into substantially greater conformance with the existing City codes. This project is located on two parcels comprising 0.63 +/- net acres located at the northwest corner of Nellis Boulevard & East Van Buren.

The request is for an SDR to change the exterior elevations and revise the parking layout to add a sidewalk and landscaping. The waiver and variance requests are to enable the use, site, building, and signage to be lawfully conforming in order to protect the significant reinvestment into the property. The two existing lots will be combined into a single lot.

At this time the following are believed to be lawfully non-conforming: the limited non-restricted gaming; building setbacks on the north and east; the freestanding sign; the parking landscaping; and the perimeter landscaping. The required parking will be in excess of the required parking: 26 spaces (VAR-33848). With the combination of the two parcels and parking redesign there will be 41 spaces.

Surrounding Land Use & Zoning Characteristics

The current zoning for the property is General Commercial (C-2). The limited non-restricted gaming use has been in existence since the late 1950s and is still active currently. The building underwent some revision when Big Dogs took ownership in the 1990s.

The General Plan designates this area along Nellis as General Commercial. There are no recent changes in land use as the area has been developed for many years and essentially remains unchanged. The actual structures are generally in a state of decline and not compliant with current codes.

RECEIVED
NOV 23 2011
City of Las Vegas

GCGARCIA
A Planning & Development Services Corporation
1711 Whitney Mesa Drive, Suite 110, Henderson, Nevada 89014-2158
Telephone: 702 435 9909 Facsimile: 702 435 0457 E-Mail: ggarcia@gcgarciainc.com

VAR-43994
SDR-43995

The entire nearby area along Nellis is C-2 in both the City and County, with R-E behind the commercial frontages. The actual abutting land uses are predominantly mini storage in the commercial areas to the north and south. There is a one lot residential home to the west of the Big Dogs parking. The actual dwelling sits behind the mini storage with the dirt portion of the lot against the Big Dogs parking.

SITE DEVELOPMENT REVIEW REQUEST

There is currently no landscaping along the perimeter of Van Buren or within the parking lot. No sidewalk exists along Van Buren. The building will be transformed by removing a blank wall covered with signage to an attractive façade with windows and accents thereby creating an inviting business with curb appeal.

The proposed plans will add the sidewalk, perimeter and parking lot landscaping. Additionally, desert landscaping will be substantially enhanced on the "hard" corner around the base of the existing pole sign and south side of the building.

Waivers Requested:

1) Landscape Buffer 0 feet where 15 feet is required (LVMC 19.08.080 Table 4.A
   Justification: The existing building provides for architecture forward creating a more walkable and sustainable. The renovation will create a street façade conducive to a street scene. Nellis may have widened to its current level of ROW over time.

2) Parking Lot Landscaping (LVMC 19.080.110) one tree exceeds 30 foot on center requirement.
   Justification: Currently no parking lot or perimeter landscaping is provided. The renovation will dramatically improve the absence of landscaping with the addition of some parking lot and perimeter landscaping.

3) Sign Height: Approximately 60' where 40' is allowed.
   Justification: The existing sign will be refaced as part of the renovation will conform to the current sign code area requirements. The sign character and height is consistent with the gaming use, history and character of the site.

Approval Criteria for a Review of Site Development Plans LVMC 19.16.100

The purpose of the proposed a Site Development Plan Review is to ensure consistency with the General Plan, Unified Development Code & Design Standards Manual; the contribution to the long term attractiveness of the City its economy and the public health, safety and general welfare. The suggested amendments helps the Plan come into close compatibility with the new code and recognizes that the proposed uses provide an appropriate balance in what is permitted outright or requires Special Use Permits.

E. Criteria for Review of Site Development Plans—Approval

In order to approve a proposed rezoning, the Planning Commission or City Council must determine that:

1. *The proposed development is compatible with adjacent development and development in the area;*

   The use will remain unchanged. The addition of the sidewalk, landscaping, and building enhancements create a far more compatible use then exists today.

