The City's TDD number is (702) 386-9108.

April 10, 2012

6:00 PM

ITEMS MAY BE TAKEN OUT OF THE ORDER PRESENTED AT THE DISCRETION OF THE CHAIRPERSON. TWO OR MORE AGENDA ITEMS FOR CONSIDERATION MAY BE COMBINED; AND ANY ITEM ON THE AGENDA MAY BE REMOVED OR RELATED DISCUSSION MAY BE DELAYED AT ANY TIME.

NOTICE: This meeting has been properly noticed and posted at the following locations:

City Hall, 495 South Main Street, 1st Floor
Clark County Government Center, 500 South Grand Central Parkway
Grant Sawyer Building, 555 East Washington Avenue
City of Las Vegas Development Services Center, 333 North Rancho Drive

ACTIONS: ALL ACTIONS EXCEPT GENERAL PLAN AMENDMENTS, REZONINGS AND RELATED CASES THERETO ARE FINAL UNLESS AN APPEAL IS FILED BY THE APPLICANT OR AN AGGRIEVED PERSON, OR A REVIEW IS REQUESTED BY A MEMBER OF THE CITY COUNCIL WITHIN TEN DAYS AND PAYMENT OF THOSE COSTS SHALL BE MADE UPON FILING OF THE APPLICATION.

ANY ITEM LISTED IN THIS AGENDA MAY BE TAKEN OUT OF ORDER IF SO REQUESTED BY THE APPLICANT, STAFF, OR A MEMBER OF THE PLANNING COMMISSION AND AGREED TO BY THE PLANNING COMMISSION. THE PLANNING COMMISSION MAY IMPOSE TIME LIMITATIONS, AS NECESSARY, ON THOSE PERSONS WISHING TO BE HEARD ON ANY AGENDAED ITEM.

PLANNING COMMISSION MEETING RULES OF CONDUCT:

1. Staff will present each item to the Commission in order as shown on the agenda, along with a recommendation and suggested conditions of approval, if appropriate.

2. The applicant is asked to be at the public microphone during the staff presentation. When the staff presentation is complete, the applicant should state his name and address, and indicate whether or not he accepts staff's conditions of approval.

3. If areas of concern are known in advance, or if the applicant does not accept staff's condition, the applicant or his representative is invited to make a brief presentation of his item with emphasis on any items of concern.

4. Persons other than the applicant who support the request are invited to make brief statements after the applicant. If more than one supporter is present, comments should not be repetitive. A representative is welcome to speak and indicate that he speaks for others in the audience who share his view.

5. Objectors to the item will be heard after the applicant and any other supporters. All who wish to speak will be heard, but in the interest of time it is suggested that representatives be selected who can summarize the views of any groups of interested parties.

6. After all objectors' input has been received; the applicant will be invited to respond to any new issues raised.

7. Following the applicant's response, the public hearing will be closed; Commissioners will discuss the item amongst themselves, ask any questions they feel are appropriate, and proceed to a motion and decision on the matter.

8. Letters, petitions, photographs and other submissions to the Commission will be retained for the record. Large maps, models and other materials may be displayed to the Commission from the microphone area, but need not be handed in for the record unless requested by the Commission.

As a courtesy, we would ask those not speaking to be seated and not interrupt the speaker or the Commission. We appreciate your courtesy and hope you will help us make your visit with the Commission a good and fair experience.

BUSINESS ITEMS:

1. CALL TO ORDER

2. ANNOUNCEMENT: COMPLIANCE WITH OPEN MEETING LAW

3. ROLL CALL

4. PUBLIC COMMENT DURING THIS PORTION OF THE AGENDA MUST BE LIMITED TO MATTERS ON THE AGENDA FOR ACTION. IF YOU WISH TO BE HEARD, COME TO THE PODIUM AND GIVE YOUR NAME FOR THE RECORD. THE AMOUNT OF DISCUSSION, AS WELL AS THE AMOUNT OF TIME ANY SINGLE SPEAKER IS ALLOWED, MAY BE LIMITED

Re: Special Use Permit for APN 138-10-101-002

To Whom It May Concern,

The enclosed information is for the property located at 7550 W. Alexander Road. The building is currently vacant but was previously used as an adult daycare center. The new user intends to use the facility as a charter school for kindergarten in conjunction with their existing facility – Quest Academy at Grand Monticeto Parkway. Quest has outgrown their current facility and is in dire need of a larger facility to accommodate the students.

The proposed use would be very similar to the previous use from the standpoint of intensity and traffic. The facility would maintain the current entry points off Alexander and the current property line walls along the east, south and west property lines. The east property line abuts a city park, the south property line abuts an existing residence, church and existing school. The west property line abuts a vacant parcel. The conversion would not require any exterior modifications to parking, landscape or access points. All parking would be handled onsite.

The anticipated number of employees would be 9 (teachers, administrative and support staff). Students do not drive to the facility, and are dropped off by private vehicles which are accommodated in controlled loading zones onsite.

The hours of operation would be normal school hours (7am-4 pm) for the majority of the time. There will be off hours uses for school activities that occur at night and weekends on a limited basis.

Quest Academy currently operates a facility at 6610 Grand Monticeto Parkway (which this facility would replace).

Quest Academy is an accredited charter school through the State of Nevada.

The project will fulfill an urgent need for school alternatives in the City of Las Vegas and Clark County. The growth of the existing student body as substantiated the need for the facility and the school is currently having to turn away applicants due to the limited size of their existing facility.

Sincerely,

SHARCHITECTURE

JUSTIFICATION LETTER

Part 1: Issue

I, Brandon Douglas Adams of Brandon Adams Jewelers, am requesting a Special Use Permit to apply for a Second Hand Dealer Use to purchase new and used jewelry and precious metals such as gold and silver at 8370 W. Cheyenne Ave., Ste. 102, Las Vegas, NV 89129, as defined by the LVMC Chapter 19.12.

I am a third generation jeweler and have an established business in Las Vegas, Nevada. I have worked in Las Vegas as a jeweler for over 16 years, as I was employed with other jewelry stores in the area. I then opened my own store in this current location 5 years ago. I consider myself a Las Vegan and as such I want to give back to the people in my community.

I have long considered this license but haven't felt the need to do so until recently. My customers are now requesting this service from me. While there are several other gold buying sites in the area, I believe I would be able to do more for my customers as I have different uses for gold than some of my counterparts. As a custom jeweler, scrapping gold isn't the only option available to me. I would be able to refurbish those pieces that still have "life" to them, other pieces can be used to help repair other jewelry and finally, that which can't be used for resale or parts can be recycled and used to create more modern jewelry. In this way, people would enjoy the idea that their belongings can "live" on in other pieces.

