RE: Cell Facility for AT&T (APN 138-12-813-001) located 4920 West Cheyenne Avenue; SDR-41476

Dear Mr. Munson:

It has been determined that the replacement of three (3) existing antennas with three (3) new LTE panel antennas (one per sector) and six (6) Radio Remote Heads (2 per sector) mounted to a parapet wall on the rooftop of an existing building located at 4920 West Cheyenne Avenue meets the standard for approval as defined in Title 19.04.040 and 19.20.020 of the Zoning Code of the city of Las Vegas, subject to the following.

1. Conformance to the submitted site plan and elevations date-stamped April 19, 2011.
2. This approval shall be void one year from the date of final approval, unless a building permit has been issued for the proposed installation. An Extension of Time may be filed for consideration by the City of Las Vegas.
3. Any equipment located on the outside of the shelter and or building shall be painted to match the color of the exterior wall.
4. The wireless communications facility and its associated equipment and screening shall be properly maintained and kept free of graffiti at all times by the monopole owner. Failure to perform the required maintenance may result in fines and/or removal of the facility and its associated equipment. If abandoned, the property owner must obtain a demolition permit to remove the equipment within thirty (30) days of abandonment. All equipment must then be removed within six (6) months after operations at the site cease.

A Special Use Permit application will not be required prior to submittal of building permits. A copy of this letter must be included in the permit package.

If you have any questions, please contact me at (702) 229-6895.

Sincerely,

Debbie Sullivan, Planner I
Case and Public Planning
