REMARKS:

6th Submittal: Update #3 to revise the northern entrance driveway (off of Martin L. King Blvd.) and add an access to an adjacent site to the north

5th Submittal: Supplement for minor onsite grading and layout changes

4th Submittal: Update #2 to raise the site by 0.55' in general and for minor onsite revision

3rd Submittal: Update #1 to address improvements in the newly acquired 4'-10' wide additional right-of-way in Martin L. King Boulevard

The Drainage Study for the subject project has been reviewed and:

X	is approved subject to conformance to all City standards and the following conditions:
	must be resubmitted or supplemented including the following:
	is conditionally approved subject to Clark County Regional Flood Control District concurrence.

The following comments are repeated until they are complete:

1. This drainage study assumes that the project will be constructed in one phase. If improvement plans are submitted to break the project into separate phases, a drainage study update will be required for each phase addressing the interim condition.
2. Provide a note on the grading plans: "All onsite storm drain facilities are Privately Owned and are to be Privately Maintained".

NOTE: Any future changes to the proposed design (or design assumptions) as outlined in the approved drainage study and attached preliminary grading plan which affect drainage must be addressed in a Drainage Study Amendment and accepted by the *City of Las Vegas Flood Control Section*. Additionally, conditional acceptance of a drainage study is valid for a period of one (1) year. If the proposed construction has not been completed in that time period, the *City of Las Vegas* reserves the right to require additional conditions and/or submission and acceptance of a complete drainage study update prior to further construction of a project.

NOTE: Please be advised that all land surface area disturbances over 1 acre or any area adjacent to a water way must submit to the *Nevada Division of Environmental Protection* a "Notice of Intent" to discharge that certifies a stormwater pollution prevention plan has been developed and is maintained on site; for inclusion in the Stormwater General Permit No. NVR100000. A phased construction unit in a contiguous subdivision is considered under construction until all stripped or disturbed surface areas have been covered by paving, building construction or planting. For more information, including forms and applications see <http://ndep.nv.gov/bwpc/storm01.htm> or call (775) 687-9429.

Las Vegas, Nevada 89101

**Subject: Supplement No. 2 to the
Technical Drainage Study for Metro Headquarters
CLV # (DS # 4353)**

Dear Mr. Sung:

This supplement letter is submitted to address minor grading and site plan changes associated with the addition of a secondary access to the Fine Furniture site. The approved *Technical Drainage Study for Metro Headquarters* (CLV # DS4353) was approved by the City of Las Vegas on April 6, 2009. The proposed minor site plan and grading changes are clouded on the attached plans under Delta 4. The proposed changes do not alter drainage patterns or change hydraulic calculations previously approved by the City.

If you have any questions or require further information, please do not hesitate to contact us at 284-5300.

Respectfully Submitted,
SLATER HANIFAN GROUP, INC.

Travis Poechmann, Project Engineer