I would continue to conduct business with the utmost integrity and good faith that I have maintained so far. My scales would be placed in clear view of the customer and all calculations would be done in front of them so they would understand how pricing is done. I believe that this would only enhance my business and my earning potential, which in turn, means more revenue and returns to the city of Las Vegas. I would also make sure to follow required guidelines for documenting and holding jewelry for the required length of time and following proper procedures to ensure that I am not purchasing lost or stolen merchandise.

Part 3: Findings (Special Use Permit Determinations)

1a. I believe that granting me a Special Use Permit for a Second Hand Dealer Use to purchase new and used jewelry and precious metals such as gold and silver would be very harmonious and compatible with the existing surroundings of the land uses as I am already a jewelry store that is in existence. I feel the community and my customers would be more comfortable dealing with a reputable jewelry store that has a strong standing in the community; one that has been able to sustain itself during these more difficult times while other jewelry stores have closed proving my ability to manage money effectively and expand into new areas as needed.

1b. Again, as an established jewelry store, I believe with a few minor interior changes, the store will be more than suitable for customers to feel welcome and comfortable selling their goal with my business. The scales will be placed in clear view and calculations done in front of customers.

1c. My current location is at the corner of Durango and West Cheyenne Avenue within a very large plaza that has no fewer than 5 entrances and exits to either of these streets. Both of these streets are double lanes in both directions with a center turn lane.

1d. I do not believe there is a compromise to public health, safety or welfare regarding a Special Permit for acquire a Second Hand Gold Buying License.

Requirements Per Secondhand Dealer License:

Per the definition in LVMC Chapter 6.74, the used jewelry and/or precious metals such as gold and silver that are purchased will be incidental to the sale of new jewelry in our store. We are anticipating refurbishing **no more than 20%** of used jewelry sold to us for re-sale purposes within the store. As for the following Minimum Special Use Permit Requirements:

1. No outdoor display, sales or storage of any merchandise shall be permitted. **As a standard precaution for my jewelry store, we consider it an unnecessary risk to put merchandise outside of the store for sale, storage or display, therefore this is a non-issue.**

2. The use shall comply with the applicable requirements of LVMC Title 6. **We have reviewed the applicable requirements and will comply as required to continue our good standing with the City of Las Vegas and our community.**
3. No secondhand dealer shall be located on either side of Fremont Street or on Las Vegas Blvd. South, between Charleston Boulevard and Sahara Avenue. **We do not reside here, therefore it is not applicable.**

Thank you for your time and consideration.

Re: Dolgen Midwest, LLC - Special Use Permit Application for Grocery Store with Package Liquor

Applicant: **Dolgen Midwest, LLC d/b/a Dollar General #13694**
APN: **140-31-401-036**
Business Address: **3700 E. Charleston Blvd., Suite 120**
Las Vegas, NV 89110

Dear Sir/Madam:

This firm represents Dolgen Midwest, LLC, a Tennessee limited liability company, dba Dollar General #13694 (the "Applicant") with respect to liquor licensing matters in Nevada. Enclosed for processing, please find the Applicant's Special Use Permit Application for a Grocery Store with Package Liquor, which includes the following:

1) Submittal Checklist;
2) Special Use Permit Application/Petition Form;
3) Statement of Financial Interest;
4) Grant, Bargain and Sale Deed and Legal Description;
5) Assessor's Parcel Map;
6) Meeting notes and checklist signed by City Planner (original and one copy);
7) Development Impact Notice and Assessment (DINA) Project of Regional Significance (PRS);
8) Site Plan (6 folded, 1 rolled, 1 8½" x 11");
9) Floor Plan (1 folded, 1 rolled, 1 8½" x 11"); and
10) Check in the amount of $1,280 in payment of the required filing fees.

The Applicant is proposing to open an 18,250 square foot retail business selling grocery and related products (the "Store") at the above referenced address (the "Premises"). Among the grocery products to be sold, the Applicant desires to engage in the sale of package alcoholic beverage sales at the Store as permitted with a Package Liquor License pursuant to Las Vegas Municipal Code 6.50.170. It is anticipated that the Store will operate every day between the hours of 7:00 AM and

12:00 midnight and will provide employment to approximately twenty-five (25) to thirty-five (35) employees.

The Store will provide a benefit to the community and the neighboring businesses in the surrounding area. As an anchor tenant and national retail brand, the Store will draw customer traffic to the neighboring businesses in the community. The Applicant acknowledges that no more than ten percent (10%) of the floor space of the business may be dedicated to the display of alcoholic beverages.

The introduction of package alcoholic beverage sales at the Premises will not adversely affect the environment or character of the immediate community, nor will it have a detrimental impact on adjacent properties. As a retail grocery store and market, the proposed use is harmonious and compatible with adjacent development and with existing land uses in the immediate vicinity. We do not believe that any additional public services, utilities, parking or waivers will be necessary to accommodate the Store at the Premises. Further, the approval of a Special Use Permit at the Premises will not be inconsistent with or compromise the public health, safety and welfare of the overall objectives of the General Plan.

There is adequate employee and customer parking available at the Premises and the site provides adequate pedestrian and vehicle ingress/egress to and from the Premises from East Charleston Boulevard.

In the event you have any questions with regard to the foregoing, please do not hesitate to contact us. Thank you.

Very truly yours,

KOLESAR & LEATHAM

7. An Exception from the Las Vegas Medical District Plan landscaping requirements is hereby approved, to allow 30 parking fingers where 42 are required, if approved.

8. An Exception from the Las Vegas Medical District Plan landscaping requirements is hereby approved, to allow no landscaping along the southern property line where one tree every 20 feet on-center is required, if approved.

9. The applicant shall work with City staff to determine the most appropriate mapping action necessary to consolidate all existing parcels. The mapping action shall be completed and recorded prior to issuance of any permits.

10. A technical landscape plan, signed and sealed by a Registered Architect, Landscape Architect, Residential Designer or Civil Engineer, must be submitted prior to or at the same time application is made for a building permit. A permanent underground sprinkler system is required, and shall be permanently maintained in a satisfactory manner; the landscape plan shall include irrigation specifications.

11. Pre-planting and post-planting landscape inspections are required to ensure the appropriate plant material, location, size of planters, and landscape plans are being utilized. The Planning and Development Department must be contacted to schedule an inspection prior to the start of the landscape installation and after the landscape installation is completed. A certificate of occupancy will not be issued or the final inspection will not be approved until the landscape inspections have been completed.

12. Pursuant to the Las Vegas Medical District Plan, all utilities serving new development shall be underground. Above ground utility appurtenances visible from public streets shall be screened. The existing utility boxes on-site shall be placed underground or relocated in accordance with the requirements of the Las Vegas Medical District Plan and Title 19.12.040.

13. Parking lot lighting standards shall be no more than 30 feet in height and shall utilize downward-directed lights with full cut-off luminaires. Lighting on the exterior of buildings shall be shielded and shall be downward-directed. Non-residential property lighting shall be directed away from residential property or screened, and shall not create fugitive lighting on adjacent properties.

14. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.

15. All City Code requirements and design standards of all City Departments must be satisfied, except as modified herein.

Public Works

16. Submit a Reversionary Map for this site or coordinate with the City Surveyor to determine an acceptable mapping method; comply with the recommendations of the City Surveyor.

17. Remove all substandard public street improvements and unused driveway cuts adjacent to this site, if any, and replace with new improvements meeting current City Standards concurrent with development of this site. All existing paving damaged or removed by this development shall be restored at its original location and to its original width concurrent with development of this site.

18. No permanent structures or landscaping over 30 inches tall shall be constructed within the existing 20-foot Public Sewer Easement granted by Document #20040407:01657.

19. All landscaping and private improvements installed with this project shall be situated and maintained so as to not create sight visibility obstructions for vehicular traffic at all development access drives and abutting street intersections.

20. Meet with the Flood Control Section of the Department of Public Works for assistance with establishing finished floor elevations and drainage patterns for this site prior to submittal of construction plans or the issuance of any building or grading permits, whichever may occur first. Provide and improve all drainageways as recommended.

21. Site development to comply with all applicable conditions of approval for Zoning Reclassification Z-20-97 and all other applicable site-related actions.

Re: Valley Hospital Parking Lot
SDR-34997 Time Extension Request
Letter of Justification

Site Development Plan Review 34997 to construct a new parking lot to replace a temporary parking lot at 625 S. Tonopah Drive for Valley Hospital was approved on August 13, 2009. The time limit to obtain a permit to begin construction was to be two years from that date, or August 13, 2011. The seven parcels which make up this parking lot have since been consolidated into one new parcel as was requested by a condition of that approval. That new parcel number is APN 139-33-302-035. Although it is Valley Hospital's intent to proceed with the construction of this parking lot, difficult economic conditions caused them to request a two year time extension to delay the construction until it better fits within their financial planning. That time extension was approved, but only for one year. Although the Planning Commission may have felt that the economy would improve during the one year time extension, there has not been significant improvement. Therefore, we are requesting that you consider allowing another two year Extension of Time to begin this work. We are not aware of any complaints which have been filed relative to the existing temporary parking lot and its usage as it is currently configured and respectfully request your favorable review of this request. Thank you for your consideration..

Sincerely,

Ned Cole

Re: 1110 Bonneville Ave.
APN – 139-34813-012

Issue Presented – Whether a Special Use Permit should be approved for 1110 Bonneville Ave. to allow for a Bail Bond Company (Rescue Bail Bonds) to conduct business at that location. Pursuant to Title 19.18, a Bail bond Company is an establishment that makes available to the public undertakings of bail in connection with judicial proceedings.

This request is made on behalf of the owner of Rescue Bail Bonds, Lamar Kruitbosch. Previously, Rescue Bail Bonds had been in operation for over a decade at 505 Bonneville Ave. Unfortunately, on February 9, 2011 that location burned in a fire.

Subsequent to the fire, Rescue Bail Bonds had a temporary office located in a competing bail bond office near Charleston and Mojave. Presently Rescue Bail Bonds would like to conduct business at 1110 Bonneville Ave. The location is less than a mile from Rescue's previous office at 505 Bonneville Ave. It is centrally located near the jail and near local attorney offices. Previous clients are familiar with the location.

Rescue Bail Bonds employs only one person.
The hours of operation are business hours 9am to 5pm. Thereafter by appointment.
Applicant owns no other Bail Bond Company.
Rescue Bail Bonds is licensed by the State of Nevada Division of Insurance. Proudly, Rescue Bail Bonds has never been disciplined by its regulatory body.

Most of the area around 1110 Bonneville is comprised of businesses. Attorney offices, accountants and medical professionals. The tenant prior was a paralegal. He was at the location for several years.

The proposed use is harmonious and compatible with the surrounding uses. Additionally, the subject site is physically suitable for the type and intensity of land use being proposed. The street facilities providing access to the property are adequate in size to meet the requirements of the proposed use. Finally, approval of the special use permit at this site will not be inconsistent with the public health, safety, and welfare of the overall objectives of the general plan.

The special use permit should be **APPROVED**.

Osvaldo Fumo
Representative of Rescue Bail Bonds.

As owner of property at 1110 Bonneville Ave I OPPOSE this special use Permit for a Proposed Bailbond Service. I do not know Lamar KRUITBOSCH and want to keep my Properties C-2 Zone. A Bail Bond Service will NOT be a suitable business for this area. My neighbors and children do not want this business. sincerely Melissa Maxwell

Application Location

How can anyone change my buildings C-2 zone who is NOT owner of said Property? UNBELIEVABLE!!

The proposed project may not pertain to the entire highlighted project site.

Dear Ladies/Gentlemen:

Please accept this as the required justification letter for a special use permit for an auto title loan company, with waivers of separation to be at zero separation from a residential property line and +/- 165' from a specified financial institution where 200' and 1000', respectively, would be required. The subject request is for a "LoanMax" business location which deals only with auto title loans (i.e.: not also a payday loan or check cashing business) and therefore is not a more intense use than already exists on the Sahara frontage in this area. LoanMax has four similar business locations in the community (3240 East Desert Inn, 2295 East Tropicana, 3276 LVBN, and 731 W. Sunset) and the applicant is not aware of any problems resulting from any of those locations. The subject office is planned to be open 10 am to 6 pm weekdays and 9 am to 2 pm Saturdays, with two employees on duty at all times. The applicant presently possesses State Business License NV20011071670 and Tax ID #1000463745.

With regard to the waivers, the applicant believes that an "auto title loan only" business is less intense than most other uses in the area and less intense than the prior use of the property as a restaurant. Combined with the limited hours of operation, the applicant believes the use is entirely compatible adjacent to residential. Further, the reduced separation from the specified financial institution is measured to a business that is primarily a payday loan type of facility which is more intense and also at zero separation from residential.

As to the special use permit, the site is physically suitable for the proposed use, with more than required parking and immediate access to an arterial street. The applicant will be reconditioning a currently vacant building and restoring appropriate landscaping in a manner harmonious and compatible with its surroundings.

Subject: March 13, 2012 Planning Commission Protest Items

To whom it may concern:

Upon reading the materials associated with today's Planning Commission meeting, I would like to go on record to state the following opinions regarding specific actions to be heard tonight:

1. TXT-44511: Sec. 44, Secondhand Dealer use edits to Title 19.12.070
- By allowing this use automatically in C-1 and C-2 zones without a public hearing, the city is turning a blind eye to residential concerns, especially in the downtown neighborhoods which are adjacent to a majority of commercial zones. The public hearing denies residents the opportunity to share in an inclusive vision of the gateways to the neighborhoods, as well as the collective community approach towards operating a business adjacent to a neighborhood. Furthermore, by calling out the Las Vegas Blvd. location as a prohibited area of placement, the city gives more weight to a small tourist component of the Strip versus Las Vegans who live and work in the city. While this modification seems to be a slight change of words and avoidance of additional meetings, it has major implications for the neighborhoods abutting commercial lots and should include further discussion and public involvement before such a change is made.

