12. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.
13. All City Code requirements and design standards of all City departments must be satisfied.
14. All development shall be in conformance with the site plan and building elevations, except as amended by conditions herein.

Public Works

15. Construct all incomplete half-street improvements (sidewalk) on Cathedral Rock Drive adjacent to this site concurrent with development of this site. Install all appurtenant underground facilities, if any, adjacent to this site needed for the future traffic signal system at Rock Springs Drive and Smoke Ranch Road concurrent with development of this site.
16. Remove all substandard public street improvements, if any, adjacent to this site and replace with new improvements meeting current City Standards concurrent with on-site development activities.
17. Sewer service for this site shall be shown in accordance with one of the following three alternatives:
 - I. On-site sewers, 8-inches in diameter or larger, are public sewers within 20 foot wide dedicated public sewer easements.
 - II. On-site sewers are a common element privately owned and maintained per the Conditions, Covenants, and Restrictions (CC&Rs) of this site.
 - III. On-site sewers are a common element privately owned and maintained per the Joint Use Agreement of this commercial subdivision.
18. Meet with the Traffic Engineering Representative in Land Development for assistance in the possible redesign of the proposed driveway access including the possible relocation of the proposed western most driveway out to Smoke Ranch Road, on site circulation and parking lot layout prior to the submittal of any construction plans or the issuance of any permits, whichever may occur first. Driveways shall be designed, located and constructed in accordance with Standard Drawing #222a.
19. An update to the previously approved Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any grading or building permits, or the submittal of any construction drawings. Provide and improve all drainageways as recommended in the approved drainage plan/study.