2. The *proposed development is consistent with the General Plan, this Title, the Design Standards Manual, the Landscape, Wall and Buffer Standards, and other duly-adopted city plans, policies and standards;*

   The General Plan encourages Revitalization that helps improve and stabilize the neighborhood. The land use conforms to the General Plan.

RECEIVED
NOV 23 2011
City of Las Vegas

VAR-43994
SDR-43995

The architectural changes and enhancements to the building and site help make the area more attractive, walkable, safe and inviting. The changes while not strictly meeting all standards for new development. The 2020 policy does suggest incentives for relaxing standards when balanced against the quality of the improvements.

3. *Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;*

   The use and basic site design, as to building and parking, remain unchanged do there will be no negative traffic impact.

4. *Building and landscape materials are appropriate for the area and for the City;*

   The plant materials will be from the approved plant palette and sustainable given their locations. Exterior wall materials will be stucco. There will be a change in the roof line elevation to add character along with a cornice and stucco break lines on the front and rear elevations.

5. *Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;*

   As described above and based on the site and building plans provided, the aesthetics and compatibility of the building will be enhanced and remove some features that could be considered unsightly or undesirable in appearance. The design will be far more attractive and harmonious while establishing a baseline for future revitalization projects in the area.

6. *Appropriate measures are taken to secure and protect the public health, safety and general welfare.*

   The site is not experiencing any issue currently. The new owner and operator have a history of providing safe and secure environment for its customers and do not attract customers that are prone to such activities. The general welfare will be promoted by the reinvestment into an older deteriorating area; the jobs and tax revenue created; the enhanced appearance and the completion of sidewalks.

VARIANCE REQUESTS:

1) Side yard setback of 0 feet where 10 feet is required (LVMC 19.08.080 Table1)

2) Front yard setback of 0 feet where 20 feet is required (LVMC 19.08.080 Table1C)

Prior Variance Approval: Parking to 26 spaces (VAR-33848)

Approval Criteria for a Variance LVMC 19.16.140

1. *Is not available to permit a use in a zoning district in which the use is not allowed, or to vary any minimum spacing requirement between uses: and*

   The proposed request if approved will not change the use. The current use as a limited non-restricted gaming facility with a tavern license will remain regardless of this request.

RECEIVED
NOV 25 2020
City of Las Vegas

2. *Shall not be granted in order to relieve a hardship which is solely personal, self-created or financial in nature.*

VAR-43994
SDR-43995

The use and building date back to 1959 when Nellis was a small street and the City and neighborhood were completely different in the plans, regulations and surrounding development in the area. With growth Nellis Boulevard became a major arterial and the City plans and regulations evolved many time over. Today, with the area growing and now in decline, the 2020 Plan policies encourage flexibility and incentives for revitalization by relaxing the regulations. The conditions were not created by the applicant and the benefits will also inure to the community at substantial cost to the applicant and which are not required to continue the operation of the use.

The proposed changes now sought are to help encourage the major reinvestment and enhancements to the building and site which benefit the surrounding properties and neighborhood. The variances sought to the setback, parking lot and perimeter landscaping will not reduce the quality of development but will help bring the property into closer compliance with current regulations and the goals and policies of the City.

SUMMARY JUSTIFICATION

In summary, we believe the requested SDR & Variances will enable revitalization through private reinvestment to improve the economic stability of the area and provide for business opportunity, jobs, and taxes while improving the safety, appearance and sustainability of the property. Without this assistance the applicant cannot be assured that the investment into the property will be lost through a calamity under the non-conforming regulations

We respectfully request you favorable consideration of this request. Please contact me if you have any questions or need additional information.

Sincerely,

George Garcia,
President

SDR 43995
Nevada Restaurant Services

NWC Nellis Boulevard & Van Buren Avenue

Proposed 5.785 thousand square foot high-turnover (sit-down) restaurant.

