About the American Community Survey

The American Community Survey provides reliable statistics that are used to make informed decisions about the future. These statistics are required by all levels of government to manage or evaluate a wide range of programs, but are also used in research, business, education, journalism, and advocacy. If you have questions about this survey, please call our Customer Service Center on 1-800-923-8282.

To request a free data workshop, training, or presentation from the Census Bureau, please contact the Data Dissemination Branch at census.askdata@census.gov or 1-844-ASK-DATA (1-844-275-3282).

Fun With Bingo Probabilities

2019_{rs}

We are never too old
to learn something new.

It is said that on average it will take 41 $\frac{1}{3}$ balls to get a single bingo per card. Life is in the averages. News is in the extremes.

The purpose of this booklet is to track you or your group's bingo balls to see for yourself where they fall in the probability distribution. If you would like to create a prize or an award for the earliest (or latest) in a session or other period of time, you now have a record.

Feel free to copy the booklet as needed. If you would like to register your booklet with the City of Las Vegas Senior Citizens' Advisory Board, send an email to John Perazzo, bcc_jperazzo@lasvegasnevada.gov with your name, facility, favorite social media and contact information.

Respectfully submitted,

John A Perazzo

Notes:

The theory of Bingo probability is based on the number of ways to win versus the number of ways to not yet win. As you know, the longer you play, the more likely you are to win. What are the odds?

Fortunately, there is a local fellow who helps compute these probabilities and I have used his website (The Wizard of Odds) for this booklet. (Thanks, Mike.)

To keep track of the number of balls it takes to call, "Bingo!" simply

record the information in the following tables. Suggestions for improvements are welcome at the above email address.

For example, if I were at a bingo session at a local senior center, this might be my entry:

<u>Time</u>	<u>Date</u>	<u>BingoTime</u>	<u>#/balls</u>	<u>Winner</u>
3 pm	9/4	3:17 pm	32	Mary B.

You are welcome to include any other notes you may like, such as the type of bingo or otherwise.
