

Department of Parks and Recreation Fee Adjustments

The Department of Parks and Recreation is continuing to review, evaluate and propose modifications to a number of fees for services provided at various community centers, senior centers, active adult centers and sports complexes.

One of the main goals for the upcoming modifications is to standardize pricing for like services. In addition, the adjustments will allow the department to manage assets by collecting the appropriate fees to help offset the cost of providing specific programs and services. It is important to note that in this phase, not all fees will increase, and some of the fees proposed have decreased.

This phase includes annual memberships for senior and active adult centers, fitness memberships, open gym, specialized services at Chuck Minker Sports Complex and specialized programming at Mirabelli Community Center. Some of the increases will be done in increments with the overall increase effective in 2017. The City Council has been briefed, and all fees have been approved by the Director of Parks and Recreation.

All adjustments and timelines are listed below.

PROGRAM NAME	CURRENT FEES	New fees for sessions beginning 8/31/15		New fees for sessions beginning 8/28/17
