Subject: Technical Drainage Study Update for SEC Jensen & Verde
Location: SEC of Verde Way and Jensen Street
APN: 125-31-403-004
Sec, Township, Range: S31, T19S, R60E
Flood Zone & Panel: Zone X, 2135F, dated November 16, 2011
Application Number: PW21-10872UP

Submittals	Date Received	Date Returned	Reviewer	Miscellaneous
Update	01/28/2021	02/17/2021	EC	
Addendum 1	03/04/2021	03/24/2021	EC	
Supplement	03/25/2021	03/29/2021	EC	Email clarifying stairwell

Concurrence Required: (Must be obtained prior to permit issuance)	Reason Concurrence is Required
Boulder City	Adjacent to or Impacts Jurisdiction
City of Mesquite	Adjacent to or Impacts Jurisdiction
City of Henderson	Adjacent to or Impacts Jurisdiction
X City of Las Vegas	Adjacent to or Impacts Jurisdiction
City of North Las Vegas	Adjacent to or Impacts Jurisdiction
Nevada Department of Transportation	Adjacent to or Impacts NDOT Facility
Union Pacific Rail Road	Adjacent to or Impacts a UPRR Facility
US Army Corps of Engineers	Impacts a USACE Facility
Clark County Regional Flood Control District	Regional Significance, Adjacent to or Impacts CCRFCD MPU Facility or in a SFHA

The referenced **Technical Drainage Study** has been reviewed and is accepted as complying with minimum improvement standards. As set forth in the subject drainage study, the following measures will be taken to mitigate flood hazards.

This update is to address the new onsite proposed development. The previously approved Technical Drainage Studies are: PW07-47934.

The site shall be graded with respect to drainage as shown on **“SEC Jensen and Verde”** grading plan sheet C-1, N-1, GP-1, DT-1, DT-2, PP-1, PP-2, PP-3, and PP-4, signed and sealed by Ray F. Fredericksen, P.E. on March 1, 2021.

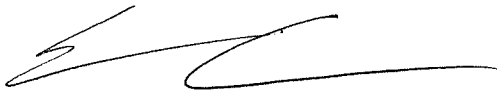

Check appropriate conditions

X	Retaining/screen wall combination may be in excess of current Clark County Unified Development Code, Chapter 30.64.050.
	A FEMA Elevation Certificate, completed by a licensed surveyor, must be submitted to and approved by CCPW Development Review Plan Check prior to the issuance of Certificates of Occupancy for those structures.
X	Mylars of the grading plan must be submitted to the CCPW Development Review Plan Check for approval signatures prior to map recordation (residential) or permit issuance (commercial).
X	An administrative variance to allow the finished floor elevation(s) to be set below the current Clark County criteria must be approved. The finished floor variance must be submitted to CCPW Development Review front counter after drainage study approval and prior to offsite final review.
	The grading plan will be reviewed by the Building Office Operations Division to ensure compliance with the ADA access requirements. Revisions to the grading plan may be required if the site accessibility design does not comply with the requirements set forth in the Accessibility Chapter of the Clark County Building Code.
	The plans show work is proposed on another property. Notarized written permission must be obtained prior to plan approval. A grading permit must be obtained from Building Dept prior to grading.
X	Right-of-way dedication must be verified.
	Any previously approved drainage easements that are not being used must be vacated.
	Per <i>Regional Flood Control District policies and Procedures manual, Section VIII. D. 13. Uniform Regulations for the Control of Drainage</i> , the Engineer of Record shall provide As-Built plans or record drawings to the District after completion and final inspection of such privately installed flood control facilities that have regional flood control significance.
X	Structural calculations are required. The structural calculations, plans, and details must be approved prior to “Offsite” submittal and prior to CCRFCD submittal, if applicable.
X	Plan revisions can be found on the red-lined plans and must be addressed.
X	Prepare drainage easement documents as shown on the grading plans.

Additional Conditions:

1. Drainage study approved under the condition that Comprehensive Planning approves the design review for the additional fill required to flood protect proposed structures. If design review is denied a drainage study update will be required.
2. Structural calculations required for the retaining wall with the 24 inch HDPE wall penetration.
3. Any improvements not depicted on the above mentioned grading plans may require an Update to this Technical Drainage Study.

The County's review is solely based on the information submitted by the Engineer of Record. The County's review is strictly limited to compliance with minimum County Codes and Standards. The Engineer of Record is responsible for researching and addressing situations that may require designs above and beyond the minimum codes for issues of public safety and impacts to upstream, downstream and adjacent properties. The County assumes no liability for information, data, designs or conclusions of the Engineer of Record.
