827590 CURRENT PL Status: Denied March 13, 2017

If you have any questions regarding the following Planning comments please call 229-6301

1. FMP does not refer to the previous NDOT parcel that runs parallel to I-15 as was discussed in the preapplication meeting. This previous NDOT parcel was intended to be divided and combined with lots 1-6. Please submit a revised blueline submittal that references this parcel and lots 1-6. Lots 7-11 may be shown on the plan as "ghosted", as was done with APN 162-08-604-001. Lots 12-15 do not need to be illustrated on the plan. The revised blueline submittal should be in the form of 16 folded full-size sets of plans.

2. Please include a "statement of purpose" on Sheet 1.

3. Please include FMP#69334 on the bottom right corner of Sheet 1.

827592 SURVEY Status: Denied March 13, 2017

If you have any questions regarding the following Survey comments please call 229-6217

During the pre-application meeting for this final map, the discussion centered around the Owner's desire to increase the size of existing Lots 1 thru 6b to include the previous NDOT land abutting Interstate 15. CLV staff identified that an Amended Final map would be the appropriate instrument to accomplish this task. The Amended Final map submitted to CLV is configured identical to the original plat (Book 20, Page 64 of Plats) and Certificate of Land Division (LD 25-79) and therefor does not address nor accomplish the stated desired lot size increases.

The boundary of this Amended final map shall be revised to only include APN 162-08-611-001 (Lot 1) thru 162-08-611-007 (Lot 6b) together with APN 162-08-604-002 (former NDOT land). The side lot lines should extend to the existing Easterly right-of-way limits of Interstate 15. The remaining Lots of the original Plat (Bk. 20, Pg. 64) shall be removed and referenced only as an abutter. Tie the Amended map boundary to Highland Drive.

Provide a legal description for the Amendment area and add a "Purpose of Amendment Statement" on the cover sheet.

Provide an amended square footage area for each affected lot.

Note: CLV Survey withholds to perform a full technical review of this final map application until the above described revisions are made and re-submitted to this Office.

End of Comments.
