Richard P. Bonar

Facilities are provided throughout City Hall for convenience of persons with disabilities. For meetings held in the Council Chambers, sound equipment is available for persons with hearing impairments. If you need an accommodation to attend and participate in this meeting, please call the DEPARTMENT DESIGNEE at (702) 229-6301 and advise of your need at least 48 hours in advance of the meeting. The City's TDD number is (702) 386-9108.

April 9, 2013

6:00 PM

ITEMS MAY BE TAKEN OUT OF THE ORDER PRESENTED AT THE DISCRETION OF THE CHAIRPERSON. TWO OR MORE AGENDA ITEMS FOR CONSIDERATION MAY BE COMBINED; AND ANY ITEM ON THE AGENDA MAY BE REMOVED OR RELATED DISCUSSION MAY BE DELAYED AT ANY TIME.

NOTICE: This meeting has been properly noticed and posted at the following locations:

City Hall, 495 South Main Street, 1st Floor
Clark County Government Center, 500 South Grand Central Parkway
Grant Sawyer Building, 555 East Washington Avenue
City of Las Vegas Development Services Center, 333 North Rancho Drive

ACTIONS: ALL ACTIONS EXCEPT GENERAL PLAN AMENDMENTS, REZONINGS AND RELATED CASES THERETO ARE FINAL UNLESS AN APPEAL IS FILED BY THE APPLICANT OR AN AGGRIEVED PERSON, OR A REVIEW IS REQUESTED BY A MEMBER OF THE CITY COUNCIL WITHIN TEN DAYS AND PAYMENT OF THOSE COSTS SHALL BE MADE UPON FILING OF THE APPLICATION.

ANY ITEM LISTED IN THIS AGENDA MAY BE TAKEN OUT OF ORDER IF SO REQUESTED BY THE APPLICANT, STAFF, OR A MEMBER OF THE PLANNING COMMISSION AND AGREED TO BY THE PLANNING COMMISSION. THE PLANNING COMMISSION MAY IMPOSE TIME LIMITATIONS, AS NECESSARY, ON THOSE PERSONS WISHING TO BE HEARD ON ANY AGENDAED ITEM.

PLANNING COMMISSION MEETING RULES OF CONDUCT:

1. Staff will present each item to the Commission in order as shown on the agenda, along with a recommendation and suggested conditions of approval, if appropriate.

2. The applicant is asked to be at the public microphone during the staff presentation. When the staff presentation is complete, the applicant should state his name and address, and indicate whether or not he accepts staff's conditions of approval.

3. If areas of concern are known in advance, or if the applicant does not accept staff's condition, the applicant or his representative is invited to make a brief presentation of his item with emphasis on any items of concern.

4. Persons other than the applicant who support the request are invited to make brief statements after the applicant. If more than one supporter is present, comments should not be repetitive. A representative is welcome to speak and indicate that he speaks for others in the audience who share his view.

5. Objectors to the item will be heard after the applicant and any other supporters. All who wish to speak will be heard, but in the interest of time it is suggested that representatives be selected who can summarize the views of any groups of interested parties.

6. After all objectors' input has been received; the applicant will be invited to respond to any new issues raised.

7. Following the applicant's response, the public hearing will be closed; Commissioners will discuss the item amongst themselves, ask any questions they feel are appropriate, and proceed to a motion and decision on the matter.

8. Letters, petitions, photographs and other submissions to the Commission will be retained for the record. Large maps, models and other materials may be displayed to the Commission from the microphone area, but need not be handed in for the record unless requested by the Commission.

As a courtesy, we would ask those not speaking to be seated and not interrupt the speaker or the Commission. We appreciate your courtesy and hope you will help us make your visit with the Commission a good and fair experience.

BUSINESS ITEMS:

1. CALL TO ORDER

2. ANNOUNCEMENT: COMPLIANCE WITH OPEN MEETING LAW

3. ROLL CALL

4. PUBLIC COMMENT DURING THIS PORTION OF THE AGENDA MUST BE LIMITED TO MATTERS ON THE AGENDA FOR ACTION. IF YOU WISH TO BE HEARD, COME TO THE PODIUM AND GIVE YOUR NAME FOR THE RECORD. THE AMOUNT OF DISCUSSION, AS WELL AS THE AMOUNT OF TIME ANY SINGLE SPEAKER IS ALLOWED, MAY BE LIMITED

5. FOR POSSIBLE ACTION TO APPROVE THE FINAL MINUTES FOR THE PLANNING COMMISSION MEETING OF MARCH 12, 2013

6. FOR POSSIBLE ACTION - Any Items from the Planning Commission, staff and/or the applicant wish to be stricken or held in abeyance to a future meeting may be brought forward and acted upon at this time.

CONSENT ITEMS:

CONSENT ITEMS ARE CONSIDERED ROUTINE BY THE PLANNING COMMISSION AND MAY BE ENACTED BY ONE MOTION. HOWEVER, ANY ITEM MAY BE DISCUSSED IF A COMMISSION MEMBER OR APPLICANT SO DESIRES.

ONE MOTION - ONE VOTE

THE FOLLOWING ARE ITEMS THAT MAY BE CONSIDERED IN ONE MOTION/ONE VOTE. THEY ARE CONSIDERED ROUTINE NON-PUBLIC AND PUBLIC HEARING ITEMS. ALL PUBLIC HEARINGS AND NON-PUBLIC HEARINGS WILL BE OPENED AT ONE TIME. ANY PERSON REPRESENTING AN APPLICATION OR A MEMBER OF THE PUBLIC OR A MEMBER OF THE PLANNING COMMISSION NOT IN AGREEMENT WITH THE CONDITIONS AND ALL STANDARD CONDITIONS FOR THE APPLICATION RECOMMENDED BY STAFF, SHOULD REQUEST TO HAVE THAT ITEM REMOVED FROM THIS PART OF THE AGENDA.

7. SUP-48411 - SPECIAL USE PERMIT - PUBLIC HEARING - APPLICANT: ACADEMY MEDICAL EQUIPMENT/ATMS - OWNER: SUSAN ACKERMAN - For possible action on a request for a Special Use Permit FOR A GENERAL RETAIL STORE, OTHER THAN LISTED at 2400 North Tenaya Way, Suite #150 (APN 138-15-810-009), C-PB (Planned Business Park) Zone, Ward 1 (Tarkanian). City of Las Vegas
Planning Department
Special Use Permit Pre-Application Meeting
Academy Medical Equipment, Inc & ATMS

Justification for Special Use Permit

The businesses listed above are requesting a special use permit to occupy approximately 7500 sq ft of devised warehouse space (approx 3750 sq ft ea) located at 2400 Tenaya Way, Las Vegas NV 89129 (NE corner of Smoke Ranch and Tenaya). The warehouses are side by side with an existing devising wall with a double door connector opening. The warehouse areas are both accessible to the main office areas by a common access door. Both companies have common ownership. The space is part of a larger 26,500 square foot building know as the Ackerman Suites.

The above location is approximately one block from our current location and in the same zoning. The business is compatible with the area. There are no loud noises or outside work activity associated with the business operations. There are no other zoning requirements except Council approval.

Both companies provide sales of assistive technology mobility equipment (wheelchairs) to the consumer. Additionally, Academy provides ancillary after sale repair services representing about 30% of total revenues.

The company operates Monday thru Friday, 8am – 6pm, Saturday 9am – 4pm. The company employs approximately 28 FTE employees.

The companies provide virtually the same products and services. The difference in the business' are that AME works with Rehab consumers and ATMS is strictly public consumers.

Due to the nature of the consumer's lack of mobility, the point of sale is almost exclusively at the consumers home. Our companies have sales and service representatives that go to the consumer's home to demonstrate new mobility products or to conduct a service call.

Thank you,

William M. Paul

SITE PLAN (A)
1" = 40'-0"

Accessible Exterior Routes

The accessible route from the 2nd required exit must meet all requirements attached. Route cannot be located along path of vehicular traffic, but must travel along a pedestrian sidewalk or a striped area protected by curbs, fences, or a series of bollards so spaced as to provide adequate protection along the entire route. Crossing aisles require striping and must meet the requirements of ANSI 117.1.

COMPLY WITH ALL REQUIREMENTS OF 1997 UNIFORM BUILDING CODE AND 1992 ANSI A-117.1 FOR ACCESSIBILITY FOR THE DISABLED. ALSO MEET ALL STATE AND FEDERAL REQUIREMENTS. THE FOLLOWING ARE SOME BUT NOT ALL REQUIREMENTS. IT IS THE RESPONSIBILITY OF THE PERMIT HOLDER TO UNDERSTAND AND COMPLY WITH ALL ADOPTED CODES AND ORDINANCES.

INACCESSIBLE BUILDING ENTRANCES, INACCESSIBLE PUBLIC TOILETS, AND BATHING FACILITIES, AND ELEVATORS NOT ON AN ACCESSIBLE ROUTE SHALL BE PROVIDED WITH DIRECTIONAL SIGNAGE INDICATING THE ROUTE TO THE NEAREST SIMILAR ACCESSIBLE ELEMENT. SECTION 1103.2.4.2 1997 UBC.

WHEN MORE THAN ONE BUILDING OR FACILITY IS LOCATED ON SITE, ACCESSIBLE ROUTES SHALL BE PROVIDED CONNECTING ACCESSIBLE BUILDINGS AND ACCESSIBLE SITE FACILITIES. SECTION 1103.2.3 1997 UBC.

WHEN MORE THAN 1 EXIT IS REQUIRED FROM ANY ACCESSIBLE SPACE, EACH ACCESSIBLE PORTION OF THE SPACE SHALL BE SERVED BY NOT LESS THAN TWO ACCESSIBLE MEANS OF EGRESS. HANDICAP EXIT SIGNAGE SHALL CLEARLY INDICATE THE PATH OF EXIT TRAVEL, IF ALL EXITS ARE NOT ACCESSIBLE.

WHEELSTOPS AT HANDICAP PARKING SHALL BE PLACED SUCH THAT VEHICLE OVERHANG WILL NOT IMPEDE PEDESTRIAN TRAFFIC WITHIN THE HANDICAP ACCESS ROUTES.

ACCESSIBLE PARKING SPACES SHALL BE LOCATED ON THE SHORTEST POSSIBLE ACCESSIBLE ROUTE FROM ADJACENT PARKING TO AN ACCESSIBLE BUILDING ENTRANCE. IN FACILITIES WITH MULTIPLE ACCESSIBLE BUILDING ENTRANCES WITH ADJACENT PARKING, ACCESSIBLE PARKING SPACES SHALL BE DISPERSED AND LOCATED NEAR THE ACCESSIBLE ENTRANCES.
EXCEPTION: IN MULTIPLE PARKING STRUCTURES, ACCESSIBLE VAN PARKING SPACES MAY BE LOCATED ON ONE LEVEL.

HANDICAP ROUTE SLOPES ARE NOT TO EXCEED 5% RUNNING SLOPE, AND 2% CROSS SLOPE.

