ANALYSIS

On May 27, 2015 the HPC received a presentation by Logan Simpson regarding the findings and recommendation from the “World War II Era Residential Housing in Las Vegas, Clark County, Nevada (1940 – 1945)” historic context report.

The report provided more detailed information on the Las Vegas neighborhoods constructed during WWII, including the Huntridge, Biltmore, Vega Verde, Beckley Subdivision, Sebec Acres, Eastland Heights and Charleston Square neighborhoods. The report also provided guidelines for assessing the National Register of Historic Places eligibility of single family and multiple family dwellings and subdivisions. Recommendations include further study of all neighborhoods with the exception of the Beckley Subdivision. The majority of Eastland Heights is located in Clark County which would require significant support from Clark County to initiate and implement a district nomination of the entire subdivision.

REPORTS BY STAFF: ITEM 9

The 2015 Historic Preservation Fund grant scope includes a nomination report for one neighborhood as an historic district, combined with a public outreach campaign to the nominated neighborhood based on the findings in the 2014 historic context report. A public meeting to present the 2014 report findings to all subdivisions excluding Beckley is planned for July. Comments from this meeting will provide direction for any necessary scope changes for the 2015 HPF grant. Any scope changes will be brought to the HPC for consideration prior to submittal to SHPO.
