City Clerk
1st Floor, City Hall
400 Stewart Street
Las Vegas, Nevada, 89101

Dear Sirs:

RE: RQR 19512

In response to the notification of the above matter, scheduled to be heard on May 2, 2007, kindly record this as our approval of the proposed land use change.

As there are two existing similar facilities, including one veterinarian, already located within the 1000 foot radius indicated on the property map, there is absolutely no objection to adding another. The special use permit, SUP 7299, should be granted.

Sincerely,

Lawrence P. Mooney

Protest

Reference: RQR-19521¹²

Dear Ms. Bridges;

In reference to the Special Use Permit (SUP-7299), I am submitting my comments for your consideration. More than a year ago, I submitted my first set of comments opposing the approval of SUP-7299. I would like to restate that same position. I find the location of a proposed horse corral and/or stable for 33 horses on 4.94 acres at 5840 West La Madre Way most objectionable. I have resided in the adjacent community of Los Prados for the last 18 years. Many of the residents of this adult community are seniors and suffer respiratory ailments. In my case, I suffer from allergies, asthma and chronic bronchitis and often need the use of inhalers and supplemental oxygen. My concern here is that additional air borne dust and perhaps infectious material might find its way into the air that often flows from the location of the proposed horse corral directly into the adjacent residential community. Based on these facts, I stand opposed to the approval of the special use permit as described.

Sincerely,

Mrs. Annamaire Pantuso