CONDITION OF APPROVAL**CLV PROJ. #: 4-83-03 DATE: 3-15-04
BUILDING INSPECTOR MUST VERIFY THE EXISTENCE AND COMPLIANCE FOR:

SDR-1199

The Planning Commission voted on December 3, 2002 to APPROVE your request, subject to the following:

1. This Site Development Plan Review shall expire two years from date of final approval unless it is renewed or an Extension of Time is granted by the City Council.
2. All development shall be in conformance with the site plan and building elevations, except as amended by conditions herein.
3. The site plan shall be revised and approved by Planning and Development Department staff, prior to the first application to work for a building permit, to reflect adequate setbacks from the north and west property lines, the number and location of landscape islands, the number, size and location of a sufficient number of loading spaces.
4. Prior to the submittal of a building permit, the applicant shall meet with Planning and Development Department staff to review the building elevations. A copy of the approved elevations and the approved exhibit plan shall be submitted with any future building permit applications.
5. Landscaping and a pressurized underground sprinkler system shall be installed or retained by the property owner in all areas of the site. Landscaping shall be maintained in a healthy and thriving condition to properly screen buildings and subsequently shall be replaced with equal landscaping. [Failure to properly maintain landscaping and subsequently replace dead plants shall be cause for revocation of a business license.]
6. All mechanical equipment, air conditioners and trash areas shall be fully screened as shown from the abutting streets.
7. Parking lot lighting standards shall be no more than 20-feet in height and shall utilize "directional" fixtures and shielding to direct light away from adjacent residential properties. Parking lot lighting shall comply with "Section 30" dealing with glare and shall be directed away from residential properties. Wall packs shall not be allowed on any building unless vandal-resistant fixtures are used and shall not create hazardous lighting on adjacent properties.
8. A Home Sign Plan shall be submitted for approval of the Planning Commission or City Council prior to the issuance of a Certificate of Occupancy for any building on the site.
9. All entry lanes measuring 27 cubic feet in size shall meet the standards of Municipal Code Section 19.12.050.
10. Any property line wall shall be a decorative block wall, with at least 20 percent contrasting materials. Wall heights shall be measured from the side of the lower with the least vertical separation above the finished grade, unless otherwise stipulated.
11. A fully monitored fire protection system, including fire separation doors, fire hydrants and water supply, shall be installed and be functioning prior to construction of any combustible structures.
12. All City Code requirements and design standards of the City departments must be complied.
13. Site development to comply with all applicable conditions of approval for the Ann Road/I-15 Development Park [Commercial Development] and all other subsequent amendments.
14. Remove all substandard public street improvements, if any, adjacent to this site and replace with new improvements meeting current City Standards concurrent with on-site development activities.
15. Meet with the Traffic Engineering Representative in Land Development for preliminary on-site roadway alignment, median island and street light locations, and striping for future street improvements.
16. Provide an update to the previously approved Traffic Impact Analysis as submitted to the City of Las Vegas Traffic Engineering Division for review and approval prior to the submittal of any building permit. Issuance of any building or grading permits, or the submittal of any construction drawings, shall be in accordance with the recommendations of the approved Traffic Impact Analysis prior to issuance of the site. The Traffic Impact Analysis shall also include a review addressing the need for a traffic signal at the intersection of Ann Road/I-15 Southbound On-Ramp. Any traffic signal recommended in the approved Traffic Impact Analysis shall be constructed prior to the issuance of any certificate of occupancy for the site. The Traffic Impact Analysis shall also include a review addressing Estimated Drainage Flow (EDF) #3 Ann Road/I-15 Southbound On-Ramp. Any improvements recommended in the approved Traffic Impact Analysis shall be constructed prior to the issuance of any certificate of occupancy for the site. If any analysis of areas recommended for the approved Traffic Impact Analysis is not completed prior to the issuance of any certificate of occupancy for the site, the applicant shall not have their bonds released prior to construction with the commencement of the development activities unless specifically noted in and required by the approved Traffic Impact Analysis. Any changes to the approved Traffic Impact Analysis shall be subject to City Traffic Engineer approval. The recommendations of the approved Traffic Impact Analysis, and subsequent amendments thereto, shall be deemed to modify or eliminate any conditions of approval imposed by the Planning Commission or the City Council, as the circumstances dictate. If compliance with the requirements of the Traffic Impact Analysis, and subsequent amendments thereto, requires the acquisition of right-of-way or easements for development, any additional changes necessary for development within the areas of the proposed right-of-way or easements shall be deemed to be in conformance with this approval. Any changes to the approved Traffic Impact Analysis shall be deemed to be minor changes to the site plan and shall be reviewed by the Planning Commission for recommendation.
17. A Drainage Plan and Preliminary Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits or submittal of any construction drawings, whichever next occurs first. Permits and issuance of Encroachment Agreements, Revocable Permits, and Letters of Map Revision (LOMR) may be required. Any improvements recommended in the approved Drainage Study shall be constructed prior to the issuance of any certificate of occupancy for the site. Any off-site drainage facilities improvements or acquisition of the approved Drainage Flowfield's easements with development of this site. In lieu of constructing improvements, in whole or in part, the developer may agree to contribute to the construction of neighborhood or local drainage improvements, for amount of such amount shall be determined by the Department of Public Works. Any changes to the approved Drainage Study shall be deemed to be minor changes to the site plan and shall be reviewed by the Planning Commission for recommendation. Any fees that shall be assessed to the Planning Commission for recommendation.
18. All City Code requirements and design standards of the City departments must be complied.

RE: US-95 & Ann Road Commercial Park Office Building
Request: SUP and Variances for Allowing an Off-Premise Wall Sign from an Approved On-Premise LED Wall Sign
APN#s: 125-34-116-004

Dear Mr. Fagg:

On behalf of our client, KHANEH Holdings LLC, please accept this justification letter for a Special Use Permit and Variances and any changes if needed to the Master Sign Plan Amendment (MSP-9591 and as amended MSP-47179) to allow an approved LED wall sign to be used as an Off-Premises Sign on an existing commercial/professional building at the southwest of the US-95 and Ann Road (5550 Painted Mirage). This sign will use an already approved and permitted on premise LED wall sign on the northeast corner of the office building use.

The site is a C-2 (General Commercial) zoned site located on the 5.25 +/- net acres. The office building is a five story structure with a parking garage. The approved on premises LED sign is about 19'9" high and 31'9" wide (630 sf) and located on the upper levels at the northeast corner of the building facing the freeway. The total wall signage of the building is about 1,060 square feet or well below the allowed 1,858 square feet.

The Variance requests are necessary to address the fact that the Code expects off-premise signs to look like conventional billboards that are pole mounted (LVMC 19.12.120.D.2) and due to the height of the sign on the building being taller than the Code expected billboard height of 40 feet or maximum of 55 feet (LVMC 19.12.120 C.7.b).

The sign request meets the applicable SUP Locational Provisions of the Code. Most significantly, the proposed sign is 1a) within 660' of the US-95 ROW; is less than the maximum allowable sizes of 30' high by 60' wide for off-premise sign; 1b) is within the 672 square feet allowed for other off-premise signs; 2) is located appropriately above the standard sign height due the proximity to an elevated freeway interchange; & 3) more than 300 feet from the nearest residential property line.

Approval Criteria for a Special Use Permit LVMC 19.16.110

L. Special Use Permit Determinations—Approval

In order to approve a proposed rezoning, the Planning Commission or City Council must determine that:

1. In order to approve a proposed Special Use Permit application, the Planning Commission or City Council must determine that:

VAR-47835
SUP-47834

GCGARCIA

RECEIVED
DEC 20 2012
City of Las Vegas
Department of Planning

A Planning & Development Services Corporation
1711 Whitney Mesa Drive, Suite 110, Henderson, Nevada 89014-2158
Telephone: 702 435 9909 Facsimile: 702 435 0457 E-Mail: ggarcia@gcgarciainc.com

a. The proposed use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.

This change would only add the ability to do off-premise advertising. The Sign is not a typical "billboard" as it is aesthetically designed to fit into a quality office park and surrounding neighborhood. The sign will comply with the applicable Locational Provisions for Off-Premise Signs (19.12.120). The sign orients to faces the freeway and does not face residential. Elevating the sign allows it to be functional as well as not in the face of drivers at the interchange overpass.

Furthermore, the sign will help sustain and promote the existing commercial facilities and other businesses. The sign is done in a manner consistent with the zoning and General Plan. The use and design will therefore comply with the SUP, MSP, conditions of approval and other Code requirements.

b. The subject site is physically suitable for the type and intensity of land use being proposed;

The site is planned and zoned for the existing office park and five story office building. An LED wall sign has already been approved for the building so no additional sign or structure is required. The total building signage is substantially lower than allowed.

The location of the approved sign is suitably located as it is oriented toward the US-95 and away from the residential. It is within the required proximity to the US-95 as well as elevated appropriately given the depressed finished floor elevation of the building relative to the freeway interchange; visibility to serve the intended use; and aesthetics of the building.. The use will, except as requested, be done in compliance all with City requirements.

c. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use; and

The use of an approved LED wall sign for an off-premises sign will not create any additional demand on the street or highway infrastructure. All necessary infrastructures to serve the office building is already built, in place and approved.

d. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety and welfare or the overall objectives of the General Plan.

The proposed business will not compromise the health, safety and welfare or objectives of the Plan. The investment into the building will help maintain the economic vitality of property and promote business economic well being and not visibly impact the residential or infrastructure of the City and will thus serve to protect the health, safety and welfare.

Approval Criteria for a Variance LVMC 19.16.140
L. Variance Determinations—Approval

2. Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or

RECEIVED
DEC 10 2012
City of Las Vegas
Department of Planning

hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

To provide for adequate sign visibility addition height is required. The topography of the site relative to the elevated freeway interchange makes a conventional billboard height unsuitable for the subject property and also provides the basis for an extraordinary and exceptional situation or condition. The elevated freeway interchange was located, designed and built by governmental action and not due to the property owner.

Additionally, the strict application of the height and requirement to build on a freestanding pole would create peculiar and exceptional practical difficulties as well as an undue hardship due to where such a pole would have to be located in a parking lot closer to the freeway that would result in obscuring the quality of building design; making a less attractive sign to the public; and be more imposing due to is proximity to the traveling public.

As proposed the sign will relive the topographic, extraordinary circumstances. The sign as propose provides the necessary relief while providing a benefit to the pubic good by removal of the unsightliness of a conventional billboard structure closer to the roadways. The sign will also comply with the approved MSP and permit for on- premise LED wall sign.

SUMMARY JUSTIFICATION

In summary, we believe the requested off-premise SUP and associated Variances to increase the height and eliminate an unsightly billboard structure will help enhance the office park and provide an advertising venue for other businesses on an approved sign and serve the traveling public consistent with the Code requirement, determinations or any conditions.

We respectfully request your favorable consideration of this request. Please contact me if you have any questions or need additional information.

Sincerely,

George Garcia,
President

Re: zoning application for Beer/Wine/Cooler on sale establishment

To Whom It May Concern:

This letter is to request approval of Beer/Wine/Cooler on sale zoning for above location of a Japanese Steakhouse Sushi & Hibachi.

This restaurant is located at corner of N. Rainbow Blvd. / W. Lake Mead Blvd. Total square feet is 4992 inside with Dining area around 2992 SQ Ft., Kitchen area around 1100 SQ Ft., Restrooms, storage & Hallway total around 900 SQ Ft. Total seating is around 170. Hours operation is 11 am to 11pm.There are about12 Employees on site all the time.

We serve beer, wine and sake (fewer than 22% alcohol level) with food by our servers. There is a sushi bar where sushi chefs make sushi inside the bar. There is a juice bar where servers make boba tea, thai tea, fresh fruit juice, red/green beans drinks and where draft beer, non-alcoholic drinks are stored.

I have a NYE County, NV Liquor license since 03/08/2010 and a Clark County, NV Liquor Business license (2002377 LIQ-143) since 11/15/2011 for the similar Japanese Restaurants. And we have never had any problems with all liquor licenses.

Please kindly approve our zoning request so we can better serve our customers.

Thanks.

