PURPOSE/BACKGROUND:

The City of Las Vegas, in partnership with and on behalf of the Western Adaptation Alliance, is entering into an Interlocal Agreement with the University of Arizona to develop a Collaboration Project in Adaptation and Resilience. This project will document major extreme events of climatic impacts - temperature extremes, stormwater/floods, drought, fire, and wind - for Las Vegas and across the intermountain west, record specific actions taken following those events, develop narratives for each class of impact, and create a toolkit for the highest priority impact - extreme heat events. The project is being paid for with funding from the Urban Sustainability Directors Network. This project supports the goals and objectives of the Conservation Element of the City of Las Vegas 2020 Master Plan.