Traffic produced by proposed development:

Proposed Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	HIGH-TURNOVER (SIT-DWN) RESTRNT [1000 SF]	5.785	127.15	736
AM Peak Hour			11.52	67
PM Peak Hour			10.92	63

(heaviest 60 minutes)

Previous Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	HIGH-TURNOVER (SIT-DWN) RESTRNT [1000 SF]	4.487	127.15	571
AM Peak Hour			11.52	52
PM Peak Hour			10.92	49

Net Change	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	HIGH-TURNOVER (SIT-DWN) RESTRNT [1000 SF]	1.298	127.15	165
AM Peak Hour			11.52	15
PM Peak Hour			10.92	14

Existing traffic on all nearby streets:

Nellis Blvd.

Average Daily Traffic (ADT)	36,975
PM Peak Hour	2,958

(heaviest 60 minutes)

Owens Ave.

Average Daily Traffic (ADT)	11,950
PM Peak Hour	956

(heaviest 60 minutes)

Traffic Capacity of adjacent streets:

	Existing Street Capacity
Nellis Blvd.	51,800
Owens Ave.	34,500

This project is expected to add approximately 165 trips per day more than the previous use on Nellis Boulevard, Owens Avenue and Van Buren Avenue. Nellis is currently at about 71 percent of capacity and Owens is at about 35 percent of capacity. After this project is added, Nellis is expected to be at about 72 percent of capacity and Owens to remain at about 35 percent of capacity. Counts are not available for Van Buren Avenue, but it is believed to be under capacity.

Based on Peak Hour use, this development will add roughly 15 additional cars into the area, which works out to about one every four minutes.

Note that this report assumes all traffic from this development uses all named streets.

Re: Dollar General Store
LVEP ARC Approval for Meetings 1 and 2

Dear Ms. Belsick:

Thank you for presenting the Dollar General Store (Project) to the Las Vegas Enterprise Park (LVEP) Architectural Review Committee (ARC) for Meetings 1 and 2 as described in Section VII of the LVEP Covenants, Conditions and Restrictions (CCRs).

Please be advised that the ARC has approved the Project for Meetings 1 and 2 of the CCRs, subject to the following conditions:

- All roof mounted equipment shall be screened from public view looking towards the north, east and south elevations of the building. (The ARC will defer to the City of Las Vegas Planning & Development and/or Building & Safety Departments to determine the acceptable methods and materials to be used for screening the roof mounted equipment.)

- The exterior lighting, irrigation and signage plans for the Project shall be submitted to the ARC for review and approval along with all of the items called for in Meeting 3 of the CCRs.

Please contact me to schedule another review meeting when the exterior lighting, irrigation and signage plans as well as all of the items for Meeting 3 are ready for submittal to the ARC.

Best regards.

WE Project No. 1217.00

City of Las Vegas
Planning and Development Department
333 North Rancho Drive
Las Vegas, Nevada 89106

RE: Justification for Site Development Plan Review and Special Use Permit for the Dollar General Market Project Located on the SWC of Lake Mead and Martin Luther King in the City of Las Vegas (Portion of APN: 139-21-313-009)

To whom it may concern:

We are pleased to submit this justification letter on behalf of Dynamic Development Company, LLC for a proposed commercial project located on Lake Mead just west of Martin Luther King on a portion of Clark County Assessor's number 139-21-313-009 in the City of Las Vegas. The project will consist of a new Dollar General Market and associated site improvements. The project is located within the existing *Las Vegas Enterprise Park* Land Use Area are and is currently zoned C-1. The corresponding applications are a Site Development Plan Review and a Special Use Permit.

Dollar General Market is a proposed 20,700 square foot building which will serve the needs of the surrounding residents and businesses with grocery and retail items. The store will have approximately 40 full time employees which will bring new jobs to this area. The store hours will be 8 am to 9 pm seven days a week, with the possibility of operating 24 hours per day. The project site is currently vacant and this will be the anchor tenant for the future development to the east between this site and the existing McDonalds at the SWC of Lake Mead and Martin Luther King.

The proposed site plan has been designed to meet the intent of the *Las Vegas Enterprise Park* plan and meet the intent of City of Las Vegas Title 19 as well. The project will include the installation of one driveway onto Lake Mead and will also provide cross access through the future commercial development to the east to Martin Luther King providing the best possible circulation for the overall center once it is fully developed.