Sincerely,

Zhi Gang Wang

Re: Justification Letter for Application

APN 139-28-604-003 – 1100 N. Martin Luther King

Phase I
We are planning on expanding the existing building to the North. The building is currently against the property line and we have rezoned the adjacent property to be compatible with this parcel. We are currently in review for a One (1) Lot Parcel Map to combine both parcels into a single parcel.

The improvements will be identical to the existing building and enable the existing business to expand into the additional (19000 Sqft) space created by the building expansion. It would also help to create additional jobs for the existing business and enable them to serve more customer's. This in turn would bring more people into the area, helping other business's in the area

Phase II
We are also intending to do future expansion on the vacant site and will incorporate some of our future plans into the site development additional parking ,New landscape that will match existing landscape on Martin L King Blvd, New Driveways, utility services and improvements.

The intended expansion is compatible with properties that are similar and fronting onto Martin Luther King. Future development is both needed and wanted in this area of Las Vegas (Ward 5). This parcel would also be considered some what of and in fill parcel, since the property to the north and south are developed.

If I can be of further assistance, please contact me at your earliest convenience.

Thank you,

Lonnie Walston
Property Owner

Comment I am against item 38 on the Planning Commission agenda for March 12, 2013. It requires landscape buffer variances along the perimeter of the building which requires landscaping in these areas. The landscaping is needed for the aesthetics of the building presently sitting at this location. I question the need for the extension if in order to accomodate the property addition this many waivers are needed to prepareit for its intended use. Further, I wonder whether the lot will support adequate parking for the businesses that presently occupy this commercial plaza.

Re: Justification Letter for Application

APN 139-19-703-002,004 & 007 – 3925 Coran st-clv

We are planning on use the (4) existing buildings on property 139-19-703-002,004 & 007. The improvements will be to install new sidewalk along Coran Ln and Cypress trl, with New Driveways, utility services, improvements and landscape per City of Las Vegas Building and IBC requirements. We will incorporate some of the site development additional parking per city std for office complex, the existing building will receive new paint and replace window and new door with energy affection to the IECC 2009 standards and upgrade to restroom per the city std and 2003 ADA requirements. It would also help to create additional jobs for the existing business and enable them to serve more customers. This in turn would bring more people into the area, helping other businesses in the area

If I can be of further assistance, please contact me at your earliest convenience.

Thank you,

James Guan

SUBJECT: **Justification Letter for a General Plan Amendment and Zone Change Request for Dorrell/Hualapai West.**

Slater Hanifan Group, on behalf of the applicant, D.R. Horton, respectfully submits this justification letter in support of a General Plan Amendment (GPA) and Zone Change (ZON) for the subject site.

The subject site is located at the southeast corner of Hualapai Way and Dorrell Lane. The Assessor's Parcel Numbers are 125-19-201-001 and 003. The parcels are approximately 4.14 gross acres combined.

The purpose of the GPA request is to revise the General Plan from *Rural Density Residential* (R) to *Low Density Residential* (L) which would allow up to 5.49 dwelling units per gross acre (du/ac). The requested zone change would be from Residential Planned Development (R-PD3) to Single Family Residential (R-1).

The proposed development includes 18 single family residential lots on the 4.14 acres, which results in a density of 4.35 dwelling units per acre (du/ac). The minimum lot square footage would be 6,500 with a minimum lot width of 60 feet.

The proposed development would serve as transitional zoning from the properties to the east, which are currently in the County and zoned Rural Estates Residential, from the existing Planned Development District (PD) across Hualapai Way, east of the site, which consists of a higher density, apartment development. The properties to the immediate north and south are undeveloped and located within the County and are currently zoned Rural Estates Residential. The proposed

GPA-48471

development would fit in to the character of the neighborhood in terms of providing a large lot single family subdivision.

Thank you for considering these application requests. Please contact me at 284-5300 if you have any questions regarding these applications.

SUBJECT: **Justification Letter for a General Plan Amendment and Zone Change Request for Dorrell/Hualapai West.**

Slater Hanifan Group, on behalf of the applicant, D.R. Horton, respectfully submits this justification letter in support of a General Plan Amendment (GPA) and Zone Change (ZON) for the subject site.

The subject site is located at the southeast corner of Hualapai Way and Dorrell Lane. The Assessor's Parcel Numbers are 125-19-201-001 and 003. The parcels are approximately 4.14 gross acres combined.

The purpose of the GPA request is to revise the General Plan from *Rural Density Residential* (R) to *Low Density Residential* (L) which would allow up to 5.49 dwelling units per gross acre (du/ac). The requested zone change would be from Residential Planned Development (R-PD3) to Single Family Residential (R-1).

The proposed development includes 18 single family residential lots on the 4.14 acres, which results in a density of 4.35 dwelling units per acre (du/ac). The minimum lot square footage would be 6,500 with a minimum lot width of 60 feet.

The proposed development would serve as transitional zoning from the properties to the east, which are currently in the County and zoned Rural Estates Residential, from the existing Planned Development District (PD) across Hualapai Way, east of the site, which consists of a higher density, apartment development. The properties to the immediate north and south are undeveloped and located within the County and are currently zoned Rural Estates Residential. The proposed

JUSTIFICATION LETTER FOR VARIANCE FOR CARPORT LOCATED IN THE WESTLEIGH TRACT
1243 BARNARD DR, LAS VEGAS, NV

Homes were built in the Westleigh Tract in the early 1950's. The original homes did not have attached garages. The garages that were built were in the rear of the property with access from the alley running behind the homes. All automobile parking was on the street or in a driveway from the alley. Things were much different 60 years ago. Families only had one car and life was much simpler.

Today in the Westleigh Tract, many homes have opted for more parking options, e.g., attached garages with a driveway to the street, driveways to one side of the lot to accommodate off street parking, and carports, many of which are built to the property line.

I am requesting a variance for the carport on the existing concrete driveway to the front side of the property. I desire the shade for the preservation of my car. The aluma wood carport kit I purchased is top of the line. I spent extra money for the corple ends to beautify the structure. It is white in color to match my home's windows and blend in with the overall scheme of the dwelling. I have obtained written support letters from most impacted neighbors.

In review, the improving of a 60 year old neighborhood is necessary to improve the lifestyle of a modern family home. The carport structure at 1243 Barnard Dr. blends in well and looks very nice. It affords me the protection from the sun and street parking.

Respectfully,

William Birthisel

Las Vegas, NV 89106

RE: Letter of Justification – Charleston at 10th Mixed Use
Location: Charleston Boulevard & 10th, Northwest Corner
Request: Special Use Permit for Mixed Use; Variance to Lot Coverage; Site Development Plan Review; Vacation
APNs: 139-34-812-003; 139-34-810-101 thru 105; 139-34-810-074 & 075

Dear Flinn:

On behalf of our client, Charleston Towers Management, LLC, please accept this justification letter for a new Special Use Permit, Site Development Plan Review and associated Variance(s) and Alley Vacation(s) to allow a reduction in the previously approved height and intensity to create a more appropriate scale, intensity and overall design to support a Mixed Use for office, retail and residential that will both be a major reinvestment into the area and major upgrade to the property. It will also bring it into substantially greater conformance with the existing City codes and better fit with the neighborhood. This project is located on eight parcels comprising 2.05 +/- gross acres located at the northwest corner of Charleston Boulevard & 10th Street

The request is for a new set of entitlements that maintain the Mixed Use but significantly alter the scale, mass and overall intensity by altering the height and exterior elevations while creating the potential for a ground floor grocery store, retail and office with residential units above. The design fits within the design parameter previously approved as to the setbacks, parking ratios, and variances but with a dramatic reduction in height and units (see table below). The existing lots would ultimately be combined into a single development lot.

	Prior Approvals	Current Proposal
Residential Units	350 Units	166 Units
Height	195 feet	93 feet
Stories	17 Max	6 Max
Commercial	18,000 Sq ft	47,100 Sq Ft
Zoning	C-1	C-1

GCGARCIA
A Planning & Development Services Corporation
1711 Whitney Mesa Drive, Suite 110, Henderson, Nevada 89014-2158
Telephone: 702 435 9909 Facsimile: 702 435 0457 E-Mail: ggarcia@gcgarciainc.com

On behalf of our client, please accept the application package for the 2.05 +/- acre property located on the north side of Charleston Boulevard, between 9th and 10th Streets. The proposal is a mixed-use retail, office and residential project consisting of 47,100 square feet of ground floor for retail space with 166 units in a six story high or 93 foot high building. The following applications are submitted with this request:

1) Special Use Permit for a Mixed Use Project in Limited Commercial (C-1) for the entire property including proposed vacation(s);

2) Waiver or Variance to Title 19.06.040.I.2.a.I of the City of Las Vegas Zoning Ordinance Residential Adjacency standards to allow a setback of 45 feet from Single Family Residential (R-1) where a 3:1 slope, or 279 feet, is required.

3) Variance to Title 19.08.070, Table 1, C-A Limited Commercial District to allow a maximum lot coverage of 56% where 50% is the maximum allowed.

4) Site Development Plan Review for a Mixed Use Project in Limited Commercial (C-1).

CURRENT LAND USE AND ZONING CONDITIONS

The site is currently designated Commercial (C –Downtown Land Use) on the City of Las Vegas Southeast Sector Land Use Designation Map; the remainder of the site is designated Mixed Use District (MXU). The entire block to the east, from Charleston Boulevard to Garces, between 10th and 11th Street is designated Commercial (C) as well as all the properties fronting along the south side of Charleston Boulevard are also designated Commercial(C). The blocks to the north and west of the site are all designated Mixed Use (MXU); in fact the entire area north of Charleston is shown for both Mixed Use and Commercial development.

The subject site is already zoned Limited Commercial (C-1), the three parcels on the southeast corner of Garces and 9th Street are Professional Office (P-R) and Residential (R-1); the zoning on the southeast corner of Garces & 10th is High Density Residential (R-4) and Professional Office (P-R).

APPROVAL CRITERIA- SPECIAL USE PERMIT Title 19.16.110-(L)

The following are the determinations to be made for approval of a Special Use Permit:

a) The proposed use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses and with future surrounding land uses as projected by the General Plan;

RECEIVED
FEB 2 1 2013
City of Las Vegas
Department of Planning

The Southeast Sector Land Use Map shows that the entire area of the City north of this site and the Charleston Boulevard corridor, from Main Street to Bruce Street, up to Bonanza Road, is designated predominately Commercial or for Mixed Use, which clearly indicates that modern, mixed use projects are a key component to encouraging reinvestment and redevelopment in this area of the City. The proposed use is oriented toward the Charleston Boulevard. The Redevelopment Plan encourages the assemblages of parcels to promote the type and intensity of development to stimulate the economy of the downtown area.

The site is currently approved for a far more intense mixed use SUP and was found compatible at the time. The result will dramatically improve and reduce the visual, traffic and neighborhood impacts to create a far more compatible design than currently approved and a better fit with the City's evolving downtown district. The proposed revisions retain the use but reflect compatibility in scale, mass, and intensity more compatible and harmonious for the current times.

b) ***The subject site is physically suitable for the type and intensity of land use being proposed.***

In terms of land use designation, a the site is already designated for Commercial land uses In terms of the actual project proposed for the property, it can accommodate the proposed mix of residential and commercial uses, while providing all parking in a six level parking garage. Adequate on-site access and circulation will be provided to ensure free-flow of pedestrian, traffic movements and accommodate all emergency services.

c) ***Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use; and***

The surrounding street network should be adequate to provide access and traffic carrying capacity. A traffic study was done for the currently approved more-intense mixed use and an updated study will be submitted if needed to determine additional improvements that will be needed to accommodate traffic and circulation needs.

d) ***Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety and welfare or the overall objectives of the General Plan.***

Approval of this Special Use Permit will implement the core vision and objectives of the Redevelopment Plan of the City of Las Vegas. It will spur economic activity; provide places for new and current residents to live, work, shop and play. It will lead to additional investment and needed redevelopment in the immediate area and other parcels located within the Redevelopment Plan area. Therefore, it will contribute to the overall well-being of the City, and enhance the public health, safety and welfare.

