Hi Brian,

There is a \$100 fee for drainage study updates.

Thanks,

**Stanley Fong, P.E.**

That is what I wanted to know...if a letter would suffice as those grades were increased on average about 0.2'. They went up in elevation and none of the flows or drainage patterns changed. Will we still need to pay a fee with a letter? If so, what is the amount so we can let our client know. Thanks Stan!

Hi Brian,

A drainage study update is required since the grading plans no longer match the plans from the approved drainage study.

If the changes are minor, you can submit a letter of explanation along with the grading plans.

Thanks,

**Stanley Fong, P.E.**
