PUBLIC HEARING ITEMS

30. ABEYANCE - 20-0142 - PUBLIC HEARING - APPLICANT/OWNER: MARLON L JOHNSON - For the possible action on the following Land Use Entitlement project requests on 0.92 acres at southwest corner of Mountain Trail and Sunset Drive (APNs 139-19-812-038 and 039), Ward 5 (Crear). Staff recommends DENIAL on the Land Use Entitlement project.

Minutes:

These items were heard subsequent to Items 33a-33b.

CHAIR DE SALVIO declared the Public Hearing open for Items 30-30e.

NICOLE EDDOWES, Senior Planner, explained the proposed General Plan Amendment and Rezoning would allow Industrial uses directly adjacent to existing Rural Neighborhood residential properties to the North and West when it is intended that such uses be located away from all residential development. Staff found no evidence of unique or extraordinary circumstances to support the requested Variances and that the proposed development would be incompatible with neighboring development, and therefore recommended denial of all applications.

Applicant MARLON JOHNSON said this is a unique and transitioning area of Las Vegas. He purchased the property with the intent of cleaning it up and storing equipment for his backhoe business. There are similar commercial businesses in the area, and he thanked COMMISSIONER WILLIAMS for visiting the property. In closing, he indicated they amended their plans to include landscaping, curbs, sidewalks and gutters and therefore no longer needed a variance.

COMMISSIONER WILLIAMS said he visited the site, and agreed that this is a transitioning area. There is heavy equipment stored in nearby areas, and he appreciated that MR. JOHNSON will be cleaning the site up and repaving the area to include gutters and sidewalks.

31. ABEYANCE - 20-0092 - PUBLIC HEARING - APPLICANT/OWNER: MAIN STREET INVESTMENTS II, LLC - For possible action on the following Land Use Entitlement project requests on 0.48 acres at 1205 South Main Street and 1208 South Casino Center Boulevard (APNs 162-03-105-011 and 162-03-110-067), C-M (Commercial-Industrial) and C-1 (Limited Commercial) Zones, Ward 3 (Diaz). Staff recommends DENIAL on the Land Use Entitlement project.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 31-31b.

NICOLE EDDOWES, Senior Planner, explained the applicant was proposing to create an open air food court with mobile vendor food trucks and trailers on the west side of Casino Center Boulevard, east of California Street. In addition, the applicant proposed, as an interim use at 1205 South Main Street, two mobile food vendors for the rear patio area of this location, and for the patio area to be utilized as an interim seating area for the patrons of all open air vending in the area. The proposal includes Waiver requests to allow chain link fencing screened with artificial plant material where these materials are prohibited, to not develop the subject as a pedestrian open space, courtyard, or plaza where such is required, to allow an alternative ground cover, where a solid surface such as pavers, asphalt or concrete is required, to allow minimal landscaping and planters, and to allow a trash enclosure constructed of fencing with no trellis or roof structure where a trash enclosure is required to be constructed of materials such as concrete masonry units with a roof or trellis and metal gates. The multiple requested waivers emphasize the proposal's incompatibility with the goals of the City's Vision 2045 Downtown Las Vegas Master Plan for the 18b Las Vegas Arts District and the newly developing surrounding area. Therefore, staff recommended denial of both applications, and she noted that additional letters of support had been received since publication.

PAUL MURAD appeared representing the application and thanked the Commission for holding these items in abeyance. He explained the Ghost Kitchen lot will be the first of its kind in the Arts District. The City's approval would bring new customers to surrounding businesses in the Arts District and support the community. This is an experimental project with a limited construction budget and a phased approach, which is why the variances were requested. He said benefits of food parks and pods include: activating vacant land, increasing surrounding property values, creating jobs, support to local business and artists, and becoming a neighborhood and tourist destination. The project is inspired by the Portland, Oregon food cart scene, which is home to the world's best street food. MR. MURAD also spoke of the similar developments in San Francisco and San Diego, California and their successes.

The applicant is proposing up to ten trucks or trailers. Each truck and trailer is regularly inspected by the Southern Nevada Health District (SNHD), and he noted that this lot is designed for to-go orders and delivery service pick up with no seating available. There is regular trash pick-ups by Republic Services, and COVID-19 precautions such as social distancing and hand sanitizing stations will be in place. Each vendor is Department of Motor Vehicles (DMV) registered, inspected by the SNHD and Fire Department, and licensed by the City. MR. MURAD also noted that some of the nearby businesses and restaurants will provide restroom services for food truck staff.

The applicant proposed decomposed granite and polypavement, which is twice as strong as traditional pavement. All lot surfaces are LEED (Leadership in Energy and Environmental Design) and ADA (Americans with Disabilities Act) compliant, and non-toxic to plants and animals. Additionally, there will be a street facing chain link fence with

an artificial boxwood hedge foliage to improve the aesthetic and secure the site from vagrants and vandalism. The food trucks vary in size between 16 to 26 feet, and they maintain the minimum distance as required by the Fire Department. There will be a mobile art installation, and they will be donating a portion of the rental income to local charities.