FEB 21 2013
City of Las Vegas
Department of Planning

APPROVAL CRITERIA- VARIANCES
Title 19.16.140 (L)

The following is the substantive criterion for determining approval of variance applications:

2) **Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of the enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.**

There are two possible variances requested from the strict application of the Code. One may not be required if it meets the Waiver test. They are:

Waiver & Variance
19.06.040.I.2.a.I *the residential adjacency standards, which states that no non-residential building shall exceed the height of a line drawn from the property line of a protected property at a 3:1 slope directly into the property subject to the standards of the chapter*

We believe this variance is not required as the project meets the requirements for a Waiver as provide in subsection 2.e.I:

2e1. *Any mixed-use development that contains a significant residential element.*

The proposed project contains commercial and residential with 166 units on 2.05 acres, which is a significant amount of residential.

a. Strict application of the Code standard would make it difficult for any reasonable commercial property to be built on the site without some variance to the standard. This development pattern is not a result of any action taken by the applicant, or their predecessor in title. Also, this and all the other surrounding properties are designated for Commercial or for Mixed Use Development, which should be a factor in determining the appropriateness of a variance application.

b. While on its face the variance may seem excessive, it is not in terms of factoring the overall objectives of the Redevelopment Plan. The long term vision of the plan is for re-planning and redeveloping stagnant areas of the City that no longer contribute to its tax or economic base. Therefore, the variance to allow a

RECEIVED
FEB 21 2013
City of Las Vegas
Department of Planning

modern, forward-looking mixed use development should be considered.

c. Paragraph 5.b. entitled Waiver, states any mixed-use development that contains a significant residential element is eligible for a waiver by the City Council. The gross building size of the project is 398,133 square feet; with 166 dwelling units and 47,100 sf of retail Clearly, this is a residential driven project that given its importance to continued implementation of the Redevelopment Plan should be considered for a waiver.

d. The boundaries of the Downtown Centennial Plan extend to one-half block east of 6th Street, north of Charleston Boulevard. This is only two blocks away from the western edge of this project. If the project were in the Downtown Centennial Plan, Code standards would not be automatically applied. This is, obviously, in close proximity to the Plan area, and when reviewing the Future Land Use Maps of the Downtown Plan, Redevelopment Plan and Southeast Sector of the General Plan, all allow and encourage either commercial or mixed-use development; there is no real difference of lying within, or outside the Downtown Plan boundaries in terms of actual land use.

Title 19.08.070, Table 1, C-A Limited Commercial District *allow a maximum building coverage of 50 %, where 56% is requested. The variance is warranted for the following reasons:*

a. The six percent increase in lot coverage is minor and will not result in any detriment to the overall health, safety and general welfare to this area of the City.

b. As previously identified, the site is in close proximity to the area covered by the City of Las Vegas Downtown Centennial Plan, where the automatic application of Code standards is not applied.

c. The waiver was previously deemed appropriate.

APPROVAL CRITERIA- SITE DEVELOPMENT PLAN REVIEW Title 19.16.100 (E)

The following criteria are to be considered for approval of a Site Development Plan Review:

1) The proposed development is compatible with adjacent development and development in the area;

While the predominant existing development pattern to the north of Charleston Boulevard is a mixture of professional office and some remaining single family units, the Redevelopment Plan encourages mixed-use as a major tool for redevelopment. Also, the project is constructed so as to not encourage any cut-through traffic for the businesses north of Charleston, or any of the residential neighborhoods south of Charleston Boulevard. The parcels to the east

RECEIVED
FEB 2 1 2013
City of Las Vegas
Department of Planning

are zoned C-2, which not only allows mixed use with a special use permit, but more intense commercial uses as well.

The prior approval was more intense, taller, and massive than the current design. As proposed the proposed development is more compatible.

2) ***The proposed development is consistent with the General Plan, this title, the Design Standards manual, the Landscape Wall and Buffer Standards an other duly-adopted city plans, policies and standards:***

The project is in substantial accordance with development related ordinances of the City. All landscaping, open space and required recreational amenities for a project of this size and scale will be provided. The Waiver or Variances to the residential adjacency standards and building coverage are reasonable and not beyond the scope of the type of intensity and density that will be needed to reinvigorate this area of the City.

The architectural changes and enhancements to the building and site help make the design more compatible, more attractive, walkable, safe and inviting. The changes comply with and substantially improve upon the previous approvals. The 2020 policy does suggest incentives for relaxing standards when balanced against the quality of the improvements.

3) ***Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;***

All access will be directed to Charleston Boulevard, to minimize any impacts to business owners or residents in the area. The north/south alley, if vacated, will continue to operate as it currently does, in terms of access and traffic flow. The proposed development is significantly less intense than the previously approved project.

4) ***Building and landscape materials are appropriate for the area and for the City***

The buildings will be constructed of Low E clear glass, vision and spandrel glazing in aluminum framed curtain walls, with storefront retail glazing. This will be an exciting, vibrant addition to this area of the City, spurring additional redevelopment and reinvestment in the area. Therefore, the building and landscape material effectively implement the long-term vision of the Redevelopment Plan.

5) ***Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable or obnoxious in appearance; create an orderly and aesthetically pleasing environment, and are harmonious and compatible with the area***

RECEIVED
FEB 2 1 2013
City of Las Vegas
Department of Planning

The existing development on the property is unsightly, undesirable and obnoxious in appearance, which has led to an overall decay along the

Charleston Boulevard corridor. This project will bring an attractive, exciting environment to Charleston Boulevard and will be an important first step in changing the face of this area of the City.

6) ***Appropriate measures are taken to secure and protect the public health, safety and general welfare.***

The redevelopment of this area is in the highest interest of all resident of the City of Las Vegas. Making the Redevelopment Plan objectives a reality will bring new development, new investment and a new, much needed vibrant atmosphere to this area.

APPROVAL CRITERIA- VACATIONS Title 19.16.080.E.3

If, following the public hearing, the City Council is satisfied what the public will not be materially injured by the proposed vacation, it may order the right-of-way vacated. The City Council may make the order conditional, and the order shall become effective only upon the fulfillment of the conditions prescribed.

The proposed vacation is to modify the current alley way to reflect the project design and lot assemblage. The vacation is entirely fronted by the applicant's properties. The resultant alley way and private drive will provide for service deliveries and emergency services

SUMMARY

In summary, we believe this project will set a new standard and can be the impetus for the north side of the Charleston Boulevard corridor. It assembles parcels that are stagnant, underutilized and in need of redevelopment into an exciting mixed-use project that will spur future redevelopment activity. The intent is to enhance the environment of the business owners to the north, while having minimal impacts, in terms of views, traffic and shading to the John S. Park neighborhood to the South.

The new plans a first step in implementing the overall objectives of the Redevelopment Plan along the north side of Charleston Boulevard. The new plans are a recognition of the need to lessen the visual impacts and create a more compatible and harmonious relationship to surrounding properties.

We respectfully ask for your favorable consideration of this project; please do not hesitate to contact us if you have any questions or need additional information.

Sincerely,

for George Garcia

PROHIBITED SIGNS

PROHIBITED SIGNS

The following signs are prohibited:
(1) All signs not expressly permitted or exempted under this Chapter;
(2) Any on-premise sign that is associated with a use that no longer occupies the premises on which it is located;
(3) Pole signs placed or erected after August 1, 2002 that do not meet the freestanding sign design standards contained in this Chapter;
(4) A private sign of any kind located on or over any public street, walkway, parking or other public property except as otherwise provided for in this Chapter;
(5) Displays that employ white, red or blue rotating lights or any lights that simulate emergency vehicle lights;
(6) Except as lawfully permitted as a temporary special event or civic event sign, beacons, pennants, inflatable signs, tethered balloons, portable signs and similar attention gaining devices;
(7) Signs placed on parked vehicles or trailers, or parked commercial vehicles where the vehicle or trailer is not used by the business advertised for the transportation of persons or goods in the ordinary course of business;
(8) Permanent balloon signs; and
(9) Outdoor, portable electric signs, except as permitted under the provisions for temporary signs.

MAINTENANCE

(1) All signs shall be maintained in good structural condition, in compliance with all building and electrical codes, and in conformance with this Chapter at all times.
(2) All materials used in sign construction shall be maintained in such a manner as to be free from fading, peeling, chipping and other states of general deterioration.

REVOCATION

A sign certificate is revocable if the sign is abandoned or allowed to become unsafe or dangerous, or is otherwise condemned. The owner(s) shall maintain the sign in safe condition at all times and shall remove the sign if abandoned.

SIGN CERTIFICATE APPLICATION AND CONTENTS

An application for a sign certificate shall be accompanied by:
(1) A site plan, which clearly depicts the location of proposed the sign;
(2) A description, drawing or picture of the proposed sign; and
(3) A description of the means by which the sign will be fastened or secured.

MSP-48470

19.20 SIGN DEFINITIONS

Arcade Sign. A wall or projecting sign attached to the roof or the wall of an arcade and totally within the outside limits of the structural surfaces that delineate the arcade.
{Ord 5496 – 07/17/02}

Attached Sign. Any sign that is attached to an occupied building or building designed for occupancy.
{Ord 5496 – 07/17/02}

Attention Gaining Device. Any streamer, pennant, propeller, inflatable sign, tethered balloon, portable sign, bunting or other artificial device, figure, shape, color, sound, light or exhibit, whether live, animated or still, that is intended to attract attention to a use or business being conducted either on or off site

Awning Sign. Any sign that is a part of or attached to an awning, or other fabric, plastic or structural protective cover over a door, entrance, window or outdoor service area.
{Ord 5496 –0 7/17/02}

Banner. Any sign of lightweight fabric or similar material that is mounted to a pole or a building at one or more edges. National flags, state or municipal flags, or the official flag of any institution or business shall not be considered banners.

Building Marker. Any sign indicating the name of a building, date or incidental information about its construction. Building markers are cut into the exterior building materials or made of bronze or other permanent material.
{Ord 5496 – 07/17/02}

Canopy. A rigid roof, generally supported at all corners or extremities by poles, posts or direct attachment to a building. A canopy typically has little vertical or wall space on it and is only as thick as necessary to create a functional roof. See "Marquee" and "Awning."
{Ord 5496 – 07/17/02}

Canopy Sign. A sign attached to or painted on a canopy.
{Ord 5496 – 07/17/02}

Changeable Copy Sign. Any sign or portion thereof with characters, letters, or illustrations that can be changed or rearranged without altering the face or the surface of the sign. The message may be changed manually or electronically. Animated signs shall not be considered changeable copy signs.
{Ord 5496 – 07/17/02}

Civic Event Sign. A temporary sign, other than a commercial sign, posted to advertise a civic event sponsored by a public agency, school, church or religious institution, civic fraternal or other organization.

Commercial Message. Any sign wording, logo or other representation that, directly or indirectly, names, advertises, or calls attention to a business, product, service, idea or commercial activity. The term does not include sign copy that consists solely of the electronic indication of time, temperature, or both.