CITY OF LAS VEGAS
PLANNING & DEVELOPMENT

SUP-43927
SDR-43929

The proposed Dollar General Market will be a retail/grocery establishment with accessory package liquor off-sale, beer/wine/cooler off-sale, and up to 15 slot machines for the customers. For these items, we are respectfully requesting a Special Use Permit in conjunction with the Site Development Review.

The proposed market is compatible with the adjacent development and development in the area and will provide valuable services to the community. The development will not have an adverse effect to public health, safety or welfare. We look forward to working with City of Las Vegas Planning for a favorable recommendation for this project. Please do not hesitate to contact me at 873.5197 if you have any questions or require any additional information.

Sincerely,

NOV 17 2011

Revised 10/27/08

SDR 43929
Dynamic Development Company, LLC

SEC Martin L. King Boulevard & Lake Mead Boulevard

Proposed 20.7 thousand square foot supermarket.

Traffic produced by proposed development:

Proposed Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	SUPERMARKET [1000 SF]	20.7	102.24	2,116
AM Peak Hour			3.25	67
PM Peak Hour			10.45	216

(heaviest 60 minutes)

Existing traffic on all nearby streets:

Martin L. King Blvd.

Average Daily Traffic (ADT)	29,050
PM Peak Hour	2,324

(heaviest 60 minutes)

Lake Mead Blvd.

Average Daily Traffic (ADT)	17,813
PM Peak Hour	1,425

(heaviest 60 minutes)

Traffic Capacity of adjacent streets:

	Existing Street Capacity
Martin L. King Blvd.	51,800
Lake Mead Blvd.	51,800

This project will add approximately 2,116 trips per day on Martin L. King Boulevard and Lake Mead Boulevard. Martin L. King is currently at about 56 percent of capacity, and Lake Mead is at about 34 percent of capacity. After this project is added, Martin L. King is expected to be at about 60 percent of capacity and Lake Mead to be at about 38 percent of capacity.

Based on Peak Hour use, this development will add roughly 216 additional cars into the area, which works out to about seven every two minutes.

Note that this report assumes all traffic from this development uses all named streets.

Re: Special Use Permit to allow a conglomerate of vendors to share a retail area (Swap Meet: Indoor) within Tivoli Village at Queensridge 420 Rampart Blvd, Suites 150, 240

Dear Sir/Madam;

Please consider this request to allow approximately 55 vendors to conduct business within two suites located in the Tivoli Village mixed use center. The operation is named "The Market LV." The operator will lease upwards of 22,000 SF space located on two levels in an existing building. A combination of carts, showrooms, kiosks, and display furnishings are form a layout designed to lead patrons past each establishment. Each kiosk/showroom is licensed to different vendors offering unique products. Examples of lessee's include artisans specializing in jewelry, stationary, candles, flowers, spices, pillows as well as fine food and wine specialists.

The proposed operation is categorized as a "Swap Meet" in the Title 19 use table. The description of a swap meet provides for a conglomerate of merchants to deal within an area obtained by a management company. This establishment is entirely indoors and uses signage previously approved in Tivoli Village's Master Sign Plan. The elevations indicate signage will read '*The Market LV*'; the operation will not hold itself out to be a Swap Meet. By definition, a Swap Meet allows for bartering, exchanging or trading new or used items. This operator limits transactions to retail sales. All vendors will sell new items with the exception of antique dealers that have used items in inventory.

This market is modeled after the operator's existing "the OC mart Mix" located in Costa Mesa California. Photos of the interior of the existing operation are enclosed.

If you have additional concerns please phone me at 598-1408.

Very truly yours,

L U Dreja

Re: **JUSTIFICATION LETTER -** SUP Application re APN's 139-34-510-019, 139-34-514-007 & 008 & 009 , 139-34-501-009 &010,

Dear Mr. Fagg:

Please accept this as the Applicant's official justification letter for an SUP application for an increase to the gaming area concerning the expansion and remodel of the Lady Luck Hotel & Casino located on 3.12 acres at 206 North 3rd Street and 220 North 4th Street zoned C-2 (General Commercial).

