Planning

1. Conformance to all Minimum Requirements under LVMC Title 19.12 for a Medical Marijuana Dispensary use.
2. Conformance to the associated final recommendation of the Downtown Design Review Committee (DDRC) shall be required.
3. No physician or medical person making recommendations for medical marijuana may be located within a dispensary.
4. There shall be no on-premise consumption (the use, smoking, ingestion or consumption of any marijuana, edible marijuana or marijuana infused product) on the licensed premises.
5. All development shall be in conformance with the site plan date stamped 08/19/14, and building elevations, sign elevations and floor plan date stamped 08/04/14, except as amended by conditions herein. Any modification of the premises of a medical marijuana establishment shall be filed 60 days in advance of any proposed construction. A full and complete copy of all architectural and building plans shall be filed with the Director for a review of compliance with Title 6.95 and Title 19. The Director shall review the plans and approve any modifications in compliance with this chapter prior to the commencing of any construction of modifications.

Conditions Page Two

6. This approval shall be void eighteen months from the date of final approval, unless exercised pursuant upon the issuance of a business license. An Extension of Time may be filed for consideration by the City of Las Vegas.
7. All necessary building permits shall be obtained and final inspections shall be completed in compliance with Title 19 and all codes as required by the Department of Building and Safety.
8. These Conditions of Approval shall be affixed to the cover sheet of any plan set submitted for building permit, as well as submitted as part of any business license application.
9. Prior to the submittal of a building permit application, the applicant shall meet with Department of Planning staff to develop a comprehensive address plan for the subject site. A copy of the approved address plan shall be submitted with any future building permit applications related to the site.
10. The presence of minors on the premises of a medical marijuana establishment is prohibited unless the minor is a qualified patient on the premises of a dispensary and is accompanied by his or her parent or legal guardian.
11. Approval of this Special Use Permit does not constitute approval of a medical marijuana facility license.
12. This business shall operate in conformance to Chapter 6.95 of the City of Las Vegas Municipal Code.
13. No temporary signs such as banners, pennants, inflatable objects, streamers, flags, or other similar attention gaining item or devices shall be displayed upon the subject property or a vehicle displaying advertisement in the parking lot of the subject property without the appropriate permits.
14. This Special Use Permit shall be reviewed biennially concurrently with the associated business license, at which time the City Council may require the termination of the use. The applicant shall be responsible for notification costs of the review. Failure to pay the City for these costs may result in a requirement that the Medical Marijuana Dispensary be removed.
15. All medical marijuana products shall remain in the original manufacturer's configuration intended for off-sale.
16. A Medical Marijuana Dispensary shall obtain all required approvals from the State of Nevada to operate such a facility prior to the Special Use Permit being exercised pursuant to LVMC 19.16.110.

**** STAFF REPORT ****

PROJECT DESCRIPTION

This application is a request for a Special Use Permit for a proposed Medical Marijuana Dispensary to be located at 921 South Las Vegas Boulevard, Suite #100. The subject site complies with all minimum distance requirements as set forth by Title 19.12 and therefore the use can be conducted in a compatible and harmonious manner with the existing surrounding land uses and future land uses as projected by the General Plan. As such, staff recommends approval of the proposed use with standard conditions. If denied, no Medical Marijuana Dispensary would be permitted to be established at this site.

ISSUES

- The Medical Marijuana Dispensary use is permitted within a C-2 (General Commercial) zoning district with the approval of a Special Use Permit.
- The subject building elevations and signage were reviewed and approved by the Downtown Design Review Committee (DDRC) on August 26, 2014.
- For the subject site to be eligible for a Medical Marijuana Dispensary, the subject site must be in compliance with all minimum distance separation requirements, pursuant to Title 19.12, as set forth by adopted Ordinance No. 6321.
- Simultaneous reviews of the business license application and the Special Use Permit application were conducted. If either application failed to comply with their respective requirements both applications would have been deemed incomplete and consequently rejected.