Community Interior Directional Sign. A sign placed within the interior of a subdivision to provide directions within the subdivision.
{Ord 5496 – 07/17/02}

Consolidated Sign. An oversized freestanding ground sign which advertises one or more tenants within a non-residential development. Consolidation occurs when the conditions for such signs are met, and the area for multiple signs is consolidated into one sign.

Construction Permit. A permit issued pursuant to the City's building and technical codes for the construction of any sign.
Construction Sign. A sign advertising a construction project and the parties involved in its development, proposed to be located on the lot or parcel of land on which the sign is located.
{Ord 5496 – 07/17/02}

Design. The design elements of a development site, including the planning and engineering of the following: street alignments, grades and widths; drainage and sanitary facilities and utilities, including alignment and grades thereof; location and size of all easements and rights-of-way; lot size and configuration; traffic access; grading; land to be dedicated for parks or recreational purposes; building design and configuration; landscaping and open space; and other such specific physical requirements.

Development Entry Statement Sign. A sign placed at the entry to a subdivision, apartment development, or identifiable community to identify the subdivision, apartment development, or identifiable community.
{Ord 5496 – 07/17/02}

Development Standards. Documentation that identifies the requirements and standards for commercial and residential development, including, but not limited to, densities; building height, bulk and setback requirements by land use type; signage; landscaping; parking; open space. The "Design Standards Manual," to the extent adopted by the City Council, contains required development standards for development within the City.
Directory Sign. A sign that provides a map or listing of the names of businesses, activities, addresses, locations, uses or places within a building or complex of buildings for the purpose of identification only.
{Ord 5496 – 07/17/02}

Electric Message Unit. A sign or portion of a sign which provides a message, image or combination of the two that is changed electronically. A sign that is changed fewer than eight times per 24-hour period or that is changed only to reflect changing time or temperature shall not be considered an electric message unit under this Chapter.
{Ord 5496 – 07/17/02}

Electronic Reader Board. A sign or portion thereof which can be electronically changed or rearranged without altering the face or the surface of the sign. The term does not include a sign on which the only copy that changes is an electronic or mechanical indication of time or temperature.

Elevation. (1) A vertical distance above or below a fixed reference level; (2) A fully dimensional drawing of the front, rear and sides of a building showing features such as construction materials, design, height, dimensions, windows, doors, other architectural features and relationship of grade to floor level.

Embellishment. A frame or bracket around the outside of a sign that is used to define the boundaries of or hold the sign, or an extension around the outside of the sign that is used as decoration.
{Ord 5496 – 07/17/02}{Ord. 5959 – 01/09/08}

Freestanding Sign. A detached sign which is supported by columns, uprights, poles or braces from the ground or from an object on the ground, or a detached sign which is erected on the ground, provided that no part of the sign is attached to any part of any building, structure, or other sign.
{Ord 5496 – 07/17/02}

Harmonious Relationship. The design, arrangement and location of buildings or other created or natural elements of the urban environment that are sufficiently consistent in design, scale, height, color, character and siting with other buildings, or created or natural elements in the area so as to avoid abrupt or severe differences or incompatibilities.

Historic Sign. A sign designated as historic in accordance with Section 19.14.080. Home Occupation. An income producing activity conducted in a residential zone pursuant to Subchapter 19.18.110.
{Ord 5496 – 07/17/02

Incidental Sign. A sign, generally informational, that has a purpose secondary to the use of the lot on which it is located, such as "no parking," "entrance," "loading only," and "telephone" signs; directory signs and drive-through menu boards; and other similar directives or identifying messages. In order to qualify as an incidental sign, a sign may contain the logo or name of the business that is on the same parcel as the sign but shall not contain any other commercial message legible from a position off the lot on which the sign is located.
{Ord 5496 – 07/17/02}

Institutional Sign. An on-premise sign designed to communicate information about any house of worship, school, or other institution that is a permitted use in the subject zoning district.
{Ord 5496 – 07/17/02}

19.20 SIGN DEFINITIONS

Marquee or Porte Cochere. Any permanent roof-like structure projecting beyond a building or extending along and projecting beyond the wall of the building, generally designed and constructed to provide protection from the weather.
{Ord 5496 – 07/17/02}

Marquee Sign or Porte Cochere Sign. Any sign attached to, in any manner, or made a part of a marquee or porte cochere.
{Ord 5496 – 07/17/02}

Master Sign Plan. A plot plan and accompanying documentation which identifies all existing and proposed on-premise signage on a development or complex of buildings.

Miscellaneous Residential Sign. Any incidental or real estate sign on a single dwelling unit lot or other residential lot.
{Ord 5496 – 07/17/02}

Monument Sign. A freestanding sign where the base of the sign structure is on the ground or a maximum of 12 inches above the lowest point of the ground adjacent to the sign.
{Ord 5496 – 07/17/02}

Non-Conforming Sign. Unless otherwise provided, any sign that conformed to existing sign regulations at the time it was erected but that would no longer be permitted by virtue of the adoption of this Title, or an amendment thereto.

Off-Premise Sign. Any sign advertising or announcing any place, product, goods, services, idea or statement whose subject is not located nor available on the lot where the sign is erected or placed.
{Ord 5842 – 08/02/06}
{Ord 5496 – 07/17/02

On-Premise Sign. Any sign advertising or announcing any place, product, goods, services, idea or statement whose subject is available or located at or on the lot, same site, or within the same Master Sign Plan area where the sign is erected or placed.
{Ord 5496 – 07/17/02}

Painted Wall Sign. Means any sign that is painted directly on a building wall surface.
{Ord 5496 – 07/17/02}

Pennant. Any lightweight plastic, fabric or other material, whether or not containing a message of any kind, suspended from a rope, wires, or string, usually in a series, designed to move in the wind. A pennant shall be considered a temporary sign.
{Ord 5496 – 07/17/02}

Pole Sign. A Freestanding sign supported by one column, upright, pole, or brace in or upon the ground the sum width/diameter of which is less than 25 percent of the width of the sign.
{Ord 5496 – 07/17/02}

Political Sign. Any sign relating to a candidate, issue, proposition, ordinance or other matter in a public election or referendum, or any sign pertaining to the advocacy of political views or policies by persons, groups, or parties.
{Ord 5496 – 07/17/02}

Portable Sign. Any sign which is not permanently attached to the ground or to another permanent structure; including, but not limited to, temporarily placed signs designed to be transported; signs by means of wheels; signs converted to A- or T-frames; movable menu and sandwich board signs; tethered balloons used as signs; and signs attached to or painted on a vehicle or trailer which is parked and visible from the public right-of-way, unless the vehicle is used in the normal day-to-day operations of the business.
{Ord 5496 – 07/17/02}

Projecting Sign. Any sign affixed to a building in such a manner that its leading edge extends more than twelve inches beyond the surface of the building. The term does not include a decorative awning or canopy.
{Ord 5496 – 07/17/02}

Pylon Sign. A freestanding sign supported by two or more columns, uprights, poles, or braces in or upon the ground, or a freestanding sign supported by a single column, upright, pole or brace in or upon the ground the sum width/diameter of which is 25 percent or more of the width of the sign.
{Ord 5496 – 07/17/02}

Real Estate Sign. A sign to advertise a commercial or residential property for sale, lease, or rent.
{Ord 5496 – 07/17/02}

Roof Sign. Any sign erected and constructed wholly on and over the roof of a building, supported by the roof structure, and extending vertically above the roof or parapet of the building.

Sign. Any device, fixture, placard, structure or other medium, including its structure and component parts, that uses any color, form, graphic, illumination, symbol or writing to advertise, announce the purpose of, or identify the purpose of a person or entity, or to communicate information of any kind to the public.

Sign, Animated. Any sign that uses any of the following: animation or movement; mechanical devices such as spinning, rotating, revolving or oscillating mechanical or structural components; flashing, sequential or oscillating lights; lighting that moves from bright to dim and back to bright; or other similar continuously automated methods or dynamic devices, such as steam, fog, misting, or change of lighting or message, to depict action or create a special effect or alternating scene that results in movement, the appearance of movement, or the changing of sign image or message. The term includes any sign or portion thereof with characters, letters or illustrations, that can be changed or rearranged manually or electronically without altering the face or the surface of the sign. The term does not include a sign on which the only copy that changes is the electronic indication of time, temperature, or both.

Sign, Off-Premise. Any sign whose copy advertises or announces any place, product, goods, services, idea or statement whose subject is not available, located at, nor on the lot where the sign is erected or placed.

Sign, On-Premise. Any sign whose copy is limited to advertising or announcing any place, product, goods, services, idea or statement whose subject is available or located at or on the lot where the sign is erected or placed.

Sign Certificate. A certificate issued by the Department of Planning and Development to authorize a sign pursuant to Chapter 19.14

Structure. An object, including a mobile object, constructed or installed including, but not limited to, a building, tower, crane, smokestack, earth formation, sign, overhead transmission line and an edifice or building of any kind, or any piece of work artificially built up or composed of parts joined together in some definite manner.

Suspended Sign. A sign that is suspended from the underside of a horizontal plane surface and is supported by the surface.

Temporary Sign. Any sign not constructed or intended for long term use, such as for sale or for rent signs, pennants, political campaign signs or other similar signs. The term does not include a temporary special event sign.
{Ord 5496 – 07/17/02}

Temporary Special Event Sign. Any sign that is used only temporarily and is not permanently mounted, such as banners, pennants, inflatable signs, tethered balloons, portable signs and similar devices.
{Ord 5496 – 07/17/02}

Wall Sign. Any sign (other than a projecting sign) which is attached parallel to a wall or building, or to a canopy or awning attached to a building. The sign may be painted on or erected upon the building, awning, or canopy.
{Ord 5496 – 07/17/02}

Window Sign. Any sign, picture, symbol or combination thereof, designed to communicate information about an on-premises activity, business, commodity, event, sale or service, that is placed inside a window or upon the window panes or glass and is legible from the exterior of the window from a public right-of-way a distance of more than three feet beyond the lot line of the lot or parcel on which the sign is located.

RETAIL TENANT SIGN AREA CALCULATIONS

Wall Signs

(a) Maximum number. There is no specific limit on the number of signs, although total area limits apply.

(b) Maximum area. The total amount of wall signage allowed per building elevation is equivalent to 20 percent of the building elevation. In multi-tenant buildings, the 20 percent maximum sign area for each tenant will be based upon that portion of the building elevation of the leased/occupied area only, except as may be approved through a Master Sign Plan.

(c) Maximum height. A wall sign shall not extend more than 12 inches above top of wall, marquee or parapet to which it is attached.

(d) Minimum setback. NA.

(e) Maximum projection. A wall sign shall not project more than four feet from the structure to which it is attached. There shall be no additional message on the additional horizontal surface created by the projection.

(f) Illumination permitted. Internal, external, animated and electronic message unit signs are permitted except on a building elevation visible from and located within 200 feet of property zoned or shown on the General Plan as planned for single-family residential (attached or detached) use.

(g) Additional standards.

(i) Signs shall be an integral part of or be supported by the wall or wall element (such as awning or marquee) to which they are attached.

(ii) See also Residential Protection Standards in Section 19.14.070.

(h) Certificate required. Yes.

19.14.070 RESIDENTIAL PROTECTION STANDARDS

(B) ILLUMINATED SIGNS

Any illuminated sign requiring a sign certificate and located within 200 feet of property zoned or shown on the General Plan as planned for single-family residential (attached or detached) use shall be subject to the following additional lighting standards:

(1) If the sign is located within 40 feet of the property planned or zoned for residential use and is or will be visible from such property, it may be internally illuminated or lighted with direct white light;

(2) If the sign is located more than 40 feet from the property planned or zoned for residential use but within 200 feet of such property and the sign is or will be visible from such property, it may be interior-lit or lighted with direct white light, but it shall not contain bare bulbs, exposed neon tube, animation or a electronic message unit; and

(3) Direct lighting fixtures for such signs shall be aimed up and/or away from the property planned or zoned for residential use.

