Steve;

Eddy and I have reviewed the application package and have come a cropper on a few items. Please find attached a brief list of those items we need addressed prior to completing our review.

One thing that bears mentioning is that we have insisted on specifications be clearly stated for the dam instead of referenced. We do not have a copy of the standard specifications for every jurisdiction. We are looking into getting a copy of the industry standard specifications for civil works so we may relax this requirement a bit. However we do not have it yet.

I will return to the office on 9/22 and will be pleased to answer any questions you may have at that time.

Sincerely,

Mike!

Michael J. Anderson, P.E.