2. SUP-44160: Loan Max - Support denial.

3. SUP-44439: Paradise Plaza, LLC - Support denial.

4. SUP-44443: Las Vegas Blvd. Tattoo, owner Garces Venture - Request denial at this time. This area is a heavily saturated market for tattoo parlor/body piercing. Request further business statistics indicating support and demand for such a business in this location.

5. SUP-44448: 7-Eleven - The neighborhoods do not support poor

Submitted after final agenda
Date 3/13/2012 Item 16, 29, 31, 32, 42 & 43

neighbor behavior. We went on record to oppose the Bells Market packaged liquor request that City Council overturned for approval.
Councilman Coffin has still not responded regarding why this was done when the neighborhood spoke out about the Bells Market owners' store operations not warranting such a license. However, Mr. Aman Singh, franchise owner at this 7-Eleven location, is involved in the neighborhoods and respects the residents in the area. He conducts lengthy public outreach and keeps a clean store for locals to frequent as well. Because he has a community presence and contributes to keeping the Strip location clean and free of criminal activity, we support his application out of respect for his operations. Request approval with the condition that his location be monitored for any alcohol-related issues resulting from the granted SUP.

6. TXT-44483: Question about this document. Why not include C-V zoning? Is there a special event permit for open air vendor-type trucks to sell in city parks and trailhead parking lots? What if an event is held at a park or trailhead location, what is the procedure for trucks to sell in these spaces? A similar example might be the recent opening of Downtown 3rd and the Farmer's Market held there on Friday's. This is a public street—if food trucks were to come to the site, what permit is required for this? Please advise.

Thank you for the opportunity to comment. I look forward to hearing the result of tonight's Planning Commission agenda. Remember, not every resident can attend each meeting; however, residents do care about our community and each of your votes makes a difference in our community.

Best regards,

Melissa Clary

Dear Councilwoman Tarkanian,

As you can see from the neighborhood's responses, they are opposed to locating another loan business in the old Arby's building. The City has invested all that money to beautify Sahara, only to have another loan business as a blemish. Most of the neighborhood is anxiously waiting for the D.Q. to open, and would much prefer that type of business rather than another gaudy, diminishing loan place and the clientele it tends to draw. Thank you so much for your support.

I got a call today from Nathan Taylor who was asked by Councilwoman Tarkanian to notify us of a proposed loan
establishment called Loan Max who wants to move into the old Arby's building on Sahara...I told him I would notify
everyone...In the past we have opposed such businesses moving in since we already have so many between

Hi Kathy,

First of all: I DISAPPROVE of the proposed Loan Max. This business will make (3) loan establishments within (2) blocks not counting the Bail Bonds & telemarketing businesses in a (3) block radius. Who approved those---NOT ME!! We are a family community. The homeowners living behind the Siegel Suites have enough problems with transient tenants. Lastly, how disrespectful to our neighborhood not to meet with us to discuss their proposal. What a way to start 2012.

We are all for new stores and such to come in here. But we feel that we have more that our fair share of business that do not add greatly to the upscale area we had when we came here. It has been called to our attention that a new loan company is interested in taking over the vacant Arby's building. We would love to have a new business in our neighborhood, but no more of this type. Thank you for standing up for us

Net Change	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	MEDICAL-DENTAL OFFICE BUILDING [1000 SF]	4.301	36.13	145
AM Peak Hour			2.30	9
PM Peak Hour			3.46	14

Existing traffic on all nearby streets:

Rainbow Boulevard	
Average Daily Traffic (ADT)	22,050
PM Peak Hour (heaviest 60 minutes)	1764

Cheyenne Avenue	
Average Daily Traffic (ADT)	41,400
PM Peak Hour (heaviest 60 minutes)	3,312

Traffic Capacity of adjacent streets:

	Adjacent Street ADT Capacity
Rainbow Boulevard	34,500
Cheyenne Avenue	51,800

This conversion is expected to add 145 additional trips per day on Atwood Ave., Rainbow Blvd. and Cheyenne Ave. Currently, Rainbow is at about 64 percent of capacity and Cheyenne is at about 80 percent of capacity. This project is not expected to significantly change these capacities. Counts are not available for Atwood Ave., but it is believed to be under capacity.

Based on Peak Hour use, this conversion will add 14 additional cars into the area in the peak hour, or about one every four minutes.

Note that this report assumes all traffic from this development uses all named streets.

RE: 3280 N RAINBOW BLVD/138-11-405-001

Dear Sir or Madam:

Please accept this letter as our justification for a site development review for the above referenced property. This site was originally approved in Clark County but annexed into the City of Las Vegas for water and sewer service. The property was zoned for C-P (office) with a waiver for off-sites on Atwood. I have attached copies of the documents with the Clark County approvals for your information. Once the property was annexed it became a legal non-conforming use.

This is a request to add additional parking to the south of the existing building, which will provide needed parking for clients and prevent parking on local streets, within the RNP to the east. There is an existing wall along the south property line, separating the doctors' office from the church parking lot and the day care. There is also an ocean container. The code requires an 8 foot landscape buffer along the south and east property line. There isn't adequate room to provide parking and landscaping so we are requesting a waiver form that condition. We have added landscape islands within the parking lot to provide shade for the cars within the lot and provided the required buffer where the parking lot ends along the southern boundary and also along the eastern boundary, adjacent to the single family home.

In addition, we are requesting a waiver for the sidewalk and street lights along Atwood. This is located on the edge of a Rural Neighborhood Preservation (RNP) within Clark County where rural street standards are built. We would like to keep the appearance of a house, as much as possible and believe this helps in that endeavor. In addition, this waiver was approved for this site when the property was still in Clark County.

This is a family care specialist and the additional parking will be an asset to the neighborhood so cars won't be parking along the residential street to the east.

Subject: **Jusification Letter**
Request for Site Development Design Review (SDR) and
GPA and Zone Change and Variance of and Site Development and
Landscape standards
Parcel 162-02-514-009

Request
We request a design review of our proposal to convert an existing house and lot to a business office with a zone change from R-1 to O-P. We propose to rebuild a portion of the structure so as to comply with IBC criteria and accessibility requirements.

Variances
1. Accept Proposed landscaping in lieu of development standards for parking lots and buffering.

2. Accept existing side yard and front yard setbacks in lieu of district O-P standard minimum yards.

3. Accept proposed configuration for onsite amenities which may not completely conform with current standards with respect to drives, entrances, and interface to public rights of way.

Justification
Conversion of this property to business office use is consistent with the city's policy of transitioning with low intensity commercial zones abutting residential zones. This parcel sitting between the commercial parking lot and the neighboring house to the west is a suitable use that limits activity and traffic to a level compatible with the residential occupancy next door. A maximum number of twelve occupants and five vehicles will not overflow or burden the residential neighborhood.