(C) ELECTRONIC MESSAGE UNIT, ANIMATED AND FLASHING SIGNS

Electronic message units, animated signs and flashing signs are prohibited within 200 feet of property planned or zoned for residential use unless the design of the sign or its location and orientation ensure that the electronic message unit, animated or flashing portion of the sign, or any other light from the sign will not be visible from the property planned or zoned for residential use.

FREESTANDING SIGN CALCULATIONS

Freestanding Signs

(a) Maximum number.
(i) One freestanding sign per each 200 lineal feet of street frontage or portion thereof. The total number of all freestanding and monument signs shall not exceed one per each 200 lineal feet of street frontage or portion thereof.
(ii) Corner lots are permitted to have signs for each street frontage and signs shall maintain a minimum separation of 100 feet measured along the street frontage.
(b) Maximum area.
(i) The total area of all freestanding and monument signs shall not exceed two square feet of sign area for each lineal foot of street frontage. On lots with multiple street frontages, the allowable area for each street frontage shall be calculated separately unless consolidated into one sign, then each street frontage shall be added and total square footage permitted may be allowed in one consolidated sign.
(ii) Signs within 40 feet of existing developed residential property, or property designated in the General Plan as appropriate for future residential development, the maximum sign area shall be 50 square feet. For each additional foot of setback from the property, the area of a sign may be increased an additional two square feet, with a maximum size of 400 square feet unless the site meets criteria for consolidated freestanding signs.
(c) Maximum height.
40 feet, subject to the following:
(i) A freestanding sign within 200 feet of the right-of-way line of an elevated freeway or highway to which it is oriented may be erected up to 30 feet above the elevation of the elevated freeway or highway nearest the sign.
(ii) In addition, signs within 200 feet of the right-of-way line and which can be read from Interstates 15 and 215, US 95 from the north city limits to the Oran K. Gragson Highway, the Oran K. Gragson Highway or Interstate 515 may be increased to a height equal to 80 feet, when authorized by the City Council, after review by the Planning Commission.
(d) Minimum setback. Five feet from all property lines.
(e) Additional standards.
(i) All freestanding and monument signs on the same lot or in the same development shall maintain a minimum separation of 100 feet measured along the street frontage.
(ii) See also Residential Protection Standards in Section 19.14.070.
(f) Illumination permitted. Internal, external, animated and electronic message unit signs are permitted except on a building elevation visible from and located within 200 feet of property zoned or shown on the General Plan as planned for single-family residential (attached or detached) use.
(g) Certificate required. Yes.

Monument Signs

See Figure 7 for an example of a monument sign.
(a) Maximum number. One monument sign per each 200 lineal feet of street frontage or portion thereof. The total number of all freestanding and monument signs shall not exceed one per each 200 lineal feet of street frontage or portion thereof.
(b) Maximum area. 75 square feet per sign.
(c) Maximum height. 10 feet.
(d) Minimum setback. Five feet from all property lines.
(e) Additional standards.
(i) All freestanding and monument signs on the same lot or in the same development shall maintain a minimum separation of 100 feet measured along the street frontage.
(ii) See also Residential Protection Standards in Section 19.14.070.
(f) Certificate required. Yes.

Re: Justification Letter
Commercial Development- Northeast Corner of Sahara Avenue and Hualapai Way APN 163-06-416

To Whom It May Concern:

This letter is to accompany the application for a Site Development Plan Review of the subject project. As shown on the attached site plan, the project will include service and retail commercial development, which is consistent with the current zoning of C-1, Limited Commercial District.

This parcel is located in the Peccole Ranch Phase 2 Master Plan, which has indicated for many years that this parcel is for neighborhood commercial uses. The project is located at the intersection of two primary arterials with adequate capacity to accommodate the vehicular traffic without disturbance to residential neighborhoods. The plan provides adequate setbacks to surrounding uses and conforms to codes for height and lot coverage restrictions. The developer intends to maintain compatibility with walkability initiatives in the Lakes/Peccole Ranch neighborhoods through the provision of generous setbacks and meandering sidewalks along the Sahara Avenue and Hualapai Way frontages.

Only one waiver of standards is anticipated for the project at this time. This would be the requirement for a landscape buffer along the Property Line between this project and the existing C-mart property on the northeast corner of Sahara and Hualapai. Due to the anticipated interlinking of the two properties, with drives and parking, into one cohesive commercial site plan, the landscaping requirement would be nearly impossible to achieve. In addition there are two landscape exceptions that would be requested by the developer: one would be for the requirement of landscape fingers located every six parking spaces (due to dimensional and geometry limitations). The second is a conflict with the landscape buffering requirements along the East property line and the sewer easement (20 foot wide along the said property line) landscape requirement of no plants above three feet high in the easement. The developer would prefer to provide the necessary landscape buffering for both the developer and the adjacent property owners' benefit. And will work with the Sewer Department to try to work out an amicable compromise between the three parties (developer, property owners and sewer dept.)

The developer is known for unique and attractive projects which increase neighborhood property values and community vitality. The development of this property will be consistent with that philosophy.

We respectfully request your approval of the site plan as provided. Please do not hesitate to contact the undersigned should you have any questions or concerns.

Respectfully,

Frank Pankratz

Average Daily Traffic (ADT)	FAST-FOOD WITH DRIVE-THRU [1000 SF]	16.81	496.12	8,340
AM Peak Hour			49.35	2
PM Peak Hour			33.84	569

Total	DESCRIPTION	#UNIT	RATE/# UNIT	TOTAL
Average Daily Traffic (ADT)	SHOPPING CENTER/GENERAL RETAIL [1000 SF]	219.1	42.94	17,026
AM Peak Hour			1.00	204
PM Peak Hour			3.73	1,323

Existing traffic on all nearby streets:

Sahara Avenue	
Average Daily Traffic (ADT)	23,550
PM Peak Hour (heaviest 60 minutes)	1,884

Hualapai Way	
Average Daily Traffic (ADT)	16,725
PM Peak Hour (heaviest 60 minutes)	1,338

Traffic Capacity of adjacent streets:

	Adjacent Street ADT Capacity
Sahara Avenue	51,800
Hualapai Way	51,800

This project is expected to increase traffic on Sahara Ave. & Hualapai Way by about 17,026 trips per day. Currently, Sahara is at about 45 percent of capacity and Hualapai is at about 32 percent of capacity. With this project, Sahara is expected to be at about 78 percent of capacity and Hualapai to be at about 65 percent of capacity.

Based on Peak Hour use, this project will increase traffic by about 1,323 trips in the peak hour, or about twenty-two every minute.

Note that this report assumes all traffic from this development uses all named streets.

Re: Justification Letter
Commercial Development- Northeast Corner of Sahara Avenue and Hualapai Way APN 163-06-416

To Whom It May Concern:

This letter is to accompany the application for a Site Development Plan Review of the subject project. As shown on the attached site plan, the project will include service and retail commercial development, which is consistent with the current zoning of C-1, Limited Commercial District.

This parcel is located in the Peccole Ranch Phase 2 Master Plan, which has indicated for many years that this parcel is for neighborhood commercial uses. The project is located at the intersection of two primary arterials with adequate capacity to accommodate the vehicular traffic without disturbance to residential neighborhoods. The plan provides adequate setbacks to surrounding uses and conforms to codes for height and lot coverage restrictions. The developer intends to maintain compatibility with walkability initiatives in the Lakes/Peccole Ranch neighborhoods through the provision of generous setbacks and meandering sidewalks along the Sahara Avenue and Hualapai Way frontages.

Only one waiver of standards is anticipated for the project at this time. This would be the requirement for a landscape buffer along the Property Line between this project and the existing C-mart property on the northeast corner of Sahara and Hualapai. Due to the anticipated interlinking of the two properties, with drives and parking, into one cohesive commercial site plan, the landscaping requirement would be nearly impossible to achieve. In addition there are two landscape exceptions that would be requested by the developer: one would be for the requirement of landscape fingers located every six parking spaces (due to dimensional and geometry limitations). The second is a conflict with the landscape buffering requirements along the East property line and the sewer easement (20 foot wide along the said property line) landscape requirement of no plants above three feet high in the easement. The developer would prefer to provide the necessary landscape buffering for both the developer and the adjacent property owners' benefit. And will work with the Sewer Department to try to work out an amicable compromise between the three parties (developer, property owners and sewer dept.)

The developer is known for unique and attractive projects which increase neighborhood property values and community vitality. The development of this property will be consistent with that philosophy.

We respectfully request your approval of the site plan as provided. Please do not hesitate to contact the undersigned should you have any questions or concerns.

RE: Justification Letter – Dotty's Tavern at Centennial Center Blvd & Ann
Request SUP & Waivers: Liquor Establishment with Restricted Gaming
At 5643 Centennial Center Boulevard, Suite 160
APN#s: 125-27-411-013

Dear Mr. Fagg:

On behalf of our client, Nevada Restaurant Services Inc., please accept this justification letter for a Special Use Permit to allow a Liquor Establishment with Restricted Gaming in an existing shopping center on the northwest corner of Centennial Center Boulevard and Ann Road.

The site is a SC-TC (Service Commercial -Town Center) zoned site located within a 16.79 +/- net acre fully developed commercial parcel. The location of the Liquor Establishment is within the in-line building which backs up along Ann Road but faces Centennial Center Blvd. The tenant space is a little less than 3,000 square feet and depicted on the attached site plan.

The requested use requires waivers to the Town Center Development Standards for 50 acres for a Tavern and property line distance separation of 330 feet to residential but will otherwise conform to the Code requirements of the City.

Approval Criteria for a Special Use Permit LVMC 19.16.110
L. Special Use Permit Determinations—Approval
In order to approve a proposed SUP, the Planning Commission or City Council must determine that:

1. In order to approve a proposed Special Use Permit application, the Planning Commission or City Council must determine that:

a. The proposed use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan;

The use would be part of a well-established commercial shopping center that has ample parking, approved design, on-going property management and recognized ability to have multiple commercial uses operating in a harmonious manner. The actual tenant space is about double the minimum distance from any residential use. The substantial intervening commercial buildings act as a major buffer as does the major arterial, golf course and orientation of the commercial to Centennial Center Blvd. Additionally, this particular tenant does not have any greater impact than other retail establishments.

GCGARCIA

RECEIVED
JAN 24 2013
City of Las Vegas
Dept. of Planning

A Planning & Development Services Corporation
1711 Whitney Mesa Drive, Suite 110, Henderson, Nevada 89014-2158
Telephone: 702 435 9909 Facsimile: 702 435 0457 E-Mail: ggarcia@gcgarciainc.com

Furthermore, the use will help sustain and promote the existing commercial facilities and other businesses. The use is done in a manner consistent with the zoning and General Plan. The use and design will therefore comply with the SUP, conditions of approval and other Code requirements.

b. The subject site is physically suitable for the type and intensity of land use being proposed;

The site is planned and zoned for the existing shopping center. The location will fill an existing tenant space so no major external changes are anticipated. The location of the approved use is near a major freeway interchange; is designed and suitable for the use with ample parking, major surface streets and regional roadways; within a major commercial node and not abutting any residential; buffered by buildings and roads; and offering goods and services where liquor establishments are typically and suitably located. The use will be done in compliance with City requirements.

c. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use; and

The use does not generate any higher level of traffic than tenants typically found in a shopping center of this size, type and location and will not create any additional demand on the street or highway infrastructure. All necessary off-site infrastructures to serve use are already built, in place and approved.

d. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety and welfare or the overall objectives of the General Plan.

