RE: Z-0105-97(4) - SITE DEVELOPMENT PLAN REVIEW
CITY COUNCIL MEETING OF SEPTEMBER 20, 2000
Related to V-0053-00 and V-0054-00

Dear Mr. Rana:

The City Council at a regular meeting held September 20, 2000 APPROVED the request for a Site Development Plan Review FOR A PROPOSED 10-THEATER MOVIE COMPLEX, RETAIL SHOPS, PROFESSIONAL OFFICE SUITES AND A 4-LEVEL PARKING STRUCTURE on the northeast corner of Washington Avenue and Lamb Boulevard (APN: 140-29-212-004), R-E (Residence Estates) Zone under Resolution of Intent to C-1 (Limited Commercial). The Notice of Final Action was filed with the Las Vegas City Clerk on September 21, 2000. This approval is subject to:

Planning and Development

1. No adult uses shall be permitted on this site.
2. Pad "A" shall be deleted and the area developed as parking.
3. Revised elevations that indicate that the north side of the building shall have an exterior treatment that is compatible with the remainder of the structure shall be submitted to the Planning and Development Department.
4. All trees shall be at least 24-inch box in size.
5. A Site Development Review for the pads must be approved by the Planning Commission prior to any construction on those pads.
6. The City Council must approve Variances V-0053-00 and V-0054-00. If those Variances are not approved, this approval shall be null and void.
7. Site development to comply with all applicable conditions of approval for Z-105-97, the Azra Commercial Subdivision, and all other site-related actions as required by the Planning and Development Department and the Department of Public Works.

Public Works

8. Meet with the Traffic Engineer for assistance in the possible redesign of the proposed driveway access, on site circulation and parking lot layout prior to the submittal of any construction plans or the issuance of any permits, whichever may occur first. Driveways shall be designed, located and constructed in accordance with Standard Drawing #222a.
9. An update to the previously approved Traffic Impact Analysis must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits for this site. The Traffic Impact Analysis update shall address possible median modifications needed on Washington Avenue to facilitate left turns into this site. Comply with the recommendations of the approved Traffic Impact Analysis prior to occupancy of the site. Phased compliance will be allowed if recommended by the approved Traffic Impact Analysis. No recommendation of the approved Traffic Impact Analysis, nor compliance therewith, shall be deemed to modify or eliminate any condition of approval imposed by the Planning Commission or the City Council on the development of this site.
10. An addendum to the previously approved Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any grading or building permits for this site. Provide and improve all drainageways as recommended in the approved drainage plan/study.
11. This proposed site must always allow for the perpetual common access between the various parcels/owners within the Azra Center commercial subdivision area.

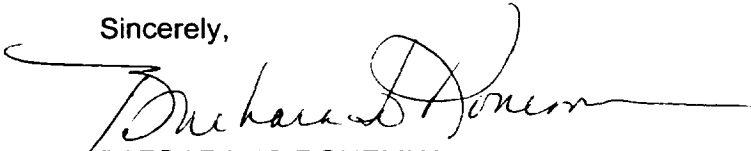

Standard Conditions

12. All development shall be in conformance with the Site Development plan and building elevations as amended by the above conditions.
13. Landscaping and a permanent underground sprinkler system shall be provided as required by the Planning Commission and shall be permanently maintained in a satisfactory manner. For non-residential developments, failure to properly maintain required landscaping and underground sprinkler systems shall be cause for revocation of a business license.
14. A landscaping plan must be submitted prior to or at the same time application is made for a building permit or license, or prior to occupancy, whichever occurs first.
15. All mechanical equipment, air conditioners and trash areas shall be screened from view from the abutting streets (excluding single family development).
16. All City Code requirements and design standards of all City departments must be satisfied.

Mr. Salim Rana
Z-0105-97(4) – Page 3
October 9, 2000

17. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.
18. Where new water mains are extended along streets and fire hydrants are not needed for protection of structures, hydrants shall be spaced at a maximum distance of 1,000 feet.
19. Fence heights shall be measured from the side of the fence with the least vertical exposure above the finished grade.
20. Provide plans showing accessible exterior routes from public transportation stops, accessible parking, passenger loading zones and public sidewalks to the accessible building entrance(s) with submittal of plans for building permits as required by the Department of Building and Safety. Accessible routes shall have running slopes and cross slopes in accordance with the applicable code.

Sincerely,

BARBARA JO RONEMUS
City Clerk
