PURPOSE/BACKGROUND:

This bill will establish licensing requirements and regulations, as well as updated zoning regulations, pertaining to short-term residential rentals. A previous bill on the same subject was stricken from the agenda last November in order for staff to bring back a revised version. This revised version includes provisions brought forward last November as well as additional recommendations approved by the Planning Commission. The latter include the requirement for a special use permit for locations with more than four bedrooms.

RECOMMENDATION:

This bill should be submitted to a Recommending Committee for review, hearing and recommendation to the City Council for final action.