The proposed business will not compromise the health, safety and welfare or objectives of the Plan. It meets the spirit and intent of Town Center as there is no concentration of Taverns. It meets the requirements for separation rom any church, school or daycare for twelve children. IT will comply with the provisions of 6.50 of the Municipal Code.

This specific user has no greater impact than other retail uses and less than many as to parking, noise, light and traffic. The new investment into the building will help maintain the economic vitality of property and promote business economic well being and not visibly impact the residential or infrastructure of the City and will thus serve to protect the health, safety and welfare.

WAIVERS REQUESTED: Waiver of Town Center Design Standards

D. Waiver – Development Standards

Approval Criteria: A waiver of any of these standards may be approved upon the request of an applicant if the applicant can show through convincing and substantial evidence that the waiver will not be contrary to the overall purpose and intent of the standards or the Town Center Land Use Plan.

Request to Waive Town Center Development Uses – Special Use Permit Requirements:

1) *#26 Gaming Establishment, Restricted License: May not locate within 330 feet of any single-family detached dwelling.*

Request & Justification: *The shopping center parcel line is less than the minimum distance from residential. The actual tenant space is substantially greater than the minimum at nearly twice the distance.*

RECEIVED
JAN 24 2013
City of Las Vegas
Dept. of Planning

SUP-48175
SUP-48176

Additionally, there is a substantial buffering provided by commercial buildings, golf course and arterial roads. Additionally the site activity is oriented along a major commercial corridor so as to minimize any residential impacts.

2) *#33(e) Liquor Establishment (Tavern): No tavern shall be located within and Service Commercial District unless it is part of a development with an aggregate exceeding 50 acres with a majority of the acreage located within a zone that allows taverns.*

   Request & Justification: *The shopping center is nearly 17 acres in size and in an intense commercial node close to a freeway interchange. This location is less than the 50 acre minimum but the entire area north of Ann along Centennial Center is all Service Commercial and collectively exceeds the minimum although no individual property does.*

Based on the above, there is convincing and substantial evidence that the proposed use and waivers meet the intent of the Town Center Land Use Plan and not contrary to the intended purpose.

SUMMARY JUSTIFICATION

In summary, we believe the requested SUP for a Liquor Establishment with restricted gaming will help enhance the commercial center and provide additional goods and services to the area and help attract customers that help support other business.

We respectfully request your favorable consideration of this request. Please contact me if you have any questions or need additional information.

Sincerely,

for George Garcia,
President

RE: 2620 Regatta /SUP-48184, SDR-48185 Revised Justification Letter

Dear Mr. Kagafas:

Please accept this letter as our justification for a Special Use Permit (SUP) for the above referenced property. This site was originally approved as a shopping center with a tavern, and subsequently two restaurants with service bars have been approved and built and also a Chabad (place of worship) was built on a pad site on the corner.

There is a private reception area where they hold private parties and the center has a wedding chapel license and holds receptions on site through a caterer's license. The request is for:

Expansion of the Service Bar to a Supper Club to include to include additional space currently being used for private parties

We are requesting a Site Development Review for areas of the building that have been enclosed. Permits were issued for covers in the front and rear of the property and the owner has enclosed them with glass without benefit of a building permit. The architect has been working with the Building Department square feet of the new/enclosed area is the bar area in front of the room designated Existing Garden that is used for receptions and private parties.

The supper club is 8,587 square feet of enclosed space. There are 1499 square feet of outside dining area, for a total of 10,086. A future SDR will be filed for the revisions to the remainder of the center.

SUP-48184
SDR-48185
REVISED

We believe this to be a good use of the property; it basically clarifies the uses of the property. Thank you for your consideration in this matter; please do not hesitate to contact me with any questions.

Yours truly,

Lucy Stewart

Re: Request for Accessory Package Liquor off-sale 6711 West Alexander Road, 138-10-502-003

Dear Sir/Madam

Please consider our request for permission to sell off sale package liquor at an existing convenience store located at 6711 West Alexander Road. This property is fully developed and is operating as a convenience store that offers off-sale beer and wine. The applicant leases 2400 SF. Of this 2400 SF approximately 1750 SF is retail accessible to the public. The applicant would like to use 10% of this retail space for sale of beer, wine and liquor.

All provisions outlined in the Las Vegas Title 6 privileged licenses will be adhered to. Per Staff's research, (attached) there are no protected uses within 400 feet of the site.

If you have additional concerns please phone me at 598-1408.

Very truly yours,

Lora Dreja

City of Las Vegas Department of Planning
Attention Yorgo Kagafas, Senior Planner

Dear Yorgo,

Thank you for your time meeting with Dr. Luther Creed and myself with regard to the violation at 2020 Palomino Lane. The Ownership has made the decision to apply for a Major Site Development Plan Review in order to keep the current landscaping in place. We have provided the requested documents as well as photos, site plans and landscape plans.

We are requesting this major change to the originally submitted landscape plan for the following reasons: The plan which was originally approved by the City of Las Vegas in 1986 was never the landscape that was installed as it was determined at the time that because the building was an award winning building for design that putting in the trees on the South side of the building would significantly detract from the building itself. This has never until this time been questioned by the City of Las Vegas. Also, the trees which were originally on the East side of the building near the road were originally Olive trees, as I am sure you are aware these trees cause a lot of allergy problems and are very dirty, therefore when the building converted to xeroscape to save water per the water districts requests the olive trees and grass were removed and no trees were replanted in this area because the area between the parking lot and the sidewalk is so narrow and they believed it caused issues for drivers turning onto Palomino Lane.

We respectfully request this Major change to the originally approved landscape plan to the current landscape as we believe as you can see from the attached pictures that the current landscape is maintained very well and there are many trees on the property if not on the perimeters.

Thank you for your time and if you should require any further information, do not hesitate to contact me.

Sincerely,

Vista Realty, Inc.

Form 2800-14
(August 1985)

UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
RIGHT-OF-WAY GRANT/~~TEMPORARY USE PERMIT~~

Issuing Office
Las Vegas Field Office
Serial Number
N-61412/C/

1. A (right-of-way) (~~permit~~) is hereby granted pursuant to:

   a. ■ Title V of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2776 43 U.S.C. 1761);

   b. ☐ Section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185);

   c. ☐ Other (describe)_____.

2. Nature of Interest:

   a. By this instrument, the holder, Las Vegas Valley Water District, receives a right to operate, maintain, and terminate a water reservoir, pumping station and solar system with related appurtenance on public lands (~~or Federal land for MLA Rights-of-Way~~) described as follows:

Mount Diablo Meridian, Nevada
T. 19 S., R. 59 E.,
section 13, S½SE¼SW¼.

A map showing the location of the right-of-way is on file with the Bureau of Land Management, Las Vegas Field Office in casefile N-61412.

b. The right-of-way or permit area granted herein is N/A feet wide, N/A feet in length, and contains N/A acres, more or less. If a site type facility, the facility contains 20 acres.

c. This instrument shall be granted in perpetuity, unless prior thereto, it is relinquished, abandoned, terminated, or modified pursuant to the terms and conditions of this instrument or of any applicable Federal law or regulation.

d. This instrument ☐ may ☐ may not be renewed. If renewed, the right-of-way or permit shall be subject to the regulations existing at the time of renewal and any other terms and conditions that the authorized officer deems necessary to protect the public interest. NOT APPLICABLE

e. Notwithstanding the expiration of this instrument or any renewal thereof, early relinquishment, abandonment, or termination, the provisions of this instrument, to the extent applicable, shall continue in effect and shall be binding on the holder, its successors, or assigns, until they have fully satisfied the obligations and/or liabilities accruing herein before or on account of the expiration, or prior termination, of the grant.

(Continued on page 2)

PRJ-48348
03/12/13

SDR-48456

Rental:

For and in consideration of the rights granted, the holder agrees to pay the Bureau of Land Management fair market value rental as determined by the authorized officer unless specifically exempted from such payment by regulation. Provided, however, that the rental may be adjusted by the authorized officer, whenever necessary, to reflect changes in the fair market rental value as determined by the application of sound business management principles, and so far as practicable and feasible, in accordance with comparable commercial practices. NOT APPLICABLE

4. Terms and Conditions:

a. This grant or permit is issued subject to the holder's compliance with all applicable regulations contained in Title 43 Code of Federal Regulations parts 2800 and 2880.

b. Upon grant termination by the authorized officer, all improvements shall be removed from the public lands within 120 days, or otherwise disposed of as provided in paragraph (4)(d) or as directed by the authorized officer.

c. Each grant issued pursuant to the authority of paragraph (1)(a) for a term of 20 years or more shall, at a minimum, be reviewed by the authorized officer at the end of the 20th year and at regular intervals thereafter not to exceed 10 years. Provided, however, that a right-of-way or permit granted herein may be reviewed at any time deemed necessary by the authorized officer.

d. The stipulations, plans, maps, or designs set forth in Exhibits A, B and C dated MAR 0 1 202 are incorporated into and made a part of this grant instrument as fully and effectively as if they were set forth herein in their entirety.

e. Failure of the holder to comply with applicable law or any provision of this right-of-way grant or permit shall constitute grounds for suspension or termination thereof.

f. The holder shall perform all operations in a good and workmanlike manner so as to ensure protection of the environment and the health and safety of the public.

IN WITNESS WHEREOF, The undersigned agrees to the terms and conditions of this right-of-way grant or permit.

Exhibit A
Stipulations N-61412/C/

1. **General Stipulations**

1.1. The right-of-way is issued subject to all valid existing rights.

1.2. No signs of advertising devices shall be placed on the premises or on adjacent public lands, except those posted by or at the direction of the authorized officer.

1.3. The right-of-way shall be maintained in a sanitary condition at all times. Waste materials at those sites shall be disposed of promptly at an approved waste disposal site. "Waste", as used in this paragraph, shall mean all discarded matter of any kind.

1.4. Holder shall mark the exterior boundaries of the right-of-way with stake and/or lath at 100 to 200 foot intervals. The intervals may be varied at the time of staking at the discretion of the Authorized Officer. The tops of the stakes and/or laths will be painted and the laths flagged in a distinctive color as determined by the Holder. Holder shall maintain all boundary stakes and/or laths in place until final cleanup and restoration is completed.

1.5. The Holder, as a political subdivision of the State of Nevada, shall be held liable in accordance with the provisions of 43 CFR 2807.13(a) which replaces 43 CFR 2803.1-5(f).

1.6. Holder shall conduct all activities associated with construction, operation, maintenance and termination of this right-of-way within its authorized limits.

1.7. Holder shall maintain the right-of-way in a safe, useable condition, as directed by the Authorized Officer. A regular maintenance program shall include, but is not limited to, soil stabilization.

1.8. Holder shall maintain copy of the authorization along with stipulations on construction site at all times. In the event that the public land underlying the right-of-way (N-87448), encompassed in this grant, or a portion thereof, is conveyed out of Federal ownership and administration of the ROW or the land underlying the ROW is not being reserved to the United States in the patent/deed and/or the ROW is not within a ROW corridor being reserved to the United States in the patent/deed, the United States waives any right it has to administer the right-of-way, or portion thereof, within the conveyed land under Federal laws, statutes, and regulations, including the regulations at 43 CFR Part [2800][2880], including any rights to have the holder apply to BLM for amendments, modifications, or assignments and for BLM to approve or recognize such amendments, modifications, or assignments. At the time of conveyance, the patentee/grantee, and their successors and assigns, shall succeed to the interests of the United States in all matters relating to the right-of-way, or portion thereof, within the conveyed land and shall be subject to applicable State and local government laws, statutes, and ordinances. After conveyance, any disputes concerning

MAR 0 1 2012

SDR-48456

compliance with the use and the terms and conditions of the ROW shall be considered a civil matter between the patentee/grantee and the ROW Holder.

