In the years preceding the recession, Nevada led the nation in employment growth (based upon QCEW information).

Nevada was impacted by the recession more than any other state in terms of employment growth. Beginning in 2011, Nevada's employment growth rate is rising again. Private sector jobs grew 2.4% over the first six months of 2013, relative to the same period in 2012; faster than 36 other states.

Looking solely at the second quarter of 2013, Nevada outperformed 38 other states in terms of y-o-y growth.

Nevada Labor Market

- ❑ Nevada's unemployment rate stands at 9.0 percent in December, down 0.1 point from November, and one percentage point from a year ago. (Peaked at 14% in late-2010.) The Las Vegas MSA experienced an 8.9% unemployment rate over the same period.
- ❑ For all of 2013, Nevada's 1.7 percentage point decline in the unemployment rate was the strongest in the nation.
- ❑ In totaling 1.19 million, job readings are up by 39,500 in December, relative to a year ago. 24,500 of those jobs are in the Las Vegas MSA.
- ❑ Nominal weekly wages are up by nearly 1.9 percent in the third quarter of 2013, relative to a year ago.
- ❑ Personal Income is up 4.3 percent in the third quarter of 2013, reaching a record high of \$109.3 billion, in nominal terms.

Nevada Economy

- ❑ Nevada's taxable sales in December 2013 were up 1.7% relative to the same period in 2012; the highest December reading since 2007.
- ❑ Las Vegas visitor volume for January 2014 is up 8.2% relative to 2013.
- ❑ January gaming revenue for the state is down 2.7% relative to the same period last year, totaling \$884 million.

Clark County Job Growth: 2010-2013

- ☐ All told, jobs up nearly 40,000 over the three-year period.
- ☐ Private sector gains have been widespread. Leisure/hospitality leads the way, along with professional/business services.
- ☐ Although construction has lost jobs over the entire period, more recent trends are encouraging...up 4,100 2012-2013..

Nevada Jobs: History and Forecast

- ☐ Job growth turned positive in 2011, and continued into 2012 and 2013.
- ☐ We are expecting to add about 30,000 jobs this year.
- ☐ Growth should strengthen a bit in 2015 to about 32,000.

Nevada Mining Jobs: History and Forecast

- ☐ Job growth stalled during the recession, and was on the upswing through 2012.
- ☐ Since then, job readings have leveled off, and even declined slightly, as gold prices eased noticeably.
- ☐ Job levels should hold relatively steady through next year.

Nevada Construction Jobs: History and Forecast

- ☐ Nearly 100,000 jobs lost over 2006-2012 period; signs of growth beginning in late-2012.
- ☐ 4,800 jobs added in 2013.
- ☐ Close to 6,000 new jobs expected in both 2014 and 2015.

Nevada Retail Trade Jobs: History and Forecast

- ☐ Strengthening trend going forward.
- ☐ Job growth of about 3,000 in 2013.
- ☐ Expectations for about 4,000 jobs annually this year and next.

Nevada Healthcare/Social Assistance Jobs: History and Forecast

- ☐ Job growth has been non-stop, even during the recession.
- ☐ That trend should continue.
- ☐ Growth of about 3,000/year over 2014-2015 period.

Nevada Accommodation/Food Services Jobs: History and Forecast

- ☐ About 30,000 jobs lost during the recession.
- ☐ Pretty steady growth beginning in 2010.
- ☐ Approximately 7,500 jobs per year going forward.

Clark County Jobs: History and Forecast

Job growth turned positive around mid-2011, and continued into 2012 and 2013.

We are expecting to add in excess of 20,000 jobs this year, with growth strengthening a bit in 2015.