The building's proposed use as the business office for an established Spanish language local newspaper will operate during normal daytime business hours, and will not create noise, crowds, or any other distraction that would pose a hardship on the residential neighbors to the west and south, or to the commercial businesses to the north and east.

Variances are needed because the existing house structure cannot be moved to meet the side yard standards. Mature trees on the site exceed the standard in number, but do not comply with parking lot planting standards. We submit that living vegetation with ground cover enhancements will sufficiently overbalance those development standards that are not met.

The north parking lot is accessed from a twenty foot drive. Our front drive accommodates one which we propose to be accepted as one of the required onsite parking spaces as-is, and we submit that existing access is sufficient to bear this traffic.

Green Building
Because this project consists of refurbishing a 60 year old building, green building technology is limited to the newly added materials and systems. We propose no construction that is harmful to the environment in either use or manufacture. The building will meet current energy codes.

Bicycle Parking
We can easily include parking space for bicycles within on our site.

Justification Letter - Planning Action
Parcel 162-02-514-009

Connectivity
This is a stand-alone site with no ties of dependency on other parcels.

Pedestrian Access
This is not intended as an urban village project, however it may be accessed easily by pedestrians who may live nearby or by those arriving by public transit or from nearby businesses.

Urban forest initiative
Our proposed density of trees and planting exceeds normal standards for the area.

Sustainable Construction
We are not attempting to apply state of the art sustainable principles to this project.

Electric Vehicle Charging
We have not provided any vehicle charging at this time.

Summary,
The building and site are presently not habitable as a residence, and not attractive to home buyers. It will serve well as an office at the edge of a residential neighborhood, and our proposed use as a daytime business office provides a far better neighbor to the local residences than a derelict or vacant lot would.
We are willing to make the investment required to convert this to a modern officeconsistent with the residential style of the neighborhood.

Submitted on behalf of the property owner,

D.W. Strait

RE: JUSTIFICATION FOR REZONING AND GENERAL PLAN AMENDMENT APPLICATIONS
APN's: 139-28-301-020 & 029

DREA 357, LLC

Dear Planning Staff,

The owner of the parcels listed above, Drea 357, LLC, respectfully requests the City of Las Vegas to review Rezoning and General Plan Amendment applications on approximately 2.67 gross (2.43 net) acres generally located at the northwest corner of Bonanza Road and Clarkway Drive within ward 5 of the City of Las Vegas. These two applications have been submitted separately and the applicant wishes for the items to be considered together. The applicant is proposing a zone change from C-2 to CM on property within a transitional area of the city. No habitable buildings are being added to the development at this time.

The General Plan Designation of subject property is MXU, Mixed Use; we're requesting a change to LIIR, Light Industry/Research. The existing Zoning is C-2; General Commercial; we are requesting a change to C-M, Commercial Industrial.

Most abutting and adjacent parcels are zoned for rural residential development, but only two of six abutting parcels are currently being used as inhabited residential dwellings. Properties on and near the Bonanza frontage in this area of town are transitioning from rural residential to commercial and industrial uses. Future plans of the owner are to assemble parcels from the subject area to Clarkway Drive in order to consolidate and combine a larger block that would be attractive for the redevelopment of this area. During the pursuit to compile the larger land area, the owner would like to continue operating his business on the subject parcels with as little expense as possible improving the property in areas that will eventually be removed as a result of the consolidation. The applicant feels that this zone change is appropriate at this time and the proposed land use is consistent with current and planned development along this corridor.

City of Las Vegas

This portion of the City's Redevelopment Plan and the surrounding area, especially the Bonanza Road frontage is currently in a trend of development that is shifting from blighted, aging rural single-family residences to land uses of more commercial and industrial nature. Due to the site's surroundings and the existing nature of this area of the City of Las Vegas, the applicant feels that the proposed Rezoning, General Plan Review is consistent and compatible with current and future development.

If you have any questions, comments, or concerns, please contact me.

Respectfully,

George T. Lopez

SUBJECT: **Justification Letter for a General Plan Amendment, Zone Change, and Tentative Map for El Campo Grande/ Rainbow (11.7 gross acres)**

Slater Hanifan Group, on behalf of the applicant, D.R. Horton, respectfully submits this justification letter in support of a General Plan Amendment (GPA), zone change (ZON) and Tentative Map (TM) for the subject site.

The subject site is located at the northeast corner of Rainbow Blvd and El Campo Grande Avenue. The Assessor's Parcel Numbers are 125-26-401-001, -002, -003, -304-005, -006, -007, and -008. The parcels are approximately 11.7 gross acres combined.

The purpose of the GPA request is to revise the General Plan from *Rural Density Residential* (R) to *Low Density Residential* (L) which would allow up to 5.49 dwelling units per gross acre (du/ac). The requested zone change would be from Residential Estates (R-E) to Single Family Residential (R-1).

There was a previous zone change approved on the subject acreage in 2006 (ZON-11678), which has since expired. The expired zone change modified the zoning to RPD-3, which allows up to 3.49 dwelling units per acre. On the 11.7 acres, this would result in a maximum unit count of 40. Since the RPD zoning is no longer available in the City of Las Vegas Uniform Development Code (UDC), the next best available zoning would be R-1 in terms of setback and minimum lot dimensions. DR Horton would be accepting of a condition to cap the units at 40 for the entire acreage. This would allow the development standards of R-1, but hold the density maximum to that of the now defunct RPD3 (3.49 du/ac).

5740 S. Arville Street #216, Las Vegas, NV 89118 ph (702) 284-5300 fax (702) 284-5399

GPA-44704
ZON-44705

For reference, the accompanying site plan includes 40 residential lots on the 11.7 acres, which results in a density of 3.41 dwelling units per acre (du/ac). The minimum lot square footage would be 6,500 with a minimum lot width of 65 feet.

The proposed development would serve as transitional zoning from the R-E to the south of El Campo Grande Avenue to the RPD3 to the north of the project site. On the west side of Rainbow Blvd, the zoning is a mixture of R-E, R-1, R-D and RPD8. East of Rebecca Road, the zoning is R-E. The proposed development would fit in to the character of the neighborhood in terms of providing a large lot single family subdivision. The lower density residential sites are located across major roadways which will buffer the proposed site from the less dense residential.

The project does have public water and sewer services with available capacity to serve the proposed development. The Las Vegas Valley Water District has existing facilities adjacent to the site which have capacity to serve the proposed development. The City of Las Vegas has sewer facilities in the area with available capacity to serve the proposed development.

The proposed development is an "in-fill" piece of property that has existing residential development on all sides. With the adjacent developments, there are roadways that exist that can support the additional traffic counts that the proposed 40 additional lots would bring to the area. This project proposes to improve the adjacent public streets to City of Las Vegas standards.