1.9. Within 90 days of construction completion, the Holder shall provide the Authorized Officer with data in a format compatible with the Bureau's Arc-Info Geographic Information System to accurately locate and identify the right-of-way:

Acceptable data formats are:
Corrected Global Positioning System files with sub-meter accuracy or better, in UTM NAD 83; Zone 11;
ARCGIS export files on a CD ROM, shapefile, geodatabase.

Data may be submitted in any of the following formats:
ARCGIS interchange, shapefile or geodatabase format.
CD ROM in compressed or uncompressed format.

All data shall include metadata for each coverage, and conform to the Content Standards for Digital Geospatial Metadata Federal Geographic Data Committee standards. Contact the GIS Department at (702) 515-5000.

2. **Air Quality**

2.1. The Holder shall not violate applicable air standards or related facility siting standards established by or pursuant to applicable federal, state, or local laws or regulations. The Holder shall be responsible for dust abatement within the limits of the right-of-way and is responsible for obtaining all necessary permits from appropriate authorities for acceptable dust abatement and control methods (e.g., water, chemicals). The Holder shall be solely responsible for all violations of any air quality permit, law or regulation, as a result of its action, inaction, use or occupancy of the right-of-way.

Notwithstanding whether a violation of any air quality permit, law or regulation results, the Holder will cooperate with the Authorized Officer in implementing and maintaining reasonable and appropriate dust control methods in conformance with law and appropriate to the circumstances at the sole cost of the Holder.

Prior to relinquishment, abandonment, or termination of this right-of-way, the Holder shall apply reasonable and appropriate dust abatement and control measures to all disturbed areas. The abatement and measures shall be designed to be effective over the long-term (e.g., rock mulch or other means) and acceptable to the Authorized Officer.

2.2. During excavation, backfilling, and contouring, the disturbed soil should be wetted sufficiently in order to effectively reduce airborne dust and reduce soil erosion.

3. **Cultural**

3.1. Any cultural and/or paleontological resources (historic or prehistoric site or object) discovered by the Holder, or any person working on his behalf on public or Federal lands

SDR-48456

shall be immediately reported to the Authorized Officer. Holder shall suspend all operations in the immediate area of such discovery until written authorization to proceed is issued by the Authorized Officer. An evaluation of the discovery will be made by the Authorized Officer to determine appropriate actions to prevent the loss of significant cultural or scientific values. The Holder will be responsible for the cost of evaluation. Any decision regarding suitable mitigation measures will be made by the Authorized Officer after consulting with the Holder. Holder shall be responsible for the resultant mitigation costs.

4. **Hazardous Material/Pesticides/Liability**

   4.1 If any hazardous material will used, the product, stored, or transported on or within the right-of-way area or facilities located thereon, or used in the construction, operation, maintenance or termination of the right-of-way or any of its facilities, the Holder shall submit a Plan of Development in accordance with the requirements enumerated in the BLM Handbook 2801-1.

5. **Mineral Material**

   5.1 Mineral material generated, and not needed for the development of the proposed action within the right-of-way site, requires a specific BLM use authorization in accordance with regulations at 43 CFR 3600 prior to the removal of in place excess mineral material.

6. **Survey Monuments**

   6.1. Holder shall protect all survey monuments found within the authorization area. Survey monuments include, but are not limited to, General Land Office and Bureau of Land Management Cadastral Survey Corners, reference corners, witness points, U.S. Coast and Geodetic Survey benchmarks and triangulation stations, military control monuments, and recognizable civil (both public and private) survey monuments. If any of the above are to be disturbed during operations, the holder shall secure the services of a Professional Land Surveyor or Bureau cadastral surveyor to perpetuate the disturbed monuments and references using surveying procedures found in the Manual of Instructions for the Survey of the Public Lands of the United States and Nevada Revised Statutes, Chapter 329, Perpetuation of Corners. The holder shall record such survey in the appropriate county and send a copy to the authorized officer. If the Bureau cadastral surveyors or other Federal surveyors are used to restore the disturbed survey monuments, the holder shall be responsible for the survey cost.

7. **Vegetation/Noxious Weeds/Land surface Treatment/Soil/Water/Riparian**

   7.1. The Holder shall be responsible for weed control on disturbed areas within the limits of the right-of-way. The Holder is responsible for consultation with the Authorized Officer and/or local authorities for acceptable weed control methods within limits imposed in the right-of-way stipulations.

MAR 0 1 2012

SDR-48456

7.2. Land surface treatment for areas previously disturbed: Following excavation, trenches will be backfilled with the excavated soil. The soil will be distributed and contoured evenly over the surface of the disturbed area. The soil surface will be left rough to help reduce potential wind erosion.

7.3. Land surface treatment for areas previously undisturbed: Strip the top three to six inches of soil material with associated plant material over all surfaces to be disturbed by construction. Stockpile this material along the course of construction will be salvaged and transplanted out of harm's way but still within the right of way. At the conclusion, including trench backfilling and compaction, replace the stockpiled soil with plant debris uniformly back on the surface of the disturbed area.

7.4. Soil/Water/Riparian: If work is to occur in Ephemeral channels, need to consult with Army Corp of Engineers (ACOE) and Nevada Department of Environmental Protection (NDEP). If drilling boreholes, holder needs to follow Nevada Administrative Code (NAC) protocols for drilling.

8. **Migratory Birds**

8.1. The Holder agrees to survey for nests of migratory birds between the periods of March 15 through July 30, and should a nesting be found the Holder will use a properly qualified personnel, as agreed upon by BLM and the Holder, to avoid the nest or minimize adverse impact to the nest and nestling, including relocation of the nest if appropriate. The Holder will consult with the Authorized Office on a case by case basis to determine the appropriate minimization efforts.

9. **Threatened and Endangered Wildlife and Plant Species Stipulations**

9.1. The Holder will comply with the terms and conditions of the **Biological Opinion, File No. 1-5-96-F-023R.3 for the Las Vegas Valley** on file at the Bureau of Land Management, Las Vegas Field Office.

SUBJECT: CONTRACT NO. C1341 – RENEWABLE ENERGY PROJECT, PHASE II, REQUEST FOR SITE DEVELOPMENT PLAN REVIEW AMENDMENT (SDR-41591)

The Las Vegas Valley Water District (District) is in the process of designing renewable energy facilities on a portion of 20.69 acres of Bureau of Land Management land (Right-of-Way Grant N-61412) located at the northeast corner of Shaumber Road and the Elkhorn Road alignment (APN: 126-13-401-014). The District will install infrastructure to provide Sandia National Laboratories with a fully functional Nevada Regional Test Center (NRTC) at the District's Elkhorn 2975 Zone Reservoir site, located at 7210 Shaumber Road, Las Vegas, Nevada. The NRTC will be approximately four acres in size, located on the western-most portion of the site.

The NRTC will include monitoring and testing equipment on the site that will be housed to provide protection from the weather. Additionally, the NRTC will include provisions for daily collection of weather data on the site.

Site infrastructure will include a 480 volt, 3-phase service transformer for each photovoltaic test vendor to connect to the power grid, up to a total of 300 kVA. Auxiliary power infrastructure will also be provided and will consist of 120/240 volt single-phase service used for monitoring and communications equipment, and maintenance and construction power.

At this time, the District respectfully requests Site Development Plan Review SDR-41591, previously approved by the City of Las Vegas Planning Commission on June 14, 2011, be amended to replace the 93-foot tall solar collector tower with multiple solar collectors no larger than 30 feet tall by 48 feet wide sola panels and a 30-foot tall weather collection tower. The western property line is bounded by Shaumber Roa and the southern property line is bounded by a 70-foot wide paseo, minimizing the impact on the surrounding residential development. The perimeter walls are of varying height and are constructed of natural finish cement masonry units; wall dimensions are shown on the exhibit drawings. The installation will be maintained by way of washing of the panels every six weeks with a typical garden hose. Access will be limited through a locked gate, as indicated on the plans.

The project is scheduled to begin construction in spring 2013 and to be completed in mid-2013.

If you have any questions, or require additional information, please contact Joseph Lin, Engineering Project Manager, at (702) 875-7062.

Sincerely,

Peter J. Jauch, P.E.
Manager
Engineering Design Division

Elkhorn Reservoir Renewable Energy Project
March 13, 2013

Comments: I LIKE THE IDEA OF RENEWABLE ENERGY IN NEVADA, HOWEVER, THIS TEST FACILITY SHOULD NOT BE BUILT AT THIS LOCATION.

THIS FACILITY WILL DECREASE PROPERTY VALUES TODAY AND IN THE FUTURE AND SHOULD NOT BE BUILT IN A NEW RESIDENTIAL AREA.

THE EQUIPMENT WILL BE VISABLE AND AN EYE SORE TO ANYONE LIVING OR POSSIBLE PURCHASING A HOME HERE.

IN ADDITION, THIS FACILITY MAY GENERATE ADDITIONAL NOISE CAUSED BY BA SYSTEMS OR ADDITIONAL CONTRUCTION & MAINTENANCE TRAFFIC & OPERATIONS.

PLEASE FIND ANOTHER LOCATION FOR THIS PROJECT. THERE IS SO MUCH OPEN LAND IN NEVADA. WHY WOULD YOU BUILD THIS IS A RESIDENTIAL AREA?

March 13, 2013

Comments: I AM NOT FAVORABLE OF THIS SOLAR PROJECT IN OUR NEIGHBORHOOD. IT CANT DO ANYTHING POSITIVE FOR OUR INDIVIDUAL HOME VALUES. THE HOME OWNERS ARE NOT GETTING ANY BENEFITS FROM THIS PROJECT IN A "NEWER" HOUSING DEVELOPMENT. I AM IN FAVOR OF RENEWABLE ENERGY BUT I DONT WANT IT IN MY NEIGHBORHOOD AND MY NEIGHBORS DONT LIKE IDEA EITHER. I DID NOT BUY THIS HOUSE 2.5 YEARS AGO TO CONTEMPLATE SELLING IT AT A MAJOR LOSS JUST BECAUSE OF A SOLAR PROJECT THAT REDUCED MY HOME VALUES. I DRIVE A HYBRID THAT GETS 46 MPG. I SUPPORT ALTERNATIVE ENERGY BUT I JUST THINK SOLAR IN OUR NEIGHBORHOOD IS THE WAY TO GO. I AM SORRY. I THINK A HUGE SOLAR "FIELD" WOULD BE MORE PRODUCTIVE, INFORMATIVE, INFORMATION GATHERING THAN A SMALL ONE. THANK YOU FOR YOUR TIME.

LVVWD Contract No. 1341
Elkhorn Reservoir Renewable Energy Project
March 13, 2013

Comments: I am extremely concerned that this project as currently proposed (with one 33' tower and up to 12 27' x 45' panels) will be an eyesore in our community in Providence, and will cause a decrease in our home values in the entire Providence community.

Although I am concerned about our environment, I would rather not see this happen in Providence at all due to these concerns.

However, if there were much smaller panels that were not visible as we walk through our promenade, and drive through our neighborhood in Providence, I would be far less resistant to this project. Also, there should be no more than one tower of 33' in height or less used for the entire project.

I am a fan of the idea of renewable energy, but I am not a fan of the appearance of the panels and towers.