The existing gaming area is currently approximately 21,720 SF and the Applicant is requesting and additional 10,780 SF for a new total gaming area of 32,500 SF.

The proposed additions to the existing gaming are will further enhance the revitalization of Downtown by making it a destination that attracts tourists and locals as well as assist in the success of the Mob Museum. This will not change the history and culture that has been well established in Downtown, but will rather create more energy and help enhance the attractiveness of the Downtown Renaissance. This application is 'in-line' with the vision of the Centennial Plan and will further help change the face of Downtown and spark the Renaissance that is currently stalled. The renovation will further enhance the beautification and revitalization of Downtown.

If you have any questions and/or concerns, please do not hesitate to contact me.

Sincerely,

Todd Kessler

Todd Kessler
Representative for the Applicant

Justification Letter

Re: 1110 Bonneville Ave.
APN – 139-34813-012

Issue Presented – Whether a Special Use Permit should be approved for 1110 Bonneville Ave. to allow for a Bail Bond Company (Rescue Bail Bonds) to conduct business at that location. Pursuant to Title 19.18, a Bail bond Company is an establishment that makes available to the public undertakings of bail in connection with judicial proceedings.

This request is made on behalf of the owner of Rescue Bail Bonds, Lamar Kruitbosch. Previously, Rescue Bail Bonds had been in operation for over a decade at 505 Bonneville Ave. Unfortunately, on February 9, 2011 that location burned in a fire.

Subsequent to the fire, Rescue Bail Bonds had a temporary office located in a competing bail bond office near Charleston and Mojave. Presently Rescue Bail Bonds would like to conduct business at 1110 Bonneville Ave. The location is less than a mile from Rescue's previous office at 505 Bonneville Ave. It is centrally located near the jail and near local attorney offices. Previous clients are familiar with the location.

Rescue Bail Bonds employs only one person.
The hours of operation are business hours 9am to 5pm. Thereafter by appointment.
Applicant owns no other Bail Bond Company.
Rescue Bail Bonds is licensed by the State of Nevada Division of Insurance. Proudly, Rescue Bail Bonds has never been disciplined by its regulatory body.

Most of the area around 1110 Bonneville is comprised of businesses. Attorney offices, accountants and medical professionals. The tenant prior was a paralegal. He was at the location for several years.

The proposed use is harmonious and compatible with the surrounding uses. Additionally, the subject site is physically suitable for the type and intensity of land use being proposed. The street facilities providing access to the property are adequate in size to meet the requirements of the proposed use. Finally, approval of the special use permit at this site will not be inconsistent with the public health, safety, and welfare of the overall objectives of the general plan.

The special use permit should be **APPROVED**.

Osvaldo Fumo
Representative of Rescue Bail Bonds.

JUSTIFICATION LETTER

To whom it may concern,

The following letter is to inform you of the plans we have for the business listed above. We are currently licensed as a convenience store with beer/wine, tobacco, gaming and grocery. We have been in business at this location since April 12, 2010. We now want to enhance our business by adding a package-liquor off sale license. Please feel free to contact me, James Shoshani with any questions or concerns.

Thank You,

RE: Justification for Special Use Permit for Secondhand Dealer License

To whom it may concern:

Please consider this justification for a Special Use permit for 1208 E. Charleston Blvd. The location will be used as a Secondhand Dealer retail store. We will be applying for a Privilege License for Secondhand Dealers.

Initially, there will be one employee in charge of the secondhand store. This location will be run in conjunction with the stores next door at 1200 E. Charleston Blvd and 1125 S. Maryland Pkwy. We will be open Monday-Saturday from 9am-6pm.

Currently, the location at 1200 E. Charleston is in use as a retail store selling new furniture and accessories. There are currently several other secondhand dealers in the surrounding area, and a large number of potential customers who come into the existing store are in search of used items. Because of this, it can be inferred that not only will the proposed use be compatible with existing surrounding land uses, but there is still a need in the area for this type of store.