In summary, the proposed project is similar to the previously approved project in 2006. The proposed development is compatible with surrounding developments and has utility services in the area to serve the site.

Thank you for considering these application requests. Please contact me at 284-5300 if you have any questions regarding these applications.

SUBJECT: **Justification Letter for a General Plan Amendment, Zone Change, and Tentative Map for El Campo Grande/ Rainbow (11.7 gross acres)**

Slater Hanifan Group, on behalf of the applicant, D.R. Horton, respectfully submits this justification letter in support of a General Plan Amendment (GPA), zone change (ZON) and Tentative Map (TM) for the subject site.

The subject site is located at the northeast corner of Rainbow Blvd and El Campo Grande Avenue. The Assessor's Parcel Numbers are 125-26-401-001, -002, -003, -304-005, -006, -007, and -008. The parcels are approximately 11.7 gross acres combined.

The purpose of the GPA request is to revise the General Plan from *Rural Density Residential* (R) to *Low Density Residential* (L) which would allow up to 5.49 dwelling units per gross acre (du/ac). The requested zone change would be from Residential Estates (R-E) to Single Family Residential (R-1).

There was a previous zone change approved on the subject acreage in 2006 (ZON-11678), which has since expired. The expired zone change modified the zoning to RPD-3, which allows up to 3.49 dwelling units per acre. On the 11.7 acres, this would result in a maximum unit count of 40. Since the RPD zoning is no longer available in the City of Las Vegas Uniform Development Code (UDC), the next best available zoning would be R-1 in terms of setback and minimum lot dimensions. DR Horton would be accepting of a condition to cap the units at 40 for the entire acreage. This would allow the development standards of R-1, but hold the density maximum to that of the now defunct RPD3 (3.49 du/ac).

5740 S. Arville Street #216, Las Vegas, NV 89118 ph (702) 284-5300 fax (702) 284-5399

ZON-44705

For reference, the accompanying site plan includes 40 residential lots on the 11.7 acres, which results in a density of 3.41 dwelling units per acre (du/ac). The minimum lot square footage would be 6,500 with a minimum lot width of 65 feet.

The proposed development would serve as transitional zoning from the R-E to the south of El Campo Grande Avenue to the RPD3 to the north of the project site. On the west side of Rainbow Blvd, the zoning is a mixture of R-E, R-1, R-D and RPD8. East of Rebecca Road, the zoning is R-E. The proposed development would fit in to the character of the neighborhood in terms of providing a large lot single family subdivision. The lower density residential sites are located across major roadways which will buffer the proposed site from the less dense residential.

The project does have public water and sewer services with available capacity to serve the proposed development. The Las Vegas Valley Water District has existing facilities adjacent to the site which have capacity to serve the proposed development. The City of Las Vegas has sewer facilities in the area with available capacity to serve the proposed development.

The proposed development is an "in-fill" piece of property that has existing residential development on all sides. With the adjacent developments, there are roadways that exist that can support the additional traffic counts that the proposed 40 additional lots would bring to the area. This project proposes to improve the adjacent public streets to City of Las Vegas standards.

In summary, the proposed project is similar to the previously approved project in 2006. The proposed development is compatible with surrounding developments and has utility services in the area to serve the site.

Thank you for considering these application requests. Please contact me at 284-5300 if you have any questions regarding these applications.

Water Smart Landscapes Program Plant List for Montecito Skilled Nursing Facility

All common plant materials and irrigation areas within Las Vegas Valley Water District and Southern Nevada Water Authority guidelines for water wise plants and shall be capable of operation by an automated irrigation system capable of making automatic adjustments to independent program run times using master valves and flow sensors in the event of a mainline break.

Additionally trees, plams, shrubs, groundcovers, succulents, cactus and perennials will be separated on separate drip valve assemblies that provide point to point drip to each plant material via polyethylene pipe and drip emitters following the following emitter schedule:

- 1 gallon shrubs: (1) .5 gph emitter
- 2 gallon shrubs: (1) .5 gph emitter
- 5 gallon shrubs: (2) .5 gph emitters
- 15 gallon shrubs and palms: (3) 1 gph emitters
- 24" box trees and palms: (3) 2 gph emitters
- 36" box trees and palms: (4) 2 gph emitters
- 48" box trees and palms: (5) 2 gph emitters
- 60" box trees and palms: (6) 2 gph emitters

All drip valve assemblies will be equipped with flush valve assemblies of each and every end of the polyethylene pipe, but will be designed so that there are a maximum of two flush valve assemblies for each drip valve assembly.

For plant material with more than 1 emitter space all emitters equidistant around perimeter of rootball. For all trees and palms, every other emitter will be placed in water root systems 1/2 the distance from trunk grade to the bottom of the rootball. All palms, succulents and cactus will be buried in sand soil amendment..

The following plant list contains some of the most common plants found in Southern Nevada landscapes. Turf grass on site will be prohibited due to water restrictions enforced by SNWA. This is a tool for participants in the Water Smart Landscapes Program to calculate the 50% canopy coverage requirement. The square footage value given for each plant is its mature size and will be used by the SNWA to determine the canopy coverage regardless of the size of the plant at the time of the inspection.

The SNWA does not endorse or require the use of any or all plants found on this list. Participants may use any living plant, where the trunk or stem is within the converted area, towards meeting the 50% canopy coverage requirement.

The list is also accessed by the by Connect name is available on the SNWA's website or by calling the Conservation Helpline at 258-SAVE (7283) and is in serve as a possible "touch as" plant list of possible plant combinations for the Montecito Skilled Nursing Facility in Las Vegas

RE: Justification for Special Use Permit, Site Development Plan Review, Waiver of Development Conditions, and Major Modification for Southeast Corner of Rome Blvd. and Riley Street (APN: 125-20-810-001 and 125-20-803-002)

To Whom It May Concern:

This letter is prepared as a justification letter for a Special Use Permit and Site Development Plan review for an approximate 71,000 square foot, 60 bed skilled nursing/34 unit assisted living care facility (otherwise referred to as a convalescent care/nursing home). The project is situated across two parcels having separate ownerships, totally 5.0 gross acres. The project also requests a Major Modification to the Montecito Town Center Special Area Plan to add the south 2.5 acre parcel to the overall plan. This development will employ approximately 100 people, with 38 during its largest shift. Due to the nature of its operation, the facility will operate 24 hours a day to serve the residents staying at the property, will provide rehabilitation services for its residents, and will be operated with the necessary regulatory licenses for this type of use. The developer and operator of this facility have built and operate several other similar facilities throughout the Western United States.