ARNO RAND said 10,000 restaurants have closed nationwide over the last three months. He spoke to MR. MURAD and his team, and they think the idea is chic and affordable. This would add to the Arts District and allow for restaurants to expand in ways they could not before.

RICKI BARLOW said he represents many clients in the Arts District, and they all support this item. He also spoke highly of the Portland and San Francisco food truck pods that MR. MURAD mentioned. Having this project located Downtown would make the most sense given all of the foot traffic in the area on a daily basis.

IAN DAVIS believed this would be a benefit to the Arts District and the nearby businesses. This is a great opportunity for small business owners who cannot afford a traditional restaurant site, especially those with occupancy restrictions due to COVID-19.

AMY ORTIZ owns Rockin' Bettie in the Arts District and plans on opening an ice cream shop directly in front of the proposed location. She supported the project and giving businesses owners the opportunity to bring their specialties to the Arts District.

ASHLEY FOSTER, Deputy City Clerk, read e-comments received online, copies of which were submitted and attached as backup.

MR. MURAD said those who oppose the project all used the same language in their comments, and believed them to be restaurateurs who do not want competition. He said this is not a food court where people will be congregating, and he reached out to numerous people in an attempt to explain the project. There is no need for restrooms because there will be no seating, and numerous agencies will make sure the lot is in compliance with all rules and regulations.

COMMISSIONER SCHLOTTMAN was concerned that some things still needed to be worked out, but spoke of the successful food pods in San Diego and Miami. The Commissioner expressed concern over the sanitation aspect of the project, and requested a copy of the letter MR. MURAD had from a local business owner that was willing to allow food truck staff to use their restrooms. He asked if these trucks are leaving on a daily basis, and MR. MURAD said he would like to have food trucks in place on a weekly or monthly basis. COMMISSIONER SCHLOTTMAN said if this is as successful as MR. MURAD anticipates, they may want to modify the infrastructure or move elsewhere. MR. MURAD said the owner only wishes to invest the money made from the lot back into the property and make utility improvements. COMMISSIONER SCHLOTTMAN inquired about the maintenance of the exterior fencing, and MR. MURAD said the owner will maintain the property, and wishes to continue providing various food options to the Arts District. COMMISSIONER SCHLOTTMAN said this would benefit many people, especially during events such as First Friday. In closing, he asserted that the conditions of approval must be met, and the lot must be kept in good standing.

COMMISSIONER ROGAN liked the idea, and felt this was a compatible use for the neighborhood; however, he was concerned with the aesthetics. The City, among others, have invested a lot of money in the Arts District to make it successful, and he did not like artificial plants, poly pavement or the chain link fence, and he felt the applicant was not investing what is usually expected for a project in the area. COMMISSIONER ROGAN said this was likely going to City Council, who will have the same concerns, and he encouraged MR. MURAD to be ready to address them.

COMMISSIONER TOUSSAINT said she was not opposed to the project, but spoke against the artificial plants, which quickly deteriorate in the hot sun. She spoke of the COVID-19 restrictions currently in place, and felt many people would be more comfortable with the to-go concept this project offers.

CHAIR DE SALVIO spoke at great lengths with MR. MURAD, and expressed his concerns with the sanitation aspect of the project. Aesthetics were also a concern to him, but he reiterated the fact that only staff could use the restrooms in nearby businesses, and not the customers who are buying the food. He said MR. MURAD was against a portable restroom, leaving clients to infringe on other businesses in the area. The Chair said he is in favor of food lots, but he could not support the application without any sanitation aspect for the food lot customers. MR. MURAD said SNHD is very strict, and bathrooms will be added when there are special events. Additionally, select trucks will offer sanitation stations for their customers. He said the property owners have invested millions of

dollars in their other properties, and the second phase of the project includes portable bathrooms.

COMMISSIONER SCHLOTTMAN asked why the applicant could not provide a permanent hand washing station, and MR. MURAD said the vendors should be the ones to provide that. The Commissioner then asked if there is any issue with having a portable hand washing station, and MS. EDDOWES said the hand washing station would have to be in conjunction with a specific food truck, as the City does not permit freestanding hand washing stations as a permanent installation. COMMISSIONER SCHLOTTMAN asked about a trailer that included a sanitizing station, and MS. EDDOWES reiterated that those uses are only permitted in conjunction with a construction permit or a temporary commercial permit for a special event. MR. MURAD committed to renting and providing a portable hand washing station for the lot. ROBERT SUMMERFIELD, Planning Director, said a stand-alone sanitizing station will not be allowed, and if the owner is not willing to make the investment for a permanent facility, then it will need to be done in conjunction with one of the trucks.