The commercial square footage to be used will is 7,000 square feet. The surrounding lot is over an acre and will be used for the necessary parking spaces. There will be a minimum of 28 parking spots.

With approval and Privilege Licensing we will abide by the guidelines set forth in Chapter 6.74 which will prevent compromising the public safety and welfare of our customers and surrounding neighborhoods.

RE: Justification for Special Use Permit for Secondhand Dealer License

To whom it may concern:

Please consider this justification for a Special Use permit for two locations: 1) 1200 E. Charleston Blvd., 2) 1125 S. Maryland Pkwy. We would like to open secondhand retail stores at the aforementioned locations. We will be applying for a Privilege License for Secondhand Dealers.

The two addresses are adjacent and would be run by a single company. Initially, there will be one employee in charge of the secondhand stores. We will be open Monday-Saturday from 9am-6pm.

Currently, the location at 1200 E. Charleston is in use as a retail store selling new furniture and accessories. There are currently several other secondhand dealers in the surrounding area, and a large number of potential customers who come into the existing store are in search of used items. Because of this, it can be inferred that not only will the proposed use be compatible with existing surrounding land uses, but there is still a need in the area for this type of store.

Both locations are already set up for retail sales. Per the parking space requirements for secondhand dealers there must be 1 parking space for every 250 square feet of floor space. The store at 1200 E. Charleston Blvd. is 4,999 square feet and there are 30 parking spots in front, which are accessible from both Charleston Blvd. and Maryland Pkwy. There are another 17 parking spots accessible from Maryland Pkwy. for the store at 1125 S. Maryland Pkwy. That location has 3,750 square feet of floor space.

With approval and Privilege Licensing we will abide by the guidelines set forth in Chapter 6.74 which will prevent compromising the public safety and welfare of our customers and surrounding neighborhoods.

Thank you for your time and consideration,

Re: **3810 North Jones Boulevard, Las Vegas, Nevada**
Application for Special Use Permit, and Site Development Review
Justification Letter

Ladies and Gentlemen:

Special Use Permit:

This Justification Letter is sent in support of the Application of Vegas Wash LLC. The special use permit for which application is made is required in order to authorize the continued use of this property as a self-service carwash facility. The previously non-conforming use of the site expired September 29th, 2011. The business license expired as a result of the foreclosure by the Community Bank of Nevada of this property, which occurred June 6, 2008.

The site was annexed by the City of Las Vegas in its current configuration in 2001. The general plan currently designates this property as SC (Service Commercial)

The property in question consists of an approximately 0.80 acre tract of land located on the east side of North Jones Boulevard. The property has been improved with a one-story building which contains self-service carwash bays and a maintenance room. Additional site improvements include asphalt parking and drives, a perimeter block wall and a canopy covered vacuum use structure together with areas of landscaping. The improvements to this property were constructed in 1999. Vegas Wash desires to operate the property as a self-service carwash, essentially continuing the same use as has previously existed on this property since its construction in 1999. Vegas Wash requests that a special use permit be issued which will reinstate and allow the continued historic use of the property as a self-service carwash.

RECEIVED
NOV 23 2011
City of Las Vegas
Department of Planning

SUP-43999
SDR-43997

The real property has access directly from North Jones Boulevard. In addition, we request waivers of the minimum special use permit requirements that opening to the wash bays shall not face the public right-of-way, that the use not be located within 200 feet of residential property unless separated by a street. The parcel is separated by a block wall from residential property which is nearby, as shown on the site maps.

Any other use of this property would require that the improvements which have been in existence for more than 10 years be demolished and expensive reconstruction would be required for any other use. To the best of our knowledge, this property has been used as a self-service carwash continuously without objection as to such use from surrounding property owners since it was first constructed. It is therefore requested that the use be continued to be approved through the issuance of the special use permit requested herein to reestablish this self-service carwash use.

Site Development Review:

The original design of this wash facility anticipated an unsupervised operation; therefore no provisions were incorporated for on-site management. We believe that we can offer a better customer experience and better protect our investment by providing on-site staff as such we need to construct the facilities required such as offices and bathroom facilities. The current facility has 7 self-serve bays and 1 automatic bay. We would like to modify 2 of the self-serve bays to accommodate offices, add a bathroom in the existing equipment room and partially enclose the existing vacuum canopy to house the smog testing equipment and provide storage for carwash products.