The project as proposed meets the minimum standards for a Special Use Permit as outlined in the Town Center Development Standards. The proposed use will be conducted in a manner that is harmonious and compatible with existing surrounding uses and with potential future uses as permitted in the area's Town Center Development Plan. The project will blend with the school and office product built to the east, the higher density cluster residential community located to the north, and the commercial center developed to the west. The building will be single story in nature and will include architectural features that are consistent with these neighboring developments. Access to the property can be easily achieved from the north via Riley Street and from the east via Rome Boulevard. Being that the residents at the facility do not drive, parking and traffic generated by the site will be minimal. The subject site is suitable for this type of use as it is in close in proximity to the Centennial Hills Hospital, close to medical office services, but lies nearby a residential area, providing residents a sense of community.

The Site Development Review application is presented in conjunction with the Special Use Permit. The project meets the 12% open space requirement outlined in Title 19.10.060(E) as indicated on the site plans presented with this application. Because each of the other commercial components within

the Montecito Town Center area met or exceeded this 12% open space requirement, the 12% target outlined in the master plan has been met. The remaining 8% required to achieve the 20% Open Space overall requirement for this plan area is acquired from the allocation provided for by the Mountain Ridge Park area located in the northeast quadrant of this planning area. The project itself has a net Floor to Area Ratio (FAR) of 0.41 based upon the net acreage. However, if the project is analyzed using the gross acreage, the FAR is 0.33. This project will not cause the overall Montecito Town Center allowed FAR to exceed 0.40, which is demonstrated in the attachment included with this letter. The building will include an outdoor patio area for employees separated from the main entrance per the applicable development requirements for a building of this size. Parking and landscaping requirements are consistent with Title 19 standards for this development. The building, being single story, is compliant with height and step back restrictions for the Town Center Core area.

However, the project does seek a couple of waivers from the Town Center standards. First, the project seeks a waiver of the Town Center Core requirement of 80% of the building to be developed at the setback line, which for this project is 0 feet along Rome Boulevard. We ask for this waiver because this project is proposed to have a residential character for its residents staying at the facility and the developer wishes to provide some landscaping between the sidewalk and the building. Because the site plan for the project has been created so that every room has windows to the outside facing courtyards and open space areas, having this portion of the building so close to the sidewalk and street will detract from this intent. We believe that granting this waiver will not deter from the compatibility with the surrounding uses and will not compromise the intent of the applicable development goals for this planning area.

Second, the project seeks a waiver of the 15 foot side yard setback along Riley Street. It should be noted that the setback meets or exceeds the required distance along the entire length of Riley Street except for the most southerly portion where the required cul-de-sac/turnaround encroaches into the required setback area. The total encroachment area is 800 square feet and consists of the right-of-way at its narrowest point being 8" from the edge of the building as shown on the site plan. We ask for this waiver because the requirement of the cul-de-sac impacts the developable area of the property. For this type of development, the alignment of the corridors inside of the building must be along a straight path with sight visibility of a nurse's station. As a result of the encroachment of the cul-de- sac, the rooms along this area would need to be pushed back 15 feet to comply with this setback standard and would detract from the efficiency of the building layout. Furthermore, the Town Center Core development area allows a zero setback along the frontage of the building along Rome Boulevard and a reduced setback along this small stretch of Riley Street would not be much different. We have also seen the City approve setback variance in locations where bus turnouts are required and impeded into required setback areas; we believe this scenario is similar in nature to other approved variances of this nature. Lastly, we believe that granting this waiver will not cause any safety issues as this is a dead street and the facility is operational 24 hours a day. We also believe that granting this waiver will not deter from the compatibility with the surrounding uses and will not compromise the intent of the applicable development goals for this planning area.

Lastly, as part of this application, we seek a Major Modification to the Montecito Town Center Development Agreement to add the southerly 2.5 acre parcel into the overall plan area. As part of this development, the two parcels having separate ownership will be combined via a reversionary parcel map and it is preferable, by both the applicant and the City, to have the entire site and project subject to a single set of development standards. This addition will increase the overall development

area from 217.5 acres to 220 acres and will not have any negative impacts to the Montecito Town Center area as a result of this modification.

For the reasons outlined above we respectively request approval of this project and its related land use entitlements outlined above. It should be noted that this type of facility has been recognized in reports from the State of Nevada to conclude that the amount of skilled nursing beds is Nevada is not keeping pace with the growth of the elderly population of the state. It should also be noted that currently there is only one similar facility in the immediate Northwest to provide services to the newly opened Centennial Hills Hospital. We sincerely believe that this proposed use will tie in well with the nearby residential, the nearby commercial center, and the existing business park located nearby.

Please feel free to contact me at our office at 369-4444 to discuss this matter further. Thank you in advance for your consideration of this request.

Sincerely,

Joe P. Gwerder, PE
Sr. Vice President of Operations

RE: Providence Master Plan Community
Plotting Variance Request
POD: 102, 107, 108, 202, 204, & 206 – Northern Terrace
LOTs: 586 & 587

Dear Scott:

The Providence Design Review Committee (DRC) is in receipt of your request for a waiver to allow the rear yard setback to be 10.5' for the house and 5.5' for the patio.

The DRC agrees to grant this waiver on lots 586 and 587.

If additional deviations are required they must be submitted to the DRC for review and approval. Should you have any questions, please do not hesitate to contact our office.

Unless specifically waived, all elements within Providence must comply with the terms and conditions of the Design Guidelines and other governing documents. The waiver granted herein applies only to the specific items as noted above, and does not constitute an approval of every specific element of the submittal, nor does it constitute a waiver of Providence's rights to enforce compliance with the Design Guidelines and other governing documents. Should an element of the submittal not comply with the Design Guidelines or other governing documents, and is not specifically waived, Providence reserves all of its rights with respect to enforcement of the terms and conditions of such documents as to the non-conforming element. All non-conforming elements must be specifically noted and a specific waiver must be submitted with respect thereto.

Sincerely,
Providence Design Review Committee

Re: Major Amendment to SDR-39121 for a Law Office Building
APN: 139-34-701-009

To whom it may concern:

The purpose of this letter is a request to modify the previously approved SDR-39121 for the proposed Law Office Building located at 400 South 7th Street in Las Vegas, Nevada 89101.

The approved design for this project had two (2) levels of subterranean parking, 2 levels of above grade parking, and 3 levels of office above them. Construction documents for the building were completed, submitted and approved by Las Vegas Building department. Demolition permits have been pulled by the contractor, site has been fenced off, and existing site structures have been demolished in preparation of construction as planned. However, the owner was not able to obtain financing for the project of this scope.

The proposed revisions to the project aim at keeping the essential needs of the owner while attempting to challenge the financing barrier. The revisions include the removal of the top-most level of the office and also the lowest subterranean level of parking. The proposed new building area (exclusive of parking) is 46,800 SF. The new parking requirement is 156 spaces. The structured parking will house 101 parking spaces.

For additional parking the owner will use a previously approved nearby lot at 424 S. 7th Street which is only 50 feet south of proposed building. The applicant has a ten year term lease agreement with the property owner, with a 9 year option, and first right of refusal to purchase the property. This site will be surface parked and will contain 25 parking spaces.