CHAIR DE SALVIO wondered if the applicant pulled a construction permit for the property, but they keep failing inspections, and PETER LOWENSTEIN, Deputy Planning Director, explained that if the permit shows no forward progress within 180 days, it will expire.

COMMISSIONER ROGAN felt it was inappropriate for the Commission to be attempting to make this project work on the dias, and MR. MURAD should work the concerns out before it gets to City Council.

5 (Crear). Staff recommends DENIAL on the Land Use Entitlement project.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 32-32e.

NICOLE EDDOWES, Senior Planner, said the area surrounding the subject site is primarily residential in nature with lighter commercial properties at major intersections that provide goods and services to the area patrons. The proposed General Plan Amendment and Rezoning would allow uses of a more intense character that should be located away from low and medium density residential development such as that which exists near the subject site. Staff found no evidence of a unique or extraordinary circumstance to support the requested Variance, and that the Variance request reinforces the unsuitability of the proposed development in relation to neighboring development and therefore recommended denial of all applications.

ATTORNEY DAVID BROWN said the applicant has agreed to pave the parking lot, and the nine foot wall would be reduced to eight feet. He noted that the property is located off of Jones Boulevard, and it will hold up to 41 semi-trucks. The lot will be well lit with security cameras, gating and intense landscaping. If approved, this project would have very little impact on traffic, as many of the truckers will only visit once a week. The applicant will also tell the drivers to not block any ingress or egress. He said the applicant was concerned the C-1 (Limited Commercial) zoning would open the property up for uses that are not appropriate for the area.

CHAIR DE SALVIO was concerned with trucks stacking, and MR. BROWN did not anticipate any stacking issues. The applicant will also have contracts with each spot, and tell the tenants to drive around the block if another truck is attempting to enter.

LUCIEN PAET, Engineering Project Manager, said Condition 21 would need to be changed because it did not sound like the applicant would have remote access, but MR. BROWN confirmed there would be remote access 24-hours a day.

33. ABEYANCE - 20-0166 - PUBLIC HEARING - APPLICANT/OWNER: CITY OF LAS VEGAS - For possible action on the following Land Use Entitlement project requests on approximately 603.00 acres bounded by Owens Avenue on the north, Interstate 15 and Main Street on the east, U.S. 95 on the south and Martin L. King Boulevard on the west (APNs multiple), Ward 5 (Crear). Staff recommends APPROVAL on the Land Use Entitlement project.

Minutes:

This item was pulled forward and heard subsequent to the One Motion One Vote agenda

items. CHAIR DE SALVIO declared the Public Hearing open for Items 33-33b.

MICHAEL HOWE, Long Range Section Manager, expressed gratitude to the Historic Westside community and their participation. Last year, a stakeholder meeting was held and staff implemented the Hundred Plan. On February 27th, a community workshop was held, which helped create the draft of the regulating plan. In that process, staff discovered that they wanted to create two particular zones for the Historic Westside: the T-3 Neighborhood Open Zone, which is an allowance for single family homes to operate a small business within the dwelling, and the T-4 Maker Transect Zone, which will maintain the ability to use green space and provides an amenity for produce and food processing.

MR. HOWE displayed the proposed zoning map that was introduced at the September 15th community meeting. From that meeting, feedback and input was given that resulted in reaching out to key stakeholders, churches and mosques, and they realized that many property owners were looking for a new code to maximize redevelopment opportunities within their current developments. From those meetings, staff made the key changes which were reflected in a new draft map. He pointed out that parks are not part of the rezoning proposal, as they are currently parcels zoned as a right-of-way. MR. HOWE then shared a proposed map from a resident, which was a response to her concerns regarding the Moulin Rouge and the lack of green space. After discussing how the code works, there was an understanding that properties can be rezoned in the future once plans are submitted to the City. Speaking to the Moulin Rouge specifically, MR. HOWE said they anticipate redevelopment in the future as it is under new ownership, but staff is not sure what the new owners have planned. In closing, he said this will be the third district the City has rezoned, and he looked forward to moving this forward to the City Council.

TASHEKA LAWSON said she was the one who submitted the revised map to MR. HOWE, and noted that there were 10 to 11 people who wanted to have their voices heard that could not attend this meeting. She is currently working with one of the stakeholders in the Historic Westside, and wanted more time for community involvement.

KATIE DUNCAN, Historic Westside Chamber of Commerce, said she did not know what the challenges or benefits are of these proposed changes. She was not sure the Historic Westside will be getting the protection it needs, or how the form-based code would impact a historic district, and she requested more time to be educated on the matter.

ROBERT SUMMERFIELD, Planning Director, said there is a Historic Preservation ordinance in the City of Las Vegas, and only the Moulin Rouge site has been designated as a historic property. He added that form-based code is compact sensitive, and lends itself well to historic preservation to ensure the consistency of what the community looks like today.

