**RE: Cell Facility for New Cingular Wireless PCS (APN 162-02-110-017)
located at 1208 East Charleston Boulevard: SDR-42361**

Dear Ms. Cefalu:

Planning and Development Department staff has reviewed the proposed plans to install three (3) new LTE panel antennas (one per sector), six (6) new Radio Remote Heads (two per sector), and one (1) surge suppressor unit at the 44'-9" centerline of an existing 50-foot tall Wireless Communication Facility, Non-Stealth Design (Monopole); in addition to installing one (1) GPS antenna near the base of the facility at 1208 East Charleston Boulevard. The determination has been made that this request cannot be approved administratively.

A Special Use Permit application will be required prior to submittal of building permits. A copy of this letter must be included in the application package.

If you decide to pursue the Special Use Permit, please contact me at (702) 229-6895 and I will be glad to assist in preparing your submittal checklist for the application.

Sincerely,

Debbie Sullivan, Planner I
Case and Public Planning