Also, there is abundant street parking available for the use by the building occupants. There are currently 3 metered street parking spaces on Chef Anrdre Rochat Place and 7 spaces on 7-th Street immediately adjacent to the project site. Removal of existing driveways will provide a possibility to install at least 4 more street parking spaces making a total of 14 spaces for most convenient use of building occupants. There are also 19 metered parking spaces just across 7-th Street which are almost never used and would be most suitable for proposed building users.

The total available parking is 101+25+14+19=159 spaces, which is more than enough to meet the projected demands of the project.

The property is also just a block away from Downtown Centennial plan area where parking requirements are amended due to downtown development density expectations. The proposed design meets most of the urban core design criteria and is adjacent to the Downtown Centennial Zone.

We appreciate your assistance in moving forward with these modifications to the previously approved project.

Sincerely,

Kastytis Cechavicius, NCARB
Principal

Re: ***Revised Justification Letter – APN 137-34-818-002***
Special Use Permit Application
VC TOROS, LLC dba TOROS

To Whom it May Concern:

This office represents the applicant in the above referenced matter. This application is a request for a special use permit for a "Pub, Bar & Lounge" (tavern) and gaming, within an existing commercial shopping center located on the northeast corner of Desert Foothills Drive and Charleston Boulevard within Summerlin.

The proposed establishment is located within an existing Albertsons shopping center and faces Charleston Boulevard, a 100 foot right-of-way. The establishment, known as "TOROS" will be located in an approximately 4,000 square foot inline space on the southeast end of the site within Building E.

TOROS is a casual yet upscale dining and drinking establishment offering a large outdoor seating area located within an existing courtyard between buildings D and E. The existing shopping center was designed to offer a variety of neighborhood friendly shopping and dining choices to serve the many rooftops located west of the 215 and to supplement the dining and shopping alternatives east of the 215. The proposed use is consistent with and compatible with the surrounding area and will serve as a desirable amenity for the nearby residential communities.

We appreciate your kind consideration of our request. Should you have any questions, please call me. Thank you very much.

Sincerely,

KAEMPFER CROWELL RENSHAW

Justification Letter

To: City of Las Vegas Department of Planning
From: Joshua Glover/ Black Spade Tattoo Boutique
Date: 2/13/2012
Subject: Justification Letter

The Proposal is to open a new and exciting tattoo boutique at the Downtown location of:
124 S. 6th Street, suite #130 Las Vegas, NV 89101.

Shop operating hours:
Tuesday - Saturday
12noon - 10pm
Number of employees - 4

1. The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.

The proposed Tattoo Parlor/Body Piercing Studio can be conducted in a manner that is harmonious and compatible with surrounding land uses.

2. The subject site is physically suitable for the type and intensity of land use proposed.

The subject site is physically suitable for the type and intensity of land use proposed, provided a handicap parking space is provided.

3. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.

Las Vegas Boulevard, designated as a Primary Arterial by the city's Master Plan of Streets and Highways, provides access to the property. Access is possible only from the northbound lanes. These roadway facilities are adequate to serve the proposed Tattoo Parlor/Body Piercing Studio.

4. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.

Approval of a Special Use Permit for a Tattoo Parlor/Body Piercing Studio at this location will not compromise the public health, safety and welfare or the primary objectives of the General Plan, as the use will be subject to regular to inspections and licensing requirements.

Thank you

Joshua Glover

Clay Arts Vegas, LLC is requesting a SPECIAL USE PERMIT for permission to perform Custom and Craft Work at rear of building, contained with in a 8' tall concrete block wall enclosure, this will include firing of kilns.

WHO WE ARE:

CLAY ARTS VEGAS, LLC (CAV) is creating a pottery studio and adjoining gallery in the Las Vegas Arts District. Our studio will provide open enrollment classes for beginner, intermediate and advanced ceramic artists. The studio will have 10 wheels for student use as well as a large hand building area. We will provide a professional finish to student work by firing pieces at high temperature. The gallery space will be sub-divided using office partitions and 5'-9" tall book cases. The space will feature a 978 square foot retail space for finished ceramic art and a Laguna Clay distributor for clay, glaze, and hand tools products.

REQUEST:

We are requesting a SPECIAL USE PERMIT to use a natural gas and propane fired appliance (kiln) at this location. In order for our business to grow and develop, we need the ability to fire this type of kiln on-site. We will be providing services to 70 plus artists per week with retail sales, gallery sales, and recreational classes. 1509/1519 S Main Street is currently zoned C-2. To the North, our neighbor is an AAMCO Transmission shop, which shares one wall and a concrete block perimeter wall; to the South, a JACK-IN-THE-BOX restaurant with drive thru is separated by our 40-space parking lot and a concrete block wall. This property is has a 6500 square foot paved parking lot which adjoins an unnamed alley East of the property.

EXISTING CITY POLICY:

Currently the appliance (kiln) we are proposing is used at similar studios around Clark County (Pottery West, Aardvark Clay and Supply), many of the Clark County High Schools, and at ceramic studios around the world also use this appliance. With in a two (2) mile radius there are two studio using similar appliances, Domsky Glass at 2758 South Highland Drive Unit A and Artist Iron Works 105 West Charleston Boulevard . The Las Vegas Academy at 315 S. 7th Street, currently uses the appliance, we are proposing, in an outdoor setting in a chain-linked yard.

JUSTIFICATION:

The appliance (kiln) will be placed within a 44' x 25' area, enclosed by a concrete block privacy wall that opens to our parking lot with an 8' gate. There will be no noise pollution created from this appliance (kiln), which will not be seen from the street. Without the ability for us to install and use a propane or natural gas appliance (kiln), we will not be able to be competitive with other studios in the area. We need gas firing to create a professional finish on the work created in this studio. Locating the appliance (kiln) outside will reduce the costs for cooling the space and thereby our carbon footprint.

CAV is working with Tom Burkart; together we have spoken with: Mark Rex in CLV Planning, Rob White, Chas Reichold, and Rob Clark in the Building Department, and Ken Miller in the Fire Engineering and Safety office. All parties are positive, and helpful about what we are doing.

Thank you for considering us for a Special Use Permit

Thomas Bumblauskas, Executive Director, and Founder.

Re: Clay Arts Las Vegas, LLC

Dear Thomas;

Mike Evans and I are the owners of the building located at 1509 S. Main Street, Las Vegas, NV 89104, and give Clay Arts Las Vegas, LLC approval to get a Special Use Permit to install and fire a gas-fired kiln within the fenced area at the back of the property. The permission is based on the equipment meeting all applicable codes and getting all required permits and approvals from the City of Las Vegas.

If you need to contact us, our numbers are: Mike Evans at 702-239-7236, or Monica Deines at 702-361-4216.

Sincerely,

Monica Deines