We are requesting permission to create approximately 1250 square feet of office space and 1000 square feet of space to be utilized as a combination smog facility and storage space. Additionally we will be adding a bathroom facility. The Proposed site plan will provide the required parking spaces for the additional occupancy at a rate of 1 space per 300 square feet of office space.

We are asking for a waiver of the 8' landscaping buffer along the east side of the property. The original design for this property did not require the buffer and the area where the buffer would be located is currently fully paved and the designated parking area for the carwash facility.

Sincerely,

Don Robinson
Vegas Wash

SDR 43961
John Staluppi, Jr.

7000 W Sahara Avenue

Proposed 18.737 thousand square foot car dealership.

Traffic produced by proposed development:

Proposed Use	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	NEW CAR SALES [1000SF]	18.737	33.34	625
AM Peak Hour			2.05	38
PM Peak Hour			2.64	49

(heaviest 60 minutes)

Existing traffic on all nearby streets:

Sahara Ave.

Average Daily Traffic (ADT)	36,588
PM Peak Hour	2,927

(heaviest 60 minutes)

Rainbow Blvd.

Average Daily Traffic (ADT)	51,713
PM Peak Hour	4,137

(heaviest 60 minutes)

Traffic Capacity of adjacent streets:

	Existing Street Capacity
Sahara Ave.	51,800
Rainbow Blvd.	51,800

This project will add approximately 625 trips per day on Sahara Avenue and Rainbow Boulevard. Sahara is currently at about 72 percent of capacity, and Rainbow is at capacity. After this project is added, Sahara is expected to be at about 72 percent of capacity and Rainbow to be at about capacity.

Based on Peak Hour use, this development will add roughly 49 additional cars into the area, which works out to about one every minute.

Note that this report assumes all traffic from this development uses all named streets.

JUSTIFICATION LETTER

The following is a brief explanation justifying the request for a Site Development Review and detailing the intended use of the property. This request is being submitted in order to seek permission to construct a new Mazda franchised automobile sales and service facility to be built on APN 163-03-806-013, adjacent to 7000 West Sahara Avenue. The property in question is currently zoned C-2 (General Commercial) and is presently in use as a part of the existing Acura of Las Vegas franchised automobile sales and service facility. Of the slightly more than 8 acres that are currently in use by the Acura facility, some 3.5 acres will be separated for the new Mazda facility.

The new Mazda dealership will be owned and operated by Mr. John Staluppi Jr. Mr. Staluppi currently owns and operates not only the Acura dealership, but also Planet Nissan, Henderson Nissan, Centennial Buick-GMC and Centennial Mazda as well. The new Mazda dealership will create more than 100 construction related jobs and approximately 40 new permanent jobs. The facility will be open for business for service from 7am until 6pm, and for sales from 8am until 9pm Monday through Saturday. The business will be closed on Sundays in accordance with Nevada law. It will be necessary for Mr. Staluppi to acquire both State and City Business Licenses, and also a DMV&PS Dealers License.

We feel justified in making the request to build this facility at this location because there are auto dealerships adjacent to proposed facility on both sides of this site. The general area of West Sahara Avenue has 7 other auto dealerships practically all in a row. Desert BMW, the proposed Mazda site, Acura of Las Vegas, a vacant Courtesy dealership, Planet Hyundai, Gaudin Jaguar-Porsche and Fletcher Jones Mercedes-Benz are all located next to each other in this area of West Sahara Avenue and therefore is most compatible with the adjacent business.

The project meets and supports all existing planned uses for the area and currently seeks no waivers or variances of any kind. As mentioned earlier, the site is currently in use as part of the existing Acura dealership and has maintained a strong and positive working relationship with both City Officials and the surrounding neighbors alike.

Thank you for your time and consideration. Should you have any questions or require additional information, please don't hesitate to contact me.