ASHLEY FOSTER, Deputy City Clerk, read e-comments received online, copies of which were submitted and attached as backup.

In response to the online comments, MR. HOWE said the City is not looking to displace any current property owners. Staff is looking at hosting community workshops so that owners fully understand form-based code and the value that comes with it. He said this is a chance to rebuild equity and be a part of the redevelopment. In closing, he noted that the Historic Westside School is also on the historic registry.

COMMISSIONER WILLIAMS felt this would move the city forward and provides opportunities for new urban development.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open.

NICOLE EDDOWES, Senior Planner, explained the existing apartment complex is parking impaired, as it was constructed in 1991 prior to the current minimum parking requirements set forth by Title 19. Staff found no evidence of a unique or extraordinary circumstance to support the request and that approval would intensify the existing parking deficiency and therefore recommended denial.

ATTORNEY JENNIFER LAZOVICH explained the applicant is requesting to remove eight parking spaces in order to gate the project. The project itself was built many years ago with 184 units, and there will still be 222 spaces available after the eight are removed. Studies were conducted during peak times, and the results showed there was still plenty of parking even with many people staying at home.

COMMISSIONER WILLIAMS confirmed an NDOT (Nevada Department of Transportation) study was conducted, and did not have a problem with the project.

CHAIR DE SALVIO declared the Public Hearing closed.

Staff recommends APPROVAL on the Land Use Entitlement project.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 35-35c.

NICOLE EDDOWES, Senior Planner, explained the existing Cannabis Cultivation Facility was approved through a previous Site Development Plan Review and Special Use Permit that allowed the temporary use of a 576 square-foot cube building located in the northwest portion of the subject site. The new requests are to allow permanent use of the cube building. Staff supported the Variance request to keep an existing structure in a required setback area as the subject site previously had relaxed setback requirements. Staff further found that the existing development can continue to operate in a manner that is compatible with surrounding development and supports allowing the cube building permanently and therefore recommended approval of all applications. She also noted that an additional letter of protest had been received since publication.

DANIEL SIMON, DP Holdings Inc., said this is an existing operation, and this request is for a small addition. There are zero setbacks as it currently exists, and all buildings abut each other.

COMMISSIONER ROGAN said this is in an industrial area, and he had no problems with the project.

36. ABEYANCE - 20-0171-SUP1 - SPECIAL USE PERMIT - PUBLIC HEARING - APPLICANT: FRANCISCO VARGAS - OWNER: PACIFIC ENTERPRISES I, LLC - For possible action on a Land Use Entitlement project request for a Special Use Permit FOR A PROPOSED OPEN AIR VENDING/ TRANSIENT SALES LOT USE on 0.31 acres at the southwest corner of Washington Avenue and Main Street (APN 139-27-703-001), M (Industrial) Zone, Ward 5 (Crear). Staff recommends DENIAL.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open.

NICOLE EDDOWES, Senior Planner, explained the minimal conditional use regulations set forth by Title 19.12 were established to allow the Open Air Vending/Transient Sales Lot use to operate in a harmonious manner with surrounding land uses. As these requirements are not met, staff found the proposed use cannot be conducted in a manner that is harmonious and compatible with surrounding land uses and therefore recommended denial.

RICKI BARLOW, LV Access LLC, explained COMMISSIONER WILLIAMS visited the site after the item was abeyed to see the parking lot that is nearly complete.

PAUL MURAD said this is a great project for the area and would generate jobs.

BEATRICE TURNER has looked forward to something taking over this corner and voiced her support for the project.

COMMISSIONER WILLIAMS said this is harmonious and compatible with the surrounding area, and he did not have any concerns with the project.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 38-38c.

NICOLE EDDOWES, Senior Planner, said staff found that the proposed Rezoning is consistent with the underlying future land use designation and recommended approval; however, while staff contends that the proposed development is necessary for future communities within the northwest area of the city, the proposed landscaping and perimeter walls do not meet the minimum standards set forth in Title 19.10. The applicant has adequate space to provide the required landscape buffers along the perimeter which would provide additional visual relief for the existing residents in the surrounding area. Staff therefore recommended approval of the Rezoning but denial of the Variance and Site Development Plan Review. She noted that additional letters of protest and support had been received since publication.

ROBIN ROCKEY, Las Vegas Valley Water District, explained they are in the process of designing a new pumping station located on the southeast corner of Deer Springs Way and Conquistador Street. There will be a 10 million gallon below grade reservoir and a 28 million gallon pumping station. Construction is on schedule to begin Spring 2021 and finish during Fall 2022. Speaking to the landscape variance, MS. ROCKEY was in agreement with the 15-foot buffer recommendation and felt that there will be an adequate number of trees. They did request a variance on the 8-foot landscape requirement on the inside of the facility as it would require maintenance and waste water. She also noted that their Centennial pumping station was not required to adhere to the 8-foot landscape buffer. Speaking to the height of the fencing, MS. ROCKEY said this is their standard in order to protect the water coming out of the facility.

