RE: Z-124-96 - ZONING RECLASSIFICATION RELATED TO GPA-55-96

Dear Mr. Dickstein:

The City Council at a regular meeting held January 22, 1997 APPROVED the request for a Rezoning on property located on the north side of Charleston Boulevard, approximately 150 feet west of Cimarron Road, from N-U (Non-Urban) to P-R (Professional Offices and Parking) and C-1 (Limited Commercial), proposed use: 25,000 Square Foot One-Story Office Complex, :

1. Approval of a General Plan Amendment to make the zoning consistent with the plan for the north portion of the property.
2. Provide a minimum 10 foot wide landscape planter inside the wall along the north property line and install 36 inch box trees a minimum of 20 feet on center as required by the Planning and Development Department. The use of drought tolerant landscaping is encouraged.
3. Provide a minimum 10 foot wide landscape planter along Charleston Boulevard and install 24 inch box trees 40 feet on center with shrubs and ground cover as required by the Planning and Development Department. The use of drought tolerant landscaping is encouraged.
4. All buildings within the P-R portion of the property shall be limited to a height of one story.
5. All lighting shall be directed so that light falls only on the subject site.
6. Meet with the Traffic Engineer for assistance in the possible redesign of the proposed driveway access, on site circulation and parking lot layout prior to the submittal of any construction plans or the issuance of any permits, whichever may occur first. Driveways shall be designed, located and constructed in accordance with Standard Drawing #222a as required by the Department of Public Works.

Page 2.

7. A Traffic Impact Analysis must be submitted to and approved by the Department of Public Works prior to the issuance of grading, building or off-site permits. Comply with the recommendations of the approved Traffic Impact Analysis prior to occupancy of the site. The Traffic Impact Analysis shall determine traffic signal contribution requirements and shall also include a section addressing Standard Drawings #201.1, #234.1 and #234.2 to determine additional right-of-way requirements adjacent to this site, if any; dedicate all areas recommended by the approved Traffic Impact Analysis. The Traffic Impact Analysis shall also address the possible need for median islands in Charleston Boulevard adjacent to this site. Phased compliance will be allowed if recommended by the approved Traffic Impact Analysis. No recommendation of the approved Traffic Impact Analysis, nor compliance therewith, shall be deemed to modify or eliminate any condition of approval imposed by the Planning Commission or the City Council on the development of this site.
8. Conformance to the plot plan as amended by the above conditions.
9. Resolution of Intent with a twelve month time limit.
10. Landscaping and a permanent underground sprinkler system shall be provided as required by the Planning Commission and shall be permanently maintained in a satisfactory manner. Failure to properly maintain required landscaping and underground sprinkler systems shall be cause for revocation of a business license.
11. A landscaping plan must be submitted prior to or at the same time application is made for a building permit or license, or prior to occupancy, whichever occurs first.
12. All mechanical equipment, air conditioners and trash areas shall be screened from view from the abutting streets (excluding single family development).
13. All City Code requirements and design standards of all City departments must be satisfied.
14. Parking and driveway plans must be approved by the Traffic Engineer prior to the issuance of any permits.
15. All damage to the existing street improvements resulting from this development must be repaired as required by the Department of Public Works.
16. Remove all substandard public street improvements and all unused driveway cuts adjacent to this site, if any, and replace with new improvements meeting current City standards prior to occupancy of this site as required by the Department of Public Works.
17. A Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of a building or grading permit, whichever occurs first.
18. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.

19. Where new water mains are extended along streets and fire hydrants are not needed for protection of structures, hydrants shall be spaced at a maximum distance of 1,000 feet to provide for transportation hazards.
20. Fence heights shall be measured from the side of the fence with the least vertical exposure above the finished grade, unless otherwise stipulated.
21. Provide plans showing accessible exterior routes from public transportation stops, accessible parking, passenger loading zones and public sidewalks to the accessible building entrance(s) prior to the issuance of building permits as required by the Planning and Development Department. Accessible routes shall have running slopes and cross slopes in accordance with the applicable code.

A Rezoning under a Resolution of Intent expires if it is not exercised prior to the expiration of the Resolution of Intent unless a request for an Extension of Time is duly filed with the Planning and Development Department for consideration and approval by the City Council.

Sincerely,

BARBARA JO RONEMUS
City Clerk