ANALYSIS

The Medical Marijuana Dispensary use is defined as “An establishment which acquires, possesses, delivers, transfers, transports, supplies, sells or dispenses marijuana or related supplies and educational materials to the holder of a valid registry identification card. This use includes a ‘medical marijuana dispensary,’ as defined in NRS 453A.115.” The justification letter states, “Attached is a signed, notarized, and acknowledged application for a Medical Marijuana Dispensary Special Use Permit along with the requisite site plan and other relevant items associated with this request for approval of a Dispensary pursuant to LVMC 6.95.020.” The floor plan illustrates a 4,188 square-foot Medical Marijuana Dispensary with 514 square feet of waiting, queuing and transaction space. Per the submitted justification letter and floor plan, the proposed use meets the definition outlined above.

The Minimum Special Use Permit Requirements for this use include:

*1. Pursuant to its general authority to regulate the cultivation, production, dispensing and sale of medical marijuana, the City Council declares that the public health, safety and general welfare of the City are best promoted and protected by generally requiring a minimum separation between a medical marijuana dispensary and certain other uses that should be protected from the impacts associated with a medical marijuana dispensary. Therefore, except as otherwise provided below, no medical marijuana dispensary may be located within 1000 feet of any school; or within 300 feet of any individual care center licensed for more than 12 children, community recreational facility (public), City park, or church/house of worship.

The proposed use meets this requirement, as there are no schools within 1,000 feet of the subject property, as well as there are no individual care centers licensed for more than 12 children, community recreational facilities (public) or City parks or churches/houses of worship within 300 feet of the subject property.

*2. The distance separation referred to in Requirement 1 shall be measured with reference to the shortest distance between two property lines, one being the property line of the proposed medical marijuana dispensary which is closest to the existing use to which the measurement pertains, and the other being the property line of that existing use which is closest to the proposed medical marijuana dispensary. The distance shall be measured in a straight line without regard to intervening obstacles.

The proposed use meets this requirement; measurement is taken from the property line of Lots 3-8 and a portion of Lot 9, Block 27 of Book 1 Page 51 of Plats, located on the east side of Las Vegas Boulevard, 50 feet south of Hoover Avenue.

- *3. For the purpose of Requirement 2, and for that purpose only:
- a. The “property line” of a protected use refers to the property line of a fee interest parcel that has been created by an approved and recorded parcel map or subdivision map, and does not include the property line of a leasehold parcel; and
 - b. The “property line” of a medical marijuana dispensary refers to:
 - i. The property line of a parcel that has been created by an approved and recorded parcel map or commercial subdivision map; or
 - ii. The property line of a parcel that is located within an approved and recorded commercial subdivision and that has been created by a record of survey or legal description, if:
 - A. Using the property line of that parcel for the purpose of measuring the distance separation referred to in Requirement 1 would qualify the parcel under the distance separation requirement;

B. The proposed medical marijuana dispensary will have direct access (both ingress and egress) from a street having a minimum right-of-way width of 100 feet. The required access may be shared with a larger development but must be located within the property lines of the parcel on which the proposed medical marijuana dispensary will be located;

C. All parking spaces required by this Section 19.12.070 for the medical marijuana dispensary use will be located on the same parcel as the use; and

D. The owners of all parcels within the commercial subdivision, including the owner of agreement, satisfactory to the City Attorney, that provides for perpetual, reciprocal cross-access, ingress and egress throughout the commercial subdivision.

The proposed use complies with Subsection (a) of this requirement. The subject site is an existing commercial development and did not require the creation of a separate parcel to meet the distance separation requirements. As such, Subsection (b)(ii) is not applicable and the site is in conformance with this requirement.

*4. The use shall conform to, and is subject to, the provisions of LVMC Title 6, as such provisions may be presently adopted or hereafter amended.

The use complies and will be subject to this requirement.

*5. No outside storage shall be permitted, including the use of shipping containers for on-site storage.

The proposed use meets this requirement, as no outside storage, including shipping containers, has been denoted within the submitted site plan.

*6. Subject to the requirements of applicable building and fire codes, public access to the building shall be from one point of entry and exit, with no other access to the interior of the building permitted.

The submitted floor plan indicates only one public access point to the proposed Medical Marijuana Dispensary.

*7. No drive-through facilities shall be permitted in conjunction with a medical marijuana dispensary.

