Comment I am against item 38 on the Planning Commission agenda for March 12, 2013. It requires landscape buffer variances along the perimeter of the building which requires landscaping in these areas. The landscaping is needed for the aesthetics of the building presently sitting at this location. I question the need for the extension if in order to accomodate the property addition this many waivers are needed to prepare it for its intended use. Further, I wonder whether the lot will support adequate parking for the businesses that presently occupy this commercial plaza.
