# Food Access Policy

## Safe & Healthy City

*“Expand access to healthy, affordable food by prioritizing grocery stores or markets as essential components of neighborhoods”*

# Food Access Policy

## Health Statistics

In Las Vegas...

- 23.1% of adults are obese
- 11.6% of children are obese

Costs of Obesity:

- \$147 billion in medical costs resulting from obesity (\$1,429 per person greater than patients of normal weight)

# Food Access Policy

## Access to Healthy Foods

- Poor dietary choices contribute to obesity
- Only 6.2% of youth consume the recommended servings of fruits and vegetables
- Access to healthy foods is a priority for obesity prevention and control

# Food Access Policy

## Purpose

Remove barriers to healthy food access:

- Identify “food deserts”
- Encourage grocery stores in underserved areas
- Encourage farmers’ markets
- Adopt Food Access Policy Guide to direct future efforts

# Food Access Policy

## Food Desert

- Definition: Areas that lack access to healthy food choices
- 5 areas identified