The proposed use complies with this requirement, as the submitted site plan illustrates no drive-through facilities as part of the subject site.

Staff Report Page Seven
October 29, 2014 – Special City Council Meeting

*8. Signage for the establishment shall be limited to one wall sign per street frontage, the face of the sign not to exceed thirty square feet in area and not to exceed two feet in height. Such a sign shall be internally illuminated, with the use of neon prohibited.

The proposed use complies with this requirement as the submitted building and sign elevations illustrate the location and size of one 23 square-foot internally illuminated wall sign per street frontage.

*9. The Special Use Permit shall be void without further action if the uses ceases for a period exceeding 90 days.

The use will be subject to this requirement if the Special Use Permit is approved and exercised.

*10. A medical marijuana dispensary shall obtain all required approvals from the State of Nevada to operate such a facility prior to the Special Use Permit being exercised pursuant to LVMC 19.16.110.

The use will be subject to this requirement if the Special Use Permit is approved and prior to it being exercised.

*11. Elevations and signage must first be reviewed by the Downtown Design Review Committee established pursuant to LVMC 19.10.100(D)(1) prior to any public hearing for a Special Use Permit. The review will be performed in accordance with the procedures set forth in LVMC 19.10.100(D), as in the case of reviews normally performed by that Committee, but measuring compliance instead with the substantive standards for elevations and signage pertaining to dispensaries that are set forth in this Title or that have been established administratively by the Director.

The proposed building elevations and signage were reviewed and approved by the Downtown Design Review Committee (DDRC) on August 26, 2014.

*12. No medical marijuana dispensary shall be located on any property which abuts Fremont Street west of 8th Street.

The use complies with this requirement, as the subject site does not abut Fremont Street, west of 8th Street.

*13. No accessory uses are permitted in association with a medical marijuana dispensary.

The use will be subject to this requirement if the Special Use Permit is approved and will remain in effect the duration the use is active.

Staff Report Page Eight
October 29, 2014 – Special City Council Meeting

The proposed use would be placed within a 4,188 square-foot tenant space located within an existing medical office located along Las Vegas Boulevard. The subject site does not meet the standard parking requirements for the medical marijuana dispensary and medical office uses; however, Title 19 parking requirements within the Downtown Centennial Plan area are not strictly applied, and adequate parking is located in the vicinity of the site to accommodate these uses. (A satellite parking lot is located to the northeast of the site.) Other than the Minimum Special Use Permit Requirements found within Title 19.12, there are no special development requirements pertaining to the site. There are no other similar uses or protected uses within the required distance separations. For these reasons, the proposed use is deemed compatible with the surrounding uses; therefore, staff recommends approval with conditions.

FINDINGS (SUP-55277)

In order to approve a Special Use Permit application, per Title 19.16.110(L) the Planning Commission and City Council must affirm the following:

1. The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.

The subject site complies with all minimum distance requirements as set forth by Title 19.12 and therefore the use can be conducted in a compatible and harmonious manner with the existing surrounding land uses and future land uses as projected by the General Plan.

2. The subject site is physically suitable for the type and intensity of land use proposed.

The site contains an existing medical office. Adequate parking for all uses is provided onsite and on a satellite parking lot to the northeast of the subject site. The proposed use does not generate the need for any additional parking spaces beyond what has been provided onsite.

3. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.

The proposed Medical Marijuana Dispensary can be accessed from Las Vegas Boulevard, an 85-foot Primary Arterial as depicted on the Master Plan of Streets and Highways, which has adequate capacity to serve the proposed development. Secondary access is also provided from a rear alley with access to Hoover Avenue.

4. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.

Staff Report Page Nine
October 29, 2014 – Special City Council Meeting

The proposed Medical Marijuana Dispensary use will be subject to regular City and County inspections for licensing and will therefore not compromise the public health, safety, and general welfare or any objective of the General Plan.

5.The use meets all of the applicable conditions per Title 19.12.

The proposed Medical Marijuana Dispensary use meets all distance separation requirements per Title 19.12. Conditions of approval will ensure conformance with all other minimum requirements for this use.