DONNA MEDINA said this would not benefit her in any way, and expressed concern about the height of the wall obstructing her view of the mountains. She felt this would devalue the nearby properties and wished to see a visual rendering of the project.

SARAH HUMPHRIES spoke with MS. ROCKEY and requested more information on the project. She had no problem with the landscaping on Deer Springs Way, but where she is on the east side, there will be a 10- to 12-foot wall with bars. She felt this would look like a prison wall and create a noise nuisance. She was not opposed to the project and only wished the applicant could beautify her side.

CYNTHIA CATSMAN asked how tall the buildings would be and said she does not want her view to be obstructed.

ASHLEY FOSTER, Deputy City Clerk, read e-comments received online, copies of which were submitted and attached as backup.

MS. ROCKEY displayed elevations of the site and said the pumping station will be the only visible building on the

site. Speaking to the east side portion of the wall, MS. ROCKEY explained it is adjacent to an undeveloped property, and it is their standard to build a CMU (Concrete Masonry Unit) block wall.

CHRIS LUQUETTE, Project Manager, Las Vegas Valley Water District, added that the existing vacant lot to the east is BLM (Bureau of Land Management) property, and they expect it to go up for auction and eventually be developed into residential lots; therefore, the CMU wall is what they feel is best for the future development.

CHAIR DE SALVIO inquired about the color of the wall, and MR. LUQUETTE displayed a color sample and explained the wall will be Sunset Red. Additionally, he displayed renderings of what the project would look like after development from various angles. He added that security services will pass by the property twice a day to ensure there are no problems. CHAIR DE SALVIO confirmed with MR. LUQUETTE that the Las Vegas Valley Water District does not have any problem sharing the wall with future developments. The Chair felt the proposal was aesthetically pleasing given the situation, and foresaw many more pumping stations as Ward 6 expands. He did not receive any opposition to the project, and he noted that COUNCILWOMAN FIORE may request 36-inch box trees along the perimeter.

Subsequent to the motion and vote, CHAIR DE SALVIO recommended any resident with additional concerns reach out to COUNCILWOMAN FIORE.

Staff recommends DENIAL on the Land Use Entitlement project.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 39-39b.

NICOLE EDDOWES, Senior Planner, explained no evidence of a unique or extraordinary circumstance had been provided to warrant the applicant's request to provide culs-de-sacs that fail to meet Summerlin Design standards. Staff viewed this deviation as a self-imposed hardship in an effort to overdevelop the subject site. As the design of the Tentative Map is dependent on the approval of the Major Deviation to the Summerlin Development Standards, staff recommended denial on all associated applications.

ATTORNEY JENNIFER LAZOVICH explained the request for the variance are for three cul-de-sacs. The Summerlin Design Review Committee approved the request, and they worked with the Public Works Department to narrow the applicant's requests to only the one that is before the Planning Commission.

COMMISSIONER CHATTAH asked if there were any additional conditions placed on the application, and LUCIEN PAET, Engineering Project Manager, confirmed there were none.

Staff recommends DENIAL on the Land Use Entitlement project.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 40-40d.

JONATHAN BOYLES, Senior Planner, explained the Special Use Permit and Variance applications were the result of code enforcement action and are requested in order to continue operations of their commercial horse stable and animal keeping business. Multiple structures, including sheds, stables, fences and a carport have been constructed without building permits and are not in conformance to city codes. Many of the structures do not meet minimum setback requirements and are not aesthetically compatible with surrounding development, nor does the site meet minimum parking requirements for the proposed uses. If approved, the applicant would be allowed to pursue permits for the unpermitted structures and maintain 30 horses, 20 cattle, and 17 chickens on the subject property. As evidenced by the multiple Variances, staff found the site to be too small to accommodate the proposed uses and recommended denial of all applications. He noted there have been additional letters of support and protest received since publication.

Applicant RICHARD THOMAS said many of the structures on his land were things he built 20 years ago, and he did not realize he needed permits at the time. He only wants to live a western lifestyle and said he works with various organizations in the community who come to visit his property, and he wished to continue providing that support.

ASHLEY FOSTER, Deputy City Clerk, read e-comments received online, copies of which were submitted and attached as backup.

MR. THOMAS said his sister-in-law who lives next door claims cow maneuver blows into her pool, but this is not the case. He added that Code Enforcement has been to his property several times, and they too have said her claims are fraudulent.

CHAIR DE SALVIO spoke with MR. THOMAS prior to the meeting and said he drives by his property every day. He said it is a very clean facility, and encouraged anybody to stop by. He confirmed that the unpermitted structures have been there for several years, and noted that MR. THOMAS owns the surrounding dirt lot. The Chair added that the property directly across the street is a City-owned property where people can ride their horses, and he said this is more of a family feud rather than a City issue. He told MR. THOMAS that there are still things he will have to do if this is approved, but he supports the project.

