Healthy Me Fun Fitness Day

Healthy Me Fitness Day will provide workshops that give kids ideas on games to play to stay active, healthy snack choices, hygiene, and give information about community partners that help promote healthy lifestyles.

The Community

- The Healthy Me Fun Fitness Day will help the community by promoting health and wellness while working to hinder the growing obesity rate.

Benefits

Healthy Me Fitness Day will benefit the community by leading the kids in the right direction. The community will also gain a healthy experience by increasing their physical activities. We are showing the community that we care about their health. We are showing them that fitness is as good for the brain as it is for the body.

Our Project

We selected this project after listening to a guest speaker during a Teen Connections meeting tell his story of being over weight as a child and young adult and how he overcame that by doing light exercises and eating healthy. We will be distributing flyers to the schools around Doolittle Community Center to tell kids about the upcoming Healthy Me Fitness Day.

Why is our project important?

- Our project is important because it gives us a chance to do something positive in the community that will hopefully stay with the youth. If the youth are not making healthy choices this project will hopefully start them on their way to a healthy and happy lifestyle. We know that taking steps to improve health or maintain it if it's already intact can make a positive difference in a person's life.

What needs to be done and who will do it?

- We will contact local healthy lifestyle vendors to work the booths and give information to participants- Leader of Tomorrow
- We will provide snacks after the activities-Leaders of Tomorrow
- We will provide informational booths for all Healthy Me Fitness participants- community partners
- We will provide examples of easy and healthy exercises- Leaders of Tomorrow, community partners

Why should YNAPP fund out project?

- Physical health is important because it can greatly impact how people think and act. When people don't feel well, they tend to stress about it. This project should be funded because it will provide information to help building a better community and improve the quality of life for all that are involved. Healthy Choices = A Healthy Lifestyle = Better Community = Better Quality of Life.

  This is a win-win!!
