WESTAR ARCHITECTS

What's the first thing you'll notice when you come to MTO? A remarkable 14-person communal table, handmade by the owners. Constructed of walnut and white oak from the family farm in Kentucky, the wood was milled and left to cure for three years. The frame, custom hand crafted metal work, sits atop a reclaimed 1940's metal lathe. That's the attention to detail you can expect at MTO Cafe. Oh, and really good food.