COMMISSIONER CHERRY requested that MR. THOMAS work with staff and put in an application when one is necessary. He also confirmed with staff that a building permit will be required if the project is approved.

Subsequent to the motion and vote, ROBERT SUMMERFIELD, Planning Director, asked if a time limit should be imposed for MR. THOMAS to obtain the necessary permits. CHAIR DE SALVIO asked what would be a fair timeframe, and MR. SUMMERFIELD felt 90 days was sufficient. He added that the work did not need to be completed in 90 days, MR. THOMAS only needs to have the permits underway.

COMMISSIONER SCHLOTTMAN asked if MR. THOMAS needed to have submitted for permits within 90 days or have the permits acquired, and MR. SUMMERFIELD said progress must be made on the open code enforcement case within 90 days. He clarified for CHAIR DE SALVIO that the 90 calendar days would start on December 9, 2020. COMMISSIONER SCHLOTTMAN said obtaining a permit within 90 days was unrealistic and recommended a 120-day timeframe. MS. EDDOWES recommended a condition of approval that stated a building permit application must be submitted within 120 days of final approval.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 41-41g.

JONATHAN BOYLES, Senior Planner, explained the proposal includes a Tentative Map for a five-lot residential subdivision, a Variance to allow RTC (Regional Transportation Commission) rural off-site improvements where Title 19 off-site improvements are required, and five Variances to allow front yard setbacks that fail to meet Title 19 requirements. Staff found the Variance for off-site improvements will allow the subject site to match surrounding development and recommended approval. Aside from lacking Title 19 off-site improvements, the proposed Tentative Map otherwise meets all Title 19 and NRS (Nevada Revised Statutes) requirements, and staff recommended approval; however, staff found no evidence of a unique or extraordinary circumstance to support the requests for reduced front yard setbacks. Staff therefore recommended approval of Variance VAR1 and the Tentative Map TMP1 but denial of Variance VAR2 through VAR6. He also noted that additional letters of support and protest had been received since publication.

HAILEY SHINTIN, ACG Design, presented a petition seven property owners signed in support of the applications, a copy of which was submitted and attached as backup. She explained this is a five-lot single-family residential subdivision. Three lots will front off of Four Views Street, and the others will front off of Log Cabin Way. She said this is a very rural area, and they would like to keep it that way for the neighbors. There are a few sites in the area with similar setbacks that were approved, and she said the applicant was in agreement with all of staff's conditions.

ASHLEY FOSTER, Deputy City Clerk, read an e-comment received online, a copy of which was submitted and attached as backup.

MS. SHINTIN said this is the best layout for profitable reasons, and it is similar to other developments in the area.

CHAIR DE SALVIO visited the site and did not think it is overbuilt. He asked why the setback variance was requested, and MS. SHINTIN said a few lots will have casitas in the backyard, and they needed the additional space. MR. BOYLES confirmed the setback measurement would be taken from the front of the dwelling to the front property line.

COMMISSIONER ROGAN said he was not opposed to a front yard setback variance, but the applicant did not give a clear reason as to why. Without seeing a plan, he could not support the project.

43. 20-0247 - PUBLIC HEARING - APPLICANT: KAVISON HOMES, LLC - OWNER: REXFORD DRIVE, LLC - For possible action on the following Land Use Entitlement project requests on 2.57 acres on the east side of South 8th Street between Franklin Avenue and Sweeney Avenue (APN 162-03-604-004), R-1 (Single Family Residential) Zone, Ward 3 (Diaz). Staff recommends DENIAL on the Land Use Entitlement project.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 43-43j.

JONATHAN BOYLES, Senior Planner, explained the proposal includes a 9-lot residential subdivision with Variances to allow lot widths that fail to meet minimum Title 19 standards and proposed primary and secondary structures that fail to meet minimum setback requirements. Staff found no evidence of unique or extraordinary circumstances to support the requests and that the applicant is proposing to overdevelop the subject site and therefore recommended denial of all applications. He noted there have been additional letters of support and protest received since publication.

ATTORNEY BOB GRONAUER explained this property is located east of the John S. Park School, and it is currently zoned R-1 (Single Family Residential). Although the application has a lot of variances, the applicant is only trying to make this project fit in the neighborhood. MR. GRONAUER held a neighborhood meeting and explained the options for the project. As a result, they felt the path that included requesting a number of variances was the best thing for the project due to the uniqueness of the property. He pointed out that there are nine lots with shallow widths and long depths. The smallest lot size is up to 8,000 square feet. There is an alleyway off of Franklin Avenue for ingress and egress, and the zero lot line request gives the ability to use unique floorplan designs. MR. GRONAUER said garages are located on the back portion of the property, and there is 25 feet of landscaping along the perimeter. He displayed a five-lot rendering sample that was used at the neighborhood meeting and noted that the lots have a mid-century look which is similar to what already exists in the area. He said properties do not often go on sale in this area, and the applicant felt this would be a great asset to the community. In closing, MR. GRONAUER said purchase prices for the lots will start at \$585,000.

