**RE: 22-0504-TMP1
PLANNING COMMISSION MEETING OF NOVEMBER 15, 2022**

Dear Applicant:

The Planning Commission at a regular meeting held on **November 15, 2022** voted to **APPROVE** of the following Land Use Entitlement project request FOR A 13-LOT PARENT TENTATIVE MAP FOR SUMMERLIN WEST VILLAGE 30A on 253.97 acres at the southwest corner of Lake Mead Boulevard and Park Drift Trail (APNs 137-21-701-002 and 137-22-301-015), P-C (Planned Community) Zone, Ward 2 (Seaman)

This approval is subject to the following conditions:

Planning

1. Approval of the Tentative Map shall be for no more than four (4) years. If a Final Map is not recorded on all or a portion of the area embraced by the Tentative Map within four (4) years of the approval of the Tentative Map, this action is void.
2. Conformance to the conditions of approval of the Summerlin Village 30A Development Plan (21-0825-MDR1) shall be required.
3. Street names must be provided in accordance with the City's Street Naming Regulations.
4. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.
5. In conjunction with creation, declaration and recordation of the subject common-interest community, and prior to recordation of the Covenants, Codes and Restrictions ("CC&R"), or conveyance of any unit within the community, the Developer is required to record a Declaration of Private Maintenance Requirements ("DPMR") as a covenant on all associated properties, and on behalf of all current and future property owners. The DPMR is to include a listing of all

privately owned and/or maintained infrastructure improvements, along with assignment of maintenance responsibility for each to the common interest community or the respective individual property owners, and is to provide a brief description of the required level of maintenance for privately maintained components. The DPMR must be reviewed and approved by the City of Las Vegas Department of Field Operations prior to recordation, and must include a statement that all properties within the community are subject to assessment for all associated costs should private maintenance obligations not be met, and the City of Las Vegas be required to provide for said maintenance. Also, the CC&R are to include a statement of obligation of compliance with the DPMR. Following recordation, the Developer is to submit copies of the recorded DPMR and CC&R documents to the City of Las Vegas Department of Field Operations.

6. All development is subject to the conditions of City Departments and State Subdivision Statutes.

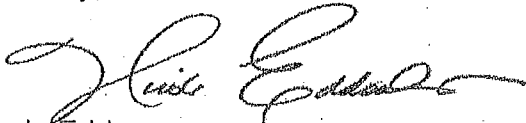

Public Works

7. Dedicate appropriate public street rights-of-way and construct public and private streets in accordance with Summerlin Development Improvement Standards. The terminus of Mountain Run is approved in concept and final approval will be based on approved construction drawings. Dedications shall match the approved construction drawings.
8. As each parcel develops, provide easements for all required public infrastructure (sewer, drainage, traffic, etc.) that are located outside of the public rights-of-way. The City Traffic Engineer reserves the right to require sidewalk ramps and associated easements throughout this site to improve walkability.
9. Individual parcel lot densities must adhere to the latest approved update of the Summerlin West Wastewater Master Study. Any changes to the approved Wastewater Master Plan and approved Equivalent Residential Units (ERUs) will warrant a Sewer Master Study Update or technical memorandum.
10. Bonds for monuments associated with this map may be required prior to the recordation of a Final Map for this site.
11. All landscaping and private improvements installed with this project shall be situated and maintained so as to not create sight visibility obstructions for vehicular traffic at all development access drives and abutting street intersections. Site Visibility Restriction Zones (SVRZs) must be calculated using American Association of State Highway and Transportation Officials (AASHTO) standards based on the posted speed limit. Landscaping within calculated SVRZs will be limited by the City Traffic Engineer.
12. Prior to the release of a Final Map, the property owner must contact the Special Improvement District Section of the Department of Public Works (229-2136). The City shall prepare an apportionment report for the per lot assessment of all lots following recordation of the Final Map.

13. Comply with approved Traffic Impact Analysis #76143-1.
14. A Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits or submittal of any construction drawings, whichever may occur first. Provide and improve all drainageways recommended in the approved drainage plan/study. The developer of this site shall be responsible to construct such neighborhood or local drainage facility improvements as are recommended by the City of Las Vegas Neighborhood Drainage Studies and approved Drainage Plan/Study concurrent with development of this site.
15. As per Unified Development Code (UDC) 19.16.060.G, all requirements must be complied with or such future compliance must be guaranteed by an approved performance security method in accordance with UDC sections 19.02.130.
16. The approval of all Public Works related improvements shown on this Tentative Map is in concept only. Specific design and construction details relating to size, type and/or alignment of improvements, including but not limited to street, sewer and drainage improvements, shall be resolved prior to approval of the construction plans by the City. No deviations from adopted City Standards shall be allowed unless specific written approval for such is received from the City Engineer prior to the recordation of a Final Map or the approval of subdivision-related construction plans, whichever may occur first. Approval of this Tentative Map does not constitute approval of any deviations. If such approval cannot be obtained, a revised Tentative Map must be submitted showing elimination of such deviations.

This action by the Planning Commission on November 15, 2022 is final unless a written appeal is filed with the City Clerk within seven days of the date of the Planning Commission's decision as allowed by code or there is a review action filed by the City Council within the same time period. For additional information on appeals or review requests submitted please access <https://www.lasvegasnevada.gov/Business/Permits-Licenses/Building-Permits/Permit-Application-Status>, or contact the Department of Planning and Development at 702.229.6301 after November 22, 2022. No building permits or business licenses related to these items shall be issued prior to the expiration of the required seven day waiting period, or until any filed appeal is resolved pursuant to LVMC Title 19.18.

Sincerely,

Nicole Eddowes
