**** STAFF REPORT ******PROJECT DESCRIPTION**

The applicant is requesting approval of two (2) 200 square-foot non-illuminated wall signs to be placed directly west of the approved LED display/neon sign on the north elevation of the building at 200 Fremont Street. These signs would be of a similar size (20'x10') and design as existing signs along the 3rd Street frontage, which are also not illuminated. The applicant is requesting a waiver to allow no illumination on either sign, which staff does not support. Therefore, staff recommends denial of the design review, with conditions if approved.

ISSUES

- The applicant is requesting a waiver of the Downtown Casino Overlay District Special Signage Standards to allow no illumination on these signs where at least 50 percent of the surface area of each sign shall be illuminated by exposed neon, LED, animation or a combination of any of these. Staff recommends denial of the waiver request.

BACKGROUND INFORMATION

ANALYSIS

The site is located within the Central Casino Core Sub-District of the Downtown Centennial Plan Overlay District. Within this area, Downtown Design Review of signage is required.

The subject property is located within the Downtown Casino Overlay District Special Signage Area. Signage within this area is subject to Title 19.10.100 standards and procedures, and the standards of Title 19.08.120 insofar as they do not conflict with Title 19.10.100. Within this area, at least 50 percent of the surface area of each wall-mounted sign must contain neon or LED illumination, animation or a combination of these. The submitted plans indicate that the proposed signs will not contain any required illumination or animation and that downward directed external light will provide sufficient visibility. Staff recommends denial of the requested waiver of standards, as the proposal would not support any of the redevelopment and aesthetic objectives of the Downtown Casino Overlay District. Otherwise, the sign meets the Title 19 requirements for height, area, wall coverage, projection and clearance from grade.

FINDINGS

As the proposed sign does not meet the intent of the Downtown Casino Overlay Special Sign Standards or conform to its specific requirements, staff recommends denial of this review with conditions if approved.