ELIZABETH KEMMER, resident of the John S. Park Neighborhood, was opposed to the development because it does not fit with the aesthetic of the neighborhood. The existing houses in the neighborhood are spaced apart, and she pointed out that the pine trees on the property are dying.

ERIC CRAWL opposed the project because the mature trees on the property are in poor condition, and the design of the lots are not in line with the rest of the neighborhood. He noted that new modern homes were built in the area a few years ago and they look out of place.

JOHN PIERRE LE BOURVEAU said there should only be four homes on this lot. He added that many of the homes in the area were built in the 1940's and are not mid-century modern, they have only been altered to look that way.

NICHOLAS HAILEY opposed the project, as the density and shapes of the lot are inappropriate. The elevations do not look mid-century modern, and he felt stylistic changes could be made to better fit the neighborhood. He wished to continue working with the developers to find a project that would work for the area.

ASHLEY FOSTER, Deputy City Clerk, read e-comments received online, copies of which were submitted and attached as backup.

Speaking to the landscaping concerns, MR. GRONAUER said the water was turned on about a month ago. He added that the property owner spoke to three neighbors that live across the street from the proposed development, and they were all in support. He said this lot has been vacant for too long, and they believe this is the right project for the area.

COMMISSIONER SCHLOTTMAN said he received phone calls and e-mails from residents who are both in support and opposition to the project. He felt a lot of community outreach was performed, and he has heard a lot of good things about the builder. The Commissioner was not opposed to the project but wanted to make sure the density was right and the neighbors' voices are heard. He asked if the applicant could hold one more neighborhood meeting, and MR. GRONAUER said he would hold another meeting if this was final action but would like to proceed with the application if it is going to the City Council. COMMISSIONER SCHLOTTMAN recommended a Zoom meeting and agreed to final action if the applicant would agree to another neighborhood meeting. MR. GRONAUER weighed the options and feared an appeal would be filed, but out of respect to COMMISSIONER SCHLOTTMAN, the applicant was willing to hold the items in abeyance.

ROBERT SUMMERFIELD, Planning Director, confirmed the Commissioner's request includes an informal neighborhood meeting, and MR. GRONAUER said they do not intend to leave anybody out, and welcomed the Commissioner's attendance at the meeting.

46. 20-0243-VAR1 - VARIANCE- PUBLIC HEARING - APPLICANT/OWNER: MAUREEN E. AND GEOFFREY SANDT - For possible action on a Land Use Entitlement project request for a Variance TO ALLOW AN EXISTING ACCESSORY STRUCTURE CLASS II [CASITA] THAT IS TALLER THAN THE PRINCIPAL DWELLING WHERE SUCH IS NOT ALLOWED on 0.23 acres at 6300 Vista Verde North (APN 163-02-710-013), R-PD5 (Residential Planned Development - 5 Units per Acre) Zone, Ward 1 (Knudsen). Staff recommends DENIAL.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open.

JONATHAN BOYLES, Senior Planner, explained the requested Variance would allow an accessory structure that exceeds the height of the primary structure. While the existing accessory structure was permitted in November 1977, it appears a second story was added some time after December 1987 without permits, causing the accessory structure to exceed code requirements. Staff found no evidence of a unique or extraordinary circumstance to support the request and therefore recommended denial. He noted that additional letters of support and protest were received since publication.

LESLIE NORTH appeared representing the application and said the property owners purchased the property in 2018 in its existing condition. They have not made any changes since the purchase date, and are now requesting the variance so they may go back and obtain all necessary permits for the accessory structure.

COMMISSIONER ROGAN spoke with MS. NORTH and acknowledged the construction took place 30 years ago.

He was in favor of the request, as it is only a difference of about 18 inches, and it cannot be seen from the front of the property.

CHAIR DE SALVIO declared the Public Hearing closed.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open for Items 47-47h.

JONATHAN BOYLES, Senior Planner, explained the proposal is for a commercial shopping center and commercial subdivision map that meets all Title 19, NRS (Nevada Revised Statutes), and Grand Canyon Village Master Development Plan and Design Standards, and staff recommended approval of the project. He noted that the Public Works Department indicated that Condition 16 associated with Site Development Plan Review 20-0257-SDR1 shall be deleted as revised plans have been received which address this condition. He additionally noted that there have been additional letters of support and protest received since publication.

49. 20-0272-SUP1 - SPECIAL USE PERMIT - PUBLIC HEARING - APPLICANT: LABO FUNERAL HOME/CHAPEL - OWNER: JLC NUCLEUS, LLC - For possible action on a Land Use Entitlement project request for a Special Use Permit FOR A MORTUARY OR FUNERAL CHAPEL USE on 6.14 acres at 940 West Owens Avenue (APN 139-21-806-002), C-1 (Limited Commercial) Zone, Ward 5 (Crear). Staff recommends APPROVAL.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open.

