RESULTS OF CANVASS OF THE 2026 PRIMARY ELECTION IN THE CITY OF LAS VEGAS JUNE 9, 2026

The results of June 9, 2026, Primary Election were canvassed comparing the computer printout of ballots counted and the results thereof, with the official ballot statement for each of the 236 precincts utilized in this election.

There were fifteen (15) discrepancies in the 76,856 ballots cast in the 236 precincts. Three (3) voters fled the voting machine prior to casting their ballot, ten (10) voters voted in the wrong precinct, and two (2) reactivation errors. However, there were no tabulation errors in the 236 precincts in the Primary Election.

One hundred twenty-eight (128) provisional ballots were cast during the election, one hundred nineteen (119) were verified and counted, nine (9) were not accepted.

Audits were performed according to NRS 293B on the hash code of our tabulator machines and the voter verified paper audit trail. No discrepancies were identified. The accuracy certification board also certified the functionality of our tabulation system, including our mail readers, ballot marking devices, and Agilis mail ballot processing machine. All systems were found to be 100% accurate in the tabulation of votes and processing of mail ballots. The tests were performed before the start of early voting, the day before Election Day, and a post-election test the day after the election.

There were no tabulation errors in the 236 precincts. Therefore, as the duly appointed Registrar of Voters of Clark County, Nevada, I do hereby certify to the Clark County Board of Commissioners that the results of the canvass of this election are deemed certifiable.

Official Ballot Statement Justification

Empty City Name Explanation:

1. Precinct 6728 is missing the municipality of County. This needs to be corrected. Fortunately, because the municipality should be County, this did not affect the ballot.
2. Precinct 2938 is not set up correctly. In the past, we used precincts with a 9 as the second digit to indicate a precinct that could not have voters. However, we have been instructed by the state to ensure that all precincts have districts assigned. This precinct needs to be corrected. Fortunately, this precinct currently has no voters.
3. Precinct 9995 is a challenge precinct, used when a voter has been challenged regarding residency. I believe this precinct should also have the municipality of County. I also believe this ballot should contain only contests that can be voted at large.

The reports are split by municipal district, which is why these precincts appear at the top of the report for "All" and also in their own file when split by municipal district.

Absolute Difference Justification:

1. The voter returned a ballot that no longer matched their updated registration because their address was automatically changed through Automatic Voter Registration (AVR) after the initial mail ballot was issued. The DMV-initiated update triggered an automatic revision in the voter registration system, canceling the original ballot and requiring a new one to be issued, which led to the discrepancy.
2. Because the State permitted ongoing online voter registration updates and directed counties to continue processing them, many voters' party affiliations or addresses changed after the initial mail ballot was issued. This required counties to reissue updated ballots; however, some voters returned the new ballot in the original envelope or the original ballot in the new envelope, resulting in discrepancies.

Confidential Address Program Voters:

1. 18 CAP voters account for the discrepancies highlighted in dark green.
2. Two (2) Closed Records account for the discrepancies highlighted in light green.

Rejects for this Election:

1. Empty Envelope (RE): 26
2. Two Ballots in one envelope (RT): 11
3. Identified Ballot (RI): 25

Total Discrepancies:

10 wrong precincts