JONATHAN BOYLES, Senior Planner, explained staff found that the proposed Mortuary or Funeral Chapel use meets Title 19 requirements and can be conducted in a manner that is harmonious and compatible with the existing land uses within the shopping center and the surrounding area and therefore recommended approval. He noted that additional letters of support had been received since publication.

DEAN LeBEAU explained the mortuary is on the Westside, which he felt would be a benefit to the community because it will provide employment along with convenience.

BEATRICE TURNER said this project sits behind a residential area, and she could not support the project in this particular location because vagrancy and vandalism would be an issue within the development.

SHAYLA ALLEY voiced her support for the project because it would bring much needed employment. The area is already drug infested, and she did not feel this project would add to it.

APRIL KIPER has been a resident of Westside Las Vegas all her life, and she said development is desperately needed. She has been in her home for 15 years, and has never experienced any break-ins. She wanted to make the area a livable division that everyone is proud to live in.

See Item 51 for related discussion.

50. 20-0274-ROC1 - REVIEW OF CONDITION - PUBLIC HEARING - APPLICANT/OWNER: JAMES VANAS - For possible action on a Land Use Entitlement request for a Review of Condition TO REMOVE CONDITION #1 FROM APPROVED SPECIAL USE PERMIT (SUP-77094) WHICH STATES, "ALL NECESSARY BUILDING PERMITS SHALL BE OBTAINED IN CONFORMANCE WITH TITLE 19 AND FINAL INSPECTIONS APPROVED WITHIN 120 DAYS FROM THE DATE OF FINAL APPROVAL" at 1301 South 6th Street (APN 162-03-610-003), R-1 (Single Family Residential) Zone, Ward 3 (Diaz). Staff recommends DENIAL.

Minutes:

CHAIR DE SALVIO declared the Public Hearing open.

JONATHAN BOYLES, Senior Planner, explained staff found that the proposed removal of Condition 1 is not

appropriate as the applicant agreed to the conditions of approval at the September 10th, 2019 Planning Commission Meeting. Furthermore, the condition was added to ensure the existing structure was properly permitted by the Department of Building and Safety so it can remain on the subject site; therefore, staff recommended denial of this request. He noted that additional letters of support and protest had been received since publication.

Applicant PAM VANAS said progress has been slow, but it has still moved forward. She displayed a timeline of their project, and as of October, they were fully in line with the required building permit. She said the Department of Building and Safety is waiting to do their final inspection, but they cannot because of this 120-day condition.

ASHLEY FOSTER, Deputy City Clerk, read e-comments received online, copies of which were submitted and attached as backup.

MS. VANAS said the 120-day notice was received in September of 2019, and they submitted plans to the City in December of 2019. A final inspection was scheduled for February, but it could not be completed until the casita permit was pulled.

COMMISSIONER SCHLOTTMAN confirmed with ROBERT SUMMERFIELD, Planning Director, that a permit was submitted, but it exceeded the 120-day limit. The permit cannot be issued until the Planning Department signs off, which cannot be done unless this condition is removed. COMMISSIONER SCHLOTTMAN asked what would happen if this condition was deleted and then the applicant did not follow through with the permits, and MR. SUMMERFIELD said this can be approved to remove the condition, and a new condition could be placed on the application that requires the permit within a specific amount of time. COMMISSIONER SCHLOTTMAN confirmed with MR. SUMMERFIELD that as soon as the appeal period is over, the Planning Department can sign off, and then MS. VANAS can schedule the final inspection.

CHAIR DE SALVIO declared the Public Hearing closed.

Motion made by Trinity Haven Schlottman to Approve subject to condition(s) and adding the following condition as read for the record:

3. Required building permits must be finalized within 60 days

Citizens Participation:

51. Citizens Participation: Public comment during this portion of the agenda must be limited to matters within the jurisdiction of the Planning Commission. No subject may be acted upon by the Planning Commission unless that subject is on the agenda and is scheduled for action. If you wish to be heard, come to the podium and give your name for the record. The amount of discussion on any single subject, as well as the amount of time any single speaker is allowed, may be limited.

Minutes:

BEATRICE TURNER spoke to Item 49, and wondered if COMMISSIONER WILLIAMS visited the site, and said it will be difficult for the Commissioner and COUNCILMAN CREAR to be re-elected.

COMMISSIONER CHERRY wished everyone Happy Holidays.

The meeting was recessed at 8:05 p.m., reconvened at 8:12 p.m., and adjourned at 10:10 p.m.

Respectfully submitted:

Cheyenne LaRance, Deputy City Clerk

Ashley Foster, Deputy City Clerk
